Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

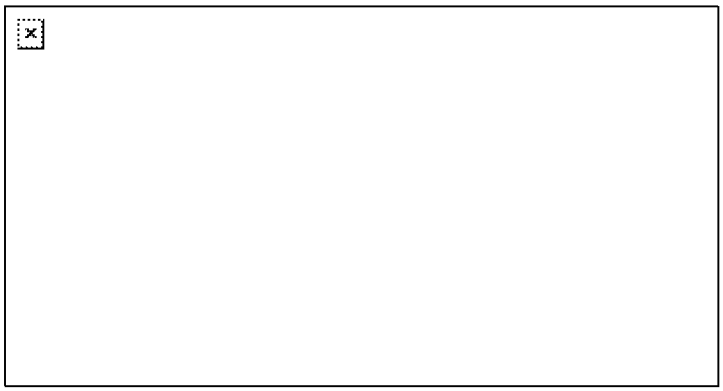
Governor Snyder on Morning Joe

"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit

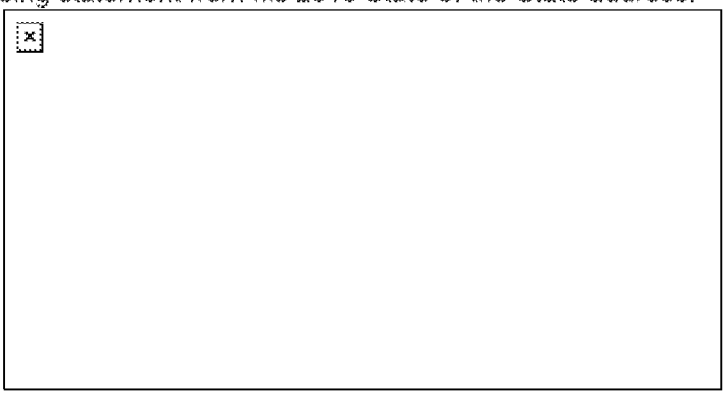
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.

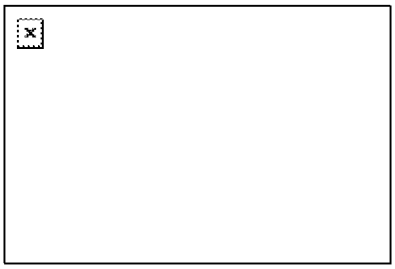


Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

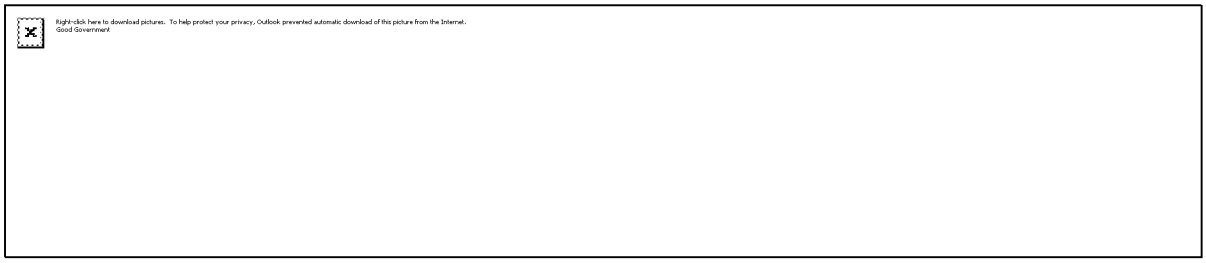
Subject: Flint Volunteer Efforts



Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

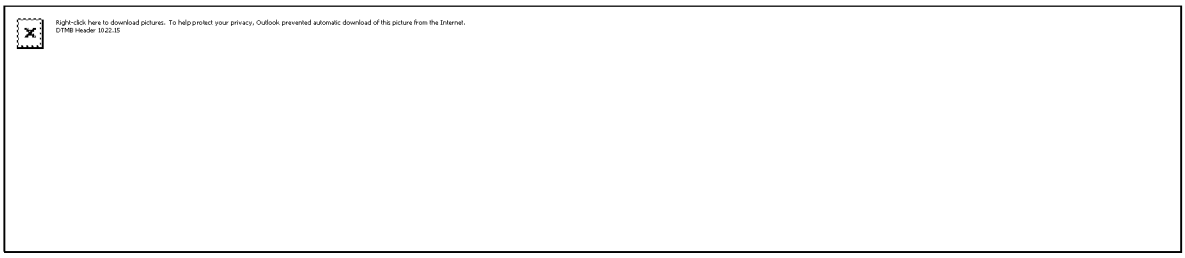
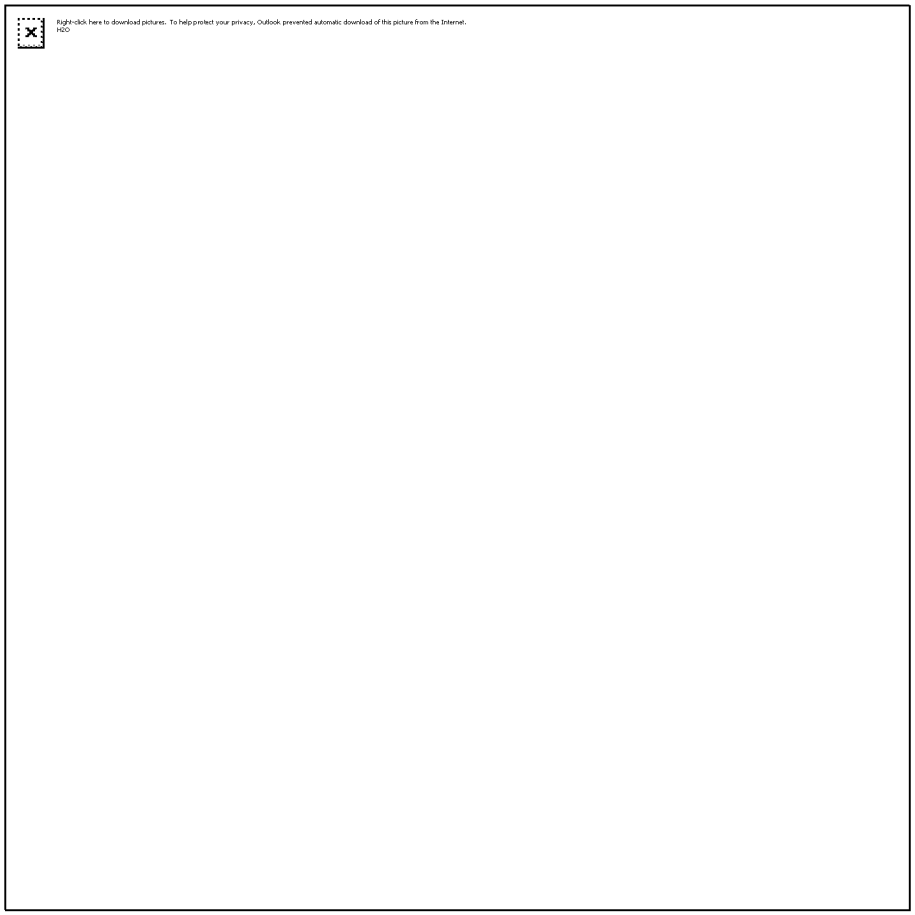
To: Guthrie, Eric (DTMB)
Subject: Contributing time, muscle and money



During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.



Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

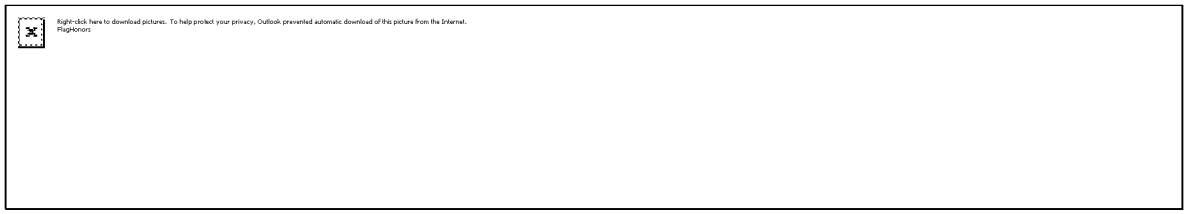
Subject: Thank you for your service



THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

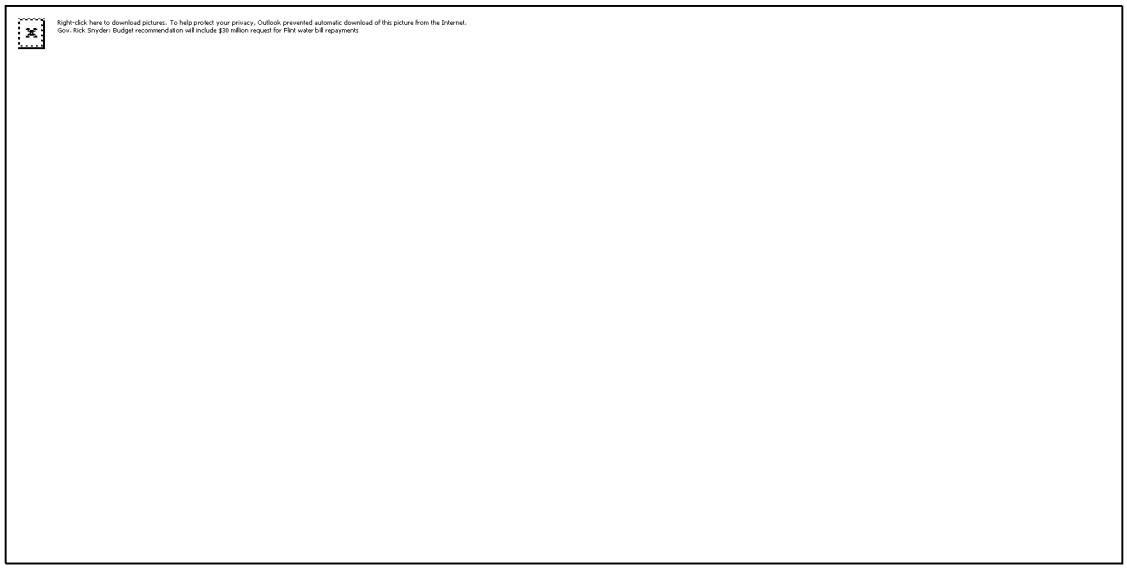
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments



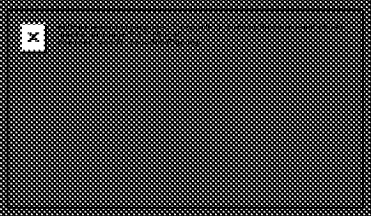
When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion

of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.



We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at www.mi.gov/flintwater. **Click here to watch the video.**

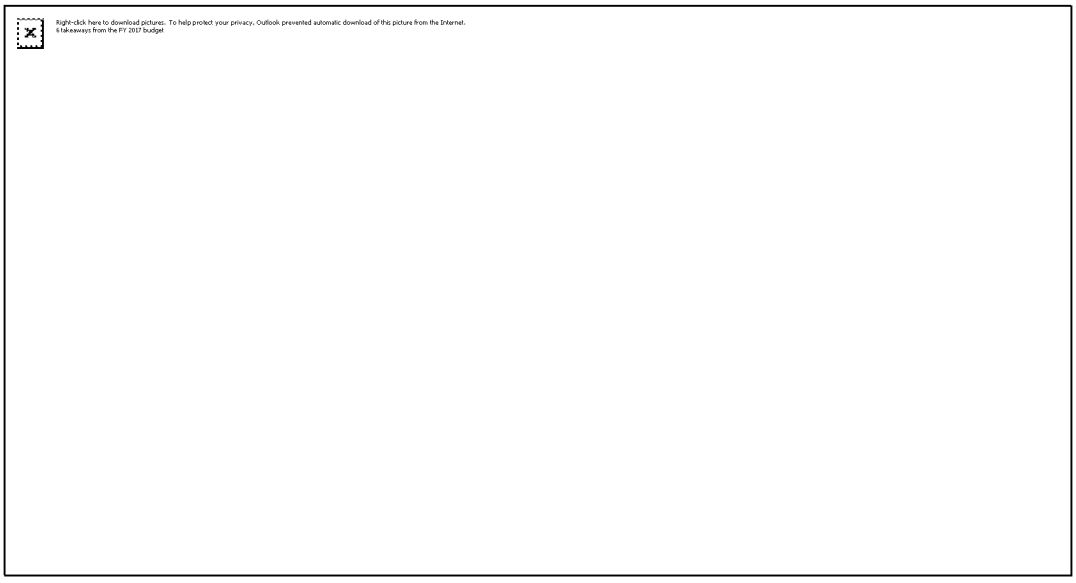
VIDEO: What Governor Snyder's FY17 budget means for Michigan



Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of Michigan's families. Click here to learn more about the top 6 takeaways from the

Governor's FY 2017 state budget.

Group,

Since Flint is one of Michigan's Metropolitan Statistical Areas (MSAs) it is possible that I would use the word "Flint, Utilities, and any other industry name in communications, searches, etc. related to the Current Employment Statistics (CES) program. Obviously, this use would be directly related to our contractual obligation to administer the CES program. The other terms in this email are very unlikely to be used.

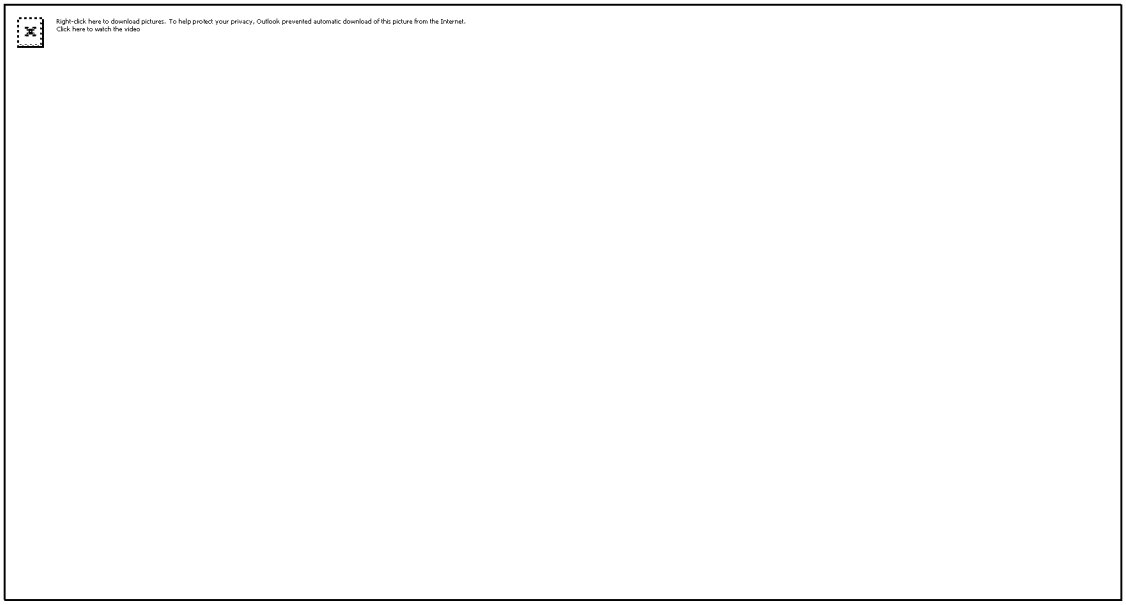
VIDEO: How volunteers are helping Flint



Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

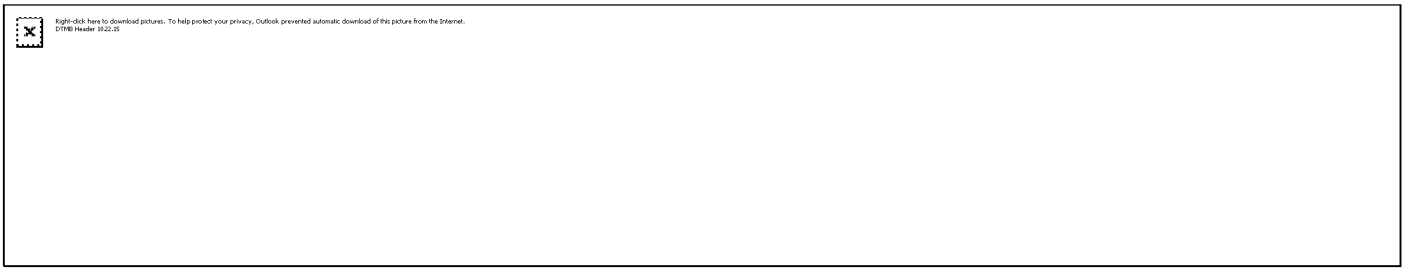
Sent: Wednesday, February 17, 2016 10:10 AM
To: Guthrie, Eric (DTMB)
Subject: The Gov. Snyder's Budget Proposal



Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Team:

This has been a busy week. It seems like I spent a lot of time in meetings this week. I also got to wrap-up my annual performance reviews with my leadership team. It never gets old talking about accomplishments, and I want to publically recognize and thank **B. Weaver**, **M. Williams**, **W. Rourke**, and **S. Powell** for being - hands down - the best leadership team we could ask for. They really do keep this place going!

Very shortly, most of you will be sitting down and talking about your performance last year and learning about your objectives for next year. After you do, please stop by and tell me how it went!

You all should have received an invitation from **B. Taylor** for our January 25 action planning session. Please take a minute to accept the invitation so it is on your calendar. I hate to use words like "mandatory," but please think of this meeting as such. I am really looking forward to talking to you about our strategic objectives and hearing what ideas the team has for how we can accomplish them.

Lots of news to share this week:

- Something we are going to be talking a lot about is cross-training. And, **V. Walker** may have beat us to the punch. I understand she spent some time this week working on the Quarterly Census of Employment and Wages (QCEW) program. This is a game changer for two reasons. Frist, when we find ourselves short-staffed (think vacations, etc.) in any program area, having people trained an ready to step in will ensure we continue to meet and exceed our deliverables. Second, as we implement project-based budgeting, those who have the most diverse skill sets will have the most opportunity to adapt as federal dollars continue to slip. We have to stop thinking about ourselves as working in one section and start thinking of ourselves for working for one bureau. Thanks, Valerie, for your leadership in this area!
- Our bureau is the latest in the Department to begin the Operational Excellence program. We've assembled a great team for the program, including **Y. Castro**, **L. Bunge**, **B. Weaver**, and **S. Powell**. Over the next few months, the team is going to work with consultant Pat McDonnell on a methodology for implementation. After the

group completes the program, they are going to be showing the rest of us what they learned. Like I said at our bureau meeting, everybody is going to be touched by Operational Excellence. Stay tuned!

- For the second year in a row, **A. Rashid** has been invited to present a paper at the Census Bureau in Washington DC. She will share her paper "Manufacturing Rebound in Michigan: New Insights on Job Transitions in the Manufacturing Sector" at the Local Employment Dynamics (LED) Partnership Annual Workshop in March. She insisted that I mention **M. Deburghgraeve** helped with the paper. I just learned that **L. Murembya** will also participating in the workshop, presenting his paper "Competitiveness of the Michigan Construction Industry." Congratulations to all three of you on your great work and getting the opportunity to present our work to a national audience!
- I want to thank **J. Rhein** for completing the model review for the Local Area Employment Statistics (LAUS) program. This important deliverable is our chance to review the model that produces the state and local unemployment rate and provide feedback to our partners at the Bureau of Labor Statistics. While I don't know this for a fact, I would bet big money that his analysis is more complete and thoughtful than any other state. Great job, Jim!
- There is no doubt that many of you are following the Flint water story. But, did you know that **E. Guthrie** has been working with the State Budget Office to provide demographic data to support legislation and budget recommendations? That is just one example of how DTMB is helping . . . from Vehicle and Travel Services, Procurement, and Facilities, DTMB is front and center helping the people in Flint during what must be a truly awful time. I think that is pretty cool that we can help. Thanks, Eric for all you are doing.

What did I miss?

I hope everyone has a nice weekend and a great Martin Luther King Day!

What plans do you have?

Jason

Please respond to Jason Palmer by 10 AM Tuesday regarding this email.

My guess is we would all be "custodians" of documents or emails if the search term was "Flint".

I doubt any of us (except perhaps Eric) is in possession of a document or email with both the search term "Flint" and the other terms in Jason's email, or one of the other search terms below.

However, you are the best judge of this; so please respond Tuesday morning to Jason what you feel your "custodian" status is.

Team:

Below are the search terms for the document production related to the lawsuit we spoke about last week. Please review the search terms and provide me with a list of staff who may be a custodian of this information by 10:00am on Tuesday, February 16. Generally speaking a custodian, "will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms."

We are not being asked to conduct any searches, just to identify potential custodians.

I apologize for the short notice. Please make this your work priority for Tuesday morning.

Search terms:

Legionnaire
Legionella
"boil water order" & "Flint" (anywhere in document)
"coli" & Flint (anywhere in document)
"bacteria" & "Flint" (anywhere in document)
"microb" & "Flint" (anywhere in document)
"TTHM" & "Flint" (anywhere in document)
"Lead" & "Flint" (anywhere in document)
"emergency" & "Flint" (anywhere in document)
Karegnondi
"Genesee County Health Department"
"Flint" (within sentence) "utilities"
"Lead and Copper Rule"
"Detroit Water and Sewerage Department" & "Flint" (anywhere in document)
"DWSD" & "Flint" (anywhere in document)
"Flint River"
"Pb" & "water" (anywhere in document)
"KWA"

Thanks!

Thanks, Jeff. I agree. I think flint and utilities is likely for many staff. When I respond to the request, I'll explain this and the reasons for the usage and hopefully we will be released from digging up the documents.

Subject: Mandatory Meeting - DTMB Custodians of Correspondence Related to Flint
When: Thursday, February 18, 2016 2:00 PM-3:00 PM (UTC-05:00) Eastern Time (US & Canada).
Where: Ottawa Builidng - Upper Level – Conference Room 4 OR Call-in: 866-390-1828 access code: 1842654

Please note this meeting can be attended in person or via conference call-in. Location and Dial in information are provided below.

All DTMB Custodians of Correspondence Related to Flint.pdf
***This attachment was updated 2/18/16**

*See agenda below

Requested By:
DTMB Executive Staff

Location:
Ottawa Building
Upper Level – Conference Room 4
611 W. Ottawa Street
Lansing, MI 48933

Call-in: 866-390-1828
Access code: 1842654

Security:
Please have your State Employee ID showing at all times.

Parking:
Metered parking is available along Ottawa and Pine street.

Briefing:
In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Agenda

1. Kickoff – Brom Stibitz, Chief Deputy Director
2. Why you are here – Jean Ingersoll, Interim Chief of Staff
3. What you need to do (February 22, 2016 deadline) – Jean
4. What will be done for you – Jean
5. What's next – Jean
6. Public Information Reminder – Caleb Buhs, Public Information Officer
7. Questions and Answers - Group

All DTMB Custodians of Correspondence Related to Flint - UPDATED.pdf

All DTMB Custodians of Co...

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 18, 2016

TO: All DTMB Custodians of Correspondence Related to Flint

FROM: Jean Ingersoll, Interim Chief of Staff to David B. Behen, Director and CIO

SUBJECT: Flint Document Production – Search Terms and Guidance

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. **As a custodian, you are required to produce any documents containing the search terms listed below, no later than Monday, February 22, 2016.** This memorandum contains detailed instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Microsoft 365 – Outlook (*includes emails, calendar items) and OneDrive*

DTMB staff will centrally coordinate the Microsoft 365 search for all of DTMB's custodians. Therefore, DTMB's custodians *do not need to independently search any of their Microsoft 365 applications* for the search terms listed below.

Network Drives

Similar to the approach outlined above, DTMB staff will centrally coordinate the network drive search effort for all DTMB custodians. Custodians do *not* need to independently conduct a network drive search for the search terms below.

Non-Network Drives – *includes hard drives, desktop, and thumb/flash drives*

For all non-network drive types, ***each custodian will need to search every search term listed below in every non-network format, and move all relevant/related documents in to a network drive for collection. In order to move items to the network, you must be connected to the network.***

Start by conducting the search of all non-network drives, filling out the attached search term checklist as you go. If you need guidance as to how to perform this search, a step-by-step guide is included below in Appendix 1.

All relevant/responsive items that are produced as a result of your search need to be moved to a network drive. You can move your relevant/related documents to a network drive in whatever format the document is currently in. After the February 22, 2016, deadline, DTMB staff will access the network drives to collect the files.

Paper Files

Review all applicable paper files. Scan any relevant/related documents, and save them to a network drive, as described above. If this is not possible, you may provide hard copies of documents to Jean Ingersoll in the Director's Office. These documents must be received in the Director's Office by February 22, 2016, and will not be returned to you.

Home Computer

Any relevant e-mails or other documents on a personal computer also are subject to this request. Please check your personal computer for any e-mails or other documents relating to this search. If you discover any relevant/related documents, please include the phrase "personal computer" in the file name, and save them to the aforementioned network drive.

Conclusion

Thank you for your cooperation in complying with this request. Should you have any questions, please contact Jean Ingersoll at 1-8844.

Attachments

- FOIA Checklist
- Attachment 1 – Search Guidance

Search Term Checklist

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB network drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Relevant/related items from the past 10 years should be included.

You should search for *each term exactly as it is shown below, and include quotation marks around each separate word.* For example, "Legionnaire", "Legionella", or "Flint" would all go into search fields. After you complete a search term, check the box beside the term.

Search Terms:

- ☐ "Legionnaire"
- ☐ "Legionella"
- ☐ "boil water order" & "Flint"
- ☐ "coli" & "Flint"
- ☐ "bacteria" & "Flint"
- ☐ "microb" & "Flint"
- ☐ "TTHM" & "Flint"
- ☐ "Lead" & "Flint"
- ☐ "emergency" & "Flint"
- ☐ "Karegnondi"
- ☐ "Genesee County Health Department"
- ☐ "Flint" & "utilities"
- ☐ "Lead and Copper Rule"
- ☐ "Detroit Water and Sewerage Department" & "Flint"
- ☐ "DWSD" & "Flint"
- ☐ "Flint River"
- ☐ "Pb" & "water"
- ☐ "KWA"
- ☐ "Flint" & "water"

Search conducted on the email account of: _____

By (your name): _____

Date completed: _____

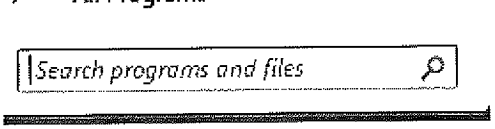
Please return this completed Checklist to DTMB Director's Office staff by Monday, February 22, 2016, at DTMB@michigan.gov, or Directors Office, Cass Building, Second Floor

APPENDIX 1 – Search Guidance

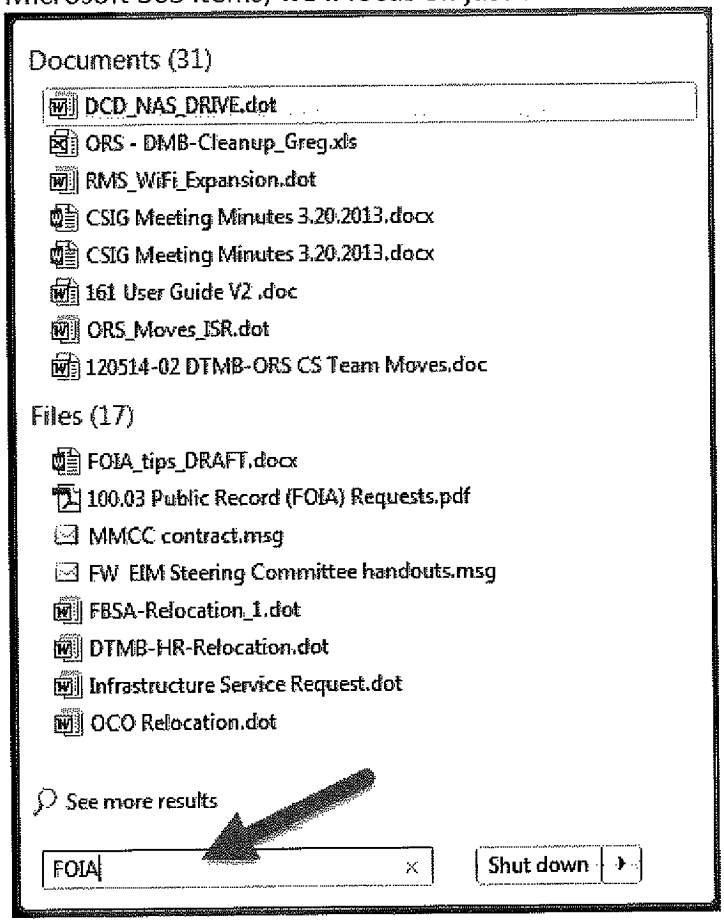
Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer," you see it every time you open up a folder on a network drive, or on your own computer.

Using the search function in windows 7

Since the majority of DTMB is on Windows 7, the examples below are on that operating system. If you click on windows Start button, you'll see the search box right next to it

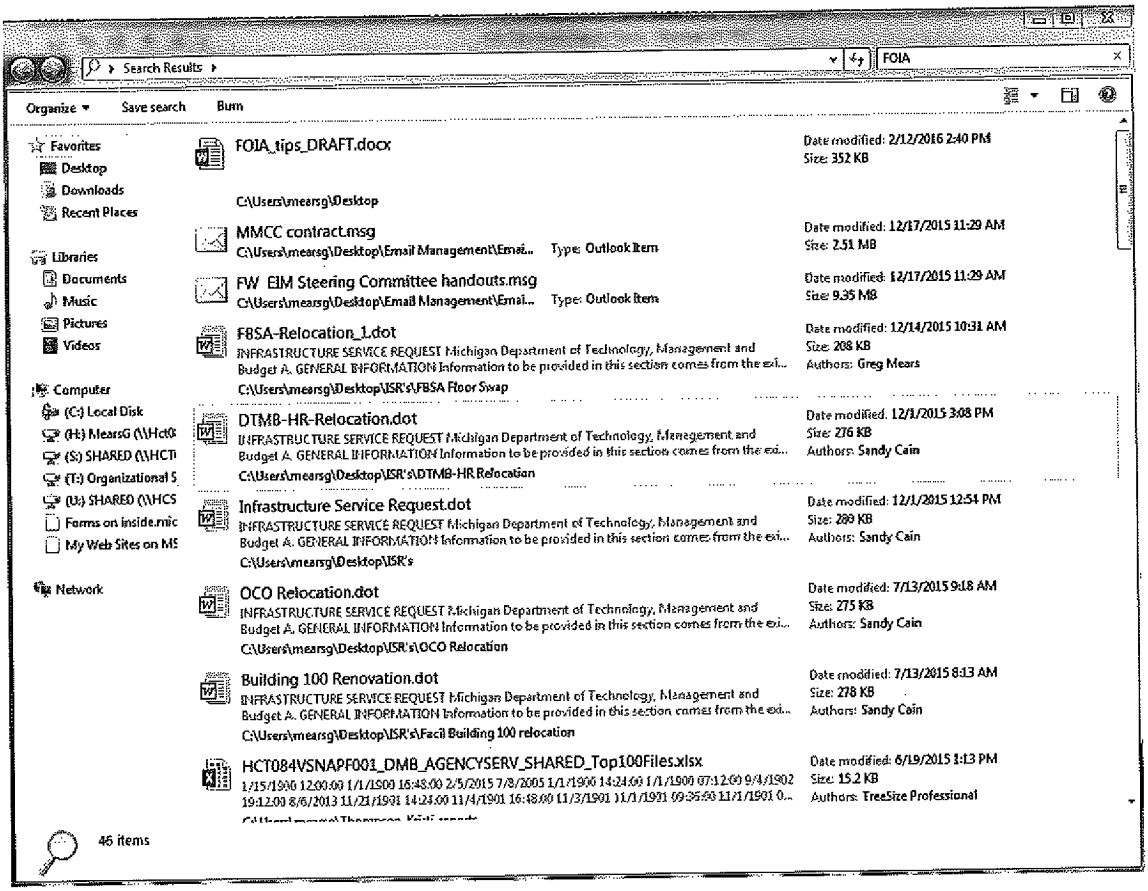


This example searches for the word FOIA. As you can see, the search yielded numerous documents including emails. Since DTMB is centrally collecting relevant emails and other Microsoft 365 items, we'll focus on just the documents.



You need to open each document to make sure that it's relevant. In this instance, the search brought up a DTMB Move form, but only because it has the word FOIA in the form.
You'll notice that the words "See more results" appears at the bottom of the list. This means that the search turned up a lot more documents than what can easily be displayed. You must

click on the link to open Windows Explorer and reveal a comprehensive list, along with their locations.



As you can see from this example the search found 46 items. We can now select them all using the "Ctrl-A method", and copy them to a network drive.

Subject: RE: Search Terms for

I will have many with just Flint, and I may have one with the combination of Flint and emergency in the context of "this is an emergency request" about the city of Flint. Other than that there may be a passing reference to the Genesee County Health Department, but that would not be in relation to the situation in Flint.

I also get news alerts from the Gongwer News service which may have any of the search terms.

Group,

Since Flint is one of Michigan's Metropolitan Statistical Areas (MSAs) it is possible that I would use the word "Flint, Utilities, and any other industry name in communications, searches, etc. related to the Current Employment Statistics (CES) program. Obviously, this use would be directly related to our contractual obligation to administer the CES program. The other terms in this email are very unlikely to be used.

Please respond to Jason Palmer by 10 AM Tuesday regarding this email.

My guess is we would all be "custodians" of documents or emails if the search term was "Flint".

I doubt any of us (except perhaps Eric) is in possession of a document or email with both the search term "Flint" and the other terms in Jason's email, or one of the other search terms below.

However, you are the best judge of this; so please respond Tuesday morning to Jason what you feel your "custodian" status is.

Team:

Below are the search terms for the document production related to the lawsuit we spoke about last week. Please review the search terms and provide me with a list of staff who may be a custodian of this information by 10:00am on Tuesday, February 16. Generally speaking a custodian, "will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms."

We are not being asked to conduct any searches, just to identify potential custodians.

I apologize for the short notice. Please make this your work priority for Tuesday morning.

Search terms:

Legionnaire
Legionella
"boil water order" & "Flint" (anywhere in document)
"coli" & Flint (anywhere in document)
"bacteria" & "Flint" (anywhere in document)
"microb" & "Flint" (anywhere in document)
"TTHM" & "Flint" (anywhere in document)
"Lead" & "Flint" (anywhere in document)
"emergency" & "Flint" (anywhere in document)
Karegnondi
"Genesee County Health Department"
"Flint" (within sentence) "utilities"
"Lead and Copper Rule"
"Detroit Water and Sewerage Department" & "Flint" (anywhere in document)
"DWSD" & "Flint" (anywhere in document)
"Flint River"
"Pb" & "water" (anywhere in document)

"KWA"

Thanks!

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Hi Guys

Due to the Flint water crisis, I've been asked to make some changes here in Con Hall yesterday. ☺ I need to convert a conference room to an office so I'll need some modular furniture. If you can tell me what you have in our colors, then I will make a design work with that product. I need Tatami/Kobe/Gray Tone panels, Maple/Gray Tone Work Surface and Gray Tone storage pieces…..tower, one touch overhead, peds, lateral file….

When you get time, could you give me a quick count of just enough pieces for 1 office give or take?

Thanks

Rodney,

Furniture installation at the JOC for Project P00914-15 will start next Monday. When I did my walk through after the carpet was installed it looked like two basefeeds weren't installed yet. I need the electricians to install two hardwired basefeeds, coming off of the column on the 2nd floor before the furniture arrives. If there aren't anymore basefeeds on site, Keith will bring two from the warehouse for them.

Can you schedule them as soon as possible? Thanks for your help,

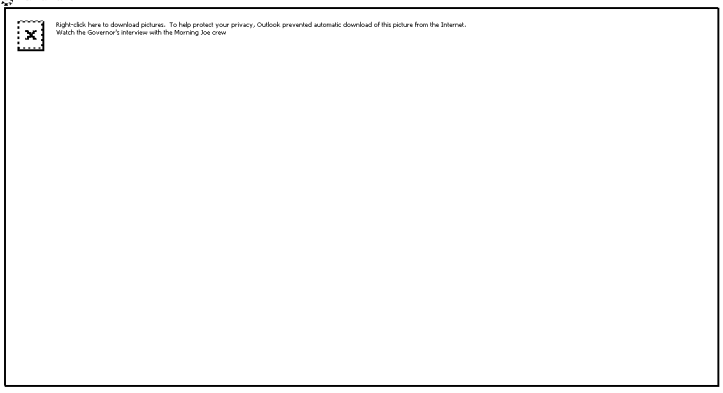
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

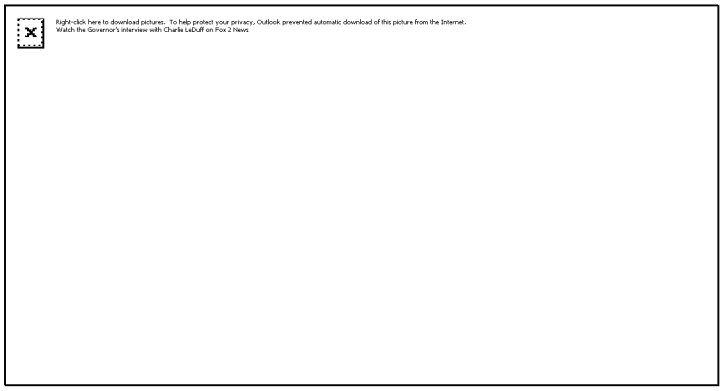
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



Governor Snyder with Charlie LeDuff on Fox 2 Detroit

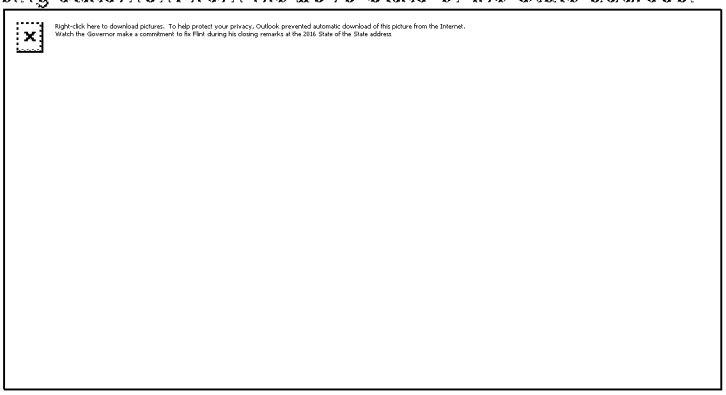
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm came from people who worked for me, and I feel responsible for that. But I am committed

to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.

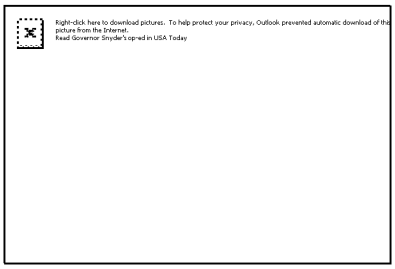


Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



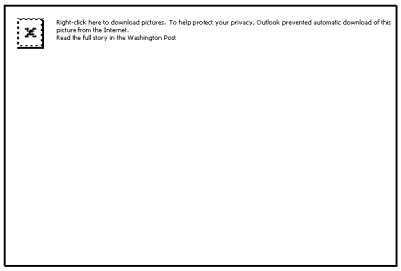
Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.



Visit HelpForFlint.com to learn how you can help Flint residents.

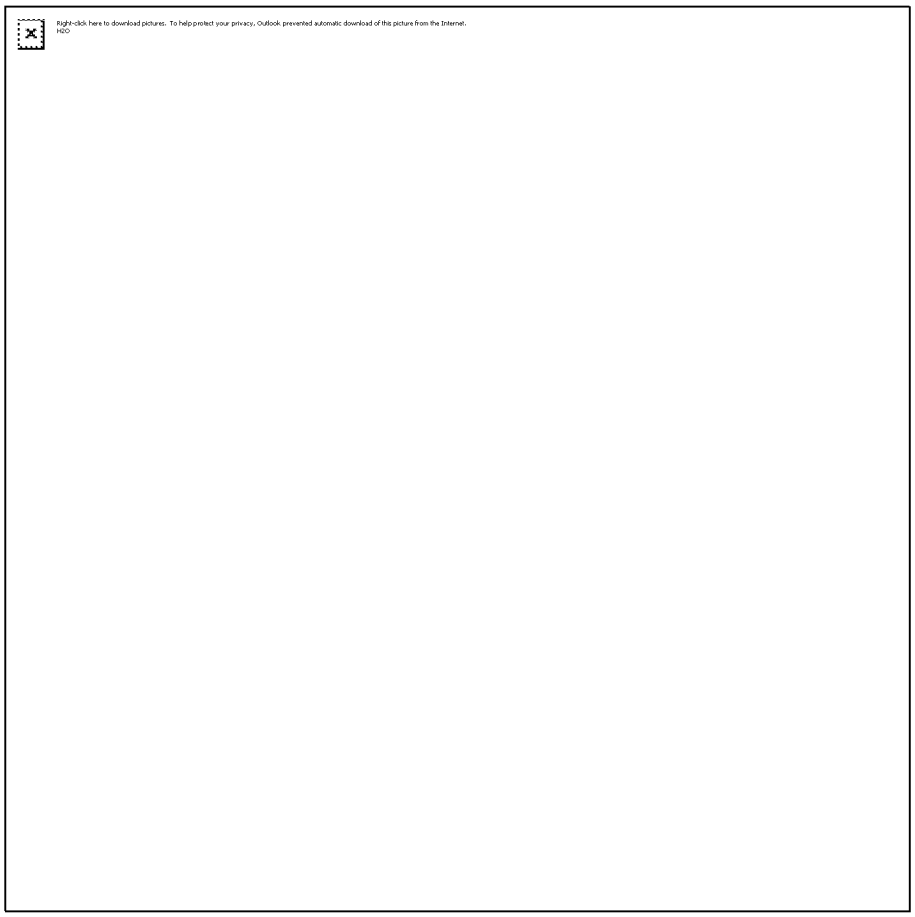
Sent: Tuesday, January 26, 2016 8:39 AM
To: Hawes, Keith (DTMB)
Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.



Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

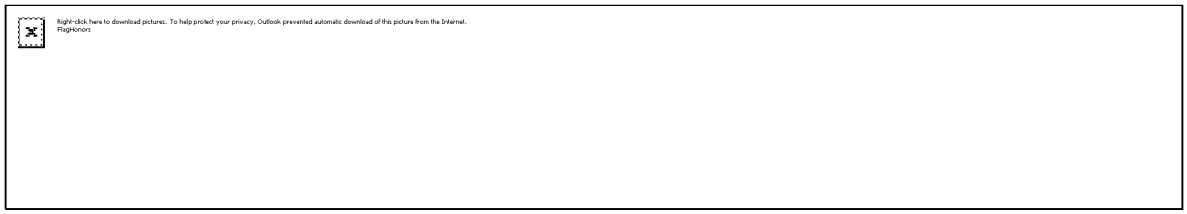
Subject: Thank you for your service



THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

Hi Patty,

This is something that we could do. We would need to do them all in one day due to the drive time from Lansing. If you could give me all of the information, I would be happy to send a couple of staff over to complete them. Otherwise, DHHS has modular staff that could do that for you too. I have CC'd the supervisor so he can chime in. Between the 2 of us, we could make this happen for you.

Thanks!

Hi Keith,
Does your staff do workstation adjustments in the Flint State office building? I'm not getting a response from facilities over there – I'm guessing because of the water crisis. We have had a request pending since January 7th to adjust 6 work surface heights on the 6th floor. The adjustments are part of the overall plan for the building that includes removal of 7 workstations on the 6th floor.

Hi Keith,
For Monday, we would like to add a recently approved reasonable accommodation raising work surfaces to standing height. If this could be done at the same time, that would be great. She has been ordered a stool but that hasn't come in yet.

Marlene, do you know what the height should be?

Let me apologize now, but a couple of changes were necessary. I swapped one out for a different one…that should easy.

We also have the reasonable accommodation that needs to be completed for Jen Smart to have standing height work surfaces. I understand that is a bigger job so not sure if that can be done on 2/8. Thanks.

Subject: RE: Flint State Office Building

Let me apologize now, but a couple of changes were necessary. I swapped one out for a different one…that should easy.

We also have the reasonable accommodation that needs to be completed for Jen Smart to have standing height work surfaces. I understand that is a bigger job so not sure if that can be done on 2/8. Thanks.

I have talked with John and they wouldn't be able to get to it anytime soon.

Contact:
Marlene Brewer (810) 760-2470, Administrative Supervisor – 5th floor
Flint State Office Building
125 East Union Street

Marlene said they can all be done the same day. They need to know when so they can have the surfaces cleared. Let me know what else you need from me. Thanks Keith.

C. Stewart – 6-73 – Lower work surface from 29" to 27" as she has an RA for this height.

A. Jackson – 6-74 – Raise work surface from 27" to 29" (this is where Stewart came from)

L. Phelps – 6-51 – Lower work surface from 29" to 26" as she has an RA for this height.

V. Shaw – 6-71 – Raise work surface from 26" to 29" (this is where Phelps came from)

~~B. Stapleton – 6-127 Lower work station from 29" to 27"~~

K. Kent – 6-32 – Raise work surface from 27" to 29" (RA employee promoted)

Hi Patty,

This is something that we could do. We would need to do them all in one day due to the drive time from Lansing. If you could give me all of the information, I would be happy to send a couple of staff over to complete them. Otherwise, DHHS has modular staff that could do that for you too. I have CC'd the supervisor so he can chime in. Between the 2 of us, we could make this happen for you.

Thanks!

Hi Keith,
Does your staff do workstation adjustments in the Flint State office building? I'm not getting a response from facilities over there – I'm guessing because of the water crisis. We have had a request pending since January 7th to adjust 6 work surface heights on the 6th floor. The adjustments are part of the overall plan for the building that includes removal of 7 workstations on the 6th floor.

Patty Curtis

We are going to use this opportunity to haul a truck load of bottle water to Flint. We might be a little later than 8:30 but it shouldn't be much later.

Thank you,

I have talked with John and they wouldn't be able to get to it anytime soon.

Contact:
Marlene Brewer (810) 760-2470, Administrative Supervisor – 5th floor
Flint State Office Building
125 East Union Street

Marlene said they can all be done the same day. They need to know when so they can have the surfaces cleared. Let me know what else you need from me. Thanks Keith.

C. Stewart – 6-73 – Lower work surface from 29" to 27" as she has an RA for this height.

A. Jackson – 6-74 – Raise work surface from 27" to 29" (this is where Stewart came from)

L. Phelps – 6-51 – Lower work surface from 29" to 26" as she has an RA for this height.

V. Shaw – 6-71 – Raise work surface from 26" to 29" (this is where Phelps came from)

B. Stapleton – 6-127 Lower work station from 29" to 27"

Hi Patty,

This is something that we could do. We would need to do them all in one day due to the drive time from Lansing. If you could give me all of the information, I would be happy to send a couple of staff over to complete them. Otherwise, DHHS has modular staff that could do that for you too. I have CC'd the supervisor so he can chime in. Between the 2 of us, we could make this happen for you.

Thanks!

Subject: Flint State Office Building

Hi Keith,
Does your staff do workstation adjustments in the Flint State office building? I'm not getting a response from facilities over there – I'm guessing because of the water crisis. We have had a request pending since January 7th to adjust 6 work surface heights on the 6th floor. The adjustments are part of the overall plan for the building that includes removal of 7 workstations on the 6th floor.

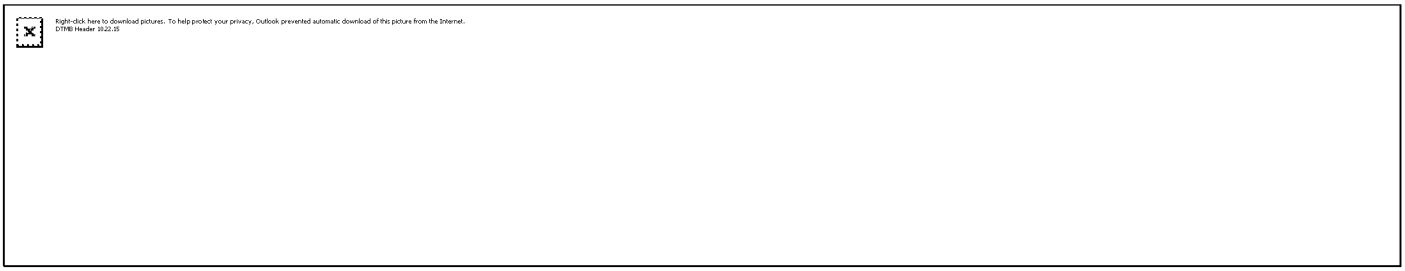
Subject: The Gov. Snyder's Budget Proposal



Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Subject: Flint Volunteer Efforts

Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

Subject: Flint State Office Building

Hi Keith,
Does your staff do workstation adjustments in the Flint State office building? I'm not getting a response from facilities over there – I'm guessing because of the water crisis. We have had a request pending since January 7th to adjust 6 work surface heights on the 6th floor. The adjustments are part of the overall plan for the building that includes removal of 7 workstations on the 6th floor.

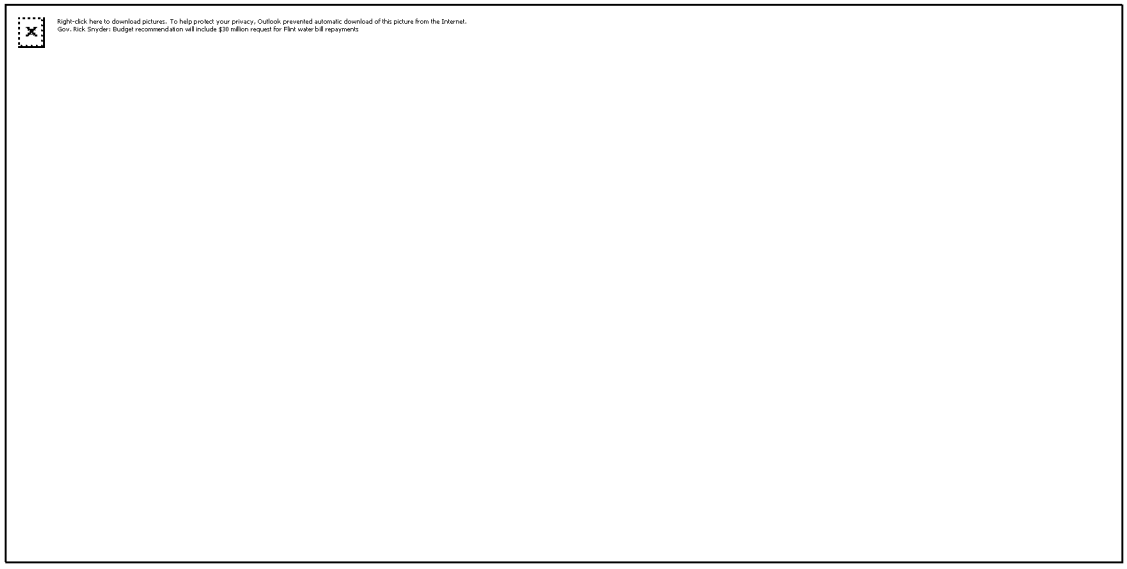
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments



When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

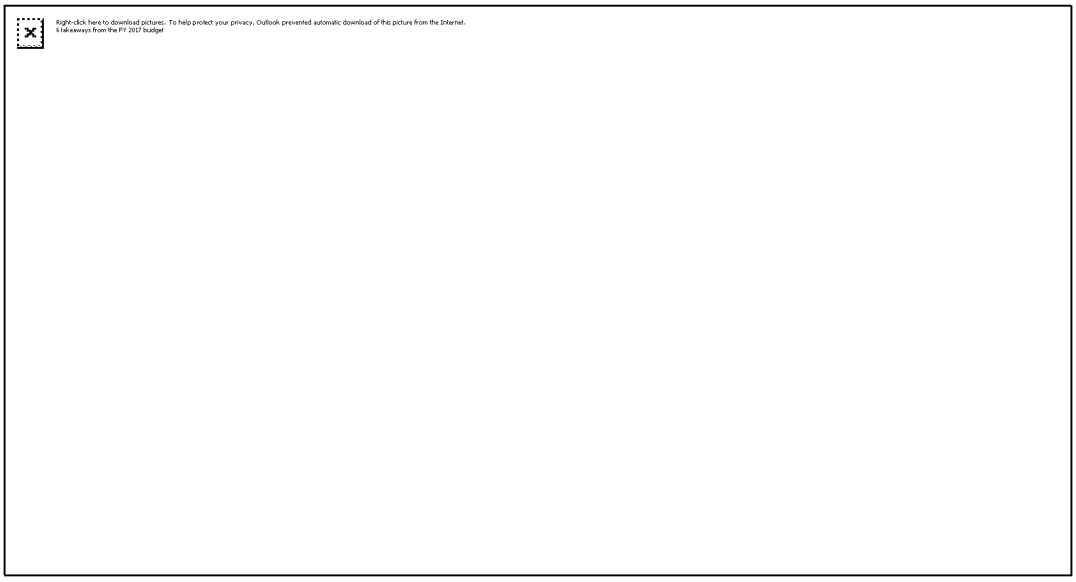
Subject: What this year's budget means for Michigan...

VIDEO: What Governor Snyder's FY17 budget means for Michigan



Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

Subject: RE: Flint State Office Building

We gave Jen a stool and measured things. She will need **all work surfaces raised to 40"**. The tack boards will need to be removed and all overhead shelving should be good to stay as is. Thank you so much for fitting this into the schedule.

Subject: FW: Flint State Office Building

Hi Keith,
For Monday, we would like to add a recently approved reasonable accommodation raising work surfaces to standing height. If this could be done at the same time, that would be great. She has been ordered a stool but that hasn't come in yet.

Marlene, do you know what the height should be?

Subject: RE: Flint State Office Building

Let me apologize now, but a couple of changes were necessary. I swapped one out for a different one...that should easy.

We also have the reasonable accommodation that needs to be completed for Jen Smart to have standing height work surfaces. I understand that is a bigger job so not sure if that can be done on 2/8. Thanks.

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

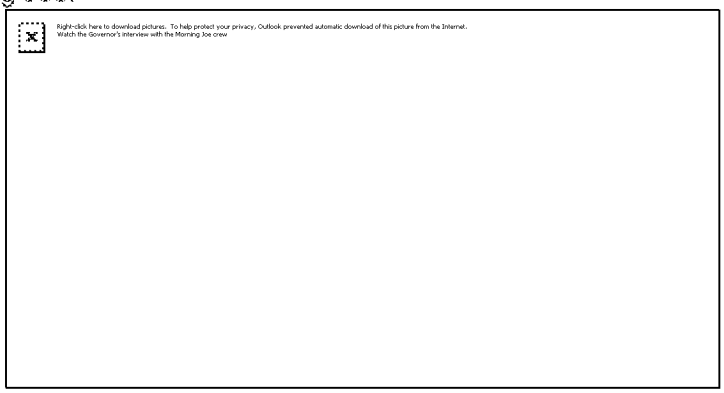
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

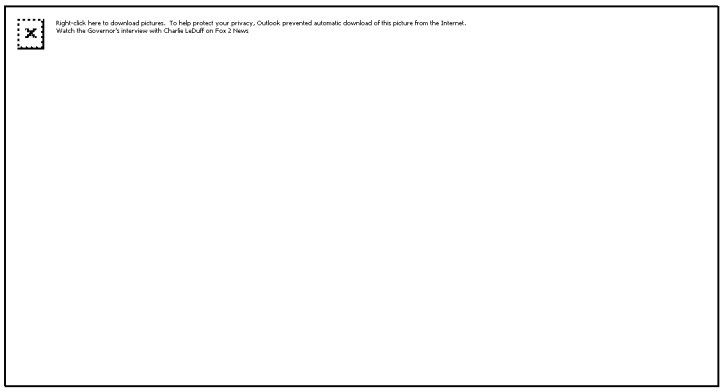
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

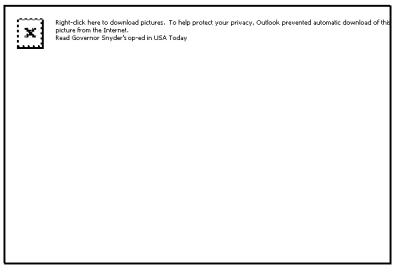
came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.

Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

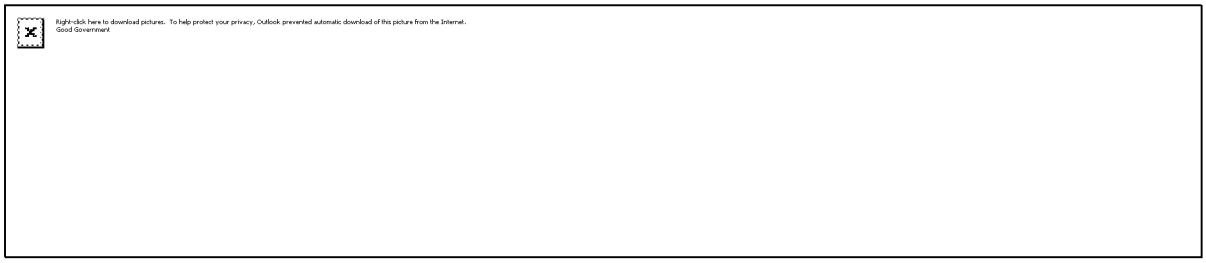
Subject: Flint Volunteer Efforts



Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director

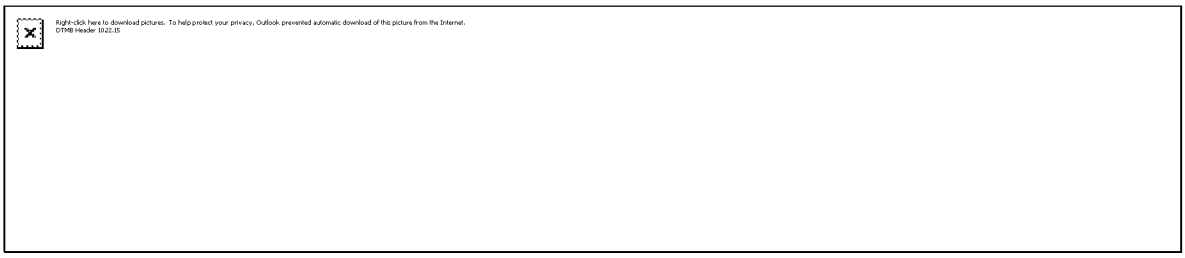
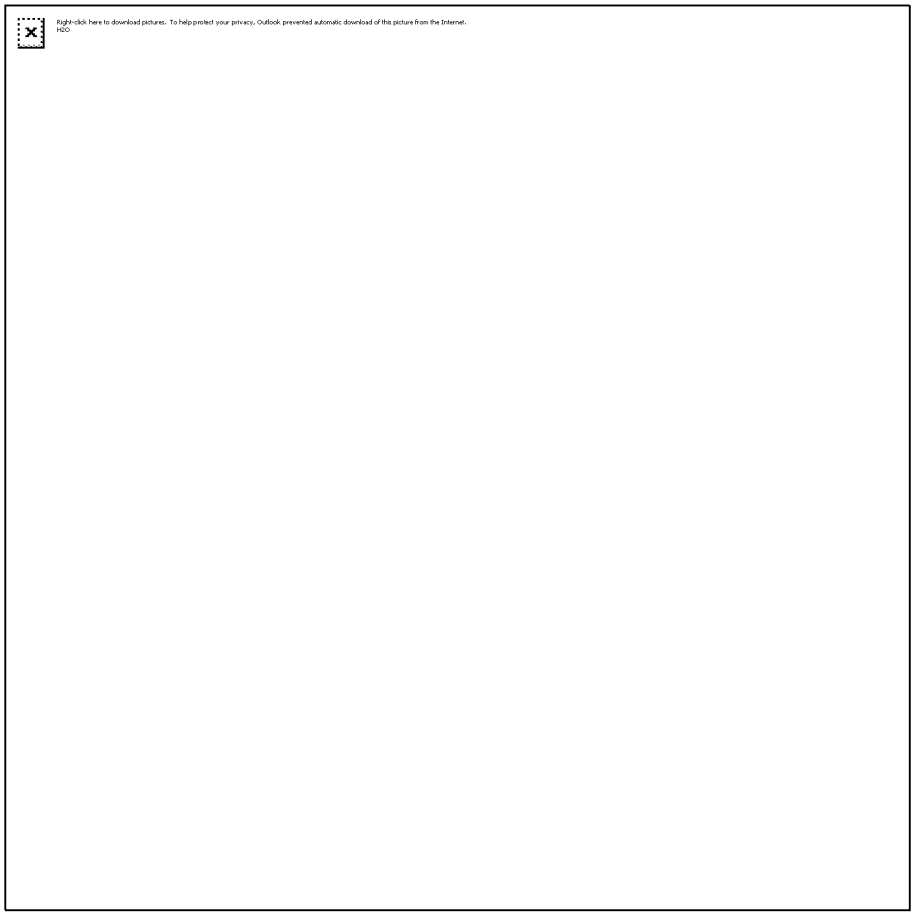
Subject: Contributing time, muscle and money



During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.



Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

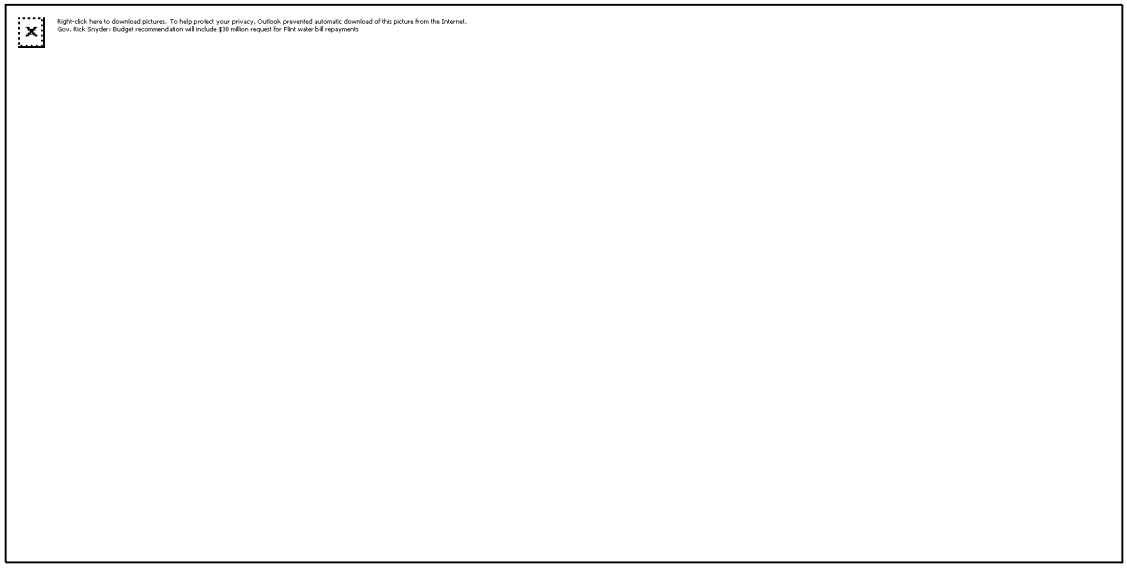
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments



When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

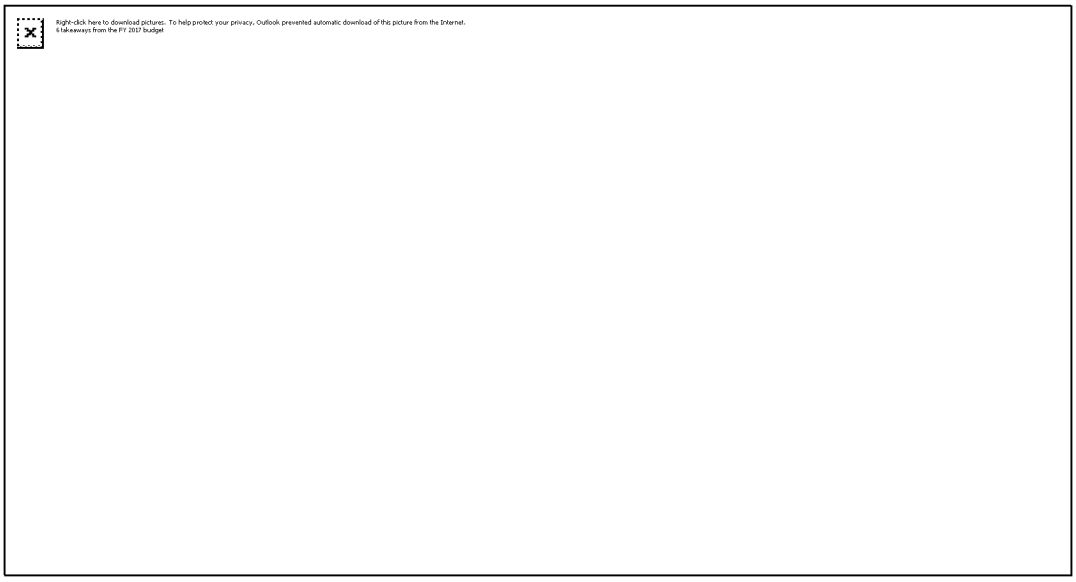
VIDEO: What Governor Snyder's FY17 budget means for Michigan



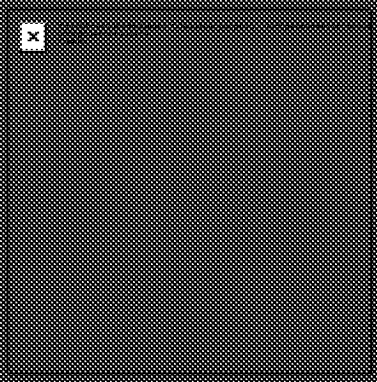
Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

Click a tweet to tweet it out:



The #MIBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> www.mi.gov/MIBudget

--> @OneToughNerd's #MIBudget includes $72 million a year for Detroit Public Schools. It is time to act now -- > www.mi.gov/MIBudget

--> @onetoughnerd's significant investment in #Flint families is the right thing to do. #FlintFWD #MIBudget www.mi.gov/MIBudget

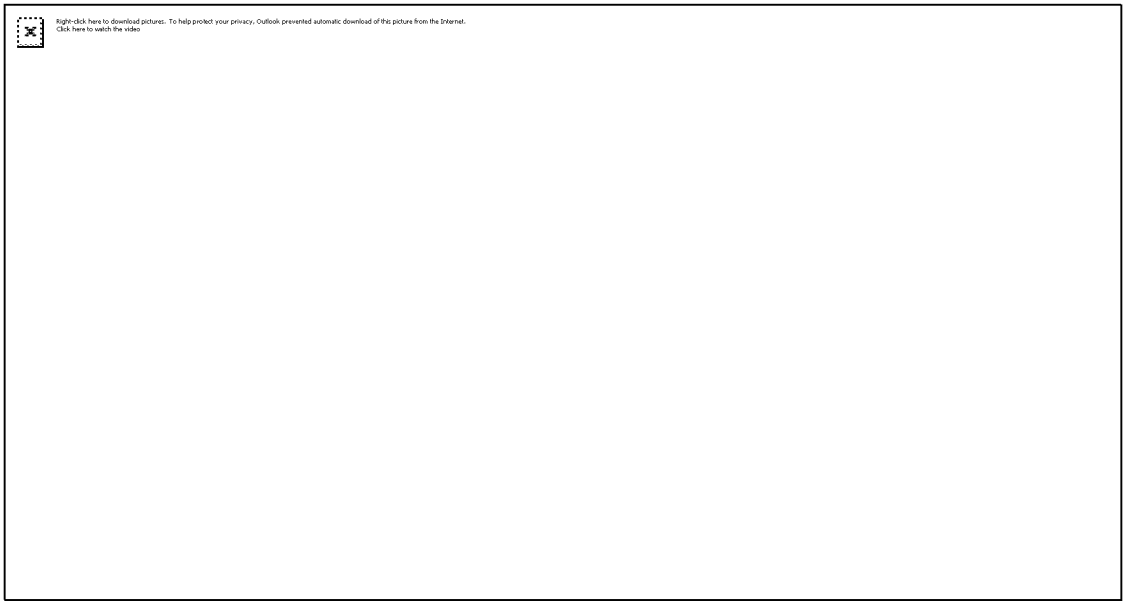
VIDEO: How volunteers are helping Flint



Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

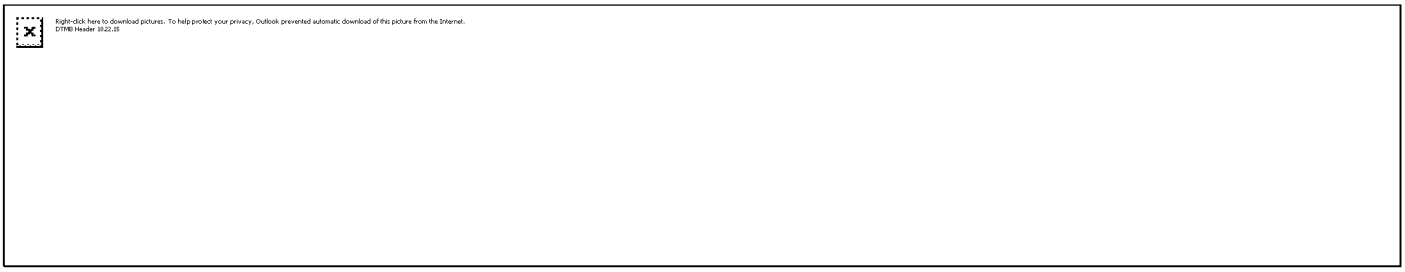
Sent: Wednesday, February 17, 2016 10:10 AM
To: Hengesbach, Dane (DTMB)
Subject: The Gov. Snyder's Budget Proposal



Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for

14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.

- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Subject: FW: Flint Ramp Utility Annual Costs

Dane,

In addition to my last email, I just had a conversation with Mike Noonan is our Facility Supervisor for Flint. He says that for the parking ramp, he gets invoices from U of M Flint for our portion, and then that electric and water invoice gets sent to you for payment. I have never received those bills, and need to get copies for all of FY12 to current.

Just give me a call at your earliest convenience.

Thanks.

Subject: Flint Ramp Utility Annual Costs

Sarah…….along with the annual costs for utilities for the Flint Ramp, I would also like to know if we are sharing the costs of these utilities with U of M. Any information you could give me would be appreciated.

Thanks Sarah…….Have a Great Weekend !!

Thank you,

Subject: DTMB emergency response to Flint water crisis

Jackie,

Dane has made us (Tom and I) aware that DTMB's Delivery and Printing services have been used in the emergency response team (through Facilities) regarding the Flint water crisis. Question is, would we want to recover the costs. Dane mentioned two managers: Shelli Milimaki for Delivery and Mark Miller in Print. If their upper management has not already decided on this, we need to ask if this work will be billed as 'regular' services and if not would we need reimbursement for direct labor, etc.

Dane will ask Jeanette Doll in Facilities for more information. If they gave billing information to Print and Delivery, it seems they would be billed for services and we'd be all set then.

Stay tuned…

Subject: RE: DTMB emergency response to Flint water crisis

Thanks Dianne.

FYI – At this time, all OSS managers are tracking time spent assisting with this crisis. They will share information about recovery of costs once they learn more. Currently, I understand some employees from Delivery, Print, and VTS are assisting.

Subject: Warehouse Space

Maureen –

Please setup a lease agreement with Bob Sherman for 100,000 of warehouse space to hold supplies as the state provides assistance in the water emergency. We do not know how long the space will be required. OIP/MSP will be listed as the contacts for the lease, index number to use 45400.

If you need anything else, please let me know.

Thank you for your help! We have 12 truckloads of water being delivered tomorrow along with water filters and space is a high demand right now.

Hi Dane

Should all (071) Flint Water Disaster PCard purchases go to Index 71105? DMB Mail & Delivery has some UHaul charges and just wondered if they should go to Index 71105 also?

Subject: RE: Overtime and Financials
Attachments: IT Flint Water Costs 020816.xls

Hi Jeanette,

I'm attaching what I've seen thus far for IT Flint related costs.

I have not seen overtime yet but we will monitor and report any we learn about.

Thanks – please let me know if you need anything else.

Tim

Subject: Overtime and Financials

Hi Tim –

This email is in response to a voicemail message I left you the first week of January regarding IT coding and an index for the Flint water emergency. I am compiling a list of DTMB expenses to-date in response to the water emergency and was wondering if you could provide expenses reported for any IT related purchases and/or overtime. We began working on the emergency on January 6, 2016 with the activation of the SEOC.

The attached spreadsheet is what I am using to track employee time. If you have any questions, please let me know. If you do not have any expenses, please reply to this email with a note.

Thank you –

Jeanette

Tom, I thought that John Lance had some payroll hitting the 71105 index as well as his travel but we looked into further and the payroll charges are for a Steve Kesson. It looks like had payroll charges hit indexes 47021, 77011, 77009 and 71105 which I believe are some of Diane's reports. We can't figure out how these expenses would be hitting index 71105 other than they are being manually changed.

Either way it looks like charges are hitting the 71105 index which I thought your areas were not supposed to be hitting.

Senior Management Team,

We just received the search terms for the document production. (See below.) Given the lateness of this email, we are asking you send your list of custodians to Jean Ingersoll **no later than noon on Tuesday, February 16**.

We are not asking you to conduct any searches right now. Further directions will come from Jean.

Subject: Time Sensitive Request

SMT,

Jean Ingersoll is leading DTMB's effort to comply with document production requests related to freedom of information requests and certain lawsuits against the state.

At some point during the day tomorrow, Jean will share with you a list of standard "search terms" which we will use to compile documents related to this lawsuit.

Within 2 hours of receiving this email from Jean, you need to respond with a list of likely custodians from your work area. Jean may have more information on this tomorrow, but generally speaking a custodian will be

a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.

If you have any questions, please call me or Jean. This is an important issue and I thank you in advance for your attention to this matter.

Please take a look at the request from SBO below. I don't think that we would have much at DTMB around Flint spending, but I would like to be able to contribute info on anything we are involved with. Please provide a brief overview for any spending items we will have included in a FY 16 supplemental or the FY 17 budget as it relates to Flint.

Thanks,
Caleb

Subject: Time Sensitive: FAQs Needed

Good afternoon,

In preparation for announcing additional appropriation measures related to the Flint water emergency in the upcoming FY 17 budget presentation, we'll be preparing a briefing document for legislators. As part of this effort, we want to include a Frequently Asked Questions document. This is where we really need your help.

Your budget staff should have a breakdown of each potential spending item related to your agency (both pending FY 16 supplemental items and FY 17 items). Please work with your budget folks and your communications team to develop any FAQs that you anticipate the public or legislators might ask, related to each item assigned to your agency.

Outreach to the Legislature has already begun, so having these responses back from you quickly is very important. Please send our PIO, Kurt Weiss, and me your FAQ lists no later than 5:00 p.m. this Tuesday, February 2.

Please let me know if you have any questions or concerns, or feel free to have your communications staff touch base with Kurt. I apologize for the short time window, but we really appreciate your help.

35	

	B
1	
2	
3	
4	**Outputs - Refers to what we did and who we reached. Such as what is created at the end of a process.**
5	
6	Activities - What we did
7	Conduct Workshops or meetings
8	Delivered Products or Services
9	Developed Products,Curriculm, provided resources
10	Train about nutriton and ways to minimize effects of lead poisoning
11	Provided Counseling
12	
13	
14	
15	**Outcomes - Refers to what difference is there. Such as, the level of performance or achievement that occurred because of products or services that we provided.**
16	
17	**What are the short-term results**
18	Learning - Educate about ways to reduce lead in water
19	Awareness
20	Knowledge
21	Attitudes
22	Skills
23	Opinions
24	Aspirations
25	Motivations
26	
27	
28	
29	1. Describe the outcome you want to achieve. Why do you perform the process or service in the first place.
30	2. Turn the identified outcomes into a quantified measure, # of clients demonstrating a new behavior, % of clients coming back to treatment, etc.
31	3. Confirm that your identified outcome is actually linked to your outputs or activities. In other words ensure that it is reasonable to expect your desired outcome to be achieved based on your activities.
32	4. Implement these measures and track them over time.
33	5.Demonstrate and Increase your success because you have data to confidently and appropriately communicate your impact and value.
34	
35	Example Outcome : % of homes, schools, etc with reduced water lead levels

	C	D
1		
2		
3		
4		
5		
6	Participation - Who we reached	
7	Schools, businesses, families, etc	
8	Flint Residents, # of Homes, Restaurants, Schools, etc	
9

Subject: Flint Water - Documenting Time

Mike, I was told you and some of your employees have been assisting in Flint. I was asked for an estimate of expenses we have incurred for the help we provided in Flint. Have you and your employees been documenting any time or purchases made over the past few weeks?

I would need regular hours as well as any overtime that were directly associated with the Flint water problems.

Subject: Flint Water Expenses

Tom, I thought that John Lance had some payroll hitting the 71105 index as well as his travel but we looked into further and the payroll charges are for a Steve Kesson. It looks like had payroll charges hit indexes 47021, 77011, 77009 and 71105 which I believe are Dianes

Dane - In this case which agency should be signing off on the lease/expense? We had planned on Chris Christiensen at OIP.

Maureen –

Please setup a lease agreement with Bob Sherman for 100,000 of warehouse space to hold supplies as the state provides assistance in the water emergency. We do not know how long the space will be required. OIP/MSP will be listed as the contacts for the lease, index number to use 45400.

If you need anything else, please let me know.

Thank you for your help! We have 12 truckloads of water being delivered tomorrow along with water filters and space is a high demand right now.

Just the time that it took for Tome delivering the test kits for Janette Doll. It was only a 1.5 hours of OT and 2 hours of regular. If you want to add the time it took for us to load the truck on Friday for the delivery today, that was 8.5 hours regular. Today's delivery for the water should be 2 hours.

Total 12.5 hours regular and 1.5 hours OT.

Good Morning –

Jeanette is looking for any extra costs related to Flint due to the water situation. From staff time/o.t. to water to supplies or purchases. Jeanette needs to report on this every Friday.

Dane, do you want to see this information or should our staff send it directly to Jeanette?

Mike, I know you and Dane have discussed this already.

Thank you in advance -

Subject: Flint Expenses

Kerri, is anybody keeping track of Flint water expenses, either OT hours or direct purchases? Jeanette called me last week and she needs to submit a report every Friday showing actual/estimated costs. I have e-mailed Mike Noonan and he is getting me some information but not sure if there is a central area within Facilities that is tracking.

Any ideas on what would be the best way to track for Facilities?

Good Morning --
Jeanette is looking for any extra costs related to Flint due to the water situation. From staff time/o.t. to water to supplies or purchases. Jeanette needs to report on this every Friday.

Dane, do you want to see this information or should our staff send it directly to Jeanette?

Mike, I know you and Dane have discussed this already.

Thank you in advance -

Subject: Flint Expenses

Kerri, is anybody keeping track of Flint water expenses, either OT hours or direct purchases? Jeanette called me last week and she needs to submit a report every Friday showing actual/estimated costs. I have e-mailed Mike Noonan and he is getting me some information but not sure if there is a central area within Facilities that is tracking.

Any ideas on what would be the best way to track for Facilities?

From: State of Michigan <MISOM@govsubscriptions.michigan.gov>
Sent: Thursday, January 14, 2016 5:25 PM
To: Hofmeister, David (DTMB)
Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

To: Hofmeister, David (DTMB)
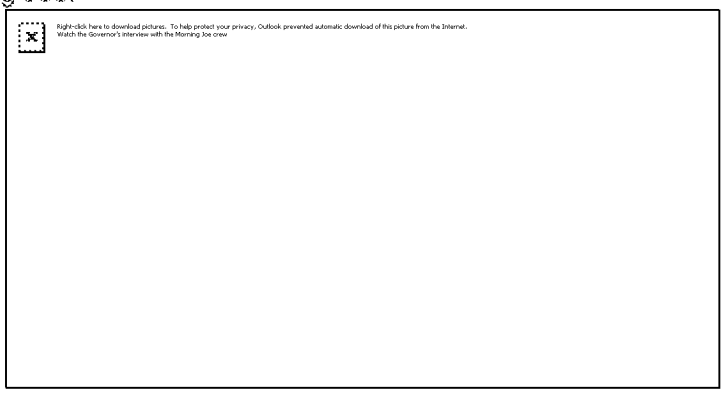
Subject: "He's his own best spokesman"

How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

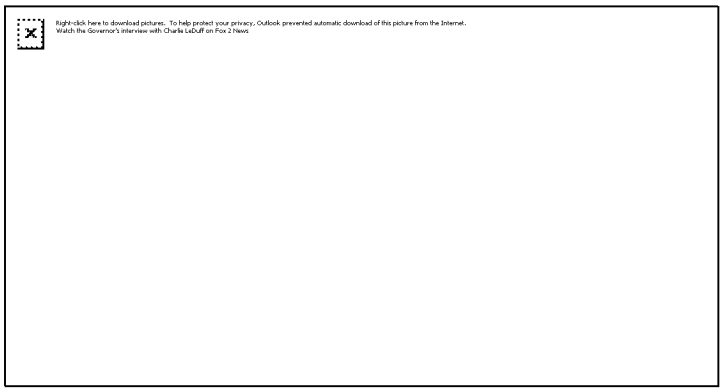
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

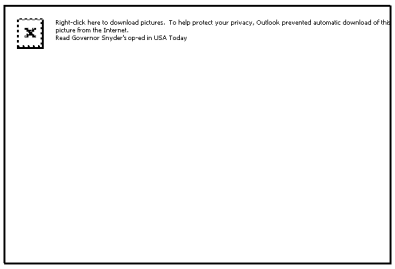
came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.

Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

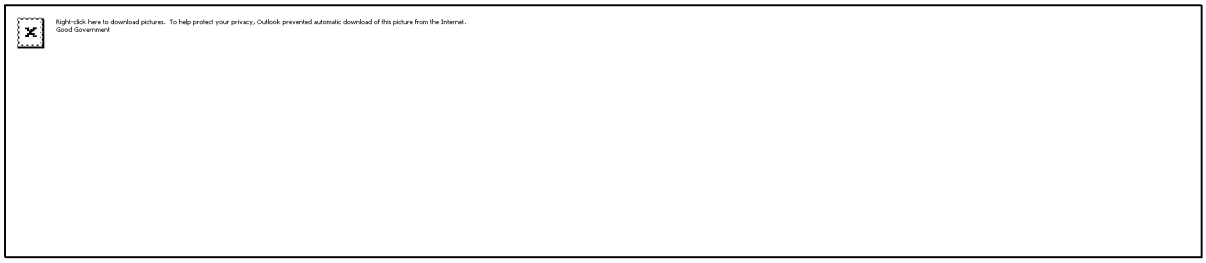
Subject: Flint Volunteer Efforts



Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

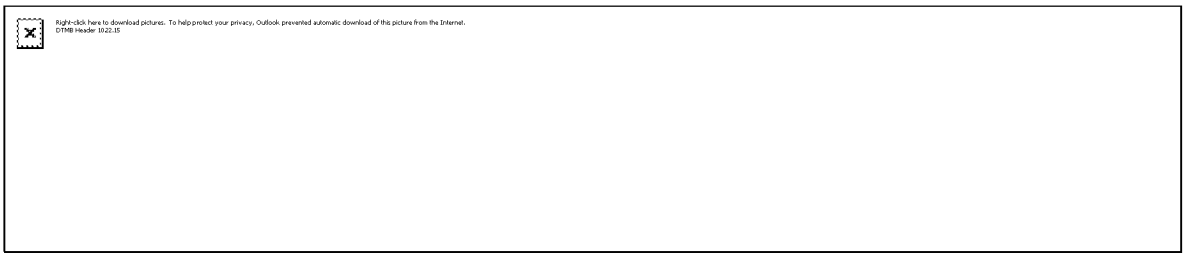
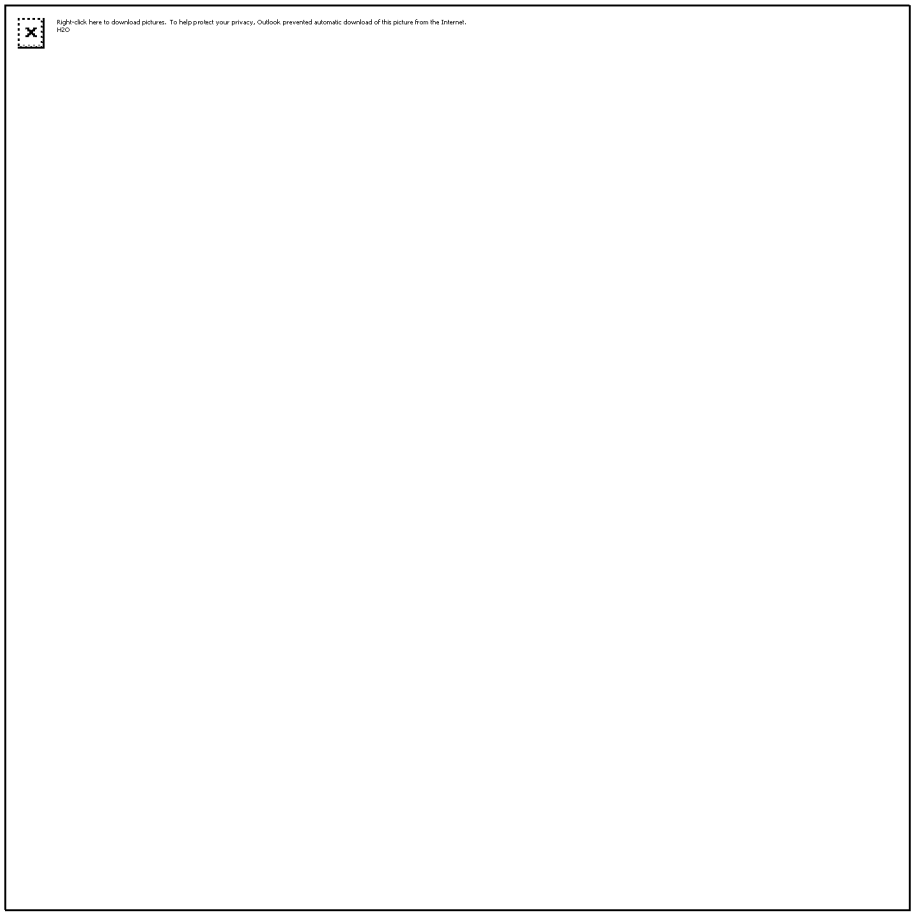
Subject: Contributing time, muscle and money



During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.



Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

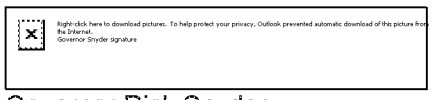
I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,



Governor Rick Snyder

Dear Hayes Families,

Hayes Student Council is sponsoring a water drive for Flint residents. Please consider donating water to them in this time of need. Sealed gallons or bottles of water may be dropped off at the front entrance of Hayes through Friday, February 5th.

Thank you for your help!

Hayes Student Council

Ms. Joni Henretty, advisor

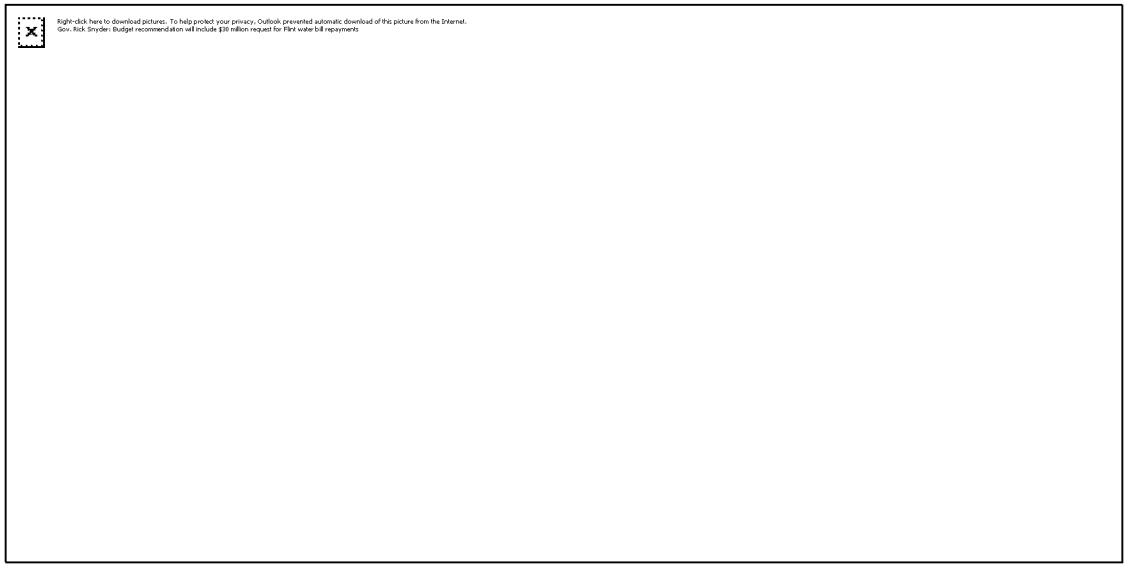
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments



When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

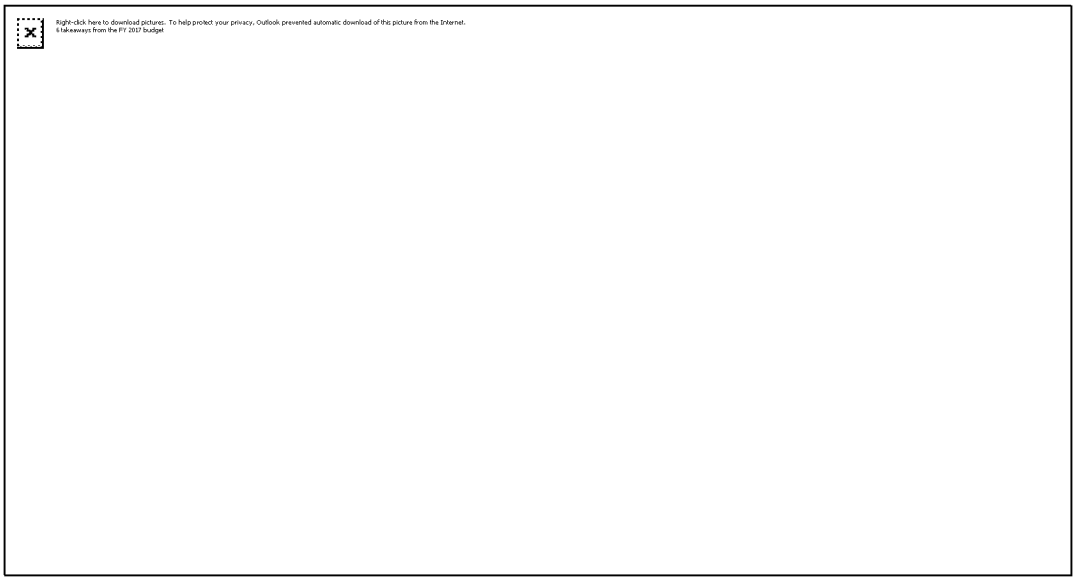
Subject: What this year's budget means for Michigan...

VIDEO: What Governor Snyder's FY17 budget means for Michigan



Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

Click a tweet to tweet it out:

The #MIBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> www.mi.gov/MIBudget

--> @OneToughNerd's #MIBudget includes $72 million a year for Detroit Public Schools. It is time to act now -- > www.mi.gov/MIBudget

--> @onetoughnerd's significant investment in #Flint families is the right thing to do. #FlintFWD #MIBudget www.mi.gov/MIBudget

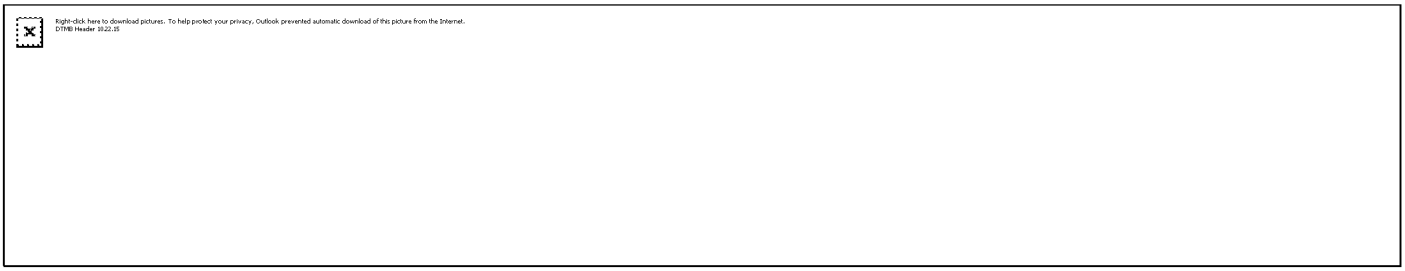
From: DTMB Director and CIO David Behen <dtmb@govsubscriptions.michigan.gov>
Sent: Wednesday, February 17, 2016 10:10 AM
To: Hofmeister, David (DTMB)
Subject: The Gov. Snyder's Budget Proposal



Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Subject: Flint Automobile Accident

I wanted to make you aware that [redacted] who are transporting water in Flint, were returning to VTS on Wednesday evening and were rear-ended while driving a motor-pool van. Both were suffering from pain in the neck and back and sought treatment at a Ready-Care then later at Sparrow. Both have felt they could return to work the next day in Flint and are currently working there. John will be completing a DTMB personal accident report and a Wheels accident report this evening.

Delivery Services

- Revenue – January FY 2016: $191,216 on 174 work orders
- Revenue from move jobs – January FY16: $36,084

OSS Steps Up to Assist in Flint Water Crisis

- Printing Services staff have printed over 1.2 million palm cards and 1 million water testing forms, in English, Spanish and Arabic. These jobs were all quick turnaround – sometimes a matter of hours! Staff stepped up to the challenge! Special thanks to **Mark Miller, Todd Martin, Arnie Castillo, Brad Schumann, Shay Cooper, Tina Luna, Scott Barclay, Dan Chipman, Tom Cooley and William Banks** for going above and beyond in providing excellent customer service!

- The Federal Surplus Property Program received help from the National Association of State Agencies for Surplus Property (NASAP) obtaining bottled water from the South Carolina Surplus Program. South Carolina had an entire warehouse full of bottled water that was left over from a flooding emergency. With the help of Scott Pepperman, of NASASP, MISASP was able to arrange shipping for the water to be delivered to Flint and distributed throughout the city. Approximately 175,000 bottles (92 pallets) of water were successfully delivered to Flint to assist with the water crisis.

- Employees from the Delivery Services Team have been working tirelessly helping out with the Flint Water Crisis since Jan. 9, 2016. They have done a fantastic job and it has been greatly appreciated. Please join me in thanking **Brent Thelen, Jim Thomas, Jeff Bailey, Sam Putmon, Sean Dennison, Brian Cardwell and Steven Kesson**.

- Beginning Jan. 13, VTS Garage employees **John Lance, Kevin Moe and John Patterson** have worked many hours, seven days a week, while putting their family and VTS duties second, assisting with water delivery efforts in Flint. Their primary mission has been to transport pallets of bottled water from a central warehouse to various fire departments. We thank them for their efforts along with their dedication to helping the people of Flint.

Great Examples of Teamwork!

Records Management Services

- DHHS is moving its employees who are currently working in the Capitol View building to the building that MSP is moving out of. The Senate will be moving into Capitol View, and MSP is moving out to the Secondary Complex. DHHS hired a consultant to coordinate the move, and the consultant contacted RMS for help with records management issues. RMS was asked to provide training to the affected employees. RMS taught 4 classes, and 84 people registered to attend the classes. The classes addressed how to identify records that need to be kept, Retention and Disposal Schedules, storage issues, and tips for moving.
- Records Management Services held meetings with local offices in Wayne County from the Department of Health and Human Services to discuss the transition from Iron Mountain to Royal Oak Storage for the storage of its boxes of closed case files. 74 boxes from the Western Wayne County office are scheduled to be picked up and delivered to Royal Oak Storage on February 5, which marks the first boxes sent to the new storage vendor. Approximately 95,000 boxes will be moved from Iron Mountain to Royal Oak.

Records Manager Projects (formerly TRIM)

- The Department of State Human Resources office, already a Records Manager customer, intends to expand its use to its Labor Relations section, using the same configuration already in use by Department of Health & Human Services Labor Relations section. Records Management Services (RMS) will host a meeting with multiple HR offices using Records Manager to go over the labor relations configuration and establish a standardized configuration for use by any HR Labor Relations section.
- The Michigan Department of Transportation (MDOT) signed a charter to use Records Manager for its Human Resources office, leveraging the standardized structure made available through previous HR projects with DHS, MDOS, DTMB, and Quality of Life (DEQ/DNR/MDARD). A training has been scheduled for February 22, 2016, to give the implementation team hands on experience with generic records as part of the standardized structure.

Delivery Services Thanked

- 1/28/2016

  Just wanted to say thank you. The crew was extremely nice, polite and waited patiently to be told where to put file cabinets. They also, didn't get full use of the dock at the Grand Tower because of the semi they had to use. So they had more work than usual moving items from the truck to their destination.

  Just thought I'd pass this along, thank you!

  Michelle Holloway, Project Manager, Bureau of Organizational Services

MDHHS
Michigan Department of Health & Human Services

New Staff

The ID Mail area welcomed another new employee to their team on Jan. 4, 2016. Colleen Rupert has taken the position of Motor Vehicle Operator 6 (MVO6). Please welcome Colleen to our team.

Are You Reviewing Your Old Email?

The implementation of the DTMB policy on Email Management has been postponed until March 13, 2016, in order to give staff more time to properly file their email records.

Mailing Services

- Logistics & Operations Support (LOS) is currently working with Michigan Department of State (MDOS) on updating the Service Level Agreement (SLA) for the renewal by mail program. Copies of the current SLA have been shared with MDOS and the re-write process will soon begin.
- Mailing Services presented to the IT Assets servicing Treasury regarding the sunset of Optical Mark Recognition (OMR) technology used to match multi page document sets for mailing letters. LOS is working on identifying all Treasury applications using OMR and statistical data outlining the benefits of using a higher integrity code to minimize data breaches in the mailing process.
- A joint project has been started to link all Michigan Department of Health and Human Services (MDHHS) Business Reply Mail (BRM) accounts to DTMB's United States Postal Services (USPS) Central Account Processing System (CAPS) to centralize all service payments and cost monitoring. Mailing Services currently has linked 42 BRM accounts for MDHHS. Linking the remaining offices will simplify the process by making direct payments to the postal service for individual account activity. Locally managed accounts will benefit by not having to maintain a fund balance with the serving post office, ensuring mail will not be held for the lack of funds, and eliminate the need for local self-monitoring of fund balances statewide. Mailing Services has enlisted the help of the Postal Service to link the remaining identified MDHHS accounts into DTMB's CAPS system.
- Mailing and Financial Services met with the Sigma development group to finalize the design of the MS Order System. Clarification of content, updates of Sigma department coding, contact personnel on the order system, and user direction have been updated for the Sigma designer to be placed in the system.
- LOS is progressing with the EFI/PACE/Storefront implementation. Discussions related to non-state mailing account coding are under advisement with financial services. The reason being, the current coding of non-state accounts are not compatible with EFI/PACE requirements. Financial Services is reviewing the code changes requested for PACE to ensure these will not adversely affect the current billing data base process.
- In line with Executive direction, Mailing Services conducted Action Plan Update meetings with all of our staff. An advance copy of the current Action Plan was provided to each employee so as to gather input regarding updates they may have to offer to the current plan. During the sessions with staff, an in-depth review of current actions and expected outcomes were discussed so staff could help in identifying gaps that can be measured in the new plan.
- Mailing Services has established a rate committee to identify and accurately define service rates with DTMB Financial Services. The committee meetings, now scheduled bi-monthly, have been invaluable in bringing understanding to the process and gathering data to accurately determine service rates going forward. Outcomes for the meetings include; accurately identifying and placing costs, building an annual rate setting worksheet, assigning responsibilities to provide accurate data, monitor and provide a mailing trend analysis and cost projection reviews as a committee.
-

Thank You Notes

- *To: Tom Goodine*

  Thanks Tom. You are always Mr. Dependable, and pretty darn fast too.

  Deanna Anderson, MSHDA

- *To: Mike Armstrong*

  Thank you for the update as well as your hard work and promptness with this project! It's greatly appreciated!

  Autumn Spitzley, Graphic Arts Designer, DNR Wildlife

- *To: Tom Goodine & Shelly Millimaki*

  Thanks, Tom. I almost CC to you and thank you Shelly for forwarding the message. I will let my LAW person know. Thank you both for your help!

  Jennifer Sochor, DNR

Vehicle and Travel Services

- VTS consultants met with GM Fleet Account Executive Connie Scarpelli and GM Sales Support and Police Vehicle Specialist Todd Little to discuss the delay of the Impala Limited and Chevrolet truck issues. The production of the fleet Impala Limited was delayed from Dec. 10 through Jan. 14 with final vehicle orders being excepted through mid-January.
- Staff from the VTS Garage and Canfield Equipment worked together in an effort to save costs on beacons and hood signs for MSP vehicles. Canfield Equipment picked up a large quantity of used beacons and hood signs from VTS that have been removed from retired MSP vehicles. These used beacons and hood signs will be reconditioned and reused on new MSP vehicles. MSP is not required to purchase all new parts for their patrol vehicles, and recycling these items saves money.
- A number of VTS staff attended the 2016 North American International Auto Show held at the Cobo Center in Detroit. This is an opportunity to preview the new model vehicles on display and talk with company representatives about current and future product offerings. Vince Reynolds and Ronda Greko also had the opportunity to attend the "Pre-Show" Product Preview" and talk one-on-one with Ford and Chrysler Representatives along with Company Executives, Engineers and Designers.
- GPS Telematics Update: VTS Consultants working with their Telematics Vendors and participating departments continue to meet and discuss reporting options, what works and what doesn't, and any issues that come up. Vince Reynolds attended a high level meeting with MDARD Deputy Director, Division Directors, Supervisors, and Managers who met with GPSInsight Representatives. GPSInsight demonstrated the overall capabilities and limitations of the system. They also showed some of the reporting functions. This presentation was scheduled to determine what educational opportunities might be used with the pilot participants. The presentation was received very highly by the MDARD staff and online, follow-up sessions were scheduled for the following week so that the attendees could observe the system function in real time.
- VTS Garage staff loaded a cube truck full of surplus plastics and delivered to Louis Padnos for recycling.

Printing Services in High Gear

- January was a huge "tax" month for Printing Services.
    - Completed development and printing of the annual DTMB OFM 1099 statement. There were a total of 58,521 images printed.
    - Completed development and printing of the annual DTMB OFM W2 statement. There were a total of 61,208 images printed.
    - Completed development and printing of the annual MDHHS W2 statement. There were a total of 64,118 images printed.
    - CPC successfully completed the MDHHS CHAMPS 1095B printing project. There were a total of 279 print files, each file consisting of 40,000 images. The entire project resulted in 11,160,000 printed images.
    - Completed development and printing of the annual MSHDA 1099 statement. There were a total of 11,052 images printed.
    - Completed development and printing of the annual MSHDA 1099G statement. There were a total of 682 images printed.
    - Completed development and printing of the annual ORS 1099 statement. There were a total of 286,576 images printed.
- Printing Services completed a rush project for Treasury in less than 4 hours! Treasury contacted us with a request to print 70 copies of a document on light green paper. The order was received at 4:00 p.m. but the specifications were much different! The quantity was still 70, but the paper and bindery requirements had changed. Despite the changes, the job was still able to be completed and delivered before noon! Great teamwork by Printing Services staff to meet our customer needs!
- The Pace implementation is on-going. EFI will be on-site the week of Feb.1, to implement the Fiery Central (which will allow our Xerox printers to communicate with Pace) and the update to our online ordering system.
- Printing Services completed the quarterly Voya printing. The statements consisted of over 1.1 million images. In addition, newsletters, seminar schedules and performance numbers were produced as well. This quarter's printing also included the MPSERS Pension Plus and DC statements and inserts, which are completed twice a year.
- CPC finalized our responses to the findings from the August IRS Safeguarding Audit. The outstanding issue with Xerox on a security patch for the IRS overlay on the Nuvera controllers has been resolved. Printing Services is now 100% compliant.
- Printing services was contacted by DTMB Building Operations who were need of an emergency sign for their GOB construction site. Electrical inspectors had threatened to shut down their construction if an electrical sign wasn't installed. **Molly Perry** was able to produce a sign for them within a few hours, which allowed Building Operations to continue to work! Great job, Molly!

Printing Services Now in Con Hall

- DTMB Office of Performance Management graciously allowed Printing Services consultants to occupy a vacant office in their area in Constitution Hall. We moved into that space on Jan. 20. It is on the 1st floor of Constitution Hall in the northwest tower.

Warehouse Services

- The on-going project to move Depot Logistics into the General Services Building is still on track to hit our April timeline. In January, we began preparing the building for the move by making some adjustments to racking, cleared an area where Printing Services will have a new rack installed, and cleared some racking at the current Depot location that will be brought over to GSB.

- The next phase of work will include having a vendor move some racking from Depot to GSB, as well as constructing cubicles, setting up data and power lines, and final configurations of the Depot layout.

Appreciation to Printing Services

- ***From:*** *Khouri, Claire (GOV)* ***Sent:*** *Monday, January 18, 2016 3:39 PM*
  To: *Monroe, Jerry (DTMB) <monroej1@michigan.gov>*
  Subject: *RE: SOTS Materials-- Program*

I think we might be all set and not need any additional copies printed of new materials… Again, thank you so much for your help this year! As always you have been amazing to work with and the service you provide is exceptional!

- ***From:*** *Doll, Jeanette (DTMB)* ***Sent:*** *Friday, January 22, 2016 11:22 AM*
  To: *Miller, Mark (DTMB) <millerm13@michigan.gov>*
  Subject: *RE: 300 Palm Cards*

Wow – you are fast!! DHHS says YOU ROCK! Thank you for going above and beyond!

- ***From:*** *Wanamaker, Kurt (LARA)* ***Sent:*** *Monday, January 25, 2016 2:07 PM*
  To: *Monroe, Jerry (DTMB) <monroej1@michigan.gov>*
  Subject: *Approved Proof*

YOU ARE THE BEST! Thank you and your team for all that you do. I appreciate everything!!!

Kurt Wanamaker, Consultation Education and Training Division, Michigan Occupational Safety and Health Administration

- ***From:*** *Peters, Cynthia (DTMB)* ***Sent:*** *Thursday, January 28, 2016 1:21 PM*
  To: *Miller, Mark (DTMB) <millerm13@michigan.gov>*
  Subject: *RE: SOMCAFR*

  I'm a bit tardy… but great job on the SOMCAFRs. Thanks!

MICHIGAN DEPARTMENT OF
DTMB TECHNOLOGY, MANAGEMENT AND BUDGET

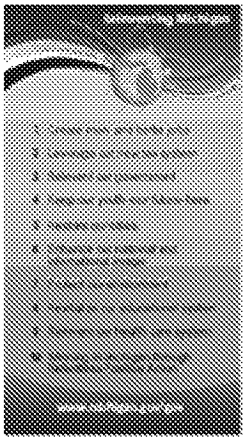
HELP. CONNECT. SOLVE.

Next week, DTMB employees are invited to an open house to learn more about the hard work the Data Center Operations team does on a daily basis. Join fellow employees on Wednesday, Feb. 17, from 11:00 a.m. to 2:00 p.m. at the Secretary of State Building, 7064 Crowner Drive, State Secondary Complex. A self-guided tour will give you the opportunity to speak with data center staff and learn about:

- Data Center Operations Facilities
- Disaster Recovery
- Enterprise Monitoring
- Enterprise Platforms
- Imaging and Scheduling
- Michigan Configuration Management Data Base (MiCMDB)
- Service Management
- Tape Library

Please bring your State of Michigan ID and your Driver's License or another picture ID to check in with data

center security.



Value for Money Government Group Report

MiStat Review
Feb-16

Mission: The Value for Money Government group supports and enables effective and efficient state operations while protecting state assets through diverse partnerships.

Vision: We will make the State of Michigan one of the most innovative, efficient and responsive governments in the world.

Activities that support dashboard measures

	Prior	Current	Progress
Credit Rating	Moody's: Aa2 (positive) (2014) S&P: AA- (stable) (2014) Fitch: AA (stable) (2014)	Moody's: Aa1 (stable) (2015) S&P: AA- (positive) (2015) Fitch: AA (stable) (2015)	= = —
Government Debt Burden Per Capita	$785 (2013)	$758 (2014)	👍
State Government Operating Cost as a Percentage of State Gross Domestic Product	14.9% (2012)	14.6% (2013)	👍
State and Local Government Operating Cost as a Percentage of State Gross Domestic Product	21.40% (2012)	20.70% (2013)	👍
Access to State Government – Number of Online Services	271	276	👍

👍 Performance improving = Performance staying about the same 👎 Performance declining

Issue 5 - **Department of Technology Management and Budget**

- **MiPage:** DTMB is working to identify and promote opportunities for high value mobile conversions and MILogin candidates. Current conversion projects include: TAMC for MDOT, Fishing Tournaments application for DNR, Wildfire application for DNR, and a mapping project for MEDC. DTMB is offering conversion services, and we is also soliciting responses for a pre-qualified vendor list to help agencies with the mobile conversions if they would prefer to work with an outside vendor. Thus far, 18 responses have been received to the pre-qualified vendor RFP. We anticipate finalizing this list by the end of March, 2016. A new MiPage release was available in the app stores the week of January 25th, and additional releases are planned for spring (5/29/2016) and summer (8/28/2016).
- **Cyber:** Michigan continues to face over 12 million cyber attempts per day. Recently, so-called hacktivist groups have targeted the state in response to the Flint water crisis. The City of Flint and Hurley Hospital in Flint have been targeted as well. Since this threat was announced, DTMB has worked organized a cross-lateral team of experts to ensure that we are able to respond as quickly as possible to potential threats. Specifically, DTMB has been working with MSP, the National Guard, the City of Flint, IBM, and other private sector partners.
- **CAR:** DHHS is moving from the Capitol View Building to 333 W. Grand Ave 1st - 5th floors. Phase #1 begins May 20, 2016, phase #2 follows starting on June 3, 2016, and phase #3 is slated to begin June 10, 2016. Crime Victim Services and Developmental Disabilities Council will be moving to Grand Tower 11th floor and Lewis Cass garden level. Details about Aging & Adult Services Agency and the Business Integration Center are being developed. MSP moves from 333 W. Grand Ave. to 7150 Harris Dr. Diamondale. Phase #1 was planned to begin December 11, 2015, phase #2 is planned for March 11, 2016, phase #3a Aril 1-7, 2016, phase #3b April 8, 2016, and phase #3c April 15, 2016.
- **Operational Excellence & RPM Reviews:** DTMB has examined root cause(s) for IT projects that over budget and anticipated timeline. Automation of inefficient business processes was found to be a root cause of these issues. In order to develop the best solution possible and stay within budget, DTMB and the Office of Good Government will work with agencies to ensure that the underlying process business has been reviewed and optimized before commencing work.

Issue 2 - **Michigan Gaming Control Board**

- **Commercial Casinos**:
  - Total revenue for calendar year 2015 was $1.38 billion, up 3.3% compared to calendar year 2014
  - Taxes- $174.3 million paid to the City of Detroit and $111.5 million paid to the State in 2015.
- **Non-Gaming Suppliers- Board Resolution 2015-01:**
  - Increased the thresholds for non-disclosure from $15,000 to $50,000 per casino
    - 24% decrease in the number of vendor exemptions in 2015
  - Increased the thresholds for a vendor exemption from $300,000 per casino ($600,000 total) to $400,000 per casino ($1,200,000 total)
    - 20% decrease non-gaming license requests for low-volume suppliers in 2015
    - 50% decrease in processing time for exemption applications (42 to 21 days)
- **Millionaire Parties (MP):**
  - In 2015 the number of suppliers and locations have remained relatively static compared to 2014
    - Current number of locations is 50; Current number of suppliers is 33
  - In 2015 there was a slight decrease in the number of event days
    - Total event days in 2015 was 10,146 compared to 10,508 in 2014
  - 70 indictments in 2015 and 2016 involving 10 defendants issued by the Attorney General's (AG) Office as a result of AG, MGCB investigations
- **Horse Racing:**
  - 90 total race days scheduled in calendar year 2016
    - 60 days of harness racing at Northville Downs; 30 days of thoroughbred racing at Hazel Park
  - Numerous meetings have been held with the various stakeholders to try to reach a compromise on legislation that would help the industry
- **Daily Fantasy Sports (DFS):**
  - 11 states have declared DFS illegal
    - 10 states have introduced legislation to legalize, or tax and regulate DFS, including Michigan (SB 0459)
  - MGCB board members are asking for information on DFS

Issue 3 - **Lottery**

- Fiscal Year 2015 was a record year with gross sales at approximately $2.771 billion (a 6.8% increase from last year) and a contribution to the school aid fund of approximately $795 million (a 7.2% increase from last year).
- **iLottery:** program continues to grow. Average net-win (bets minus prizes) over the last eight weeks was approximately $580,000 per week (a 28.9% increase from the weekly average reported last July). Sales of draw-games (Classic Lotto 47, Fantasy 5, Mega Millions, and Powerball) have started this month.
- **Pilot program:** Charitable Gaming Division is pilot testing a new charity-ticket dispensing machine for use by licensed nonprofit organizations. The pilot consists of 57 machines at 20 different locations. Average daily revenue from charity-ticket sales per machine is close to $100 a day, which is statutorily divided 60% to the licensed nonprofit organizations and 40% to the Charitable Gaming Division (and subsequently to the general fund). Total revenue from tickets sold through these dispensers to date is approximately $1.3 million (with roughly $530,000 going to Charitable Gaming).

Issue 4 - **Office of Children's Ombudsman**

- Case backlog reduction from approximately 85 down to 3 (3 cases related to an employee performance improvement plan currently underway)
- In the testing stages of the CRM case management database- Go-live scheduled for the first week of February
- New investigators have been trained and are closing cases within established timeframes
- Office and staff efficiency optimization
    - Relocation/space optimization
    - Cohesion
    - Consistency
    - Fiscally prudent
- Leadership principles applied- teamwork/accountability/communication

Issue 1 - **State Budget Office**

- **SIGMA:** The re-planning for Phase 1.5 and Phase 2 is complete and the re-baseline of Project SIGMA was approved by the Project Executives, Governing Board Co-Chairs and Executive Sponsor. Agency work related to re-planning is complete. Weekly project health checkpoints have been completed to review schedules and status prior to Agencies generating their 4UP reports. Agencies have attended the majority of the Functional Design Showcases which highlight key design decisions and business processes associated with functionality being implemented in Phase 2. The presentation for End to End Processes is scheduled for week of February 1st with Security and Workflow being addressed in March.

Issue 6 - **Treasury**

- **MTO Optimization Deliverables by Release November 2, 2015:**
    - Over the next 4 months:
        - Implement a single password, this has been one of the biggest pain points for the user community (Completing via Release 1)
        - Reduce the number of steps needed for authentication (Completing via Release 1)
        - Rebranding MTO to make improvements to the look and feel (Completing via Release 1)
    - Over the next 4 to 6 months, additional improvements will be implemented, such as:
        - Increased functionality for password resets (Completing via Release 1)
        - Inactivity alert before expiration (Completing via Release 1)
        - Continued improvements to MTO look so the user feels that they are in a single site from start to finish (Completing via Release 2, 3, n)
    - Over the next 7 to 16 months:
        - Auto-population functionality (Completing via Release 3)
        - Improved delegation process (Completing via Release 1)
        - Delivery of email confirmations after returns are submitted (Completing via Release 1)

** Release 1 (January 11, 2016); Release 2 (April 2, 2016) and Release 3 (December 2016)

Subject:	Mandatory Meeting - DTMB Custodians of Correspondence Related to Flint
Location:	Ottawa Builidng - Upper Level – Conference Room 4 OR Call-in: 866-390-1828 access code: 1842654
Start:	Thu 2/18/2016 2:00 PM
End:	Thu 2/18/2016 3:00 PM
Recurrence:	(none)
Meeting Status:	Accepted
Organizer:	DTMB-Directors-Office
Required Attendees:	Behen, David (DTMB); Donnan, Chanda (DTMB); Buhs, Caleb (DTMB); Davenport, Rodney (DTMB); Gelisse, Ashley (DTMB); Gilliland, Michael (DTMB); Spaniolo, Natalie (DTMB); Wilke, Lacey (DTMB); Stansfield, Marsha (DTMB); Ballard, Denice (DTMB); Hampton, Trisha (DTMB); DeCamp, Greg (DTMB); Gibson, Jennifer (DTMB); Hengesbach, Dane (DTMB); Ingersoll, Jean (DTMB); Jeffery, Phillip (DTMB); Philip, Brandon (DTMB); Kopacsi, Christian (DTMB); Doll, Jeanette (DTMB); McKee, Ryan (DTMB); Pratt, Jeff (DTMB); Knapp, Kathy (DTMB); Bidelman, Craig (DTMB); Bussema, Terry (DTMB); Rokely, Rick (DTMB); Tefft, Niki (DTMB); Schlegel, Nicolle (DTMB); Parker, Alexandrea (DTMB); Keilen, Elizabeth (DTMB); McPherson, Victoria (DTMB); Christensen, Chris (DTMB); Lawson, Michelle (DTMB); Nevai, Tom (DTMB); Evans, Carter (DTMB); Fick, James (DTMB); McKee, Robert (DTMB); Perry, Blane (DTMB); Riddering, Eric (DTMB); Rodgers, Anthony (DTMB); Trial, Larry (DTMB); Thompson, Kyleigh (DTMB); Glomski, Tom (DTMB); Seger, Seth (DTMB); Lee, Timothy (DTMB); Sikkema, Tyler (DTMB); Manning, Kelly (DTMB); McFarlane, James (DTMB); Galeazzi, Tiziana (DTMB); Das, Rajiv (DTMB); Pung, Linda (DTMB); Hogan, James (DTMB); Westfall, Laurie (DTMB); Palmer, Jason (DTMB); Stibitz, Brom (DTMB); Trakul, Pamela (DTMB); Swanson, Eric (DTMB); Blastic, Laura (DTMB); Furseth, Kristen (DTMB); Brancheau, Laura (DTMB); Sebok, Yvonne (DTMB); Stankiewicz, Richard (DTMB); Vera, Jason (DTMB); Jehnsen, Jeremy W (DTMB); Jodway, Kenneth (DTMB); Newman, Jeremy (DTMB); Vijayaveeraraghavan, Anupkumar (DTMB); Harmon, Paul (DTMB); Root, Everett (DTMB); Pauley, Suzanne (DTMB); Thompson, John (DTMB); Nolan, Anne (DTMB); Peterson, Rick (DTMB); Stiffler, Michelle (DTMB); Patke, Sunit (DTMB); Estill, John (DTMB); Seckelman, Joe (DTMB); Martin, Ellen (DTMB); Aprill, Brian (DTMB); Ross, Josh (DTMB); Locke, Joel (DTMB); Cross, Steven (DTMB); Clark, John (DTMB); Olkowski, Tony (DTMB); Noldy, Scott (DTMB); Baer, John (DTMB); Dickinson, Holly (DTMB); Post, Corey (DTMB); Cantin, David (DTMB); Brun, Jeremy (DTMB); Hartsuff, Lisa (DTMB); Kosloski, Joni (DTMB); Jordan, Gerald (DTMB); Sweeney, Matthew (DTMB); Turnquist, Michael (DTMB); Morgan, Dan (DTMB); Droste, Kerri (DTMB); Paasch, Keith (DTMB); Scates, Larry (DTMB); Noonan, Michael (DTMB); Walts, Brian (DTMB); Martin, Ric (DTMB); Burns, Robert (DTMB); Doxie, William (DTMB); Clark, Jim (DTMB); Bailey, Maureen (DTMB); Bos, Troy (DTMB); Phillippo, Jamie (DTMB); Spitzley, Troy (DTMB); Darby, Marchan (DTMB); Hawes, Keith (DTMB); Wright, Seth (DTMB); Rambo, Carolyn (DTMB); Millimaki, Shelly (DTMB); Nelson, Christopher (DTMB); Murphy, Chris (DTMB); Clark, Stephanie (DTMB); Cischke, Roy (DTMB); Hofmeister, David (DTMB); Reynolds, Vince (DTMB); VanCoevering, Joyce (DTMB); Ragla, Beth (DTMB); Shaw, Gary (DTMB); Wonn, Michael (DTMB); Thompson, Kristi (DTMB); Goodine, Tom (DTMB); Armstrong,

Required Attendees:	Mike (DTMB); Doyle, James (DTMB); Hampton, Kristen (DTMB); Miller, Mark (DTMB); Cooley, Tom (DTMB); Waltersdorf, Rex (DTMB); Monroe, Jerry (DTMB); Bergan, Kristin (DTMB); Banks, William (DTMB); Dyson, Mike (DTMB); Stiles, Dan (DTMB); Chipman, Dan (DTMB); Hodgman, Steve (DTMB); Martin, Todd (DTMB); Weston, Jessica (DTMB); Fitton, Scott (DTMB); Sample, Brice (DTMB); Vanden Bosch, Kerrie (DTMB); Wellman, Jeff (DTMB); Brownlee, Jeff (DTMB); Maynard, Sharon (DTMB); Calahan, Heather (DTMB); Cook, Rebecca (DTMB); Hayes, Genevieve (DTMB); Riehle, Jenni (DTMB); Falik, Tom A. (DTMB); Pemble, William (DTMB); Sambiagio, Melissa (DTMB); Cieciwa, Sue (DTMB); Hunter, Lymon (DTMB); Dufour, Yvon (DTMB); Camp, William (DTMB); Hatch, David (DTMB); Troub, Shelby (DTMB); Epps, Stephanie (DTMB); Herman, Christyn (DTMB); Bliss, Mike (DTMB); Guardiola, Jamie (DTMB); 'jfoley@us.ibm.com'
Optional Attendees:	Stanaway, Deb (DTMB); Huhn, Jacqueline (DTMB); McQuaid, John (DTMB); Reasner, Richard (DTMB); Rakowski, Rock (DTMB); Gonzalez, Tonyia (DTMB); Doerr, Stephen (DTMB); Isaacs, Jan (DTMB)

Please note this meeting can be attended in person or via conference call-in. Location and Dial in information are provided below.

All DTMB Custodians of Correspondence Related to Flint.pdf
***This attachment was updated 2/18/16**

*See agenda below

Requested By:
DTMB Executive Staff

Location:
Ottawa Building
Upper Level – Conference Room 4
611 W. Ottawa Street
Lansing, MI 48933

Call-in: 866-390-1828
Access code: 1842654

Security:
Please have your State Employee ID showing at all times.

Parking:
Metered parking is available along Ottawa and Pine street.

Briefing:
In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Agenda

1. Kickoff – Brom Stibitz, Chief Deputy Director

2. Why you are here – Jean Ingersoll, Interim Chief of Staff
3. What you need to do (February 22, 2016 deadline) – Jean
4. What will be done for you – Jean
5. What's next – Jean
6. Public Information Reminder – Caleb Buhs, Public Information Officer
7. Questions and Answers - Group

FROM: Jean Ingersoll, Interim Chief of Staff to David B. Behen, Director and CIO

SUBJECT: Flint Document Production – Search Terms and Guidance

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. **As a custodian, you are required to produce any documents containing the search terms listed below, no later than Monday, February 22, 2016.** This memorandum contains detailed instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Microsoft 365 – Outlook (*includes emails, calendar items) and OneDrive*

DTMB staff will centrally coordinate the Microsoft 365 search for all of DTMB's custodians. Therefore, DTMB's custodians *do not need to independently search any of their Microsoft 365 applications* for the search terms listed below.

Network Drives

Similar to the approach outlined above, DTMB staff will centrally coordinate the network drive search effort for all DTMB custodians. Custodians do *not* need to independently conduct a network drive search for the search terms below.

Non-Network Drives – *includes hard drives, desktop, and thumb/flash drives*

For all non-network drive types, ***each custodian will need to search every search term listed below in every non-network format, and move all relevant/related documents in to a network drive for collection. In order to move items to the network, you must be connected to the network.***

Start by conducting the search of all non-network drives, filling out the attached search term checklist as you go. If you need guidance as to how to perform this search, a step-by-step guide is included below in Appendix 1.

All relevant/responsive items that are produced as a result of your search need to be moved to a network drive. You can move your relevant/related documents to a network drive in whatever format the document is currently in. After the February 22, 2016, deadline, DTMB staff will access the network drives to collect the files.

Paper Files

Review all applicable paper files. Scan any relevant/related documents, and save them to a network drive, as described above. If this is not possible, you may provide hard copies of documents to Jean Ingersoll in the Director's Office. These documents must be received in the Director's Office by February 22, 2016, and will not be returned to you.

Home Computer

Any relevant e-mails or other documents on a personal computer also are subject to this request. Please check your personal computer for any e-mails or other documents relating to this search. If you discover any relevant/related documents, please include the phrase "personal computer" in the file name, and save them to the aforementioned network drive.

Conclusion

Thank you for your cooperation in complying with this request. Should you have any questions, please contact Jean Ingersoll at 1-8844.

- FOIA Checklist
- Attachment 1 – Search Guidance

Search Term Checklist

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB network drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Relevant/related items from the past 10 years should be included.

You should search for *each term exactly as it is shown below, and include quotation marks around each separate word.* For example, "Legionnaire", "Legionella", or "Flint" would all go into search fields. After you complete a search term, check the box beside the term.

Search Terms:

- ☐ "Legionnaire"
- ☐ "Legionella"
- ☐ "boil water order" & "Flint"
- ☐ "coli" & "Flint"
- ☐ "bacteria" & "Flint"
- ☐ "microb" & "Flint"
- ☐ "TTHM" & "Flint"
- ☐ "Lead" & "Flint"
- ☐ "emergency" & "Flint"
- ☐ "Karegnondi"
- ☐ "Genesee County Health Department"
- ☐ "Flint" & "utilities"
- ☐ "Lead and Copper Rule"
- ☐ "Detroit Water and Sewerage Department" & "Flint"
- ☐ "DWSD" & "Flint"
- ☐ "Flint River"
- ☐ "Pb" & "water"
- ☐ "KWA"
- ☐ "Flint" & "water"

Search conducted on the email account of: _____

By (your name): _____

Date completed: _____

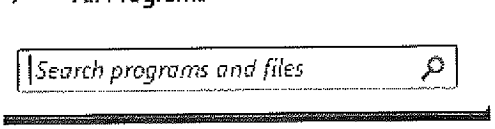
Please return this completed Checklist to DTMB Director's Office staff by Monday, February 22, 2016, at DTMB@michigan.gov, or Directors Office, Cass Building, Second Floor

APPENDIX 1 – Search Guidance

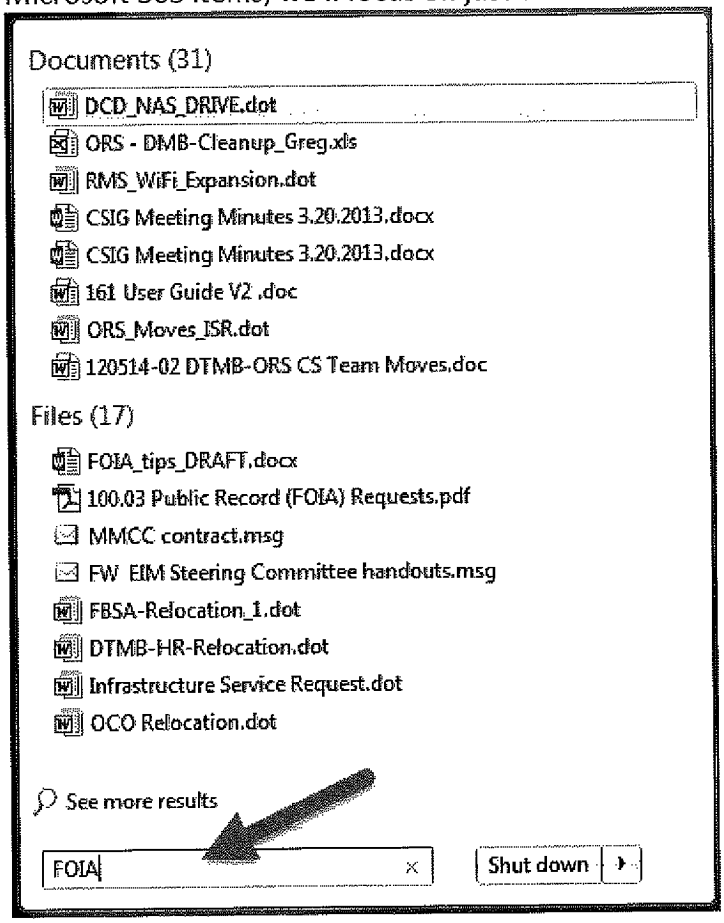
Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer," you see it every time you open up a folder on a network drive, or on your own computer.

Using the search function in windows 7

Since the majority of DTMB is on Windows 7, the examples below are on that operating system. If you click on windows Start button, you'll see the search box right next to it

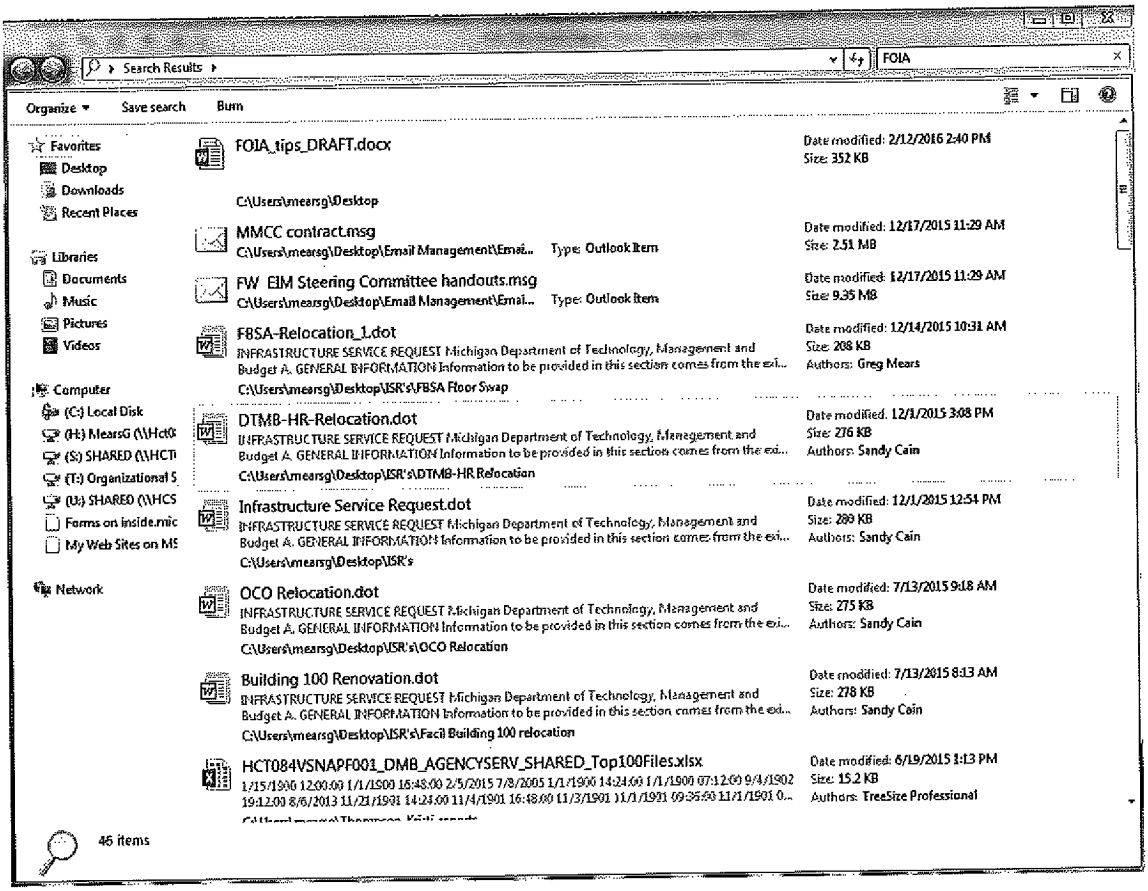


This example searches for the word FOIA. As you can see, the search yielded numerous documents including emails. Since DTMB is centrally collecting relevant emails and other Microsoft 365 items, we'll focus on just the documents.



You need to open each document to make sure that it's relevant. In this instance, the search brought up a DTMB Move form, but only because it has the word FOIA in the form.
You'll notice that the words "See more results" appears at the bottom of the list. This means that the search turned up a lot more documents than what can easily be displayed. You must

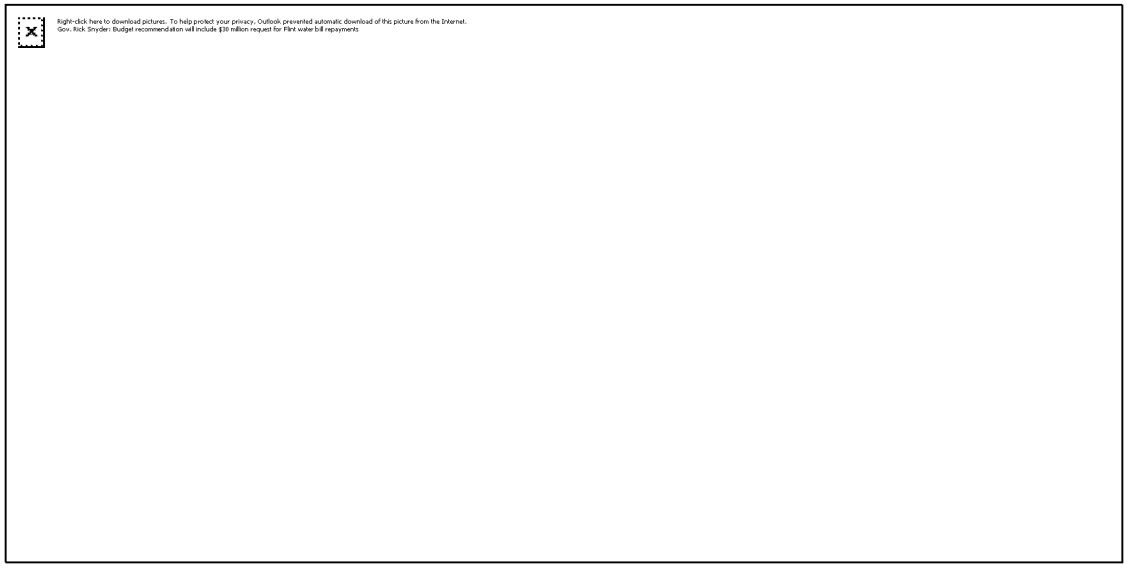
click on the link to open Windows Explorer and reveal a comprehensive list, along with their locations.



As you can see from this example the search found 46 items. We can now select them all using the "Ctrl-A method", and copy them to a network drive.

From: Governor's Office <governorsoffice@govsubscriptions.michigan.gov>
Sent: Wednesday, February 03, 2016 6:17 PM
To: Ingersoll, Jean (DHHS)
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments



When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

Mel,

URGENT REQUEST

Please check with program staff to determine if an amendment request is necessary for the MOU agreement with Flint Community Schools, to address item FLNT16-09 on the attached spreadsheet for the Flint Water Crisis. It is possible new MOUs may need to be established with other school districts.

This action is appropriated under P.A. 3 of 2016 Sec 501 (b)
http://www.legislature.mi.gov/documents/2015-2016/billenrolled/House/pdf/2016-HNB-5220.pdf is the link to the Public Act.

Thanks,

Christine H. Sanches

Michigan Department of Health and Human Services
Public Act 3 of 2016
FY16 Flint Supplemental #2 (January 2016)

	Appropriation	Description / FTEs	GF/GP	State Restricted	Federal	Gross	Detailed Description
FLNT16-01	**Food Inspections**		$ 200,000			$ 200,000	
		- These funds would be used to support Genesee County's Food Safety Division which has delegated authority from MDARD for inspection and response activities at licensed food service establishments (i.e. restaurants, schools, hospitals, etc.).					
		- These funds will go to support an additional field inspector and the backfill of the Environmental Health Manager.					
		- The additional inspector is needed to assist with the implementation of the new restaurant and food service facitlities water sampling requirement which will require initial and complaince review inspections. Inspection rate intervals will also likely increase because County Health Officials will need to perform additional compliance reviews given the latest emergency declaration.					
		- The Environmental Health Manager is necessary to coordinate inspection and compliance review schedules, coordinate with other county resources for data collection and reporting at the state and county levels, and coordinate other IT issues related to system monitoring.					
		- These staff will be limited term staff. Currently the approp for local health department food safety is part of the public health budget and DHHS has always funded the state portion of this function.					
		- These funds have not been increased in years.					
FLNT16-02	**Other Medical and Behavioral Health Concerns**		$ 275,000			$ 275,000	
	- Med Team	-These funds will finance a team of experts to assess any potential linkages from the increase in Legionairre's disease with the changeover from the Detroit to Flint water systems.					
FLNT16-03	**Water Resources**		$ 4,612,800			$ 4,612,800	
		-To reflect the ramping up of distribution efforts to local health entities and other community partners, an increase in supply is required for purchases related to water filters, faucet mounts, replacement cartridges and bottles.					
FLNT16-04	**Cost for epidemiologists to conduct detailed analysis of EBL reports**	2	$ -	$ -	$ 145,000	$ 145,000	
		- Supports two contract epidemiologists (MPHI) to analyze blood levels in City of Flint to conduct more specific detailed analysis not currently conducted.					
		- Positions support the review and analysis of the EBL reports for all 13 high risk communities to analyze specifically by zip code, at a more granular level as opposed to county level.					
		- Positions support the analysis of patterns and trends to determine the appropriate next steps and will coordinate with heatlh department.					
		- Previous supplemental did not include epidemiologists with a more detailed focus on blood lead analysis.					
		- Epidemiologists will take data that shows where investigations have occurred, where purchases have been made, to determine whether the high risk areas have been addressed.					
		- Overlay zip code data with those addresses that have received filters to determine how many homes are in the highest need have received filters and where we need to focus our energy in getting out filters.					
		- Use available Maternal and Child Health Block Grant funding.					

	Appropriation	Continuation FTE's	GF	State Restricted	Federal	Gross	Detailed Description
FLNT16-05	**Lead abatement - Field Contractual**	3.5		$ 1,510,000		$ 1,510,000	
							- Costs reflect contractual and service costs to abate lead from 100 additional homes in the City of Flint. October supplemental funded the abatement of 250 homes.
							- Contractual funds will support 3.5 FTEs, 2.5 field consultants to conduct abatement and one to assist with client application and form processing
							- Abatement activities include the replacement of plumbing components, faucets, aerators and fixtures.
							-We have contractual and state staff that currently do this to identify the plan and cost. They will use ETC reports to identify which homes need abatement.
							-These funds do not pay for ETC. These funds pay for contractors to pay for the physical changes to the home, including window, wall or floor replacements.
							-Use Healthy Michigan Fund available lapse funding
FLNT16-06	**Additional lead investigations**	0		$ 90,000		$ 90,000	
	- ETC						- Will support ongoing ETC Inc. contract activities that are determining the sources of lead exposure and develops a plan via a report to the family's nurse case manager to reduce and or mitigate lead exposure.
							-ETC determines all the environmental samples in the home including paint, soil and dust.
							-Samples are all sent to their labs to determine what the highest readings of lead are and a plan to remediate.
							-Reports are generated after lead analysis and shared with nurse case manager to determine a follow up health plan for the family.
FLNT16-07	**Nurse Case Mgt and NFP**	1	500000	$ 25,000	$ 45,000	$ 570,000	
	-Nurse Family Partnership $500,000						-Funds support the increased testing and follow up necessary with the new homes being investigated.
	-One FTE / contract nurse case manager $70,000						-Nurse case managers provide follow up with families, provide nutrition counseling, and coordination with Environmental Blood Level (EBL) investigations through ETC.
							-We expect with the increased testing that the additional nurse / case management will focus on those kids that have already been found to have elevated levels, will manage the health care of those children, will work with the parents to ensure they have everything they need.
							- The additional nurse case manager will be necessary as part of the recent ramp up to address intensified EBL investigations and was not accounted for in the previous supplemental.
							- This individual will provide referrals to relevant benefits/services such as WIC, SNAP benefits, etc.
							- GCHD have noted that nutrition counseling is a big problem and they're looking at this position being the coordinated link between nutrition education and other medical needs.
							- Will inform families that if children eat iron rich diets, then their bodies won't absorb lead as opposed to those who are malnourished.
FLNT16-08	**GCHD and Food Bank**	2	$ 1,037,200		$ 120,000	$ 1,157,200	
	- GCHD Contract $120,000						-Contractual FTEs will work with the Genesee County Health Department (GCHD) to build educational efforts in that community to develop a more detailed education plan.
	-Food bank - $1,037,200						-The FTEs will direct people on where to get healthy food, faucets, and where they can get follow up care.
							- $1 million to expand food bank partnerships in the City of Flint
							- Their work will be part of the promotion of all the healthy behaviors that helps to treat these problems.
							- Flint is already one of the high risk communities for lead exposure in paint, soil and other environmental areas. GCHD has noted that there is big demand on educating the community.
							- This educational component was not part of the previous supplemental.
							- Funds will help with media promotions and will send community groups and community educations out to various individuals working on the lead issue.

Appropriation	Boilerplate FTEs	GF	State Restricted	Federal	Gross	Detailed Description
FLNT16-09 **Ed & Access- CAHC, PtoP, CHAP**		$ 1,570,000			$ 1,570,000	
- CAHCs $560,000						- This proposal will provide funds to support the programs operated by the two existing Child and Adolescent health centers.
- P to P expansion $720,000 & 8.0 FTEs						- Programs will provide medical and other related support services in every school in Flint.
- CHAP $290,000						- Funding will also go to support the Children's Healthcare Access Program to assist clients to establish a primary care medical home or to obtain the timely and essential services as recommended by their primary care provider.
						- These funds are intended to reduce emergency room usage and promote the best evidence based care for the children and provide support for Medicaid children related to transportation, case management, mental health services, and nutrition education access.
						- Proposal also includes funding to expand the Pathways to Potential model to provide support to City of Flint residents connecting them to the proper benefits and getting them the services they need.
						- CAHC are onsite medical clinics in the schools to provide health education and if parents sign consent forms they treat the children for minor issues.
						- They have a general practicitioner.
						- Flint currently has Adolescent Health Centers in high schools (some upper middle schools) - (not child health centers) currently
FLNT16-10 **Nutrition -- WIC**		$ 30,000	$ 927,000		$ 957,000	
- Co-locate WIC staff $872,000						- This proposal will finance the cost of WIC staff that will be co-located within schools and other health centers to increase WIC enrollment and increase the access and availability of WIC benefits.
- Lactation consultant $ 85,000						- Currently, children up to the age of 5 receive services through WIC; this funding would enable children ages 5-10 to receive nutrition education and counseling as well as screening and referral to other social services. ($55,000 Federal & $30,000 GF)
						- DHHS would need to negotiate this proposal with the federal government to receive federal funding.
						- This funding request also dedicates one lactation consultant to the Genesee County Health Department to promote and support breastfeeding education, provide services to protect children from lead exposure, and promote cognitive development.
						- Research shows that children who are breastfed are healthier and have better immunity against diseases.
						- Assume Medicaid funding for the lactation consultant.
						- Have two existing clinics (not necessarily at capacity).
FLNT16-11 **Behavioral Health and MC3**		$ 1,335,000		$ 2,535,000	$ 3,870,000	
- Money to CMHs $3,870,000						- Directly appropriated to CMH to fund crisis services and additional behavioral health and developmental services. ($2,535,000 Federal & $1,135,000 GF)
- MC3 expansion $200,000 GF						- Funds care coordination between key involved entities such as schools, county and local agencies, mental health providers, health providers as well as case management for children and families.
						- Funds an expansion of the Michigan Child Care Collaborative (MC3) program into Genesee County to provide support to PCP and pediatric offices and clinical services to children and families.
						- MC3 is a new program that is only parts of the state and expansion is strongly supported.
						- Funding supports treatment of children with blood lead levels equal to or higher than 10 and also treatment of lead-associated Attention-deficit/hyperactivity Disorder (AD/HD).
						- Treatment includes diagnostic testing, nurse visits, environmental health assessment of home.
						- Assume Medicaid funding.
FLNT16-12 **CMH Crisis Counseling**		$ 500,000			$ 500,000	
						- Crisis support and counseling through Community Mental Health organizations.
Total FY16 Supplemental Funding Request	**8.5**	**$ 10,060,000**	**$ 2,552,000**	**$ 2,845,000**	**$ 15,457,000**

Good morning Melanie,
We currently only have a MOU on file for the School district of the City of Flint. Any additional school districts they would be moving MDHHS workers into we would need additional MOUs signed (which I can get relatively quickly put together).

Additionally, you may not have heard, but Jean has taken another job within the State of Michigan and is no longer with Pathways. Until they find a replacement, all emails can come directly to me.

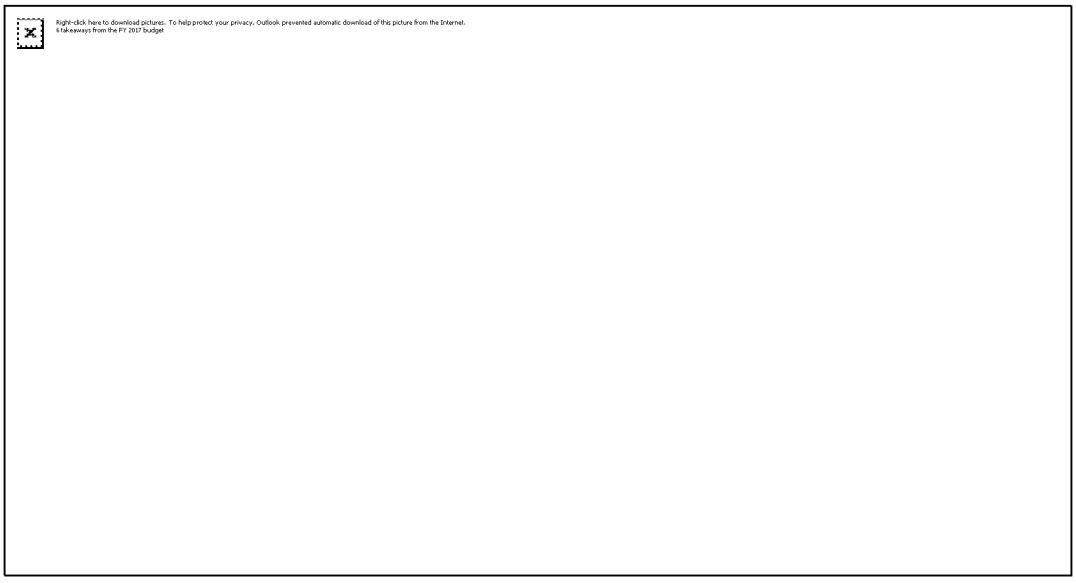
VIDEO: What Governor Snyder's FY17 budget means for Michigan



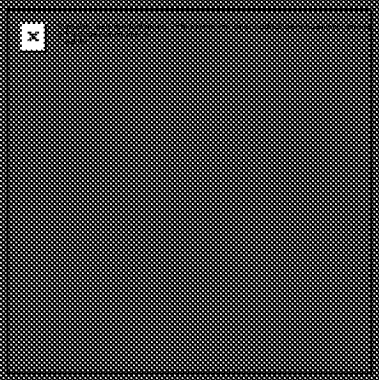
Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of Michigan's families. Click here to learn more about the top 6 takeaways from the

Governor's FY 2017 state budget.

Click a tweet to tweet it out:



The #MIBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> www.mi.gov/MIBudget

--> @OneToughNerd's #MIBudget includes $72 million a year for Detroit Public Schools. It is time to act now --> www.mi.gov/MIBudget

--> @onetoughnerd's significant investment in #Flint families is the right thing to do. #FlintFWD #MIBudget www.mi.gov/MIBudget

Subject: Time Sensitive Request

SMT,

Jean Ingersoll is leading DTMB's effort to comply with document production requests related to freedom of information requests and certain lawsuits against the state.

At some point during the day tomorrow, Jean will share with you a list of standard "search terms" which we will use to compile documents related to this lawsuit.

Within 2 hours of receiving this email from Jean, you need to respond with a list of likely custodians from your work area. Jean may have more information on this tomorrow, but generally speaking a custodian will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.

If you have any questions, please call me or Jean. This is an important issue and I thank you in advance for your attention to this matter.

Brom Stibitz
Chief Deputy Director
Michigan Department of Technology, Management and Budget

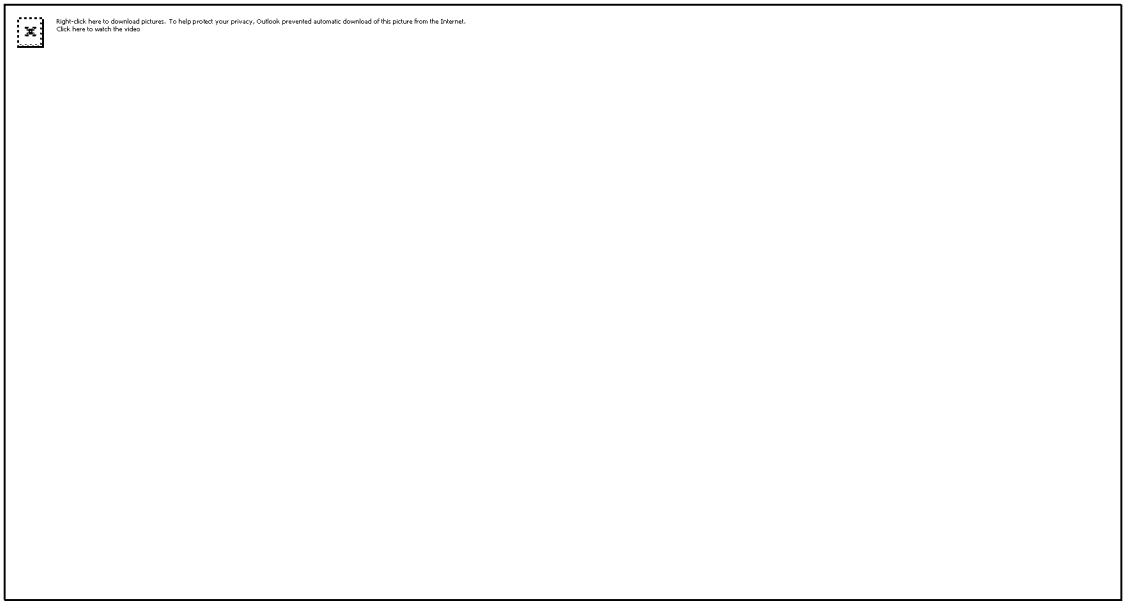
VIDEO: How volunteers are helping Flint



Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Click here to watch the video and learn more about how the Food Bank of Eastern Michigan is helping Flint's families.

Subject: RE: Contacts for Custodian Meeting Tomorrow

Subject:
Mandatory Meeting - DTMB Custodians of Correspondence Related to Flint

Here is the language for the body of the email:

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

They can attend by phone or in person.

Please also add these staff:

1) Kerri Droste
2) Jenni Riehle
3) Christyn Herman
4) Mike Bliss
5) Jamie Gardiola
6) Kristen Furseth

Hi Beverly:
Thank you for your email. I am a bit confused by your email and I would like to clarify. Are you responding only to the request for *system* information, performing the document search for Jason's files only or performing the document searches for other staff?

If you are coordinating searches for staff, Jason's attached email states that: "However, it is my belief that considering the nature of the inquiry, no staff in the Bureau of Labor Market Information and Strategic Initiatives are custodians of documents with the search terms below that relate directly or indirectly to the situation in Flint or the resulting litigation."

Please let me know. Thank you. Jean

Subject: Flint FOIA - DTMB Systems

SMT Members:
In response to the Flint FOIA Project we have compiled a list of DTMB-owned systems that may need to be searched depending on *whether or not the systems listed would reasonably contain any of the search terms* sent on Friday (see search terms below). We are not asking you to perform any searches at this time, additional instructions are forthcoming.

What I need from you is to:

1) review the list and tell me whether the systems listed may contain the search terms (center column);
2) notify me if there are DTMB systems that are not listed that may contain the search terms;
3) tell me who is the individual responsible for performing the search in the system on behalf of the custodians (right column);

This information is due back to me close of business (5:00pm) today, Wednesday.

Electronic/DTMB Systems	E-Mich	Pauley (Swanson) (Already public facing?)
	Buy4Mich	Maynard (Brownlee/Wellman)
	MAIN	Dave Gabler (Brownlee/Wellman)
	MPSCS	Brad Stoddard (Swanson)

Subject: UPDATED Information on Custodian Search Memo and Guidelines and Meeting Minutes
Importance: High

Good Afternoon All:
After attempting to perform a search, I have some important information for you.

The first search will take quite a while, possibly up to 20 minutes. After some time your computer will recognize the slowness and automatically start to index the search. Once the computer starts to index, the searches will become much faster.

Lastly, on the search instructions for Microsoft 7 and 8, the terms Flint AND water were omitted; however, the checklist that you must return is correct. Please make certain that you are searching the terms Flint AND water. Thank you. Jean

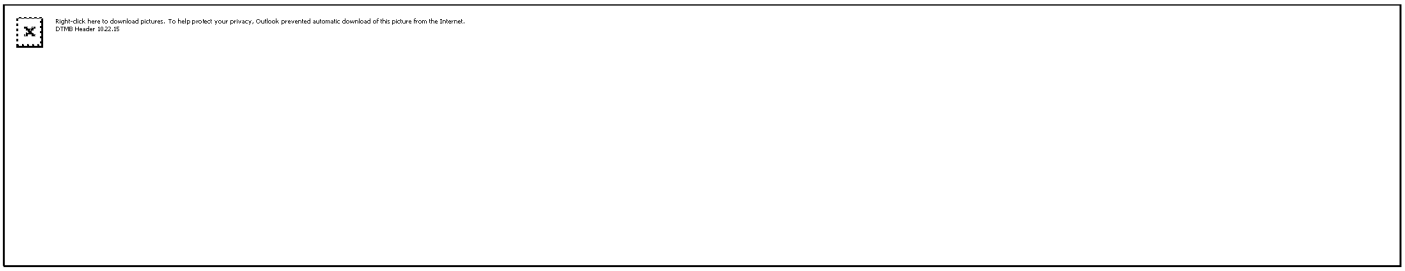
Subject: The Gov. Snyder's Budget Proposal



Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Subject: RE: Pilot metrics - draft worksheet

Jean,

Wow. I didn't know Flint was part of your new portfolio. I hope you are able to do some real good there.

Please let me know if there is any way I can help with the metrics from afar. If these are numbers that Chandra or Vidya have provided in the past, perhaps I could work with them since I now know them a little. Let me know.

Godspeed for the work with Flint.

Hi Phil:
I will provide Ellen the updated metrics; at the moment I am consumed with the Flint emergency and will be for at the very least, the next two weeks. The one thing that I would love to do is finish everything for you so that we can formally close out the project but all my time is devoted to this project. I am very sorry! Jean

Subject: Re: Pilot metrics - draft worksheet

Hi Jean,

I attached the final version of the pilots metrics worksheet; it is almost identical to the version I sent around on 12/23, with just a few minor wording clarifications and tailoring to *alumni* of the NSTIC pilots program. Are you able to send us responses to the attached by Monday, January 25th**?** In the meantime, I am available to answer any questions! You'll notice that in the alumni worksheet we ask for information a) during the period of performance and b) since the end of the period of performance through 12/31/15. Since your pilot just ended, I'm assuming you'll ignore the "since the end of the period of performance" sections for now.

We're enthusiastic about starting this quarterly metrics process, and we really appreciate your help in collecting this data.

Thanks so much,
Ellen

Subject: RE: Pilot metrics - draft worksheet

Good afternoon Jean,

We hope that this effort will help quantify and thus more effectively communicate the benefits and impacts of the pilots. It is our hope that all current and "graduated" pilots would participate in this survey as your programs evolve and mature. Regarding requirements for your grant, we would anticipate this type of information be included in your final report but responding to this specific survey is not required.

We would hope that we can continue to work with you/Michigan to gather and communicate these positive outcomes as we believe there are benefits to both our interests. Please let us know if you have any comments on the worksheet itself, as a key participant we would welcome feedback on metrics you feel would be impactful to be shared with the greater public.

Hope you had a good new years,
Phil.

Subject: Pilot metrics - draft worksheet

Hi all,

Thanks for a productive collaboration call last Friday; I'll be joining biweekly pilot calls in the new year to further discuss RP metrics with you all individually.

As I mentioned on Friday, in addition to the RP metrics, we'd like to start collecting metrics on the NSTIC pilots on a quarterly basis. We'll use these metrics to track progress internally, and to provide up-to-date external reports in response to outside requests for pilot updates. The attached draft worksheet introduces the main information we'd like to collect; if there is anything you think is missing or worded poorly, please let me know by the end of next week. If you won't be able to meet that deadline for any reason but would like to provide feedback on the attached, please let me know. I don't anticipate any major changes to this worksheet, so feel free to start gathering data based on the attached.

I plan to send along a final version of this worksheet the week of 1/4, and will ask that you all provide information on this past quarter (9/1/15-12/31/15) by the end of January.

Please let me know if you have any questions or concerns.

Have a great holiday!
Best,
Ellen

RICK SNYDER
GOVERNOR

STATE OF MICHIGAN
DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 19, 2016

TO: All DTMB Custodians of Correspondence Related to Flint

FROM: Jean Ingersoll, Interim Chief of Staff to David B. Behen, Director and CIO

SUBJECT: Flint Document Production – Search Terms and Guidance

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. Generally speaking a custodian will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms. **As a custodian, you are required to produce any documents containing the search terms listed below, no later than close of business on Monday, February 22, 2016.** This memorandum contains detailed instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Microsoft 365 – Outlook (*includes emails, calendar items) and OneDrive*

DTMB staff will centrally coordinate the Microsoft 365 search for all of DTMB's custodians. Therefore, DTMB's custodians *do not need to independently search any of their Microsoft 365 applications* for the search terms listed below.

Network Drives

Similar to the approach outlined above, DTMB staff will centrally coordinate the network drive search effort for all DTMB custodians. Custodians do *not* need to independently conduct a network drive search for the search terms below.

Non-Network Drives – *includes hard drives, desktop, and thumb/flash drives*

For all non-network drive types, ***each custodian will need to search every search term listed below in every non-network format, and move all ~~relevant/related~~ documents produced during your search in to a specific folder on the network drive for collection. In order to move items to the network, you must be connected to the network.***

Start by conducting the search of all non-network drives, filling out the attached search term checklist as you go. ~~If you need guidance as to how to perform this search, a~~A step-by-step guide is included below in Appendix 1.

All ~~relevant/responsive~~ items that are produced as a result of your search need to be moved to a network drive. To do this, first create a file in the drive titled "Flint Documents" and move all

relevant/related documents to that folder. Another custodian may use the same drive that you do. A separate "Flint Documents" folder is not needed for each custodian, multiple custodians may place their files in to the same file. We would ask custodians to add the "Flint Documents" folder to the network drive on a first-come basis – if you see a folder there, another custodian has likely added it, and you can begin to place your files there. If you do not see a "Flint Documents" folder in the network drive –then you are likely the first custodian to start the search. Please add the "Flint Documents" folder and begin to move your files there. Other custodians will begin to add their items when they begin their search effort. After the February 22, 2016, deadline, DTMB staff will access the drives to collect the files.

~~All relevant/responsive items that are produced as a result of your search need to be moved to a network drive. You can move your relevant/related documents to a network drive in whatever format the document is currently in. After the February 22, 2016, deadline, DTMB staff will access the network drives to collect the files.~~

Paper Files

Review all applicable paper files. Scan any relevant/related documents, and save them to a network drive, as described above. If this is not possible, you may provide hard copies of documents to Jean Ingersoll in the Director's Office. These documents must be received in the Director's Office by close of business on February 22, 2016, and will not be returned to you.

Home Computer

Any relevant e-mails or other documents on a personal computer also are subject to this request. Please check your personal computer for any e-mails or other documents relating to this search. If you discover any relevant/related documents, please include the phrase "personal computer" in the file name, and save them to the aforementioned network drive.

Conclusion

Thank you for your cooperation in complying with this request. Should you have any questions, please contact Jean Ingersoll at 1-8844 or email at DTMB@michigan.gov.

- ~~FOIA~~ Search Term Checklist
- Attachment 1 – Search Guidance

Search Term Checklist

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of documents (electronic or otherwise) that correspond to the issues identified in the search terms ~~relevant/responsive~~ correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB network drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Documents (electronic or otherwise) that correspond to the issues identified in the search terms ~~Relevant/related items~~ from the past 10 years should be included.

You should search for *each term exactly as it is shown* *in Appendix 1. T*~~*his will vary depending on which operating system. below, and include quotation marks around each separate word.*~~ ~~For example, "Legionnaire", "Legionella", or "Flint" would all go into search fields.~~ After you complete a search term, check the box beside the term.

Formatted: Font: Bold

Search Terms:

- ☐ "Legionnaire"
- ☐ "Legionella"
- ☐ "boil water order" &and "Flint"
- ☐ "coli" &and "Flint"
- ☐ "bacteria" &and "Flint"
- ☐ "microb" &and "Flint"
- ☐ "TTHM" &and "Flint"
- ☐ "Lead" &and "Flint"
- ☐ "emergency" &and "Flint"
- ☐ "Karegnondi"
- ☐ "Genesee County Health Department"
- ☐ "Flint" &and "utilities"
- ☐ "Lead and Copper Rule"
- ☐ "Detroit Water and Sewerage Department" &and "Flint"
- ☐ "DWSD" and& "Flint"
- ☐ "Flint River"
- ☐ "Pb" &and "water"
- ☐ "KWA"
- ☐ "Flint" &and "water"

Comment [IJ(1]: These should be changed since the way to search depends on the OS

Search conducted on the ~~email~~ account of: _____

By (your name): _____

Date completed: _____

Estimated time spent conducting search: _____

Please return this completed Checklist to DTMB Director's Office staff by close of business on Monday, February 22, 2016, at DTMB@michigan.gov, or Directors Office, Cass Building, Second Floor

Formatted: Centered

Appendix 1 - Search Instructions

Before you perform the search you must know which version of the operating system you ~~have~~are using. To find the version of your operating system go to the Start Menu click Computer on the right then click System Properties on the top menu.

Formatted: Indent: Left: 0", Hanging: 0.5", No bullets or numbering

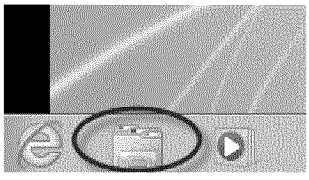
Formatted: Font: Century Schoolbook, 10 pt

Formatted: Normal

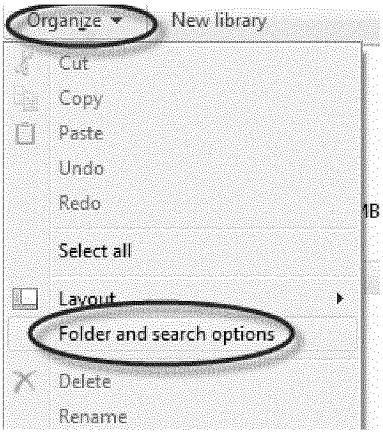
I. Searching for Files in Windows 7

When you are looking for files that contain certain words either in the filename or in the file text, the Windows search feature will help you do that.

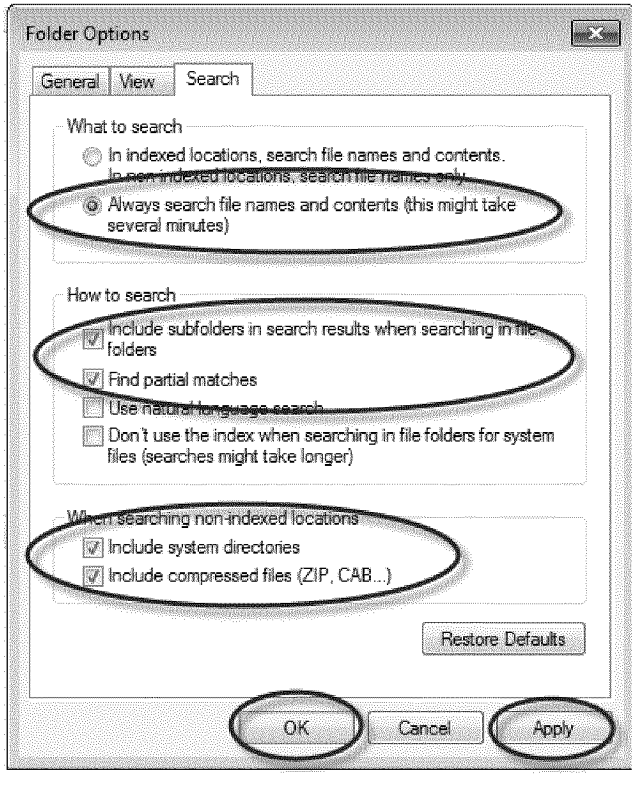
1. First, open Windows Explorer by clicking the **folder** icon on your taskbar.



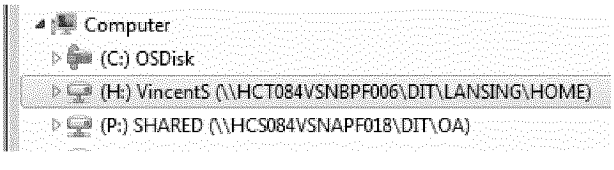
2. Click the **Organize** button, then click **Folder and search options**.



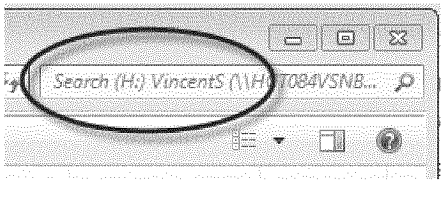
3. On the window that opens, select the **Search** tab. Compare your window to the picture below, and make your settings match.
   When your settings match, click the **Apply** button, then click the **OK** button.
   (You only have to do this part **once**. Windows 7 will remember it for your next search.)



4. Select (click) the **drive** or **folder** you want to search. In this example, we are searching the H: drive. By selecting a drive or a folder, all folders inside that drive or folder will be searched as well.



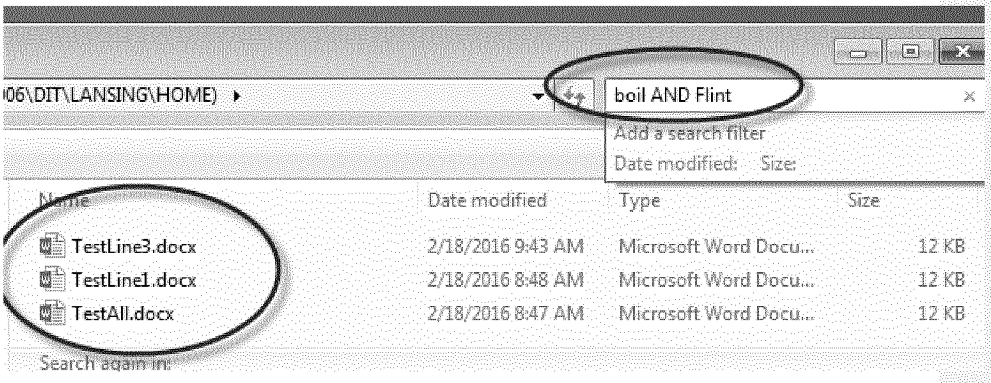
5. In the upper right corner of your Windows 7 Explorer window, the **Search field** will change to show the **selected drive**.



6. If you are searching for two specific words, and only want files that have **both** words, such as boil AND Flint, that's exactly what you enter in the Search field: boil AND Flint.
(The capital letters on the AND are required.)

   In the example below, we copied these words from this document, pasted them into the Search field, and Windows Search found the files that contain both words.

   boil AND Flint

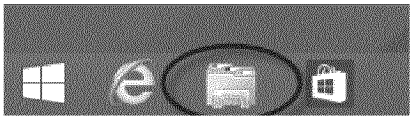


7. It is a little more complicated when you want several words in a specific order, so here are some search phrases you can copy and use. Be aware that Windows 7 Search **is** case sensitive. It will only find matches for the case you enter.

emergency AND Flint	DWSD AND Flint
Legionnaire	Karegnondi
Legionella	"Genesee County Health Department"
"boil water order" AND Flint	Flint AND utilities
coli AND Flint	"Lead and Copper Rule"
bacteria AND Flint	"Detroit Water and Sewerage Department" AND Flint
microb AND Flint	"Flint River"
TTHM AND Flint	Pb AND water
Lead AND Flint	KWA

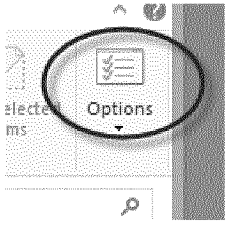
II. Searching for Files in Windows 8

1. Open Windows Explorer

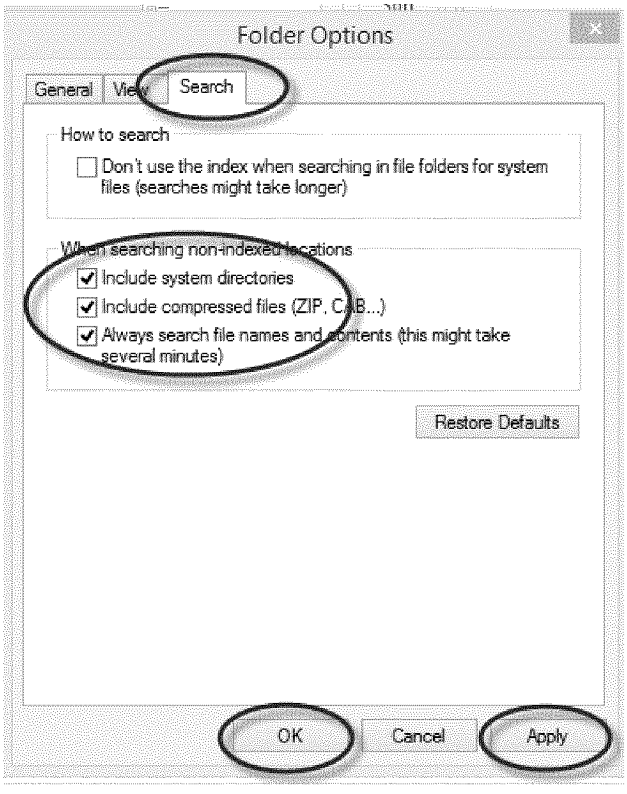


2. Click **View** tab.

3. Click **Options** button.
   A menu will open. Find the choice that says **Change folder and search options**, and click on it.

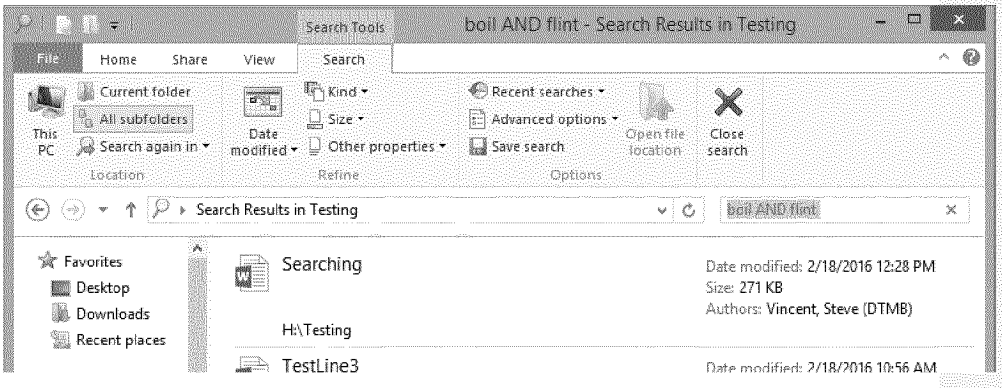


4. The **Folder options** window opens. Click the **Search** tab.
5. Check **all three boxes** under **When searching non-indexed locations**. (Make your screen match the picture shown below.



6. Click **Apply**.
7. Click **OK.**
8. **Double-click** the drive you want to search. That drive will open.

9. Click in the Search box and add your text. If you are searching for two specific words, and only want files that have **both** words, such as boil AND Flint, that's exactly what you enter in the Search field: boil AND Flint.
   (The capital letters on the AND are required.)
   In the example below, we copied these words from this document, pasted them into the Search field, and Windows Search found the files that contain both words.



10. It is a little more complicated when you want several words in a specific order, so here are some search phrases you can copy and use. Be aware that Windows 8.1 Search is **not** case sensitive.

emergency AND Flint	DWSD AND Flint
Legionnaire	Karegnondi
Legionella	"Genesee County Health Department"
"boil water order" AND Flint	Flint AND utilities
coli AND Flint	"Lead and Copper Rule"
bacteria AND Flint	"Detroit Water and Sewerage Department" AND Flint
microb AND Flint	"Flint River"
TTHM AND Flint	Pb AND water
Lead AND Flint	KWA

Subject: Re: UPDATED Information on Custodian Search Memo and Guidelines and Meeting Minutes

It's terrible! Mine took over 50 minutes and I had to stop the search. Since we are searching hard drives and not the network I think I am going to take mine home tonight. I probably will start the search while I'm sleeping and let it run or work on it while I'm doing things around the house. Then if I find any files I'm just going to drag them to the desktop and move them to a network drive when I get back into the office on Monday.

Subject: UPDATED Information on Custodian Search Memo and Guidelines and Meeting Minutes
Importance: High

Good Afternoon All:
After attempting to perform a search, I have some important information for you.

The first search will take quite a while, possibly up to 20 minutes. After some time your computer will recognize the slowness and automatically start to index the search. Once the computer starts to index, the searches will become much faster.

Lastly, on the search instructions for Microsoft 7 and 8, the terms Flint AND water were omitted; however, the checklist that you must return is correct. Please make certain that you are searching the terms Flint AND water. Thank you. Jean

Subject: Custodian Search Memo and Guidelines and Meeting Minutes
Importance: High

Please find attached the updated version of the Custodian Search Terms Memo. Please also find the minutes from the custodian meeting on February 18, 2016. All questions from the meeting are answered in the minutes. If you have any questions regarding these documents please email DTMB@michigan.gov.

Please complete the Search Term Checklist by close of business on February 22, 2016 and sent to DTMB@michigan.gov.

SMT,

Jean Ingersoll is leading DTMB's effort to comply with document production requests related to freedom of information requests and certain lawsuits against the state.

At some point during the day tomorrow, Jean will share with you a list of standard "search terms" which we will use to compile documents related to this lawsuit.

Within 2 hours of receiving this email from Jean, you need to respond with a list of likely custodians from your work area. Jean may have more information on this tomorrow, but generally speaking a custodian will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.

If you have any questions, please call me or Jean. This is an important issue and I thank you in advance for your attention to this matter.

Subject: FW: Flint FOIA - DTMB Systems

Good Morning Jean –

We do not believe that X3 contains any of the search terms, however if it is decided that a search is needed on X3, Kurt King would be the individual responsible for performing the search on this. You can either reach out to Kurt directly or work through me.

In terms of other systems, we do not believe there are any other systems in place within FBSA that would list any of the search terms identified.

Please feel free to contact me if you have any questions or concerns.

Thank you -

Subject: Flint FOIA - DTMB Systems

SMT Members:
In response to the Flint FOIA Project we have compiled a list of DTMB-owned systems that may need to be searched depending on *whether or not the systems listed would reasonably contain any of the search terms* sent on Friday (see search terms below). We are not asking you to perform any searches at this time, additional instructions are forthcoming.

What I need from you is to:

1) review the list and tell me whether the systems listed may contain the search terms (center column);
2) notify me if there are DTMB systems that are not listed that may contain the search terms;
3) tell me who is the individual responsible for performing the search in the system on behalf of the custodians (right column);

This information is due back to me close of business (5:00pm) today, Wednesday.

Electronic/DTMB Systems	E-Mich	Pauley (Swanson) (Already public facing?)
	Buy4Mich	Maynard (Brownlee/Wellman)
	MAIN	Dave Gabler (Brownlee/Wellman)
	MPSCS	Brad Stoddard (Swanson)
	Anything Related to Cyber?	Christian Kopacsi
	FileNet	Demello (Swanson)
	Time and Expense	Laurie Westfall/Dave Gabler (McFarlane)
	DCDS	Laurie Westfall/Dave Gabler (McFarlane)
	X3	Turnquist (Stibitz)
	HPTrim	Kristi Thompson (Joyce Vancovering)

Subject: Flint FOIA - DTMB Systems

SMT Members:
In response to the Flint FOIA Project we have compiled a list of DTMB-owned systems that may need to be searched depending on *whether or not the systems listed would reasonably contain any of the search terms* sent on Friday (see search terms below). We are not asking you to perform any searches at this time, additional instructions are forthcoming.

What I need from you is to:

1) review the list and tell me whether the systems listed may contain the search terms (center column);
2) notify me if there are DTMB systems that are not listed that may contain the search terms;
3) tell me who is the individual responsible for performing the search in the system on behalf of the custodians (right column);

This information is due back to me close of business (5:00pm) today, Wednesday.

Electronic/DTMB Systems	E-Mich	Pauley (Swanson) (Already public facing?)
	Buy4Mich	Maynard (Brownlee/Wellman)
	MAIN	Dave Gabler (Brownlee/Wellman)

Subject: FW: Mandatory Meeting - DTMB Custodians of Correspondence Related to Flint

Hi,
So there is a John Baer who is retired and John Baer III who is a SharePoint Administrator. I think I sent the invite to the retired one, should it be going to John Baer III?

Thank you,

Janelle Longanbach
General Office Assistant
DTMB Director's Office

Subject: Mandatory Meeting - DTMB Custodians of Correspondence Related to Flint
When: Thursday, February 18, 2016 2:00 PM-3:00 PM (UTC-05:00) Eastern Time (US & Canada).
Where: Ottawa Builidng - Upper Level – Conference Room 4 OR Call-in: 866-390-1828 access code: 1842654

Please note this meeting can be attended in person or via conference call-in. Location and Dial in information are provided below.

Requested By:
DTMB Executive Staff

Location:
Ottawa Building
Upper Level – Conference Room 4
611 W. Ottawa Street
Lansing, MI 48933

Call-in: 866-390-1828
Access code: 1842654

Security:
Please have your State Employee ID showing at all times.

Parking:
Metered parking is available along Ottawa and Pine street.

Briefing:
In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

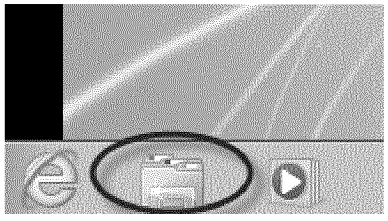
HELP. CONNECT. SOLVE.

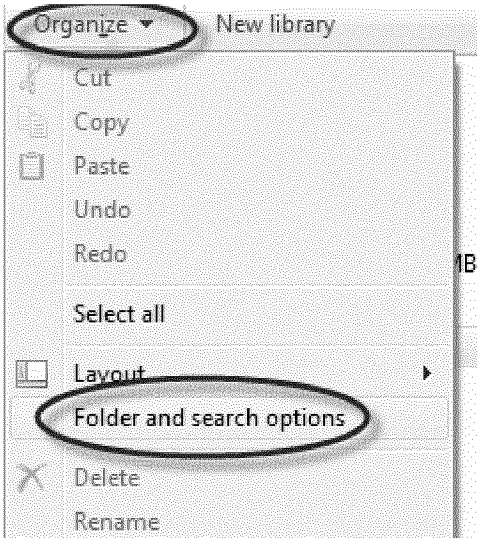
Searching for Files in Windows 7

When you are looking for files that contain certain words either in the filename or in the file text, the Windows search feature will help you do that.

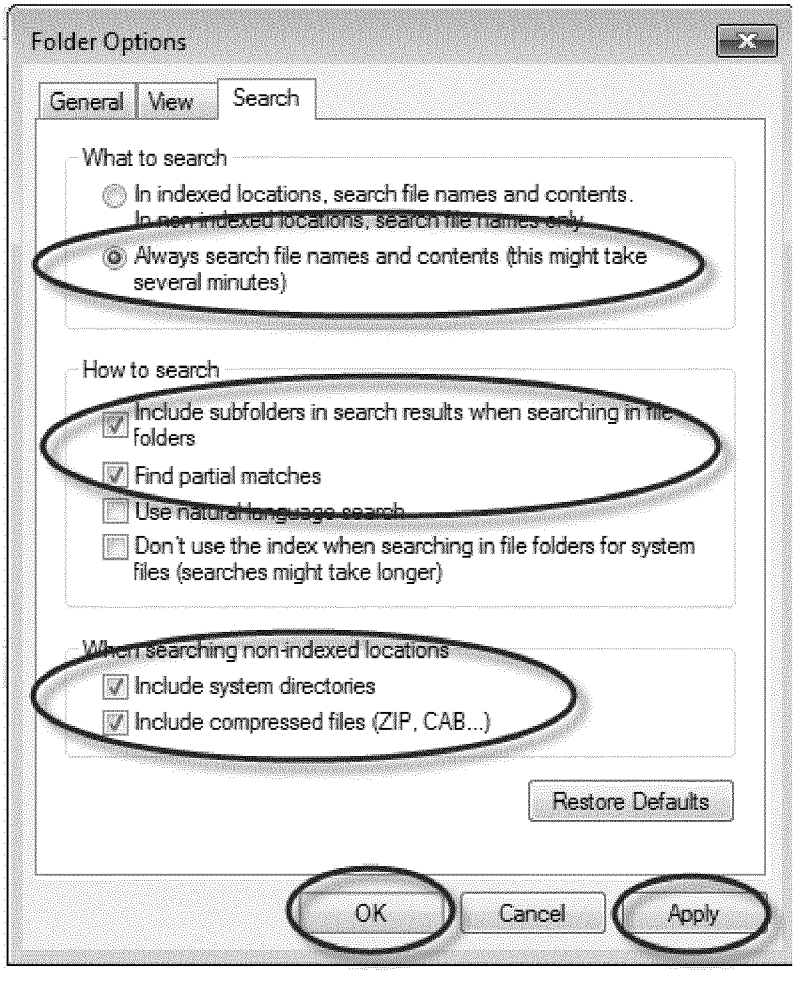
1. First, open Windows Explorer by clicking the **folder** icon on your taskbar.



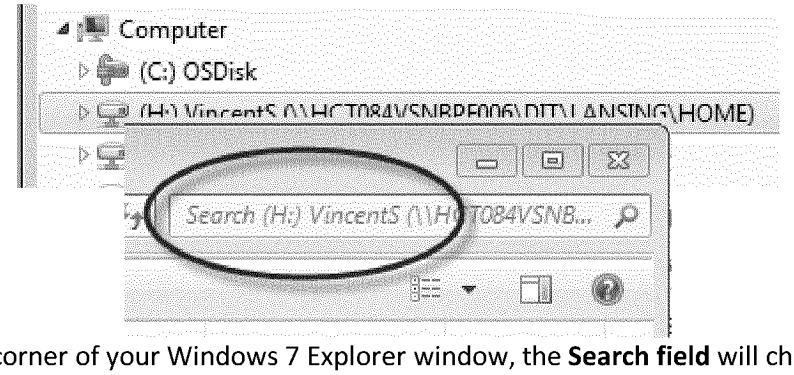
2. Click the **Organize** button, then click **Folder and search options**.



3. On the window that opens, select the **Search** tab. Compare your window to the picture below, and make your settings match.
   When your settings match, click the **Apply** button, then click the **OK** button.
   (You only have to do this part **once**. Windows 7 will remember it for your next search.)



4. Select (click) the **drive** or **folder** you want to search. In this example, we are searching the H: drive. By selecting a drive or a folder, all folders inside that drive or folder will be searched as well.

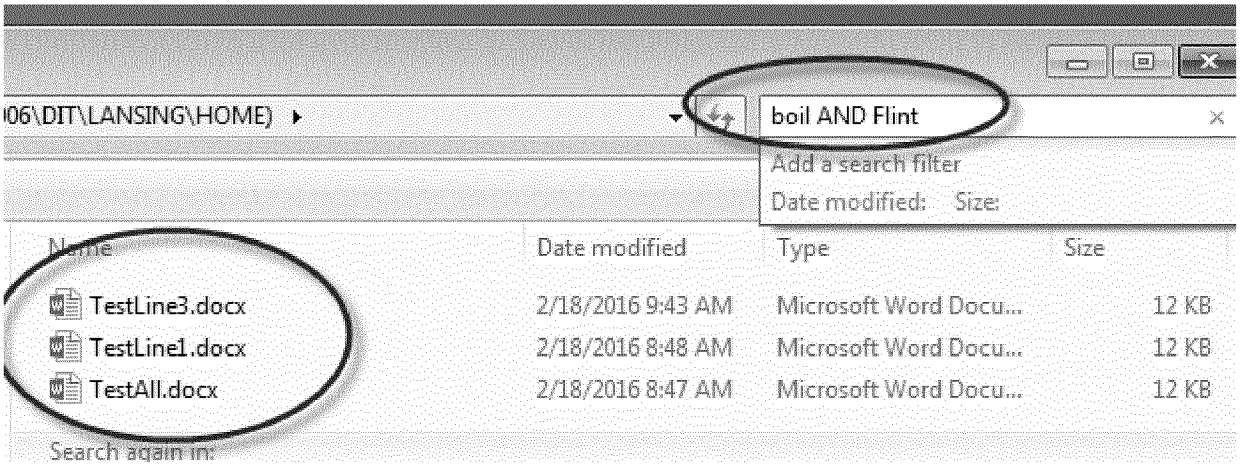


5. In the upper right corner of your Windows 7 Explorer window, the **Search field** will change to show the **selected drive**.

6. If you are searching for two specific words, and only want files that have **both** words, such as boil AND Flint, that's exactly what you enter in the Search field: boil AND Flint.
(The capital letters on the AND are required.)

   In the example below, we copied these words from this document, pasted them into the Search field, and Windows Search found the files that contain both words.

   boil AND Flint

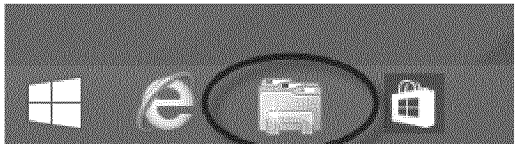


7. It is a little more complicated when you want several words in a specific order, so here are some search phrases you can copy and use. Be aware that Windows 7 Search **is** case sensitive. It will only find matches for the case you enter.

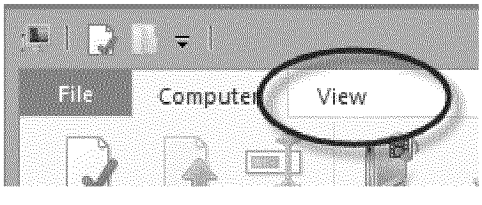
emergency AND Flint	DWSD AND Flint
Legionnaire	Karegnondi
Legionella	"Genesee County Health Department"
"boil water order" AND Flint	Flint AND utilities
coli AND Flint	"Lead and Copper Rule"
bacteria AND Flint	"Detroit Water and Sewerage Department" AND Flint
microb AND Flint	"Flint River"
TTHM AND Flint	Pb AND water
Lead AND Flint	KWA

Searching for Files in Windows 8

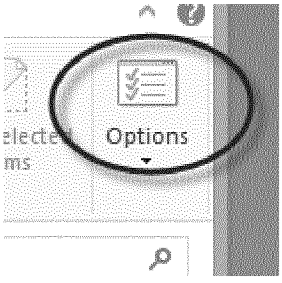
1. Open Windows Explorer



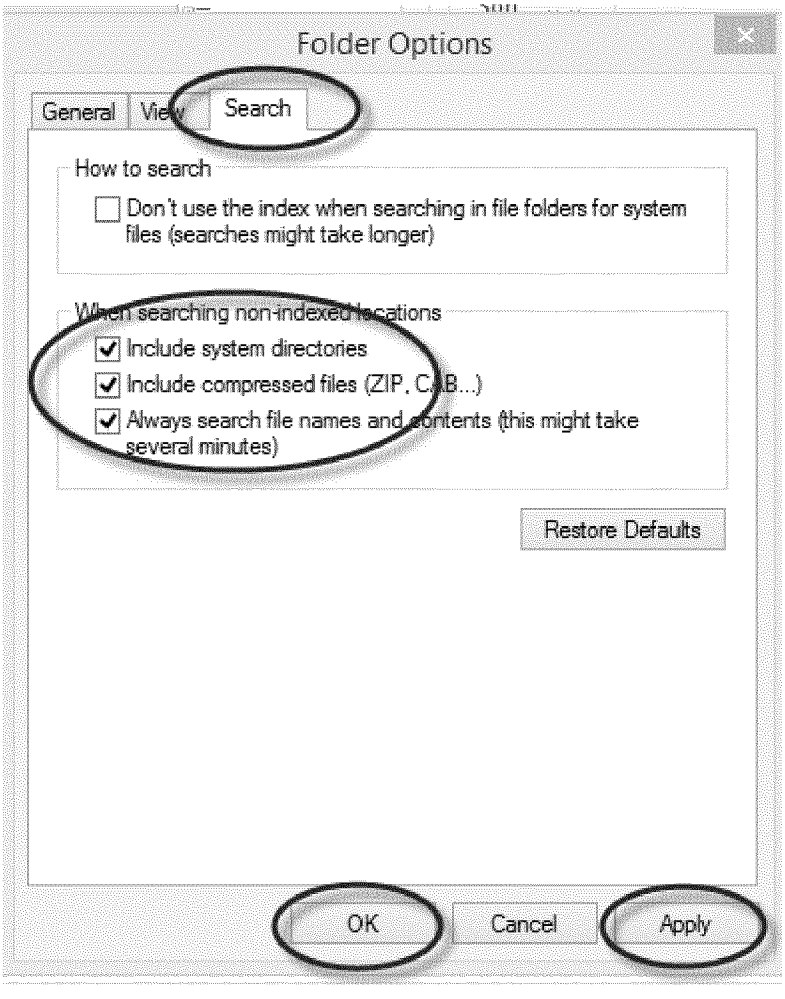
2. Click **View** tab.



3. Click **Options** button.
   A menu will open. Find the choice that says **Change folder and search options**, and click on it.

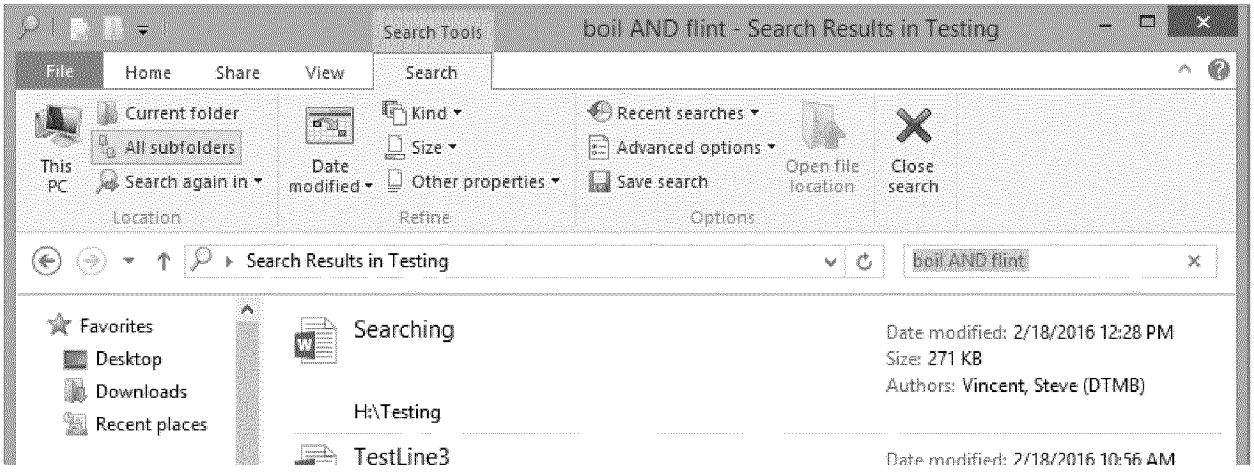


4. The **Folder options** window opens. Click the **Search** tab.
5. Check **all three boxes** under **When searching non-indexed locations**. (Make your screen match the picture shown below.



6. Click **Apply**.
7. Click **OK.**
8. **Double-click** the drive you want to search. That drive will open.

9. Click in the Search box and add your text. If you are searching for two specific words, and only want files that have **both** words, such as boil AND Flint, that's exactly what you enter in the Search field: boil AND Flint. (The capital letters on the AND are required.)
   In the example below, we copied these words from this document, pasted them into the Search field, and Windows Search found the files that contain both words.



10. It is a little more complicated when you want several words in a specific order, so here are some search phrases you can copy and use. Be aware that Windows 8.1 Search is **not** case sensitive.

emergency AND Flint	DWSD AND Flint
Legionnaire	Karegnondi
Legionella	"Genesee County Health Department"
"boil water order" AND Flint	Flint AND utilities
coli AND Flint	"Lead and Copper Rule"
bacteria AND Flint	"Detroit Water and Sewerage Department" AND Flint
microb AND Flint	"Flint River"
TTHM AND Flint	Pb AND water
Lead AND Flint	KWA

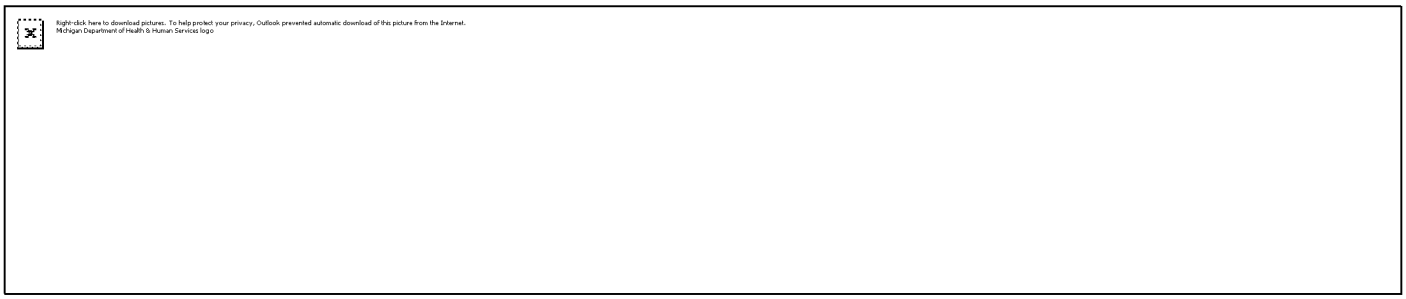
Subject: FOR IMMEDIATE RELEASE: MDHHS releases latest data outlining blood lead levels in Flint; Follow-up care, case management resources continue for families



Press Release

FOR IMMEDIATE RELEASE: December 3, 2015

CONTACT: Jennifer Eisner, (517) 241-2112

MDHHS releases latest data outlining blood lead levels in Flint

Follow-up care, case management resources continue for families

LANSING, Mich. – Preliminary data indicates that 30 of 1,361 adults and children tested in Flint since October 1 had elevated blood lead levels, according to a report issued today by the Michigan Department of Health and Human Services.

This marks the first summary report on lead testing called for in the state's action plan related to health concerns about Flint's water infrastructure.

"Our goal is to help families reduce their exposure to lead sources," said Dr. Eden Wells, MDHHS chief medical executive. "We have made progress in testing and identifying those with elevated blood lead levels, and the department will continue to work closely with the Genesee County Health Department to reach these families. We will remain diligent in our ongoing outreach and education efforts."

Information comes from tests administered citywide to 1,361 children and adults since October 1. Tests showed that 21 of 969 children age 17 or younger and 9 of 392 adults over the age 18 were identified with elevated blood lead levels.

The report covers test results reported to MDHHS since the state action plan was put in place Oct. 2. It includes the number of tests and number of elevated blood lead levels greater than 5 micrograms per deciliter, and captures both capillary and venous blood tests that have been

reported to MDHHS since the beginning of October. People who have had multiple tests are counted only once. Five micrograms per deciliter is the level that the Centers for Disease Control and Prevention considers elevated and triggers health care professional follow up with families.

The full report is posted online at www.michigan.gov/flintwater and will be updated as more data becomes available.

When reviewing historical trend data, the risk of lead exposure is highest during the third quarter of each year – July through September. Seasonal variation is the result of a number of factors including increased exposure to lead in dust and soil in the summer months.

In the third quarter of 2010, 8.3 percent of Flint children 6 and under showed elevated blood lead levels. The figure gradually decreased to 4.1 percent in the third quarter of 2013. During the same months in 2014, the figure increased to 7.5 percent and decreased to 6.4 percent in the third quarter of 2015.

Last month, MDHHS collaborated with the county health department and local partners to distribute educational resources and informational letters to Flint parents regarding lead testing. The state is providing funding for GCHD nurses to work with families when an elevated blood lead level has been detected. During these follow-up visits, nurses coordinate with environmental health investigators to meet with families in their homes to identify lead exposures, address questions and provide water filters. People can be exposed to lead from paint, soil, plumbing and other sources.

MDHHS continues to provide free water filters and replacement cartridges to Flint residents at four locations, including the MDHHS Flint offices and the Genesee County Community Action Resource Department. For a full list of locations and hours of distribution, visit www.michigan.gov/flintwater.

To help residents properly install water filters, and to demonstrate how to replace the original when it expires, MDHHS has created an instructional video on its YouTube channel. For updates, visit www.michigan.gov/flintwater.

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Abbey,

Can we talk about this on Tuesday? I think it will likely be fine for you to talk to the School News Network -- maybe on Wednesday?

In the meantime, I can put together some talking points for you to use, and if you could put together some bullet points on what you would like to tell the reporter we can merge them into one set of approved talking points. I'm looping in Jean Ingersoll and Heather Rosales since this is related to Pathways to Potential.

Have you also been in touch with Richard Thelen, the State Emergency Operations Center coordinator for our department. These types of efforts are supposed to go through the SEOC. I'll give Richard a heads-up on this.

Thanks,

Subject: Sibley school aiding Eisenhower Elementary in Flint with water

Hi Bob,

The School News Network has contacted me, not even 24 hours after we started organizing an effort to collect water to send to Flint school, for an interview about what we are doing. Charlie Honey is the reporter who contacted me this morning and he would like to run something as soon as possible to get the word out in the community about helping and where to donate etc. Our mission is to help a fellow community school from Pathways to Potential in this time of need. They indicated they are going through roughly 2500 bottles of water a week at this school and the need is overwhelming. We have asked our staff, parents/families, and community partners to join us in collecting water through January 29th. Spartan-Nash is a long-time partner of ours and have graciously offered to match our water donations with a delivery of water from a store in Fenton, MI. We are working on other potential matches or any help we can get. We hope to show our people that helping a little, even when you live in poverty, is possible and when done all together, we can do a great deal of good for someone in need. I would love the opportunity to comment on the partnership with this P2P school and how are great school is rallying to support another. I understand the sensitivity of

the subject of the water and would never comment on the political situation going on. This is strictly about helping people in our State gain access to safe water.

Can you please let me know if I'm able to comment and explain or efforts to Mr. Honey?

Thank you,

Subject: RE: Sibley school aiding Eisenhower Elementary in Flint with water

Hi Abbey,

I've been advised that this project needs to be approved by the State Emergency Operations Center for you to be approved to participate in the interview. Given the short timeframe, I'm not sure that's going to be possible.

Again, this is the email:
MSP-seocisc@michigan.gov

I'm CC'ing Richard Thelen, who is the MDHHS rep on the SEOC.

For now can you plan on not participating in the interview tomorrow? I will let you know if something changes. I apologize. We're really working hard to have a coordinated message on the state's efforts in Flint, so that's the reasons for the additional layers of approval being necessary. Please forward me any response from the SEOC, and then we can go from there.

Thanks for the great work you're doing to help people in Flint and teach valuable life lessons to students.

Subject: RE: Pathways in Flint

I didn't see anything in the minutes Re: Sandi's success stories. Here is what I have so far: I still need to do the spreadsheet….

1. Schools – 7 schools
    a. All have addresses in Flint across 4 different zip codes
2. Students served at school
    a. 3457
3. Percentage of students with 'chronic' absenteeism:
    a. 45.03%
4. Percentage decrease from last year:
    a. Nearly 10%
5. Community partner information:
    a. At Doyle/Ryder, Potter and Brownell Holmes STEM they have partnered with the CRIM foundation.
        i. Provide community school coordinators to get community involved with the school.
        ii. Provide the students with 'brain breaks' throughout the day
            1. Give students mental health breaks
            2. Examples: yoga in the morning, stretching, jumping jacks
        iii. Partner with the community to get them involved in the education of the youth
    b. Success coaches are directing community members to their local site to get water filters, water, etc.
        i. Collected so much with community outreach they gave to homeless and senior citizens
    c. Director Sandi Mose, success coaches Susan Holvey, Heather Grace, Susan Hoppe and Chris Zofchak all delivered water, water filters and brochures to community members.

All information based on data from 12/31/15 unless otherwise indicated.

Subject: RE: Pathways in Flint

We were able to speak to one mentor (manager) this morning. If you would like more information, I would be happy to call the Genesee county director. Below is some basic information about what's happening at the Flint Pathways schools:

1. 7 schools
    a. All have addresses in Flint across 4 different zip codes
2. Number of students served at the schools:
    a. 3457
3. Percentage of students with "chronic" absenteeism (10 or more absences):
    a. 45.03%
4. Percentage **decrease** of chronic absenteeism from last year:
    a. Nearly 10%
5. Community partner information:
    a. At Doyle/Ryder, Potter and Brownell Holmes STEM they partnered with the CRIM foundation to:
        i. Provide community school coordinators to get community involved with the school
        ii. Provide the students with 'brain breaks' throughout the day
            1. Give students mental health breaks
            2. Examples: yoga in the morning, stretching, jumping jacks
        iii. Work with the community to get them involved in the education of the youth
    b. Success coaches are directing community members to their local site to get water filters, water, etc.
        i. Collected so much water in conjunction with community outreach that they gave it to the homeless and senior citizens
    c. Director Sandi Mose, success coaches Susan Holvey, Heather Grace, Susan Hoppe and Chris Zofchak all delivered water, water filters and brochures to community members

I can provide you with a list of barriers addressed and resources provided but it's an extremely lengthy list and it may be somewhat confusing without an explanation.

Draft Talking Points, MDHHS Sibley Elementary School Pathways to Potential Program

For interview with School News Network, Grand Rapids-area media outlet that writes positive articles about local schools. Story is about Pathways to Potential/school efforts to provide water to a Pathways school in Flint.

Abbey VanHoeven, Pathways success coach at Sibley, will do the interview.

Flint water project

- Sibley School and Pathways to Potential have organized an effort to collect water to send to Flint to help a fellow Michigan Department of Health and Human Se
- We want to get the word out in the Kent County community about how they can help and where to donate. People who want to make donations to Sibley to deliver to Flint should do what? Or you can call 2-1-1 if you would like to donate water to Flint. Sibley and Pathways to Potential have asked our staff, parents/families, and community partners to join us in collecting water through January 29.
- Our mission is to help a fellow community school from Pathways to Potential in this time of need.
- At Eisenhower they have said they are going through roughly 2,500 bottles of water a week at this school.
- Spartan-Nash is a long-time partner of ours and has graciously offered to match our water donations with a delivery of water from a store in Fenton.
- We are working on other potential matches or any help we can get.
- We hope to show that when we work together, even if everyone just helps a little, we can do a great deal of good for people in need. This is a great teaching moment for our students.
- In response to any questions about the politics/controversy about the Flint water situation: This is strictly about helping people in Flint gain access to safe water. That's our focus.

Pathways to Potential

- Pathways to Potential is an innovative Michigan Department of Health and Human Services approach to providing human services:
    - In locations where the customer is already going – such as in schools, hospitals and at businesses.
    - That involves working one-on-one with families to identify and remove barriers and connect them to a network of services so that they can become self-sufficient and realize their dreams.
    - That involves engaging community partners and school personnel so that we can work together to help families find the pathway to success.
- Removing barriers to student attendance is one of the main goals of Pathways. Students who miss school too often end up dropping out without graduating. It's

extremely difficult for children who drop out to achieve self-sufficiency and success as adults and be able to achieve their dreams.

- Pathways to Potential is expanding into schools in at least 10 more counties during the current school year as a result of the success of Pathways schools elsewhere in Michigan.
- Even before the expansion, there were more than 200 existing Pathways schools in 22 Michigan counties.
- There are two major reasons for the expansion:
    - Pathways to Potential has been a great success since its creation in 2012.
        - For example, chronic absenteeism dropped 37 percent in Pathways schools during the 2014-15 school year from the previous year. Removing barriers to school attendance is one of the main goals of Pathways to Potential.
        - Pathways was a model for creation of the Michigan Department of Health and Human Services last year through merger of the former Departments of Health and Human Services. The new department allows for better, more coordinated, more person-focused services to address the unique needs of individuals and families.

Thank you, Jean. That makes sense.

I attached a copy of the client's form for you to review. I have my boss, Manny Rosales, asking the client if they have received notice of litigation hold from the AG's office. I don't believe they have but we are confirming.

Press Release

FOR IMMEDIATE RELEASE: December 23, 2015

CONTACT: Angela Minicuci, 517-241-2112

Updated summary report on Flint blood lead level data now available

LANSING, Mich. – The Michigan Department of Health and Human Services today issued its bi-weekly summary report on lead testing in Flint. Preliminary data indicate that 43 of 2,182 adults and children tested had elevated blood lead levels since Oct. 1.

"In partnership with the Genesee County Health Department, we are working to engage and provide resources to residents to reduce all potential exposures to lead," said Dr. Eden Wells, MDHHS chief medical executive. "Case management and home lead analysis are available for families in which an elevated blood lead level has been detected."

The first MDHHS summary report on blood lead levels in Flint was issued Dec. 3, 2015. Updated reports are posted on a bi-weekly basis on the www.michigan.gov/flintwater website. After refining our methods to identify age, some people are now counted in a different age group than on previous reports. The total counts for each year have not changed.

The report includes both capillary and venous blood tests, and people who have had multiple tests are counted only once. Tests and their results cover the time since the state action plan was put in place on Oct. 2, and capture the number of elevated blood lead levels greater than 5 micrograms

per deciliter.

MDHHS, together with the Genesee County Health Department (GCHD), is working with local partners to distribute educational information around lead testing and prevention. Supplemental state dollars are funding GCHD nurses to work with families when an elevated blood lead level is detected.

Families with an elevated blood lead level can also choose to have a nurse coordinate an environmental health investigation in their home to help identify lead exposures, which could be lead from paint, soil, plumbing, and other sources. Families with questions about their blood lead levels or test results are also encouraged to contact their primary care physician or local health department.

In addition to mandated testing at ages one and two for the Medicaid population, MDHHS is coordinating with its Medicaid health plans and provider communities to recommend blood lead testing for any child younger than six years of age in Flint who has not previously been tested. The state, in coordination with GCHD, developed and issued a Health Alert Network (HAN) notification for local providers to help ensure consistent messaging and protocols among primary care providers.

Free water filters and replacement cartridges are available to Flint residents. For a full list of locations and hours of distribution, or to view the full blood lead level report, visit www.michigan.gov/flintwater. The summary will be updated as more data becomes available.

To help residents properly install water filters, and to demonstrate how to replace the original when it expires, MDHHS has created an instructional video on its YouTube channel. For this and other updates, visit www.michigan.gov/flintwater.

Thanks Alisha,

This is good timing and could be a great resource to the City of Flint as a tool to handle impact of lead poisoning in children. I'll be sure to promote.

Best,

Bryanna

Thanks Alisha,

This is good timing and could be a great resource to the City of Flint as a tool to handle impact of lead poisoning in children. I'll be sure to promote.

Best,

Bryanna

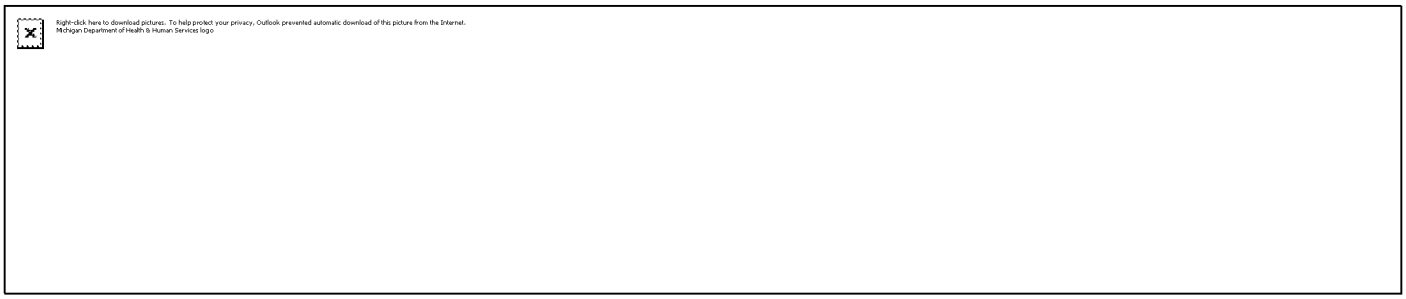
Subject: FOR IMMEDIATE RELEASE: Increased cases of Legionnaires Disease Investigated in Genesee County



Press Release

FOR IMMEDIATE RELEASE: January 13, 2016

CONTACT: Angela Minicuci, (517) 241-2112

Increased cases of Legionnaires Disease Investigated in Genesee County

LANSING, Mich. – The Michigan Department of Health and Human Services is reporting an increase of Legionnaires' disease (LD) in Genesee County in summers of 2014 and 2015. While the MDHHS cannot conclude that the increase is related to the water emergency in Flint, the State of Michigan is treating this situation with the same urgency and transparency as the lead response in the city of Flint.

MDHHS has confirmed data through March 2015, and is finalizing preliminary data through November 2015, which indicates an additional increase in cases. From June 2014 to March 2015, 45 LD cases were confirmed in Genesee County, including seven associated fatalities. From May 2015 through November 2015, 42 LD cases, including one case of Pontiac Fever, were reported in Genesee County. There were three associated fatalities. The age range of these individuals was 26–94, with illness onset dates from June 6, 2014 to March 9, 2015 and May 4, 2015 to October 29, 2015.

Legionella is a type of bacteria commonly found in the environment that grows best in warm water, such as hot tubs, cooling towers, hot water tanks, potable water systems, and decorative fountains. When people are exposed to the bacteria, it can cause Legionellosis, a respiratory disease that can infect the lungs and cause pneumonia. The bacteria can also cause a less serious infection called

Pontiac fever. *Legionella* cannot spread from one person to another person.

"While Legionellosis cases are not uncommon, we are concerned about the increase in cases seen in Genesee County," said Eden Wells, M.D., chief medical executive with the MDHHS. "We are releasing this report and continuing surveillance and investigations to ensure that appropriate actions are being taken to protect the health of the residents of Flint."

During LD outbreak investigations, clinical specimens are often evaluated against environmental specimens to aid in determining an infection source. One reason that the increase in cases cannot be directly related to the change in Flint water supply is due to the lack of clinical *Legionella* isolates from case patients. Clinical isolates are necessary to interpret the findings of an environmental investigation in an outbreak.

In the fall of 2014, MDHHS noticed an increase in people with LD and offered assistance to Genesee County Health Department (GCHD) with case investigations to determine exposures. In January of 2015, MDHHS stepped in to coordinate GCHD's response. By April 2015, MDHHS had developed an interview questionnaire and began conducting case investigations to look at travel, work, and locations visited during the two weeks prior to symptom onset. These two weeks are considered the incubation period for LD.

Of the confirmed first 45 cases, the source of water at the primary residence was City of Flint water for 47 percent of cases. When looking at additional community sources, more than half of the individuals had a healthcare facility exposure in the two weeks prior to their illness onset and the facility has since implemented multiple environmental and procedural measures to alleviate the situation. Preliminary data from May through November 2015 regarding case investigation information is being finalized and will be released soon.

Ten people had no exposure to a Flint hospital in the two weeks prior to illness nor were their homes on the Flint water system. Other possible exposures were evaluated and no other known community exposures were identified. Enhanced surveillance has continued for the remainder of 2015 and into 2016.

MDHHS has been and continues to work with the Michigan Department of Environmental Quality (DEQ), Centers for Disease Control and Prevention (CDC) and the Environmental Protection Agency (EPA) on this matter. MDHHS shared an initial report with federal partners in June 2015, and initiated and has continued to facilitate regular communication with our federal partners and GCHD to monitor cases.

Vigilant legionellosis awareness and surveillance is occurring in Genesee County. MDHHS informed hospitals in Genesee County of the increase of cases in January 2015, as well as recommended actions on their part throughout all of 2015. MDHHS has also recommended that the GCHD work with the clinical community in Genesee County to assist in LD surveillance through accurate identification, testing, and reporting of all suspect cases.

Most people exposed to *Legionella* do not become ill. People at higher risk of getting sick include: individuals over 50 years old; current or former smokers; those with chronic lung disease; people with a weakened immune system from diseases like cancer, diabetes, or kidney failure; and individuals who take medications that weaken the immune system, such as steroids or chemotherapy.

MDHHS is releasing the June 2015 initial report as well as a summary report which was shared in

December 2015. The additional preliminary data summary report will be finalized and released soon.

For information about the Flint water emergency, visit www.michigan.gov/flintwater.

Abbey,

Can we talk about this on Tuesday? I think it will likely be fine for you to talk to the School News Network -- maybe on Wednesday?

In the meantime, I can put together some talking points for you to use, and if you could put together some bullet points on what you would like to tell the reporter we can merge them into one set of approved talking points. I'm looping in Jean Ingersoll and Heather Rosales since this is related to Pathways to Potential.

Have you also been in touch with Richard Thelen, the State Emergency Operations Center coordinator for our department. These types of efforts are supposed to go through the SEOC. I'll give Richard a heads-up on this.

Thanks,

Bob Wheaton

Subject: Sibley school aiding Eisenhower Elementary in Flint with water

Hi Bob,

The School News Network has contacted me, not even 24 hours after we started organizing an effort to collect water to send to Flint school, for an interview about what we are doing. Charlie Honey is the reporter who contacted me this morning and he would like to run something as soon as possible to get the word out in the community about helping and where to donate etc. Our mission is to help a fellow community school from Pathways to Potential in this time of need. They indicated they are going through roughly 2500 bottles of water a week at this school and the need is overwhelming. We have asked our staff, parents/families, and community partners to join us in collecting water through January 29th. Spartan-Nash is a long-time partner of ours and have graciously offered to match our water donations with a delivery of water from a store in Fenton, MI. We are working on other potential matches or any help we can get. We hope to show our people that helping a little, even when you live in poverty, is possible and when done all together, we can do a great deal of good for someone in need. I would love the opportunity to comment on the partnership with this P2P school and how are great school is rallying to support another. I understand the sensitivity of the subject of the water and would never comment on the political situation going on. This is strictly about helping people in our State gain access to safe water.

Can you please let me know if I'm able to comment and explain or efforts to Mr. Honey?

Thank you,

Abbey VanHoeven

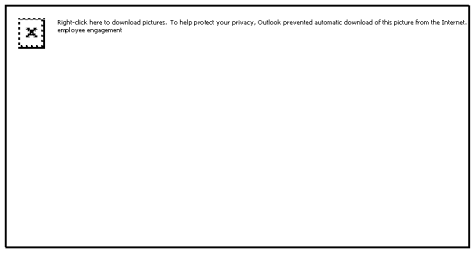
Subject: This Week at MDHHS 1.19.16

This Week at MDHHS

January 19, 2016

Your weekly chronicle of the Michigan Department of Health and Human Services and the transformation in how health and human services are delivered in Michigan.

Employee engagement plan is now available



MDHHS has a new roadmap for energizing department culture and improving employee development opportunities, and employees played a large role in shaping it.

The 2016 MDHHS Employee Engagement Action Plan, released last week, was developed using information from the Employee Engagement Survey, which employees took in March 2015 before the creation of the newly merged MDHHS. Survey results for the former Departments of Human Services and Community Health are available in separate reports.

This new employee engagement plan applies to all administrations across the department and lays out four initiatives and various actions that are being taken this year in order to fulfill these initiatives:

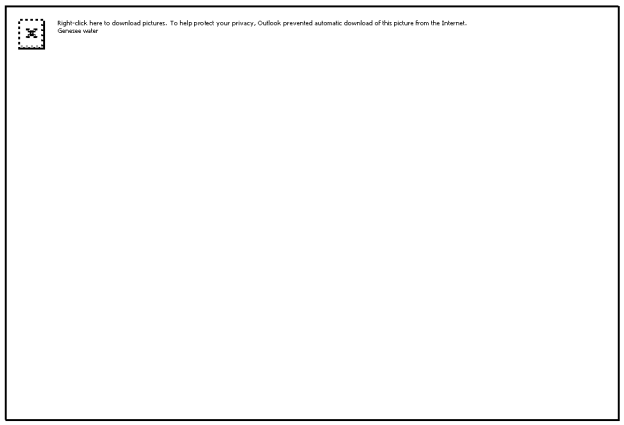
- Improving department communication.
- Increasing employee development opportunities.
- Increasing employee engagement.
- Energizing department culture.

To engage employees, MDHHS Director Nick Lyon said he will continue to visit local offices, hospitals and centers, host round tables, provide updates in MDHHS Digest and monthly videos and participate more in annual meetings, events and employee recognition efforts.

"It is my sincere hope that these efforts will aid in continuing improvements on department communication, employee development, employee engagement, and our overall culture," Lyon said.

Employees also are encouraged to review the Employee Engagement Action Plan Summary Report, which includes quarterly goals.

MDHHS workers go extra mile to meet water needs in Flint



A team of Union Street District MDHHS workers in Genesee County recently collected and distributed 239 cases of water to help the county's most vulnerable citizens.

The Union Street District Servants of Excellence (U.S.E.) team, under the direction of District Manager Tracey Fountain, collected 239 cases of water for children, the elderly and homeless people because of issues with Flint's water system.

The team is made up of Union Street staff who have shown the initiative to go above and beyond their everyday responsibilities to benefit the community they serve.

"I want to thank Union Street staff members for going the extra mile and assisting those who need our help the most," MDHHS Director Nick Lyon said. "I wish to commend all MDHHS employees who are dealing with this situation in Flint for their ongoing efforts."

The cases of water were divided between Safe House-Flint YWCA, Brennan Elm Park Senior Center, My Brother's Keeper of Genesee County and Garden View Senior and Elderly Living Facility.

A number of MDHHS employees also have been part of the water resource teams that are going door-to-door in Flint to distribute water, filters, water test kits and replacement filter cartridges.

Last month, Union Street and Clio Road MDHHS district employees, along with some employees of the Bureau of Community Action and Economic Opportunity, were given Good Government awards for their efforts to give water filters to Flint-area residents.

Pictured above are: (from left to right) Tracey Fountain (district manager), Alana Czechowski, Jeanette McDonald, Erma Brown, Keisha Butler, Margaret Watkins, Michele Harris, Damesha Jackson, Rochina White and Kevin Washington.

Good news! You get a 'premium holiday'

Employees may have noticed fewer deductions being taken out of their paychecks beginning last week.

Employees can expect to see these limited-time changes in deductions for the State Dental Plan, long-term disability and the State Vision Plan. These state plans are self-funded by employee and employer contributions, and the State of Michigan determined there was enough funds in these plans to allow a limited premium holiday this year.

Full benefit coverage will continue for those enrolled. The premium holidays are as follows:

- State Dental Plan – No premiums deducted for the two paydays of Jan. 14 and Jan. 28. Premium deductions will resume Feb. 11.
- Long-Term Disability – No premiums deducted for the seven paydays from Jan. 14 through April 7. Deductions will resume April 21.
- State Vision Plan – Employer-paid premiums will resume May 5.

MDHHS: In the News

Foster youth attending college receive care packages

Current and former foster youth who are attending college are receiving care packages as part of a program at the St. Clair County MDHHS office. The Times Herald reported on the story.

Vaccinations continue to rise in Washtenaw County

For the fourth year in a row, Washtenaw County's vaccination rates have increased at schools across the region. MLive.com reported on the story.

Q & A: Your questions about MDHHS

The Michigan Department of Health and Human Services was created April 10, and many of you may have questions about the relatively new agency where we work. We will do our best to answer any questions that you have.

Those of you with questions can direct them to Scott Davis of the Office of Communications

at daviss8@michigan.gov. Below is a staff question and our answer:

QUESTION: What is MDHHS doing to improve the workload of caseworkers?

ANSWER: MDHHS leadership is involved in an initiative that works toward relieving the workload strain for the department's caseworkers, based on input from employees.

The ongoing caseworker relief initiative – an undertaking of Chief Deputy Director Tim Becker –will result in specific actions being taken to address issues raised by MDHHS employees.

"We want to provide relief to our caseworkers so that they have more time to do what they do best – help families, children and individuals who need safety net assistance and protection from abuse or neglect," Becker said.

A caseworker relief team has been meeting to develop solutions to 64 opportunities for improvement identified by field staff during interactive workshops conducted last fall in partnership with the consulting firm Accenture. The focus will be on improvements determined by the staff members to have the greatest potential impact.

The workshops included 15 to 20 field staff from offices across the state working in all of the following programs: assistance programs, Medicaid, child support, child welfare, adult protective services and juvenile justice.

Following the workshops, MDHHS leadership engaged the Business Integration Center (BIC) to develop a specific work plan and project management infrastructure to carry these initiatives forward to implementation.

A new employee engagement plan that was communicated this month is among the improvements being rolled out

Among the improvement projects being undertaken:

- A workload analysis to focus available staff members on core functions to address staff concerns about caseload sizes.
- Helping workers better understand other programs and agencies and how those other entities affect customers.
- Staff retention and recruitment efforts.
- The addition of new volunteer training for parenting time requirements within foster care.

Abbey,

Can we talk about this on Tuesday? I think it will likely be fine for you to talk to the School News Network – maybe on Wednesday?

In the meantime, I can put together some talking points for you to use, and if you could put together some bullet points on what you would like to tell the reporter we can merge them into one set of approved talking points. I'm looping in Jean Ingersoll and Heather Rosales since this is related to Pathways to Potential.

Have you also been in touch with Richard Thelen, the State Emergency Operations Center coordinator for our department. These types of efforts are supposed to go through the SEOC. I'll give Richard a heads-up on this.

Thanks,

Bob Wheaton

Subject: Sibley school aiding Eisenhower Elementary in Flint with water

Hi Bob,

The School News Network has contacted me, not even 24 hours after we started organizing an effort to collect water to send to Flint school, for an interview about what we are doing. Charlie Honey is the reporter who contacted me this morning and he would like to run something as soon as possible to get the word out in the community about helping and where to donate etc. Our mission is to help a fellow community school from Pathways to Potential in this time of need. They indicated they are going through roughly 2500 bottles of water a week at this school and the need is overwhelming. We have asked our staff, parents/families, and community partners to join us in collecting water through January 29th. Spartan-Nash is a long-time partner of ours and have graciously offered to match our water donations with a delivery of water from a store in Fenton, MI. We are working on other potential matches or any help we can get. We hope to show our people that helping a little, even when you live in poverty, is possible and when done all together, we can do a great deal of good for someone in need. I would love the opportunity to comment on the partnership with this P2P school and how are great school is rallying to support another. I understand the sensitivity of the subject of the water and would never comment on the political situation going on. This is strictly about helping people in our State gain access to safe water.

Can you please let me know if I'm able to comment and explain or efforts to Mr. Honey?

Thank you,

Abbey VanHoeven

Abbey,

If you don't hear anything back and are asked questions by the reporter, can you let the reporter know that you need to check with the Office of Communications and that you or I will get back with them? That way we may be able to respond later.

Thanks,
Bob

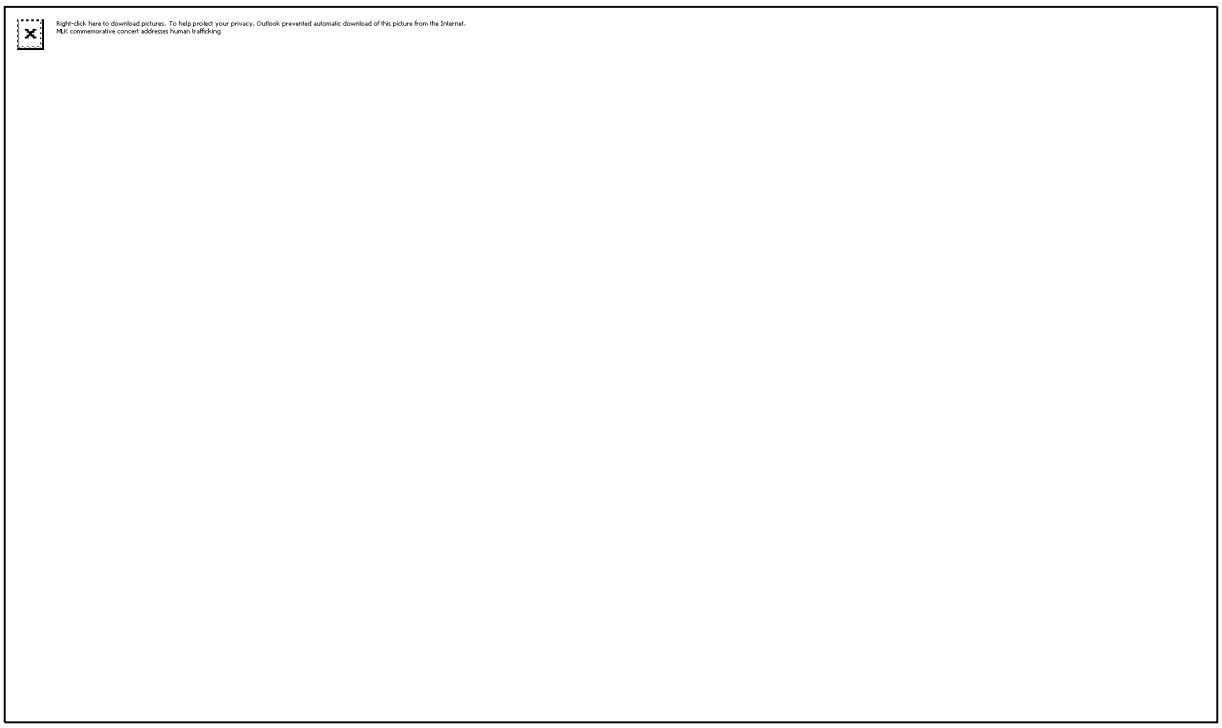
New Pediatric Public Health Initiative to support the health of Flint children

Supporting Flint's children

MSU and Hurley Children's Hospital have announced a new Pediatric Public Health Initiative to address the Flint community's population-wide lead exposure and help all Flint children grow up healthy and strong.

FORBES LISTS BLACK PINE ENGINEERING, WHICH BEGAN IN THE LAB OF MECHANICAL ENGINEERING PROFESSOR NORBERT MUELLER, AMONG THE COUNTRY'S 15 INNOVATIVE COLLEGE STARTUPS.

Arts

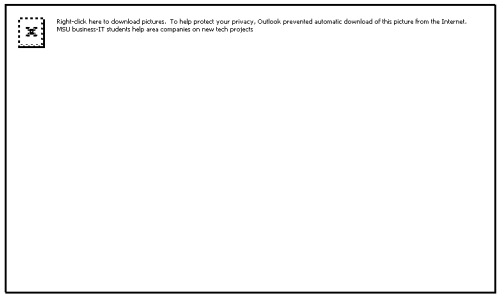


MLK commemorative concert addresses human trafficking

On Jan. 17, as part of the annual commemorative concert celebrating the life of Martin Luther King Jr., MSU's Jazz Orchestra I performed the world premiere of "Do You Know My Name?" which is the first major jazz work to address human trafficking.

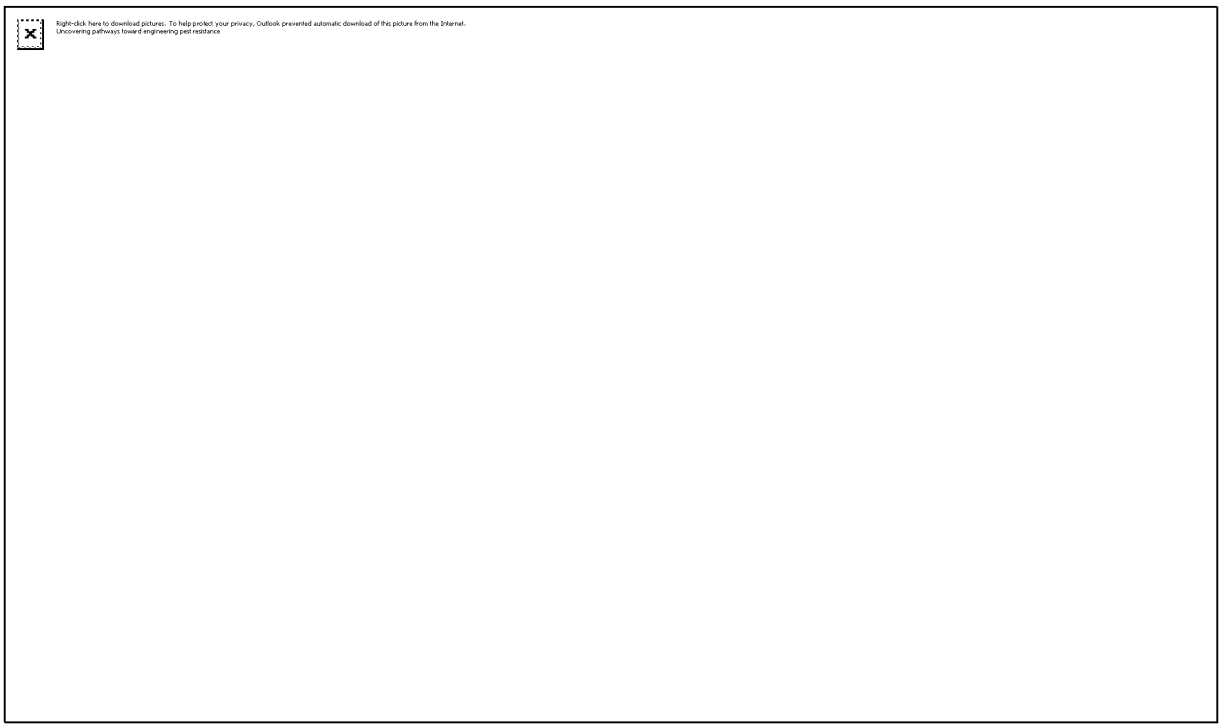
Business

Helping with tech projects



More than 15 teams of MSU undergraduates are ready and waiting to help mid-Michigan businesses and nonprofits solve their digital problems. As part of the final course in their Information Technology minor, the students are required to work in cross-functional teams on a real-world IT project. They just need more "clients."

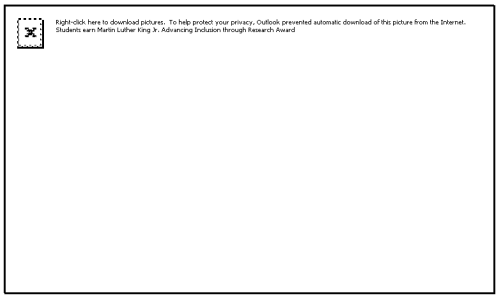
Environment



Uncovering pathways toward engineering pest resistance

MSU scientists are examining the biochemistry of plants in research that could lead to advancements in the production of plants that are less susceptible to insect pests.

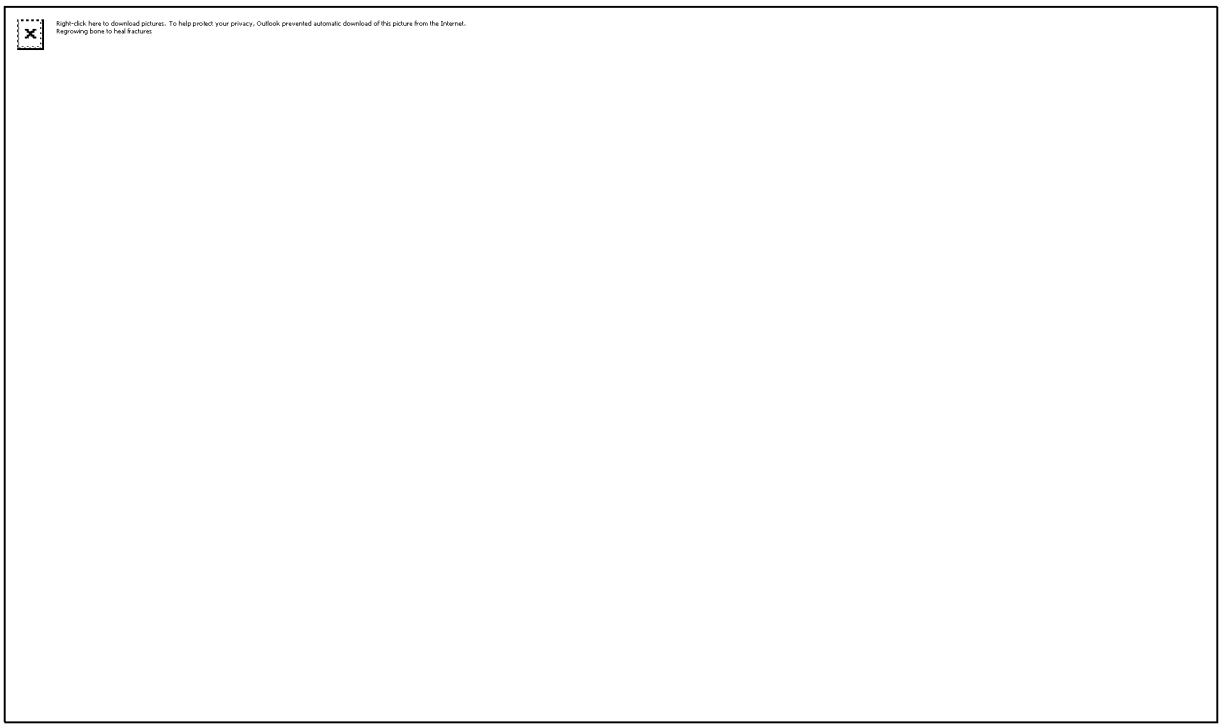
Life



Students earn research award

The research and creative works of seven MSU students has earned them the Martin Luther King Jr. Advancing Inclusion through Research Award. The award builds the body of work authored by students that supports the ideals of inclusive excellence through topics of inclusion, diversity and marginalized populations.

Health



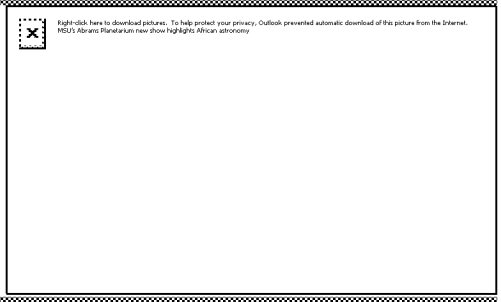
Regrowing bone to heal fractures

Kurt Hankenson, an MSU veterinary scientist and expert in bone regeneration, is finding ways to improve the healing process when it comes to fractured bones.

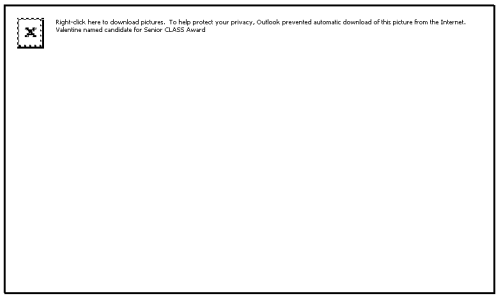
Science and Technology

Highlighting African astronomy

MSU's Abrams Planetarium is now featuring "Skywatchers of Africa," a new show that examines African cultural uses of the sky that developed throughout history. "Skywatchers of Africa" celebrates our shared human experience with astronomy.



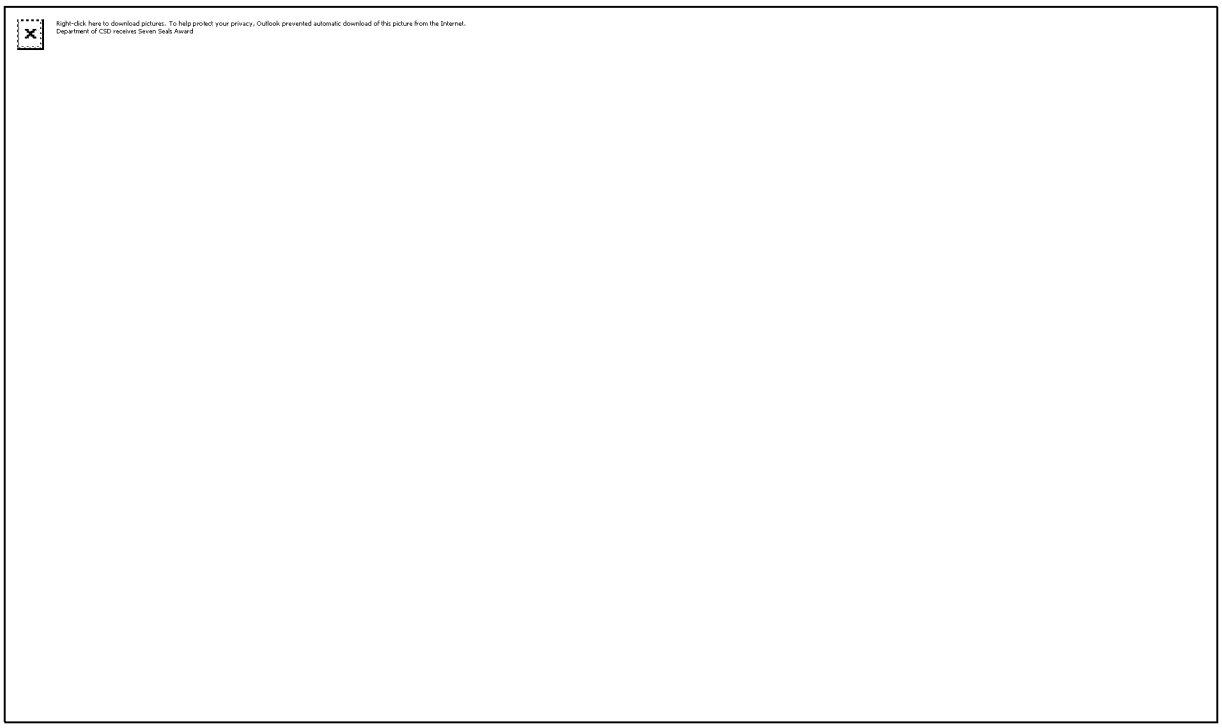
Sports



Valentine up for national award

MSU senior guard Denzel Valentine has been named a candidate for the Senior CLASS Award. To be eligible for the award, a student-athlete must be classified as an NCAA Division I senior and have notable achievements in four areas of excellence: community, classroom, character and competition.

Campus

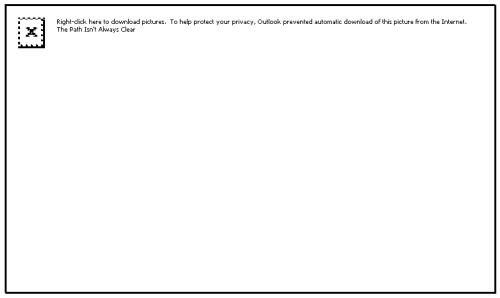


Department of CSD receives Seven Seals Award

The Seven Seals Award was presented to the MSU Department of Communicative Sciences and Disorders on Jan. 12 after its nomination by Blake Donovan, a CSD master's student and captain in the Michigan Army National Guard where he serves as a company commander.

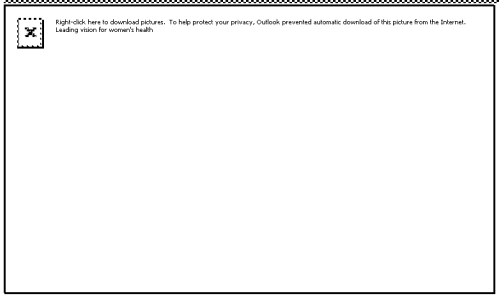
360 Perspective

The Path Isn't Always Clear



Guatemalan beans, goals from a dean and a three-legged lion showed up in my inbox this week. Nope — this isn't the start of some joke; it's just my life. My job, like everyone's, has its challenges. For me, one can be coming up with a way to tie some very dissimilar things together into something that makes sense. It's a blessing and a curse, really.

Good Will



Leading vision for women's health

When Asgi Fazleabas came to MSU in 2009, the Center for Women's Health was only a dream. There was no building and only a small staff of researchers. But what began with a vision has grown exponentially.

GREENING OF THE GREAT LAKES

MSU and News/Talk 760 WJR collaborate on the weekly sustainability-focused Greening of the Great Lakes radio show, heard every Sunday at 7 p.m. on News/Talk 760 WJR and around the state each weekend on the Michigan Talk Network. Learn More »

MDHHS issues 2015 Legionnaires Disease Report for Genesee County

LANSING, Mich. – The Michigan Department of Health and Human Services today issued its report regarding the increase of Legionnaires' disease (LD) during 2015 in Genesee County. MDHHS cannot conclude that the increase is related to the water switch in Flint nor can we rule out a possible association at this time.

From May 2015 through October 2015, 42 LD cases were reported in Genesee County. Data previously indicated three Legionnaires associated deaths from May 2015 through October 2015, however additional case information received has brought this number to four.

"While cases of Legionnaires disease are not expected in the winter, we remain fully engaged with the Genesee County Health Department as well as our federal partners at the Centers for Disease Control and Prevention to protect the health of Flint residents," said Eden Wells, M.D., Chief Medical Executive with the MDHHS. "We remain diligent in our efforts to proactively and appropriately address the potential for future cases."

Legionella is a type of bacteria commonly found in the environment that grows best in warm water, such as hot tubs, cooling towers, hot water tanks, potable water systems, and decorative fountains. When people are exposed to the bacteria, it can cause Legionellosis, a respiratory disease that can infect the lungs and cause pneumonia. The bacteria can also cause a less serious infection called

Pontiac fever. *Legionella* is not transmitted person to person.

The state today also released an updated report for cases from June 2014 to March 2015. During that time, 45 LD cases were confirmed in Genesee County, including five associated fatalities. The report issued on January 13 originally identified seven fatalities during that time period.

Consistent with published literature, legionella related deaths are defined as fatalities that occurred within 30 days of hospital discharge. While the number of cases remain unchanged for LD in Genesee County, the total associated fatalities is now nine because some cases occurred outside of the 30 day period.

During LD outbreak investigations, clinical isolates, or case specimens, are often evaluated against environmental specimens to aid in determining an infection source. One reason that the increase in cases cannot be directly related to the change in Flint water supply is due to the lack of clinical *Legionella* isolates from case patients. Clinical isolates are necessary to interpret the findings of an environmental investigation in an outbreak. Although a limited number of clinical isolates are available from the 2015 cases, there are not enough to determine a conclusive environmental source.

Of the 87 total confirmed cases between June 2014 and November 2015, 31 people, or 35.6 percent, received city of Flint water to their residence. A total of 26 people, or 29.8 percent, had no known exposure to a Flint hospital on the city of Flint water system in the two weeks prior to illness, nor were their homes on the Flint water system. Other possible exposures were evaluated and no known community exposures were identified. Enhanced surveillance will continue in 2016.

MDHHS has been and continues to work with the Genesee County Health Department (GCHD), Michigan Department of Environmental Quality (DEQ), Centers for Disease Control and Prevention (CDC) and the Environmental Protection Agency (EPA) on this matter. MDHHS shared an initial report with local and federal partners in June 2015, and has continued to facilitate regular communication with our federal partners and GCHD to monitor cases.

Flint Curbs Snyder's Future

Although it's premature to call him a lame duck, Michigan Gov. Rick Snyder's political capital has clearly been diminished by the Flint water crisis. During his State of the State address on Tuesday, Snyder offered lots of apologies: "You did not create this crisis;" "Government failed you;" and, "I'm sorry."

Since winning re-election in 2014, Snyder had been mentioned as a potential presidential or vice presidential pick on the Republican side. That kind of talk, however, has abruptly ended. "Even some Michigan Republicans concede that Snyder's national prospects are toast, at least in the short term," reports *Politico*. **KEEP READING >>**

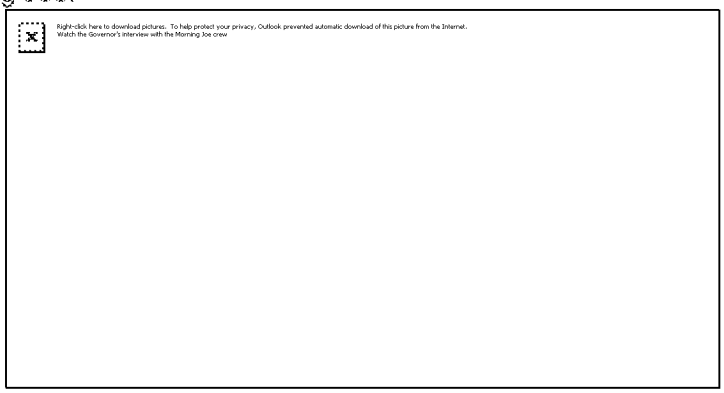
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

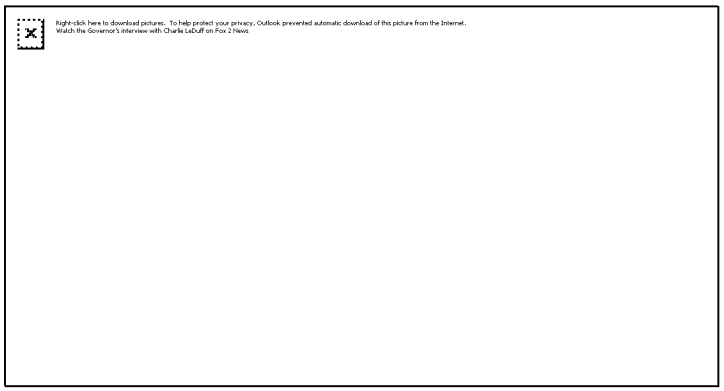
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

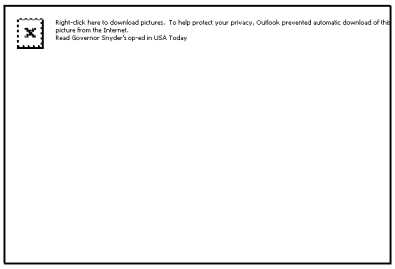
came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.

Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

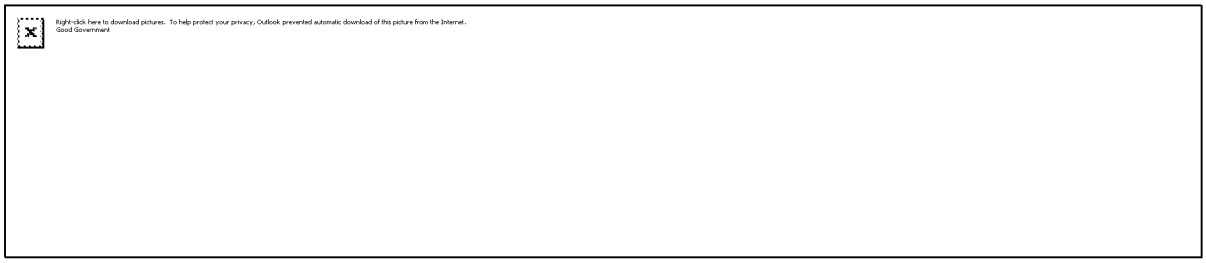
Subject: Flint Volunteer Efforts



Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

<WheatonB@michigan.gov<mailto:WheatonB@michigan.gov>> wrote:

Hi Nicole,

Can you or Shanon review these talking points and offer any edits, concerns, etc. by Tuesday Jan. 19? This is the effort by one of the MDHHS Pathways schools to collect water to donate to a Flint school that I have discussed previously with Nicole.

These are for one of our caseworkers who is a success coach at one of the MDHHS Pathways to Potential schools, Sibley Elementary School in Grand Rapids. They are collecting water for another Pathways school in Flint. The School News Network, a Grand Rapids area media outlet that reports on local schools, has asked to interview them for a story by Wednesday of next week.

Thanks,

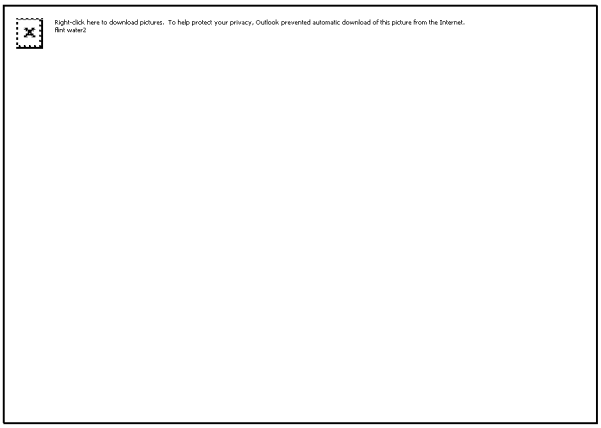
This Week at MDHHS

January 25, 2016

Your weekly chronicle of the Michigan Department of Health and Human Services and the transformation in how health and human services are delivered in Michigan.

MDHHS employees volunteer to help Flint residents



When Alicia Jorgensen learned about the water quality issues in Flint, the Ottawa County MDHHS employee knew she had to act.

"I had been watching television and scanning social media about the matter and thought to myself, 'What can I do as a person who cares?' Jorgensen said. "Not only that, but only two hours away, this could be me and my family."

Jorgensen used $232 in donations from co-workers, along with other donations, and bought 141 cases of water with help from her mother, Nancy Palmer. They loaded the water onto a trailer and drove it 2 ½ hours to Flint.

She is among many dozens of MDHHS employees who have volunteered their own time to supply water and filters to Flint residents or have partnered with others to help the community. These efforts are in addition to the coordinated state government response to the Flint water issue.

In another effort involving MDHHS employees, Pathways to Potential staff members

are partnering with Sibley School in Grand Rapids, an elementary, to collect water through Friday to send to a Pathways school in Flint.

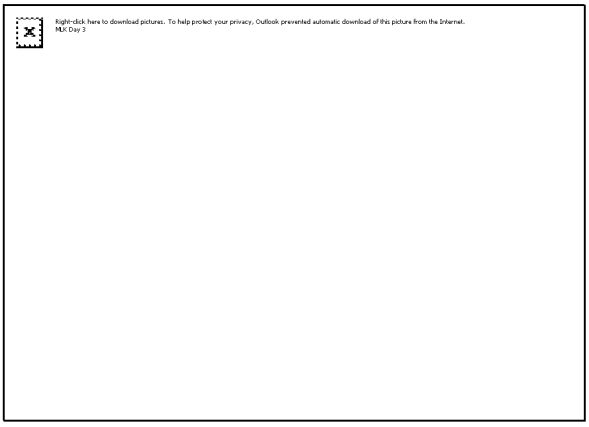
SpartanNash Co., a Byron Center-based grocery, is offering to match the water donations of the effort by Pathways, which places MDHHS employees in schools and other facilities to help students and others overcome barriers. Abbey VanHoeven, a Pathways success coach who is helping to coordinate the effort, said water can be dropped off at Sibley, 943 Sibley St. NW, between 8 a.m. and 4 p.m. through Friday.

Water collection efforts also are underway at Business Service Center 4 offices, a district that includes Hillsdale, Jackson, Livingston, Washtenaw, Lenawee, Monroe, Oakland (cash assistance), Macomb (cash assistance) and Wayne (cash assistance) counties.

This effort began in Hillsdale County with a partnership between the county office and a church, Hillsdale Assembly of God, 4075 Beck Road, Jonesville. Water can be dropped at the church starting Tuesday through Friday and Feb. 2 through Feb. 5. Drop-off hours are 9 a.m. to 4 p.m. and 7 p.m. to 8 p.m. on Wednesdays.

Pictured above is Alicia Jorgensen (left) and her mother, Nancy Palmer, buying water to deliver to Flint residents.

MCSC funds projects to commemorate MLK



The Michigan Community Service Commission (MCSC) recently encouraged volunteerism across Michigan by helping to fund 29 Martin Luther King Jr. Day of Service projects.

MSCS provided $8,902 for the projects, which were done in commemoration of the slain civil rights leader between Jan. 15 and Jan. 24.

Volunteer projects included securing vacant properties and clearing blocks of trash in Detroit and making welcome baskets in Traverse City for families that are transitioning to stable housing.

Martin Luther King Day is a national holiday observed on Jan. 18, and Gov. Rick Snyder proclaimed the same day to be the Martin Luther King Jr. Day of Service in Michigan.

Pictured above is a group of volunteers at Flint's Baker College making sleeping mats and blankets to be donated to a homeless shelter.

Nominations are open for 2016 Governor's Service Awards

Feb. 29 is the deadline for nominating a volunteer, organization or national service program for a 2016 Governor's Service Award.

The award is an opportunity to recognize those individuals and organizations who mentor children, help the hungry and homeless, assist the elderly and help steward the environment. Awards may be presented to nominees in nine categories for significant service contributions.

More information about the awards and how to make a nomination can be found on the Michigan Community Service Commission website.

MDHHS: In the News

Residents receiving dental care under state health plan

Mid-Michigan residents are now receiving care for longtime dental problems under the Healthy Michigan Plan. The Lansing State Journal reported on the story.

State employees volunteer to help Flint residents

About 130 State of Michigan employees volunteered on Martin Luther King, Jr. Day to distribute water, filters and other items to Flint residents. UpNorthLive.com reported on the story.

Q & A: Your questions about MDHHS

The Michigan Department of Health and Human Services was created April 10, and many of you may have questions about the relatively new agency where we work. We will do our best to answer any questions that you have.

Those of you with questions can direct them to Scott Davis of the Office of Communications at daviss8@michigan.gov. Below is a staff question and our answer:

QUESTION: Some rural and inner-city areas in Michigan struggle to attract qualified doctors to their communities. Does MDHHS play any role in recruiting doctors and filling this need?

ANSWER: Yes, since 1991, Michigan has offered the Michigan State Loan Repayment Program (MSLRP) to encourage primary care physicians, dentists, psychiatrists, nurse practitioners and physician assistants to practice in medically underserved areas in Michigan. The program operates simply. In exchange for a medical professional working in an underserved area for two years, MSLRP will repay up to $50,000 of the person's educational debt. This contract can be renewed three more times for a total of eight years

and up to $200,000 in loan repayment.

Currently, 120 medical professionals are part of MSLRP. They work in several northern, rural Michigan counties and inner-city areas including Detroit, Saginaw and Flint. Forty percent of the loan repayment is funded by the state, 40 percent by the federal Health Services and Resources Administration and 20 percent by the participant's employer; employers contribute because it greatly aids their recruitment efforts. This fiscal year, about $1.5 million in state general funding was allocated to the program.

Program officials are now conducting an evaluation to determine how many participants continue to practice in an underserved area after their contract has been fulfilled.

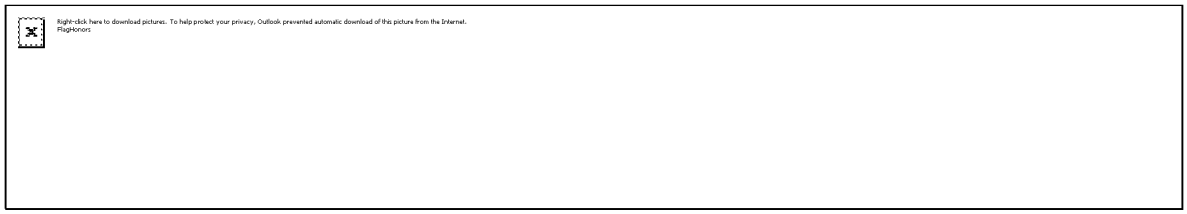
Subject: Thank you for your service



THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

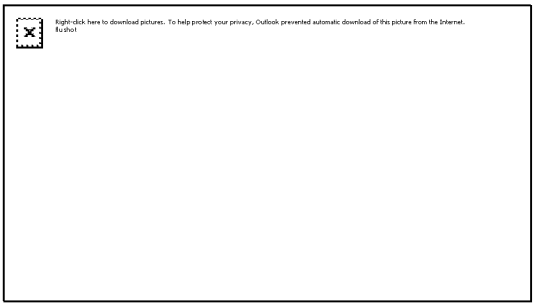
More kids protected against vaccine-preventable diseases



Many more children are being vaccinated in Michigan under a new rule that requires parents to first meet with local health department staff before receiving a non-medical vaccination waiver.

The number of waivers submitted have plummeted 39 percent since the rule change in January 2015, compared to a similar period in the prior year.

In 2014, Michigan had the sixth highest immunization waiver rate in the country with more than 5 percent of kindergarten children not receiving all required vaccines. All Michigan kindergarteners, seventh grade students and students moving from one school district to another are required to be up to date on certain immunizations or have a signed immunization waiver.

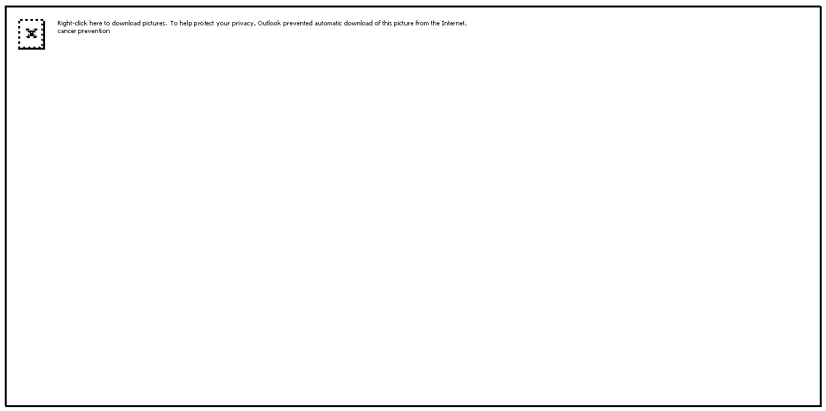
"By ensuring that parents have the opportunity to address and discuss concerns with their local health department, we're providing parents with knowledge they can use when making a decision about vaccinating their child," said Nick Lyon, MDHHS director. "Michigan's local health departments have been instrumental in working with

and educating parents who have had concerns about vaccines, and I applaud them for their understanding, assistance and dedication."

The new rule was intended to increase vaccination rates. Before the new rule, the waiver could be obtained from the school and signed by the parent at the time of school enrollment.

So far this school year, there have been nearly 8,000 fewer vaccination waivers for children entering Michigan's schools.

MDHHS promotes screening during Cervical Health Awareness Month



In recognition of January as Cervical Health Awareness Month, MDHHS is reminding women that widely available and affordable screening for cervical cancer can save their lives.

One troubling fact: More than half of cervical cancer deaths are seen in women who have either never had a Pap test -- a simple, affordable screening test -- or have not had testing in more than five years.

In 2012, 313 Michigan women were diagnosed with invasive cervical cancer, and in 2013, 128 Michigan women died from this disease.

"Human Papillomavirus or HPV vaccination is also very important because it can prevent about 85 percent of all cervical cancer cases in the United States," said Dr. Eden Wells, chief medical executive at MDHHS. "The HPV vaccine is safe, effective, and produces better immunity when given at the recommended age of 11-12 years. It can prevent cervical cancer in women as well as other cancers in both women and men."

Three doses of HPV vaccine are recommended for girls and boys at 11-12 years of age, but the vaccine can be given up through age 26. But only 31 percent of females and 19 percent of males ages 13-17 had received the entire three-dose vaccine series as of September 2015, according to Michigan Care Improvement Registry data.

Screening for cervical cancer is recommended to begin at age 21. Through the Healthy Michigan Plan, women's preventive health care -- such as screenings for cervical cancer, mammograms, prenatal care, immunizations and other services -- is covered without co-pays. Pap tests are available at many community-based clinics, and for women ages 40-64, Pap testing is accessible through the Breast and Cervical Cancer Control and Navigation Program.

Volunteer opportunities are available in Flint

MDHHS employees who wish to donate or volunteer to provide bottled water to Flint residents can visit www.helpforflint.com.

We thank all employees who have donated or volunteered to assist the citizens of Flint so far, including those helped out by distributing bottled water, water filters and other items to residents in Flint.

Please note that state employees who are interested in volunteering should plan to do so on their own time. Volunteers are responsible for their own transportation, and mileage reimbursement for personal vehicles is not authorized.

MDHHS: In the News

MCTI trains young people as CNAs

A pilot program offered through the Michigan Career Technical Institute is helping young people begin a promising future as a certified nursing assistant. WSBT-TV reported on the story.

Rule change leads to higher vaccinations for children

A Michigan state rule change has led to a sharp decrease in the number of parents seeking vaccination waivers for their children. Upper Michigans Source reported on the story.

Q & A: Your questions about MDHHS

The Michigan Department of Health and Human Services was created April 10, and many of you may have questions about the relatively new agency where we work. We will do our best to answer any questions that you have.

Those of you with questions can direct them to Scott Davis of the Office of Communications at davisS8@michigan.gov. Below is a staff question and our answer:

QUESTION: One of my customers, a Medicaid recipient, recently asked me about an IRS Form 1095-B that MDHHS mailed to her for the first time. Can you provide more information about this form?

ANSWER: In recent weeks, MDHHS has begun mailing the form to approximately 2.7 million Medicaid, Healthy Michigan Plan, and MIChild recipients in Michigan. This is the first year the IRS has required the form to be sent. The form provides information about how many months in 2015 the customer received medical coverage under one of these programs -- information that now must be reported on one's income tax return under provisions of the Affordable Care

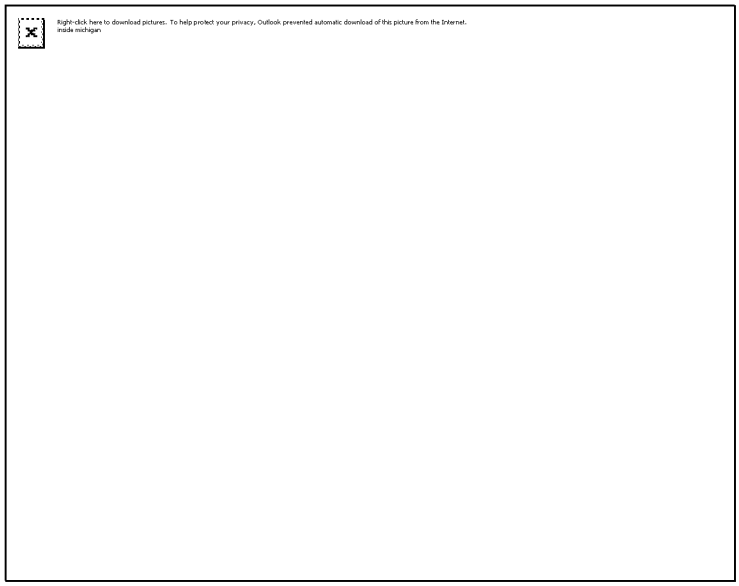
Act.

Customers who lost their form can log-on to the myHealthPortal application at www.michigan.gov/myhealthportal to reprint their tax form. They also can call the Beneficiary Help Line at 1-800-642-3195 (TTY 1-866-501-5656) to have another one mailed to them.

In addition, they can call the help line to report corrections needed on the form, or to answer general questions. The help line cannot give tax advice related to the form. Other information about the form is available on the Michigan.gov website at www.michigan.gov/1095b.

This form will now be mailed to program recipients in January of each year.

Don't forget about our other news content!



- **You can check out the latest issue of MDHHS Digest** by visiting this archive. The monthly issue is always full of news relevant to our department.
- **The monthly video message from MDHHS Director Nick Lyon** is always available at the top of the Inside MDHHS home page. On that same page, you can find the latest employee news on Current.
- **Help us get the word out!** Please send all story submissions for MDHHS Digest, This Week at MDHHS and the employee news site on the intranet, Current, to Scott Davis at davis8@michigan.gov. Don't forget to include a photo.

The information in this publication is intended only for the use of recipient MDHHS staff. Recipient staff members shall not forward information contained here to a recipient outside of their agencies.

Subject: DRAFT Flint FOIA DTMB Systems

SMT Members:
In response to the Flint FOIA Project, we have compiled a list of DTMB-owned systems that may need to be searched depending on whether or not the systems listed would reasonably contain any of the search terms sent on Friday (see search terms below). We are not asking you to perform any searches at this time, additional instructions are forthcoming.

What I need from you is to:
1) review the list and tell me whether the systems listed may contain the search terms (center column);
2) notify me if there are DTMB systems that are not listed that may contain the search terms;
3) tell me who is the individual responsible for performing the search in the system on behalf of the custodians (right column);

This information is due back to me close of business (5:00pm) Wednesday. Jean

Subject:
Mandatory Meeting - DTMB Custodians of Correspondence Related to Flint

Here is the language for the body of the email:

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

They can attend by phone or in person.

Please add these staff:

Subject: DTMB Search Guidelines Draft Memo

Good Afternoon Valerie:
Attached is the draft memo that we would like to send to our custodians as soon as possible. We would like clarification on two items below:

1. Clarify Search Terms
a. The list originally included a note that said anywhere in document; we removed it to avoid confusion
b. Originally written as "Flint" (within sentence) "utilities"; changed it to "Flint" & "utilities"
2. Lookback time period – is 10 years sufficient?

We also have a list of additional questions from our department and SBO. Would you have any time today for a brief call with Brom, Ashley and me? We are available any time and after 5:00pm.

Thank you. Jean

Jean,

Wow. I didn't know Flint was part of your new portfolio. I hope you are able to do some real good there.

Please let me know if there is any way I can help with the metrics from afar. If these are numbers that Chandra or Vidya have provided in the past, perhaps I could work with them since I now know them a little. Let me know.

Godspeed for the work with Flint.

Troy

Subject: Re: Pilot metrics - draft worksheet

Hi Jean,

I attached the final version of the pilots metrics worksheet; it is almost identical to the version I sent around on 12/23, with just a few minor wording clarifications and tailoring to alumni of the NSTIC pilots program. Are you able to send us responses to the attached by Monday, January 25th? In the meantime, I am available to answer any questions! You'll notice that in the alumni worksheet we ask for information a) during the period of performance and b) since the end of the period of performance through 12/31/15. Since your pilot just ended, I'm assuming you'll ignore the "since the end of the period of performance" sections for now.

We're enthusiastic about starting this quarterly metrics process, and we really appreciate your help in collecting this data.

Thanks so much,
Ellen

Good afternoon Jean,

We hope that this effort will help quantify and thus more effectively communicate the benefits and impacts of the pilots. It is our hope that all current and "graduated" pilots would participate in this survey as your programs evolve and mature. Regarding requirements for your grant, we would anticipate this type of information be included in your final report but responding to this specific survey is not required.

We would hope that we can continue to work with you/Michigan to gather and communicate these positive outcomes as we believe there are benefits to both our interests. Please let us know if you have any comments on the worksheet itself, as a key participant we would welcome feedback on metrics you feel would be impactful to be shared with the greater public.

Hope you had a good new years,
Phil.

Subject: Pilot metrics - draft worksheet

Hi all,

Thanks for a productive collaboration call last Friday; I'll be joining biweekly pilot calls in the new year to further discuss RP metrics with you all individually.

As I mentioned on Friday, in addition to the RP metrics, we'd like to start collecting metrics on the NSTIC pilots on a quarterly basis. We'll use these metrics to track progress internally, and to provide up-to-date external reports in response to outside requests for pilot updates. The attached draft worksheet introduces the main information we'd like to collect; if there is anything you think is missing or worded poorly, please let me know by the end of next week. If you won't be able to meet that deadline for any reason but would like to provide feedback on the attached, please let me know. I don't anticipate any major changes to this worksheet, so feel free to start gathering data based on the attached.

I plan to send along a final version of this worksheet the week of 1/4, and will ask that you all provide information on this past quarter (9/1/15-12/31/15) by the end of January.

Please let me know if you have any questions or concerns.

Have a great holiday!
Best,
Ellen

Subject: RE: NEW DEADLINE - Time Sensitive Request

Jean:

On behalf of the Bureau of Labor Market Information and Strategic Initiatives, I respond to your request for "a list of likely custodians" of documents relating to one or more of several search terms provided in Brom's February 12, 2016 email. A custodian will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.

- Our state demographer, Eric Guthrie, has been corresponding almost daily with executives from the State Budget Office (SBO) providing demographic information for Flint. His emails and documents are likely to include some of these search terms, only insofar as they establish the nature of the inquiry from SBO.
- Virtually all staff could be reasonably expected to have documents (electronic or otherwise) related to the search terms "Flint" and "Utilities" in the same sentence. Because *Flint* is a major metropolitan statistical area and *Trade, Transportation, and Utilities* is a major industry super sector for the purposes of our federal-state cooperative programs, staff who work on those programs or who provide analysis of the resulting data are likely custodians of documents related to that search term.
- Many staff subscribe to various news services, like MIRS or Gongwer, and are likely to have several related updates from these services that use many or most of the search terms provided.
- Some staff may have sent personal reaction emails to fellow staff members or others relating to the search terms provided. An example may be an employee who writes to her sister in the unemployment insurance agency: "I cannot believe this emergency in Flint!" Similarly, I have received at least one email from a staff member requesting that we counsel some of the team to not speak too loudly about the "emergency in Flint" as some opinions may be offensive to others.

However, it is my belief that considering the nature of the inquiry, no staff in the Bureau of Labor Market Information and Strategic Initiatives are custodians of documents with the search terms below that relate directly or indirectly to the situation in Flint or the resulting litigation.

I hope this helps. Please let me know if you have any questions or would like any additional information.

Thanks!

Jason

Subject: NEW DEADLINE - Time Sensitive Request

Senior Management Team,

We just received the search terms for the document production. (See below.) Given the lateness of this email, we are asking you send your list of custodians to Jean Ingersoll **no later than noon on Tuesday, February 16**.

We are not asking you to conduct any searches right now. Further directions will come from Jean.

Search terms:

Legionnaire

Legionella
"boil water order" & "Flint" (anywhere in document)
"coli" & Flint (anywhere in document)
"bacteria" & "Flint" (anywhere in document)
"microb" & "Flint" (anywhere in document)
"TTHM" & "Flint" (anywhere in document)
"Lead" & "Flint" (anywhere in document)
"emergency" & "Flint" (anywhere in document)
Karegnondi
"Genesee County Health Department"
"Flint" (within sentence) "utilities"
"Lead and Copper Rule"
"Detroit Water and Sewerage Department" & "Flint" (anywhere in document)
"DWSD" & "Flint" (anywhere in document)
"Flint River"
"Pb" & "water" (anywhere in document)
"KWA"

Please call me or Jean if you have any questions.

Brom

Subject: Time Sensitive Request

SMT,

Jean Ingersoll is leading DTMB's effort to comply with document production requests related to freedom of information requests and certain lawsuits against the state.

At some point during the day tomorrow, Jean will share with you a list of standard "search terms" which we will use to compile documents related to this lawsuit.

Within 2 hours of receiving this email from Jean, you need to respond with a list of likely custodians from your work area. Jean may have more information on this tomorrow, but generally speaking a custodian will be

a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.

If you have any questions, please call me or Jean. This is an important issue and I thank you in advance for your attention to this matter.

Brom Stibitz
Chief Deputy Director

Cc: Wellman, Jeff (DTMB);Maynard, Sharon (DTMB)
Subject: RE: Flint FOIA - DTMB Systems

This makes sense, Ashley talked to Valerie Brader about this last night. Our next discussion with the individuals responsible for the systems will be HOW to search and what to do with the documents. Be prepared for a call soon about this.

Subject: RE: Flint FOIA - DTMB Systems

Jean,
I don't see Buy4Michigan as a concern. I would think MAIN would be more likely with purchase orders. To my knowledge, all of the purchasing has been classified as "emergency purchases" which would not flow through Buy4Michigan.

Jeff

Subject: Flint FOIA - DTMB Systems

SMT Members:
In response to the Flint FOIA Project we have compiled a list of DTMB-owned systems that may need to be searched depending on whether or not the systems listed would reasonably contain any of the search terms sent on Friday (see search terms below). We are not asking you to perform any searches at this time, additional instructions are forthcoming.

What I need from you is to:
1) review the list and tell me whether the systems listed may contain the search terms (center column);
2) notify me if there are DTMB systems that are not listed that may contain the search terms;
3) tell me who is the individual responsible for performing the search in the system on behalf of the custodians (right column);

This information is due back to me close of business (5:00pm) today, Wednesday.

Subject: UPDATED Information on Custodian Search Memo and Guidelines and Meeting Minutes

Importance: High

Good Afternoon All:
After attempting to perform a search, I have some important information for you.

The first search will take quite a while, possibly up to 20 minutes. After some time your computer will recognize the slowness and automatically start to index the search. Once the computer starts to index, the searches will become much faster.

Lastly, on the search instructions for Microsoft 7 and 8, the terms Flint AND water were omitted; however, the checklist that you must return is correct. Please make certain that you are searching the terms Flint AND water. Thank you. Jean

Subject: RE: Pathways in Flint

I didn't see anything in the minutes Re: Sandi's success stories. Here is what I have so far: I still need to do the spreadsheet….

1. Schools – 7 schools
    a. All have addresses in Flint across 4 different zip codes
2. Students served at school
    a. 3457
3. Percentage of students with 'chronic' absenteeism:
    a. 45.03%
4. Percentage decrease from last year:
    a. Nearly 10%
5. Community partner information:
    a. At Doyle/Ryder, Potter and Brownell Holmes STEM they have partnered with the CRIM foundation.
        i. Provide community school coordinators to get community involved with the school.
        ii. Provide the students with 'brain breaks' throughout the day
            1. Give students mental health breaks
            2. Examples: yoga in the morning, stretching, jumping jacks
        iii. Partner with the community to get them involved in the education of the youth
    b. Success coaches are directing community members to their local site to get water filters, water, etc.

i. Collected so much with community outreach they gave to homeless and senior citizens

c. Director Sandi Mose, success coaches Susan Holvey, Heather Grace, Susan Hoppe and Chris Zofchak all delivered water, water filters and brochures to community members.

All information based on data from 12/31/15 unless otherwise indicated.

Any data points you might have. Let's start with the basics: how many schools 7, all have addresses in Flint across 4 different zip codes. All are in the "School District of the City of Flint" for their ISD., how many kids 3457, etc. If you have attendance data % of students with 10 or more absences (as of 12/31/2015): 45.03 that would be interesting. Would that be something we could use publicly?

Cc: Hertel, Elizabeth (DHHS);Zaniewski, Jamie (GOV)
Subject: RE: Pathways in Flint

We were able to speak to one mentor (manager) this morning. If you would like more information, I would be happy to call the Genesee county director. Below is some basic information about what's happening at the Flint Pathways schools:

1. 7 schools
    a. All have addresses in Flint across 4 different zip codes
2. Number of students served at the schools:
    a. 3457
3. Percentage of students with "chronic" absenteeism (10 or more absences):
    a. 45.03%
4. Percentage **decrease** of chronic absenteeism from last year:
    a. Nearly 10%
5. Community partner information:
    a. At Doyle/Ryder, Potter and Brownell Holmes STEM they partnered with the CRIM foundation to:
        i. Provide community school coordinators to get community involved with the school
        ii. Provide the students with 'brain breaks' throughout the day
            1. Give students mental health breaks
            2. Examples: yoga in the morning, stretching, jumping jacks
        iii. Work with the community to get them involved in the education of the youth
    b. Success coaches are directing community members to their local site to get water filters, water, etc.
        i. Collected so much water in conjunction with community outreach that they gave it to the homeless and senior citizens
    c. Director Sandi Mose, success coaches Susan Holvey, Heather Grace, Susan Hoppe and Chris Zofchak all delivered water, water filters and brochures to community members

I can provide you with a list of barriers addressed and resources provided but it's an extremely lengthy list and it may be somewhat confusing without an explanation.

FOR IMMEDIATE RELEASE
Friday, Feb. 12, 2016

Gov. Rick Snyder releases departmental emails produced regarding Flint water crisis

LANSING, Mich. - Gov. Rick Snyder's office today posted emails and corresponding documents that have been made available to requesting entities from state departments regarding the Flint water crisis. The documentation represents requests fulfilled to date by the Department of Environmental Quality, Department of Health and Human Services, Department of Treasury, Department of Technology, Management and Budget, and Department of Agriculture and Rural Development regarding Flint water.

"All levels of government failed the people of Flint," Snyder said. "This crisis should never have happened, but we are making progress each day to meet the needs of residents.

"By making the information easily accessible, everyone can review it and take what they need, and then we can all focus and work together on solutions, healing and moving Flint forward."

NOTE: All emails and attachments can be accessed using the below links. Documents are large and will take time to download. Viewing on a mobile device is not recommended.

LEGAL NOTICE

- The release of these documents is not a waiver of any legal privilege. Because of the voluminous nature of these records, some documents that are subject to the attorney-client, attorney work product, and other privileges may have been inadvertently disclosed. Should this posting include such documents, their disclosure here does not constitute a waiver of the privilege.
- Those seeking information as part of a legal proceeding or investigation should not rely solely upon the documents posted here to satisfy their request. Such requests should be directed to the appropriate state custodian.
- The posting of these documents does not, is not intended to, and cannot be relied upon to, create any right or benefit, substantive or procedural, that is enforceable by any external party.

Subject: Time Sensitive Request

SMT,

Jean Ingersoll is leading DTMB's effort to comply with document production requests related to freedom of information requests and certain lawsuits against the state.

At some point during the day tomorrow, Jean will share with you a list of standard "search terms" which we will use to compile documents related to this lawsuit.

Within 2 hours of receiving this email from Jean, you need to respond with a list of likely custodians from your work area. Jean may have more information on this tomorrow, but generally speaking a custodian will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.

If you have any questions, please call me or Jean. This is an important issue and I thank you in advance for your attention to this matter.

Good Morning Jean –

We do not believe that X3 contains any of the search terms, however if it is decided that a search is needed on X3, Kurt King would be the individual responsible for performing the search on this. You can either reach out to Kurt directly or work through me.

In terms of other systems, we do not believe there are any other systems in place within FBSA that would list any of the search terms identified.

Please feel free to contact me if you have any questions or concerns.

Thank you -

Subject: Flint FOIA - DTMB Systems

SMT Members:
In response to the Flint FOIA Project we have compiled a list of DTMB-owned systems that may need to be searched depending on *whether or not the systems listed would reasonably contain any of the search terms* sent on Friday (see search terms below). We are not asking you to perform any searches at this time, additional instructions are forthcoming.

What I need from you is to:

1) review the list and tell me whether the systems listed may contain the search terms (center column);
2) notify me if there are DTMB systems that are not listed that may contain the search terms;
3) tell me who is the individual responsible for performing the search in the system on behalf of the custodians (right column);

This information is due back to me close of business (5:00pm) today, Wednesday.

Electronic/DTMB Systems	E-Mich	Pauley (Swanson) (Already public facing?)
	Buy4Mich	Maynard (Brownlee/Wellman)

	MAIN	Dave Gabler (Brownlee/Wellman)
	MPSCS	Brad Stoddard (Swanson)
	Anything Related to Cyber?	Christian Kopacsi
	FileNet	Demello (Swanson)

Subject: Re: Pilot metrics - draft worksheet

Hi Jean,

I attached the final version of the pilots metrics worksheet; it is almost identical to the version I sent around on 12/23, with just a few minor wording clarifications and tailoring to *alumni* of the NSTIC pilots program. Are you able to send us responses to the attached by Monday, January 25th**?** In the meantime, I am available to

answer any questions! You'll notice that in the alumni worksheet we ask for information a) during the period of performance and b) since the end of the period of performance through 12/31/15. Since your pilot just ended, I'm assuming you'll ignore the "since the end of the period of performance" sections for now.

We're enthusiastic about starting this quarterly metrics process, and we really appreciate your help in collecting this data.

Thanks so much,
Ellen

Subject: RE: Pilot metrics - draft worksheet

Good afternoon Jean,

We hope that this effort will help quantify and thus more effectively communicate the benefits and impacts of the pilots. It is our hope that all current and "graduated" pilots would participate in this survey as your programs evolve and mature. Regarding requirements for your grant, we would anticipate this type of information be included in your final report but responding to this specific survey is not required.

We would hope that we can continue to work with you/Michigan to gather and communicate these positive outcomes as we believe there are benefits to both our interests. Please let us know if you have any comments on the worksheet

itself, as a key participant we would welcome feedback on metrics you feel would be impactful to be shared with the greater public.

Hope you had a good new years,
Phil.

Subject: FW: Pilot metrics - draft worksheet

Hi Phil:
Is this something that is required by the grant? Or is our closeout report enough to provide this information? Jean

Subject: Pilot metrics - draft worksheet

Hi all,

Thanks for a productive collaboration call last Friday; I'll be joining biweekly pilot calls in the new year to further discuss RP metrics with you all individually.

As I mentioned on Friday, in addition to the RP metrics, we'd like to start collecting metrics on the NSTIC pilots on a quarterly basis. We'll use these metrics to track progress internally, and to provide up-to-date external reports in response to outside requests for pilot updates. The attached draft worksheet introduces the main information we'd like to collect; if there is anything you think is missing or

worded poorly, please let me know by the end of next week. If you won't be able to meet that deadline for any reason but would like to provide feedback on the attached, please let me know. I don't anticipate any major changes to this worksheet, so feel free to start gathering data based on the attached.

I plan to send along a final version of this worksheet the week of 1/4, and will ask that you all provide information on this past quarter (9/1/15-12/31/15) by the end of January.

Please let me know if you have any questions or concerns.

Have a great holiday!
Best,
Ellen

Hi,
So there is a John Baer who is retired and John Baer III who is a SharePoint Administrator. I think I sent the invite to the retired one, should it be going to John Baer III?

Thank you,

Janelle Longanbach

On this meeting notice is John Baer who is retired. His son, John Baer III, who is a SharePoint administrator, works here at CSS.
Which was the intended recipient?

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 17, 2016

TO: All DTMB Custodians of Correspondence Related to Flint

FROM: Jean Ingersoll, Interim Chief of Staff to David B. Behen, Director and CIO

SUBJECT: Flint Document Production – Search Terms and Guidance

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. **As a custodian, you are required to produce any documents containing the search terms listed below, no later than Monday, February 22, 2016.** This memorandum contains detailed instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Microsoft 365 – Outlook (*includes emails, calendar items) and OneDrive*

DTMB staff will centrally coordinate the Microsoft 365 search for all of DTMB's custodians. Therefore, DTMB's custodians *do not need to independently search any of their Microsoft 365 applications* for the search terms listed below.

Network Drives

Similar to the approach outlined above, DTMB staff will centrally coordinate the network drive search effort for all DTMB custodians. Custodians do *not* need to independently conduct a network drive search for the search terms below.

Non-Network Drives – *includes hard drives, desktop, and thumb/flash drives*

For all non-network drive types, ***each custodian will need to search every search term listed below in every non-network format, and move all relevant/related documents in to a network drive for collection. In order to move items to the network, you must be connected to the network.***

Start by conducting the search of all non-network drives, filling out the attached search term checklist as you go. If you need guidance as to how to perform this search, a step-by-step guide is included below in Appendix 1.

All relevant/responsive items that are produced as a result of your search need to be moved to a network drive. You can move your relevant/related documents to a network drive in whatever format the document is currently in. After the February 22, 2016, deadline, DTMB staff will access the network drives to collect the files.

Paper Files

Review all applicable paper files. Scan any relevant/related documents, and save them to a network drive, as described above. If this is not possible, you may provide hard copies of documents to Jean Ingersoll in the Director's Office. These documents must be received in the Director's Office by February 22, 2016, and will not be returned to you.

Home Computer

Any relevant e-mails or other documents on a personal computer also are subject to this request. Please check your personal computer for any e-mails or other documents relating to this search. If you discover any relevant/related documents, please include the phrase "personal computer" in the file name, and save them to the aforementioned network drive.

Conclusion

Thank you for your cooperation in complying with this request. Should you have any questions, please contact Jean Ingersoll at 1-8844.

Search Term Checklist

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB network drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Relevant/related items from the past 10 years should be included.

You should search for *each term exactly as it is shown below, and include quotation marks around each separate word.* For example, "Legionnaire", "Legionella", or "Flint" would all go into search fields. After you complete a search term, check the box beside the term.

Search Terms:

- ☐ "Legionnaire"
- ☐ "Legionella"
- ☐ "boil water order" & "Flint"
- ☐ "coli" & "Flint"
- ☐ "bacteria" & "Flint"
- ☐ "microb" & "Flint"
- ☐ "TTHM" & "Flint"
- ☐ "Lead" & "Flint"
- ☐ "emergency" & "Flint"
- ☐ "Karegnondi"
- ☐ "Genesee County Health Department"
- ☐ "Flint" & "utilities"
- ☐ "Lead and Copper Rule"
- ☐ "Detroit Water and Sewerage Department" & "Flint"
- ☐ "DWSD" & "Flint"
- ☐ "Flint River"
- ☐ "Pb" & "water"
- ☐ "KWA"

Search conducted on the email account of: _____

By (your name): _____

Date completed: _____

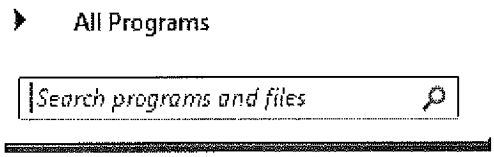
Please return this completed Checklist to DTMB Director's Office staff by February 22, 2016, at DTMB@michigan.gov, or
Directors Office, Cass Building, Second Floor

APPENDIX 1 – Search Guidance

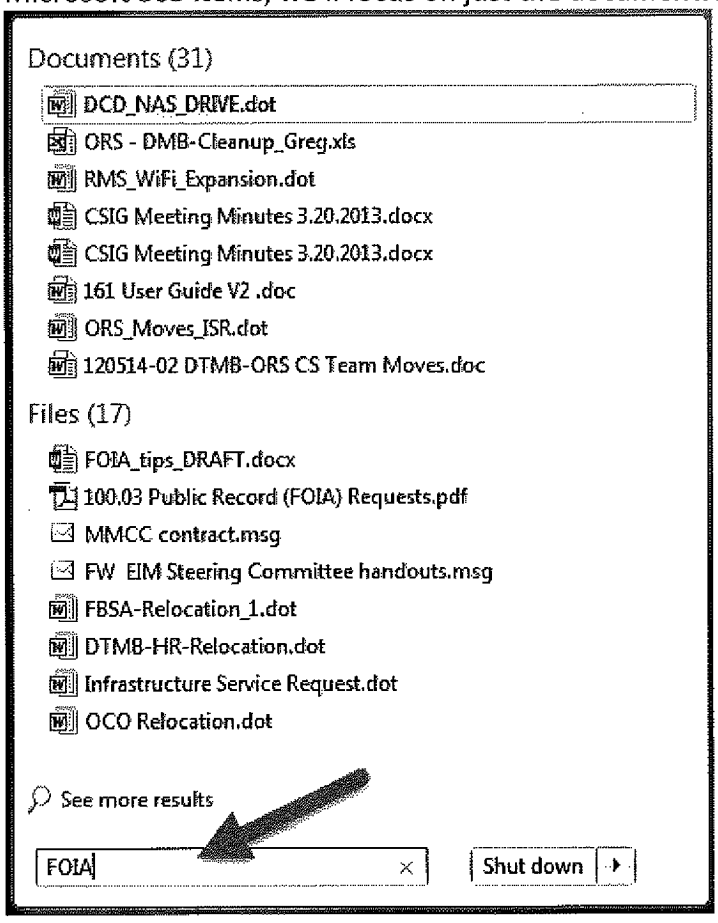
Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer," you see it every time you open up a folder on a network drive, or on your own computer.

Using the search function in windows 7

Since the majority of DTMB is on Windows 7, the examples below are on that operating system. If you click on windows Start button, you'll see the search box right next to it

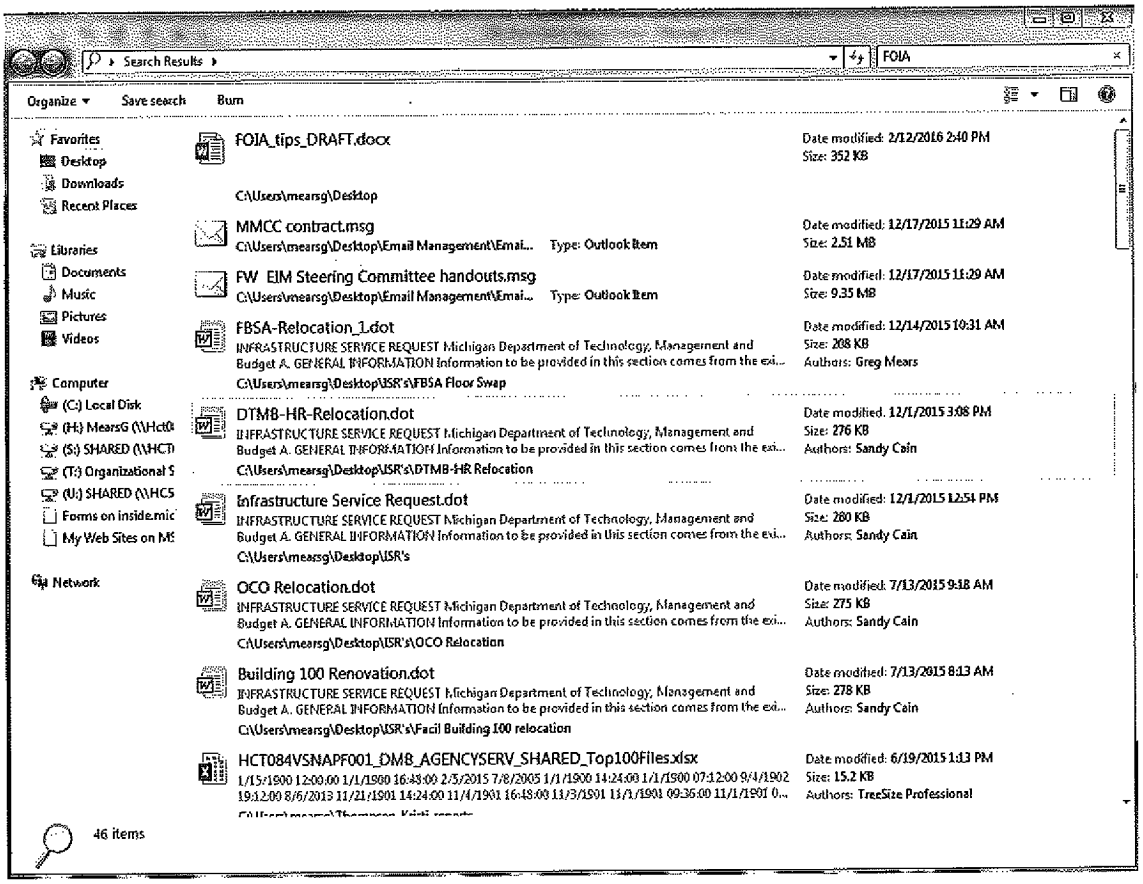


This example searches for the word FOIA. As you can see, the search yielded numerous documents including emails. Since DTMB is centrally collecting relevant emails and other Microsoft 365 items, we'll focus on just the documents.



You need to open each document to make sure that it's relevant. In this instance, the search brought up a DTMB Move form, but only because it has the word FOIA in the form.
You'll notice that the words "See more results" appears at the bottom of the list. This means that the search turned up a lot more documents than what can easily be displayed. You must

click on the link to open Windows Explorer and reveal a comprehensive list, along with their locations.



As you can see from this example the search found 46 items. We can now select them all using the "Ctrl-A method", and copy them to a network drive.

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 18, 2016

TO: All DTMB Custodians of Correspondence Related to Flint

FROM: Jean Ingersoll, Interim Chief of Staff to David B. Behen, Director and CIO

SUBJECT: Flint Document Production – Search Terms and Guidance

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. **As a custodian, you are required to produce any documents containing the search terms listed below, no later than Monday, February 22, 2016.** This memorandum contains detailed instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Microsoft 365 – Outlook (*includes emails, calendar items) and OneDrive*

DTMB staff will centrally coordinate the Microsoft 365 search for all of DTMB's custodians. Therefore, DTMB's custodians *do not need to independently search any of their Microsoft 365 applications* for the search terms listed below.

Network Drives

Similar to the approach outlined above, DTMB staff will centrally coordinate the network drive search effort for all DTMB custodians. Custodians do *not* need to independently conduct a network drive search for the search terms below.

Non-Network Drives – *includes hard drives, desktop, and thumb/flash drives*

For all non-network drive types, ***each custodian will need to search every search term listed below in every non-network format, and move all relevant/related documents in to a network drive for collection. In order to move items to the network, you must be connected to the network.***

Start by conducting the search of all non-network drives, filling out the attached search term checklist as you go. If you need guidance as to how to perform this search, a step-by-step guide is included below in Appendix 1.

All relevant/responsive items that are produced as a result of your search need to be moved to a network drive. You can move your relevant/related documents to a network drive in whatever format the document is currently in. After the February 22, 2016, deadline, DTMB staff will access the network drives to collect the files.

Paper Files

Review all applicable paper files. Scan any relevant/related documents, and save them to a network drive, as described above. If this is not possible, you may provide hard copies of documents to Jean Ingersoll in the Director's Office. These documents must be received in the Director's Office by February 22, 2016, and will not be returned to you.

Home Computer

Any relevant e-mails or other documents on a personal computer also are subject to this request. Please check your personal computer for any e-mails or other documents relating to this search. If you discover any relevant/related documents, please include the phrase "personal computer" in the file name, and save them to the aforementioned network drive.

Conclusion

Thank you for your cooperation in complying with this request. Should you have any questions, please contact Jean Ingersoll at 1-8844.

Jean,

Wow. I didn't know Flint was part of your new portfolio. I hope you are able to do some real good there.

Please let me know if there is any way I can help with the metrics from afar. If these are numbers that Chandra or Vidya have provided in the past, perhaps I could work with them since I now know them a little. Let me know.

Godspeed for the work with Flint.

Subject: Re: Pilot metrics - draft worksheet

Hi Jean,

I attached the final version of the pilots metrics worksheet; it is almost identical to the version I sent around on 12/23, with just a few minor wording clarifications and tailoring to *alumni* of the NSTIC pilots program. Are you able to send us responses to the attached by Monday, January 25th**?** In the meantime, I am available to answer any questions! You'll notice that in the alumni worksheet we ask for information a) during the period of performance and b) since the end of the period of performance through 12/31/15. Since your pilot just ended, I'm assuming you'll ignore the "since the end of the period of performance" sections for now.

We're enthusiastic about starting this quarterly metrics process, and we really appreciate your help in collecting this data.

Thanks so much,

Ellen

Good afternoon Jean,

We hope that this effort will help quantify and thus more effectively communicate the benefits and impacts of the pilots. It is our hope that all current and "graduated" pilots would participate in this survey as your programs evolve and mature. Regarding requirements for your grant, we would anticipate this type of information be included in your final report but responding to this specific survey is not required.

We would hope that we can continue to work with you/Michigan to gather and communicate these positive outcomes as we believe there are benefits to both our interests. Please let us know if you have any comments on the worksheet itself, as a key participant we would welcome feedback on metrics you feel would be impactful to be shared with the greater public.

Hope you had a good new years,
Phil.

Subject: Pilot metrics - draft worksheet

Hi all,

Thanks for a productive collaboration call last Friday; I'll be joining biweekly pilot calls in the new year to further discuss RP metrics with you all individually.

As I mentioned on Friday, in addition to the RP metrics, we'd like to start collecting metrics on the NSTIC pilots on a quarterly basis. We'll use these metrics to track progress internally, and to provide up-to-date external reports in response to outside requests for pilot updates. The attached draft worksheet introduces the main information we'd like to collect; if there is anything you think is missing or worded poorly, please let me know by the end of next week. If you won't be able to meet that deadline for any reason but would like to provide feedback on the attached, please let me know. I don't anticipate any major changes to this worksheet, so feel free to start gathering data based on the attached.

I plan to send along a final version of this worksheet the week of 1/4, and will ask that you all provide information on this past quarter (9/1/15-12/31/15) by the end of January.

Please let me know if you have any questions or concerns.

Have a great holiday!
Best,
Ellen

Subject: Flint FOIA - DTMB Systems

SMT Members:
In response to the Flint FOIA Project we have compiled a list of DTMB-owned systems that may need to be searched depending on *whether or not the systems listed would reasonably contain any of the search terms* sent on Friday (see search terms below). We are not asking you to perform any searches at this time, additional instructions are forthcoming.

What I need from you is to:

1) review the list and tell me whether the systems listed may contain the search terms (center column);
2) notify me if there are DTMB systems that are not listed that may contain the search terms;
3) tell me who is the individual responsible for performing the search in the system on behalf of the custodians (right column);

This information is due back to me close of business (5:00pm) today, Wednesday.

	E-Mich	Pauley (Swanson) (Already public facing?)
Electronic/DTMB Systems	Buy4Mich	Maynard (Brownlee/Wellman)

From: Palmer, Jason (DTMB)
Sent: Tuesday, February 16, 2016 10:11 AM
To: Stibitz, Brom (DTMB);Ingersoll, Jean (DHHS)
Subject: RE: NEW DEADLINE - Time Sensitive Request

Jean:

On behalf of the Bureau of Labor Market Information and Strategic Initiatives, I respond to your request for "a list of likely custodians" of documents relating to one or more of several search terms provided in Brom's February 12, 2016 email. A custodian will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.

- Our state demographer, Eric Guthrie, has been corresponding almost daily with executives from the State Budget Office (SBO) providing demographic information for Flint. His emails and documents are likely to include some of these search terms, only insofar as they establish the nature of the inquiry from SBO.
- Virtually all staff could be reasonably expected to have documents (electronic or otherwise) related to the search terms "Flint" and "Utilities" in the same sentence. Because *Flint* is a major metropolitan statistical area and *Trade, Transportation, and Utilities* is a major industry super sector for the purposes of our federal-state cooperative programs, staff who work on those programs or who provide analysis of the resulting data are likely custodians of documents related to that search term.
- Many staff subscribe to various news services, like MIRS or Gongwer, and are likely to have several related updates from these services that use many or most of the search terms provided.
- Some staff may have sent personal reaction emails to fellow staff members or others relating to the search terms provided. An example may be an employee who writes to her sister in the unemployment insurance agency: "I cannot believe this emergency in Flint!" Similarly, I have received at least one email from a staff member requesting that we counsel some of the team to not speak too loudly about the "emergency in Flint" as some opinions may be offensive to others.

However, it is my belief that considering the nature of the inquiry, no staff in the Bureau of Labor Market Information and Strategic Initiatives are custodians of documents with the search terms below that relate directly or indirectly to the situation in Flint or the resulting litigation.

I hope this helps. Please let me know if you have any questions or would like any additional information.

Thanks!

Jason

Subject: NEW DEADLINE - Time Sensitive Request

Senior Management Team,

We just received the search terms for the document production. (See below.) Given the lateness of this email, we are asking you send your list of custodians to Jean Ingersoll **no later than noon on Tuesday, February 16**.

We are not asking you to conduct any searches right now. Further directions will come from Jean.

Search terms:

Legionnaire

Legionella
"boil water order" & "Flint" (anywhere in document)
"coli" & Flint (anywhere in document)
"bacteria" & "Flint" (anywhere in document)
"microb" & "Flint" (anywhere in document)
"TTHM" & "Flint" (anywhere in document)
"Lead" & "Flint" (anywhere in document)
"emergency" & "Flint" (anywhere in document)
Karegnondi
"Genesee County Health Department"
"Flint" (within sentence) "utilities"
"Lead and Copper Rule"
"Detroit Water and Sewerage Department" & "Flint" (anywhere in document)
"DWSD" & "Flint" (anywhere in document)
"Flint River"
"Pb" & "water" (anywhere in document)
"KWA"

Please call me or Jean if you have any questions.

Brom

Subject: Time Sensitive Request

SMT,

Jean Ingersoll is leading DTMB's effort to comply with document production requests related to freedom of information requests and certain lawsuits against the state.

At some point during the day tomorrow, Jean will share with you a list of standard "search terms" which we will use to compile documents related to this lawsuit.

Within 2 hours of receiving this email from Jean, you need to respond with a list of likely custodians from your work area. Jean may have more information on this tomorrow, but generally speaking a custodian will be

a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.

If you have any questions, please call me or Jean. This is an important issue and I thank you in advance for your attention to this matter.

Subject: RE: Flint FOIA - DTMB Systems

Hi Beverly:
Thank you for your email. I am a bit confused by your email and I would like to clarify. Are you responding only to the request for *system* information, performing the document search for Jason's files only or performing the document searches for other staff?

If you are coordinating searches for staff, Jason's attached email states that: "However, it is my belief that considering the nature of the inquiry, no staff in the Bureau of Labor Market Information and Strategic Initiatives are custodians of

documents with the search terms below that relate directly or indirectly to the situation in Flint or the resulting litigation."

Please let me know. Thank you. Jean

Subject: Flint FOIA - DTMB Systems

SMT Members:
In response to the Flint FOIA Project we have compiled a list of DTMB-owned systems that may need to be searched depending on *whether or not the systems listed would reasonably contain any of the search terms* sent on Friday (see search terms below). We are not asking you to perform any searches at this time, additional instructions are forthcoming.

What I need from you is to:

1) review the list and tell me whether the systems listed may contain the search terms (center column);
2) notify me if there are DTMB systems that are not listed that may contain the search terms;
3) tell me who is the individual responsible for performing the search in the system on behalf of the custodians (right column);

This information is due back to me close of business (5:00pm) today, Wednesday.

Electronic/DTMB Systems	E-Mich	Pauley (Swanson) (Already public facing?)
	Buy4Mich	Maynard (Brownlee/Wellman)
	MAIN	Dave Gabler (Brownlee/Wellman)
	MPSCS	Brad Stoddard (Swanson)
	Anything Related to Cyber?	Christian Kopacsi
	FileNet	Demello (Swanson)
	Time and Expense	Laurie Westfall/Dave Gabler (McFarlane)
	DCDS	Laurie Westfall/Dave Gabler (McFarlane)
	X3	Turnquist (Stibitz)
	HPTrim	Kristi Thompson (Joyce Vancovering)

Subject: Mandatory Meeting - DTMB Custodians of Correspondence Related to Flint
When: Thursday, February 18, 2016 2:00 PM-3:00 PM (UTC-05:00) Eastern Time (US & Canada).
Where: Ottawa Builidng - Upper Level – Conference Room 4 OR Call-in: 866-390-1828 access code: 1842654

Please note this meeting can be attended in person or via conference call-in. Location and Dial in information are provided below.

All DTMB Custodians of Correspondence Related to Flint.pdf
***This attachment was updated 2/18/16**

*See agenda below

Requested By:
DTMB Executive Staff

Location:
Ottawa Building
Upper Level – Conference Room 4
611 W. Ottawa Street
Lansing, MI 48933

Call-in: 866-390-1828
Access code: 1842654

Security:
Please have your State Employee ID showing at all times.

Parking:
Metered parking is available along Ottawa and Pine street.

Briefing:
In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Agenda

1. Kickoff – Brom Stibitz, Chief Deputy Director
2. Why you are here – Jean Ingersoll, Interim Chief of Staff
3. What you need to do (February 22, 2016 deadline) – Jean
4. What will be done for you – Jean
5. What's next – Jean
6. Public Information Reminder – Caleb Buhs, Public Information Officer
7. Questions and Answers - Group

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 17, 2016

TO: All DTMB Custodians of Correspondence Related to Flint

FROM: Jean Ingersoll, Interim Chief of Staff to David B. Behen, Director and CIO

SUBJECT: Flint Document Production – Search Terms and Guidance

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. **As a custodian, you are required to produce any documents containing the search terms listed below, no later than Monday, February 22, 2016.** This memorandum contains detailed instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Microsoft 365 – Outlook (*includes emails, calendar items) and OneDrive*

DTMB staff will centrally coordinate the Microsoft 365 search for all of DTMB's custodians. Therefore, DTMB's custodians *do not need to independently search any of their Microsoft 365 applications* for the search terms listed below.

Network Drives

Similar to the approach outlined above, DTMB staff will centrally coordinate the network drive search effort for all DTMB custodians. Custodians do *not* need to independently conduct a network drive search for the search terms below.

Non-Network Drives – *includes hard drives, desktop, and thumb/flash drives*

For all non-network drive types, ***each custodian will need to search every search term listed below in every non-network format, and move all relevant/related documents in to a network drive for collection. In order to move items to the network, you must be connected to the network.***

Start by conducting the search of all non-network drives, filling out the attached search term checklist as you go. If you need guidance as to how to perform this search, a step-by-step guide is included below in Appendix 1.

All relevant/responsive items that are produced as a result of your search need to be moved to a network drive. You can move your relevant/related documents to a network drive in whatever format the document is currently in. After the February 22, 2016, deadline, DTMB staff will access the network drives to collect the files.

Paper Files

Review all applicable paper files. Scan any relevant/related documents, and save them to a network drive, as described above. If this is not possible, you may provide hard copies of documents to Jean Ingersoll in the Director's Office. These documents must be received in the Director's Office by February 22, 2016, and will not be returned to you.

Home Computer

Any relevant e-mails or other documents on a personal computer also are subject to this request. Please check your personal computer for any e-mails or other documents relating to this search. If you discover any relevant/related documents, please include the phrase "personal computer" in the file name, and save them to the aforementioned network drive.

Conclusion

Thank you for your cooperation in complying with this request. Should you have any questions, please contact Jean Ingersoll at 1-8844.

- FOIA Checklist
- Attachment 1 – Search Guidance

Search Term Checklist

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB network drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Relevant/related items from the past 10 years should be included.

You should search for *each term exactly as it is shown below, and include quotation marks around each separate word.* For example, "Legionnaire", "Legionella", or "Flint" would all go into search fields. After you complete a search term, check the box beside the term.

Search Terms:

- ☐ "Legionnaire"
- ☐ "Legionella"
- ☐ "boil water order" & "Flint"
- ☐ "coli" & "Flint"
- ☐ "bacteria" & "Flint"
- ☐ "microb" & "Flint"
- ☐ "TTHM" & "Flint"
- ☐ "Lead" & "Flint"
- ☐ "emergency" & "Flint"
- ☐ "Karegnondi"
- ☐ "Genesee County Health Department"
- ☐ "Flint" & "utilities"
- ☐ "Lead and Copper Rule"
- ☐ "Detroit Water and Sewerage Department" & "Flint"
- ☐ "DWSD" & "Flint"
- ☐ "Flint River"
- ☐ "Pb" & "water"
- ☐ "KWA"

Search conducted on the email account of: _____

By (your name): _____

Date completed: _____

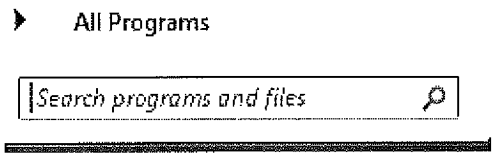
Please return this completed Checklist to DTMB Director's Office staff by February 22, 2016, at DTMB@michigan.gov, or
Directors Office, Cass Building, Second Floor

APPENDIX 1 – Search Guidance

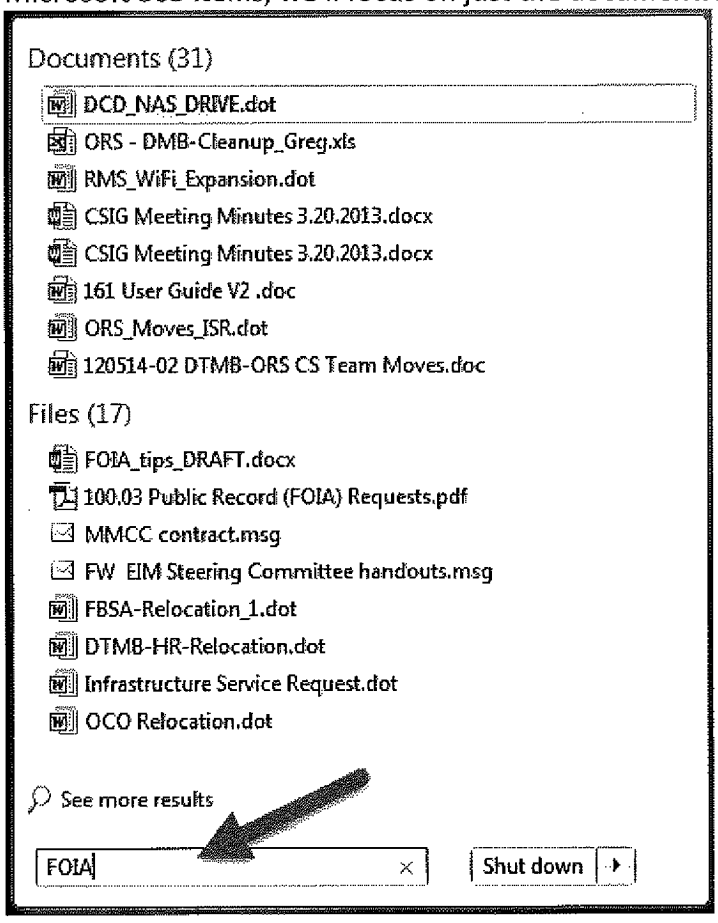
Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer," you see it every time you open up a folder on a network drive, or on your own computer.

Using the search function in windows 7

Since the majority of DTMB is on Windows 7, the examples below are on that operating system. If you click on windows Start button, you'll see the search box right next to it

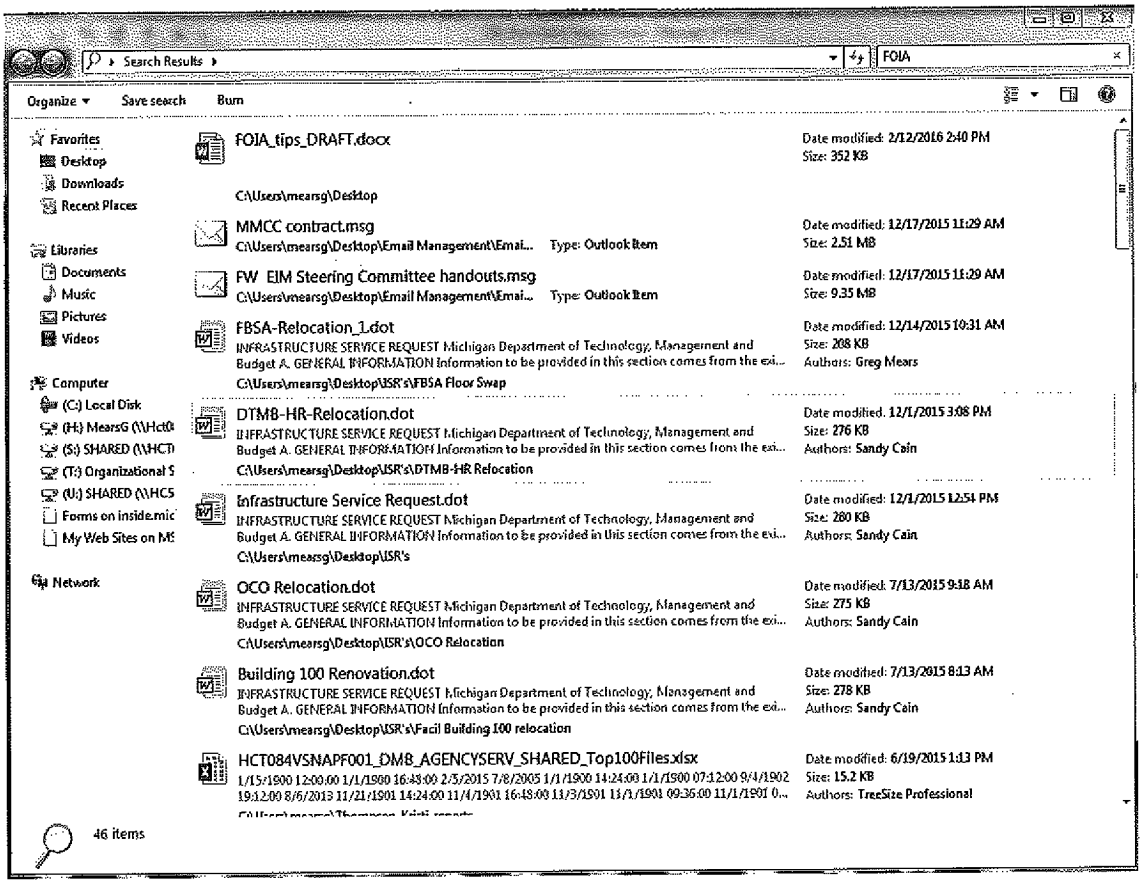


This example searches for the word FOIA. As you can see, the search yielded numerous documents including emails. Since DTMB is centrally collecting relevant emails and other Microsoft 365 items, we'll focus on just the documents.



You need to open each document to make sure that it's relevant. In this instance, the search brought up a DTMB Move form, but only because it has the word FOIA in the form.
You'll notice that the words "See more results" appears at the bottom of the list. This means that the search turned up a lot more documents than what can easily be displayed. You must

click on the link to open Windows Explorer and reveal a comprehensive list, along with their locations.



As you can see from this example the search found 46 items. We can now select them all using the "Ctrl-A method", and copy them to a network drive.

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 18, 2016

TO: All DTMB Custodians of Correspondence Related to Flint

FROM: Jean Ingersoll, Interim Chief of Staff to David B. Behen, Director and CIO

SUBJECT: Flint Document Production – Search Terms and Guidance

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. **As a custodian, you are required to produce any documents containing the search terms listed below, no later than Monday, February 22, 2016.** This memorandum contains detailed instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Microsoft 365 – Outlook (*includes emails, calendar items) and OneDrive*

DTMB staff will centrally coordinate the Microsoft 365 search for all of DTMB's custodians. Therefore, DTMB's custodians *do not need to independently search any of their Microsoft 365 applications* for the search terms listed below.

Network Drives

Similar to the approach outlined above, DTMB staff will centrally coordinate the network drive search effort for all DTMB custodians. Custodians do *not* need to independently conduct a network drive search for the search terms below.

Non-Network Drives – *includes hard drives, desktop, and thumb/flash drives*

For all non-network drive types, ***each custodian will need to search every search term listed below in every non-network format, and move all relevant/related documents in to a network drive for collection. In order to move items to the network, you must be connected to the network.***

Start by conducting the search of all non-network drives, filling out the attached search term checklist as you go. If you need guidance as to how to perform this search, a step-by-step guide is included below in Appendix 1.

All relevant/responsive items that are produced as a result of your search need to be moved to a network drive. You can move your relevant/related documents to a network drive in whatever format the document is currently in. After the February 22, 2016, deadline, DTMB staff will access the network drives to collect the files.

Paper Files

Review all applicable paper files. Scan any relevant/related documents, and save them to a network drive, as described above. If this is not possible, you may provide hard copies of documents to Jean Ingersoll in the Director's Office. These documents must be received in the Director's Office by February 22, 2016, and will not be returned to you.

Home Computer

Any relevant e-mails or other documents on a personal computer also are subject to this request. Please check your personal computer for any e-mails or other documents relating to this search. If you discover any relevant/related documents, please include the phrase "personal computer" in the file name, and save them to the aforementioned network drive.

Conclusion

Thank you for your cooperation in complying with this request. Should you have any questions, please contact Jean Ingersoll at 1-8844.

- Attachment 1 – Search Guidance

Search Term Checklist

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB network drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Relevant/related items from the past 10 years should be included.

You should search for *each term exactly as it is shown below, and include quotation marks around each separate word.* For example, "Legionnaire", "Legionella", or "Flint" would all go into search fields. After you complete a search term, check the box beside the term.

Search Terms:

- ☐ "Legionnaire"
- ☐ "Legionella"
- ☐ "boil water order" & "Flint"
- ☐ "coli" & "Flint"
- ☐ "bacteria" & "Flint"
- ☐ "microb" & "Flint"
- ☐ "TTHM" & "Flint"
- ☐ "Lead" & "Flint"
- ☐ "emergency" & "Flint"
- ☐ "Karegnondi"
- ☐ "Genesee County Health Department"
- ☐ "Flint" & "utilities"
- ☐ "Lead and Copper Rule"
- ☐ "Detroit Water and Sewerage Department" & "Flint"
- ☐ "DWSD" & "Flint"
- ☐ "Flint River"
- ☐ "Pb" & "water"
- ☐ "KWA"
- ☐ "Flint" & "water"

Search conducted on the email account of: _____

By (your name): _____

Date completed: _____

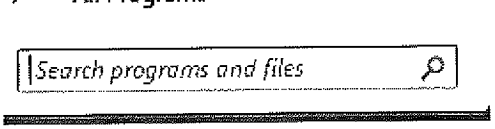
Please return this completed Checklist to DTMB Director's Office staff by Monday, February 22, 2016, at DTMB@michigan.gov, or Directors Office, Cass Building, Second Floor

APPENDIX 1 – Search Guidance

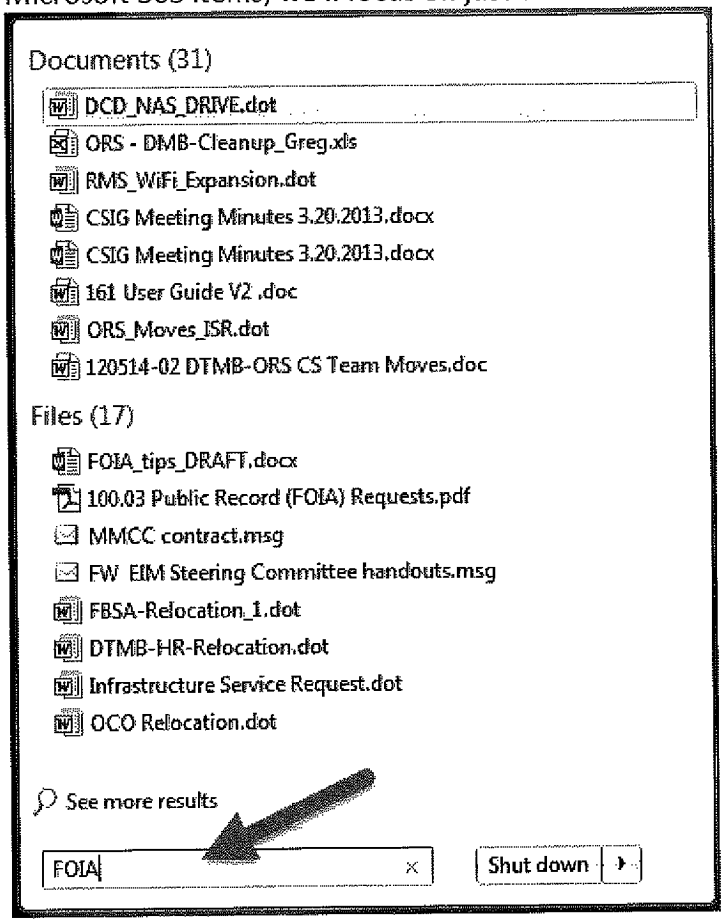
Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer," you see it every time you open up a folder on a network drive, or on your own computer.

Using the search function in windows 7

Since the majority of DTMB is on Windows 7, the examples below are on that operating system. If you click on windows Start button, you'll see the search box right next to it

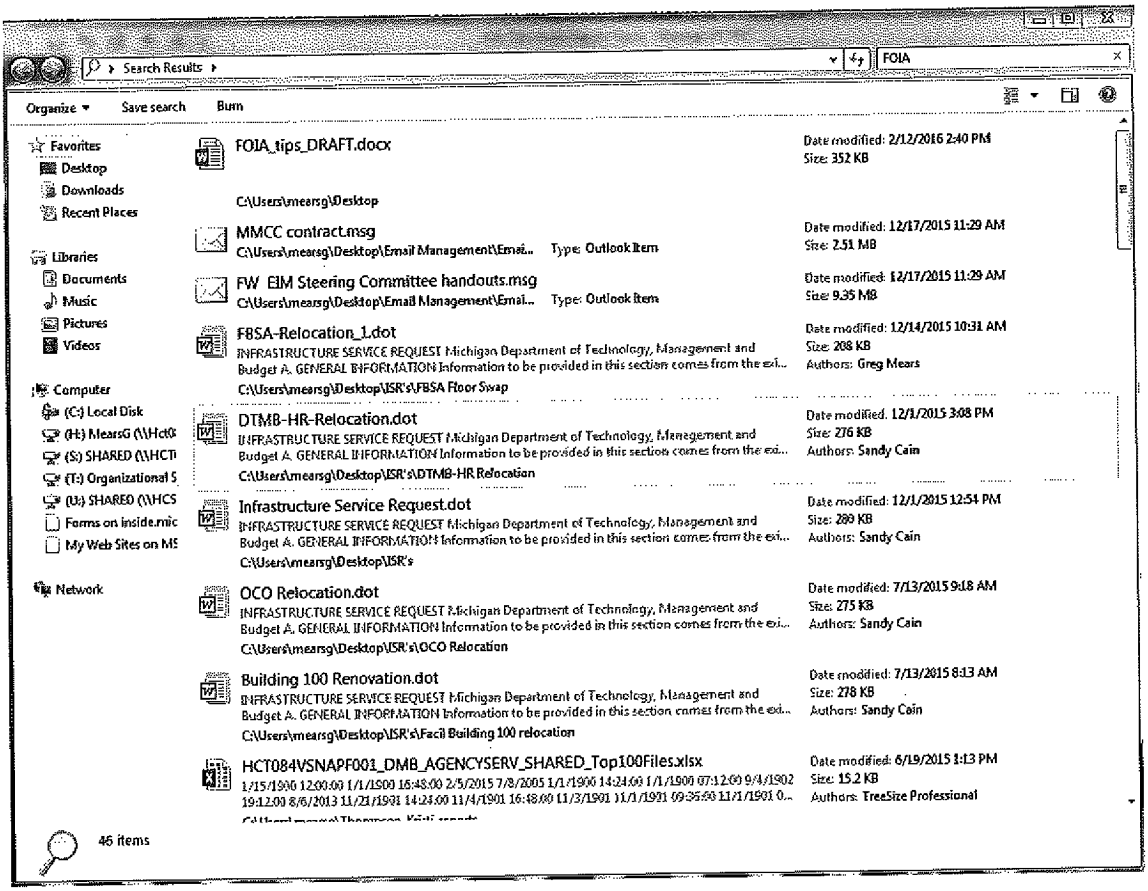


This example searches for the word FOIA. As you can see, the search yielded numerous documents including emails. Since DTMB is centrally collecting relevant emails and other Microsoft 365 items, we'll focus on just the documents.



You need to open each document to make sure that it's relevant. In this instance, the search brought up a DTMB Move form, but only because it has the word FOIA in the form.
You'll notice that the words "See more results" appears at the bottom of the list. This means that the search turned up a lot more documents than what can easily be displayed. You must

click on the link to open Windows Explorer and reveal a comprehensive list, along with their locations.



As you can see from this example the search found 46 items. We can now select them all using the "Ctrl-A method", and copy them to a network drive.

Thank you, Jean. That makes sense.

I attached a copy of the client's form for you to review. I have my boss, Manny Rosales, asking the client if they have received notice of litigation hold from the AG's office. I don't believe they have but we are confirming.

Subject: Flint Water Search Terms

All – below are the list of searches we would like you to use in order to try to find the most relevant documents related to the Flint water crisis. Thank you again for your assistance. Because of the late timing for getting you this list, you may wait until Tuesday to send Travis Weber your estimates of time it takes to search this. Please remember that employees should search their hard drives as well as their e-mails, and that means DTMB cannot perform this search for you; your own folks who may have documents will have to do so from their machines. Thank you again for all your assistance and efforts.

Subject: Re: UPDATED Information on Custodian Search Memo and Guidelines and Meeting Minutes

It's terrible! Mine took over 50 minutes and I had to stop the search. Since we are searching hard drives and not the network I think I am going to take mine home tonight. I probably will start the search while I'm sleeping and let it run or work on it while I'm doing things around the house. Then if I find any files I'm just going to drag them to the desktop and move them to a network drive when I get back into the office on Monday.

Subject: UPDATED Information on Custodian Search Memo and Guidelines and Meeting Minutes
Importance: High

Good Afternoon All:
After attempting to perform a search, I have some important information for you.

The first search will take quite a while, possibly up to 20 minutes. After some time your computer will recognize the slowness and automatically start to index the search. Once the computer starts to index, the searches will become much faster.

Lastly, on the search instructions for Microsoft 7 and 8, the terms Flint AND water were omitted; however, the checklist that you must return is correct. Please make certain that you are searching the terms Flint AND water. Thank you. Jean

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

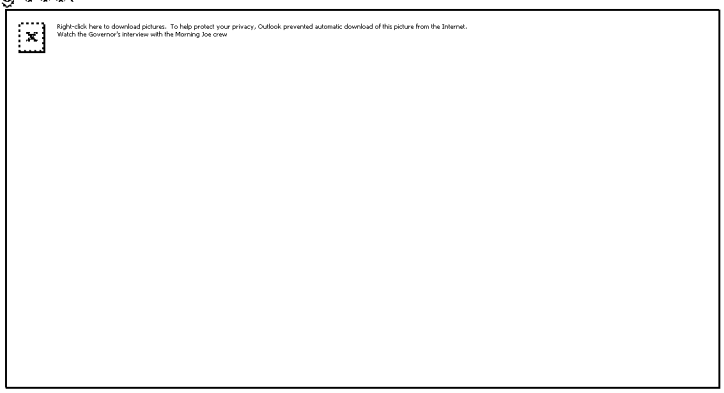
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

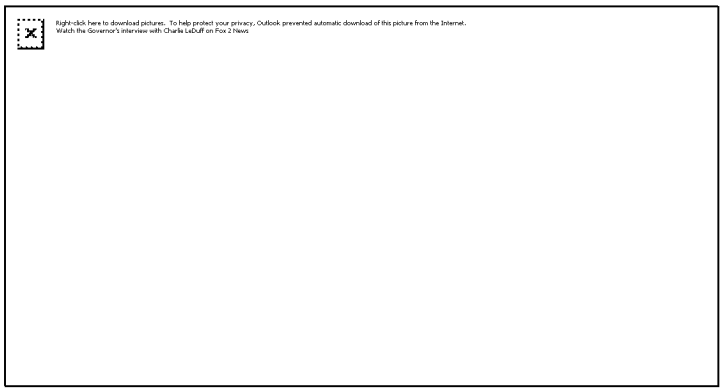
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

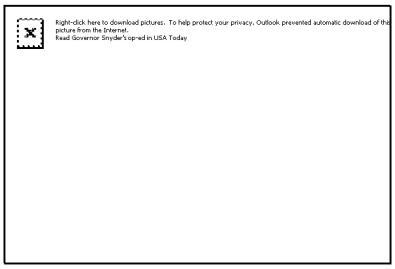
came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.

Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

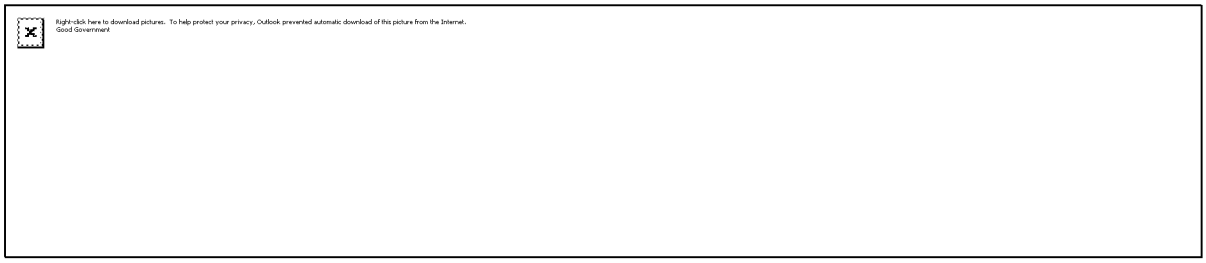
Subject: Flint Volunteer Efforts



Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

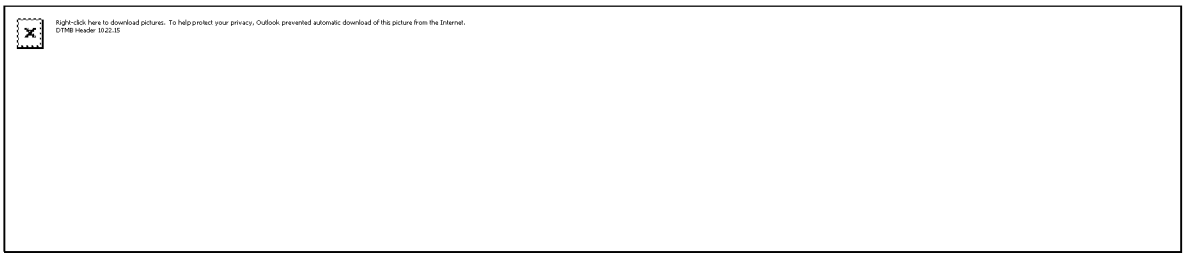
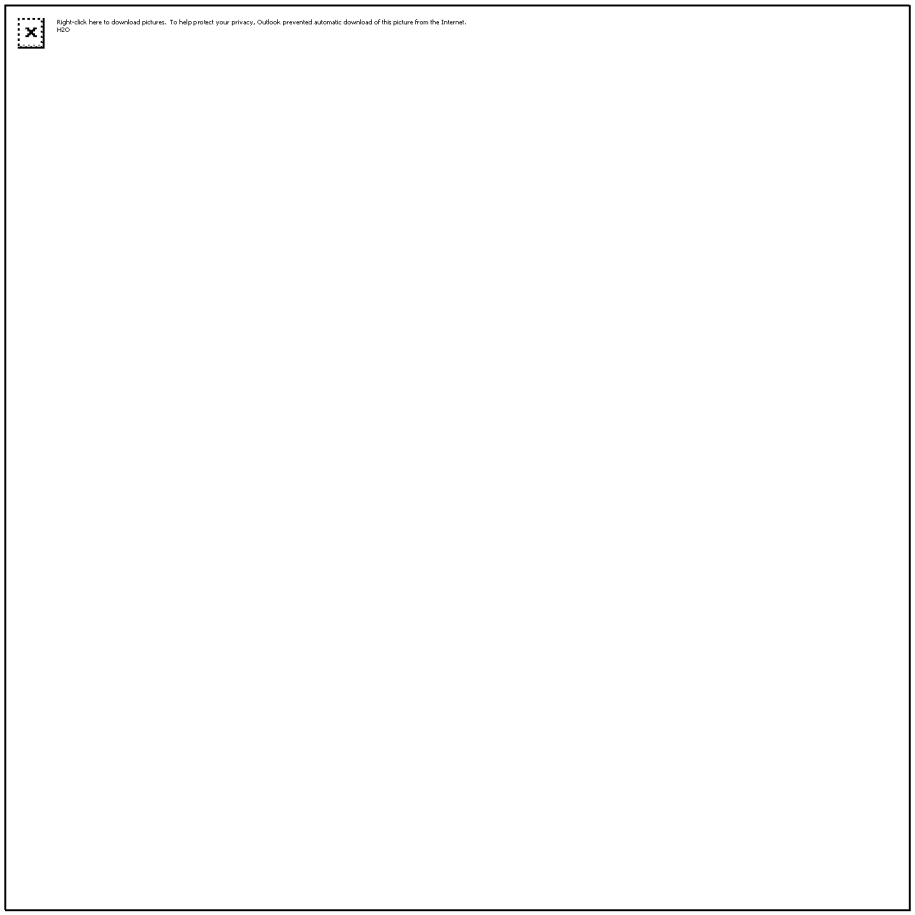
Sent: Tuesday, January 26, 2016 8:39 AM
To: Jehnsen, Jeremy W (DTMB)
Subject: Contributing time, muscle and money



During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.



Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

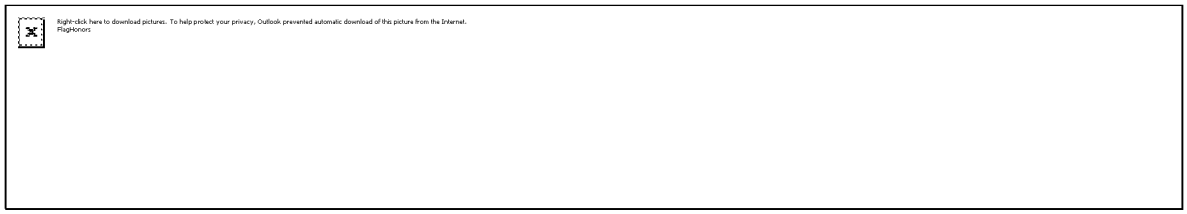
Subject: Thank you for your service



THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

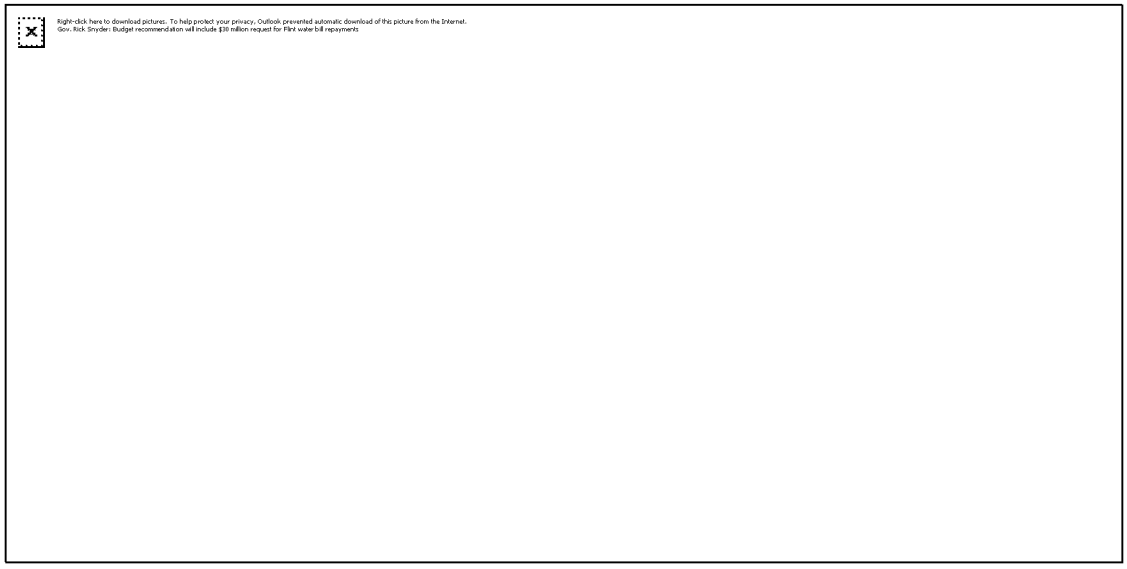
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments



When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

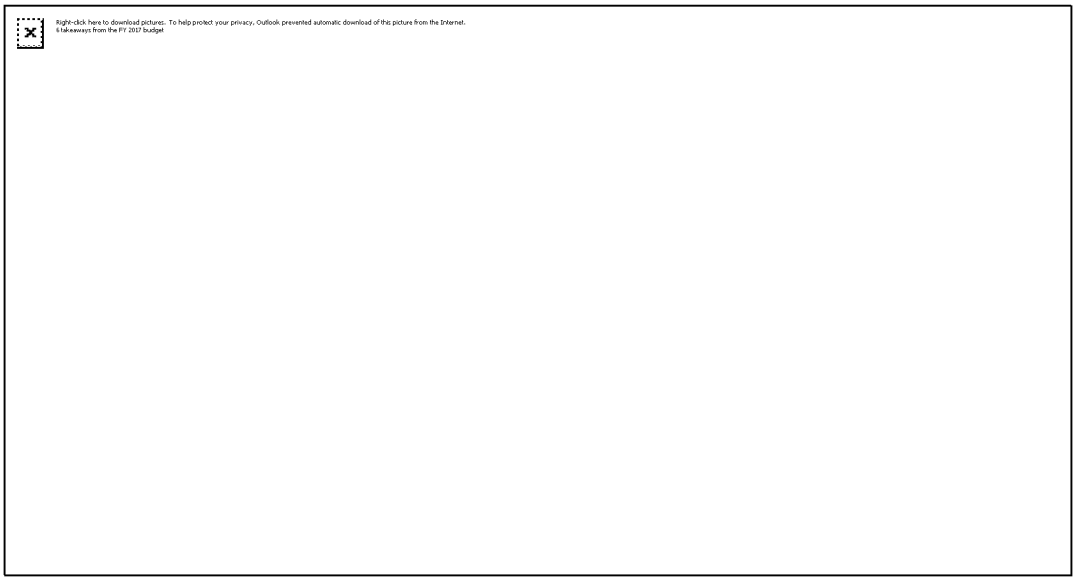
Subject: What this year's budget means for Michigan...

VIDEO: What Governor Snyder's FY17 budget means for Michigan



Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of Michigan's families. Click here to learn more about the top 6 takeaways from the

Governor's FY 2017 state budget.

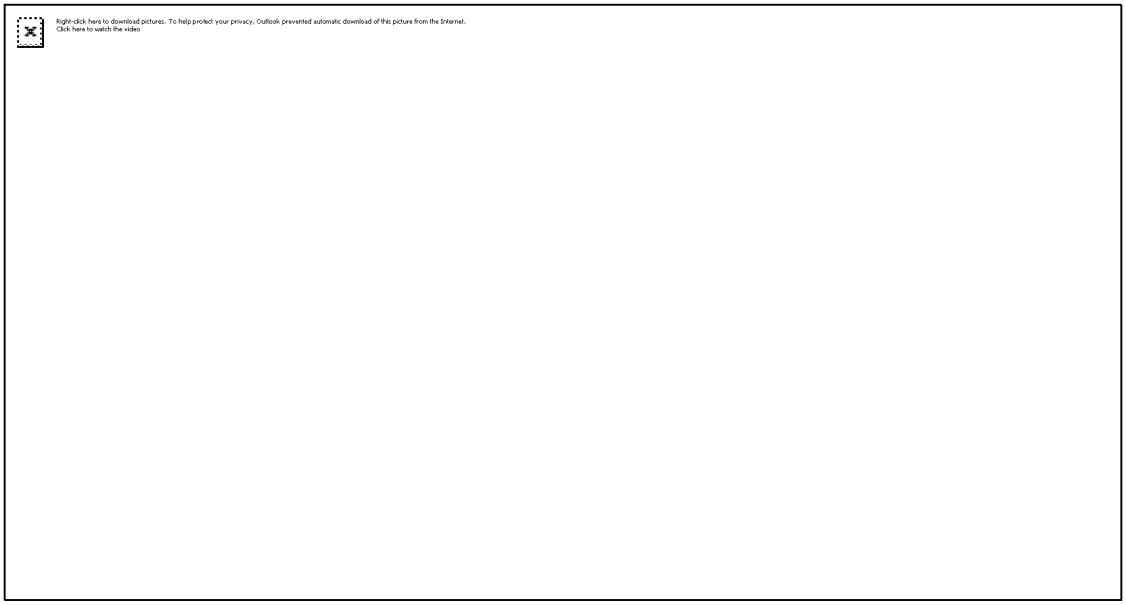
VIDEO: How volunteers are helping Flint



Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Click here to watch the video and learn more about how the Food Bank of Eastern Michigan is helping Flint's families.

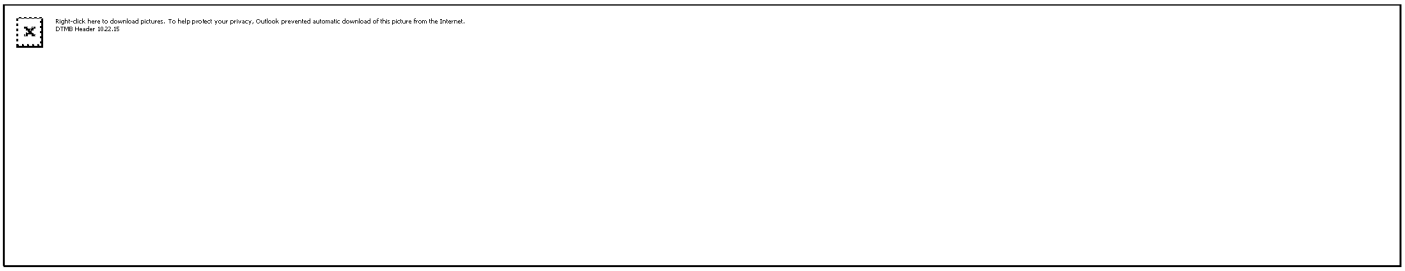
Sent: Wednesday, February 17, 2016 10:10 AM
To: Jehnsen, Jeremy W (DTMB)
Subject: The Gov. Snyder's Budget Proposal



Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

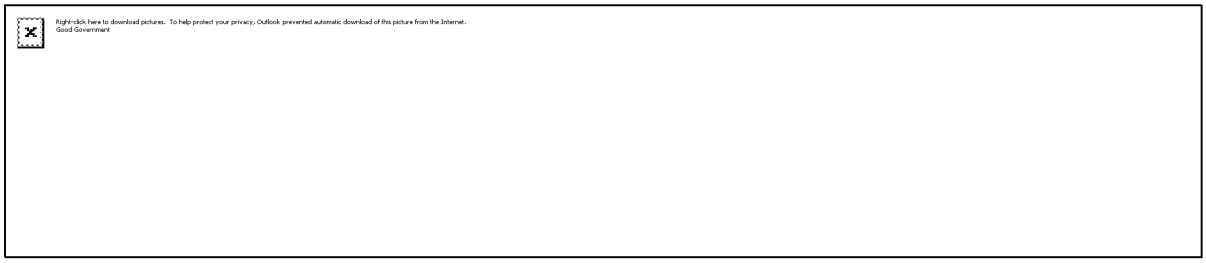
Subject: Flint Volunteer Efforts



Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

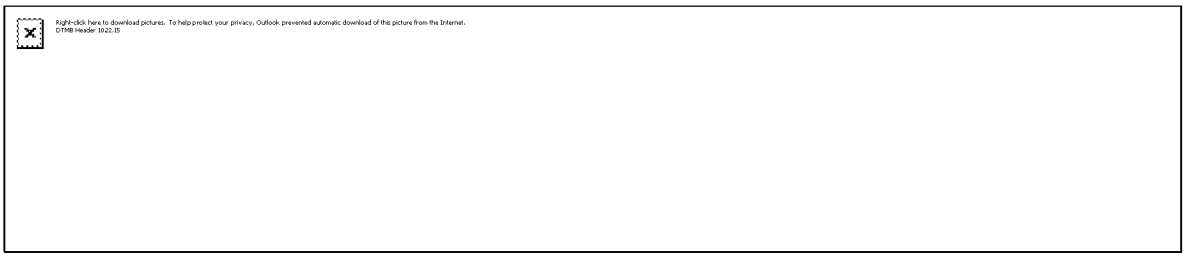
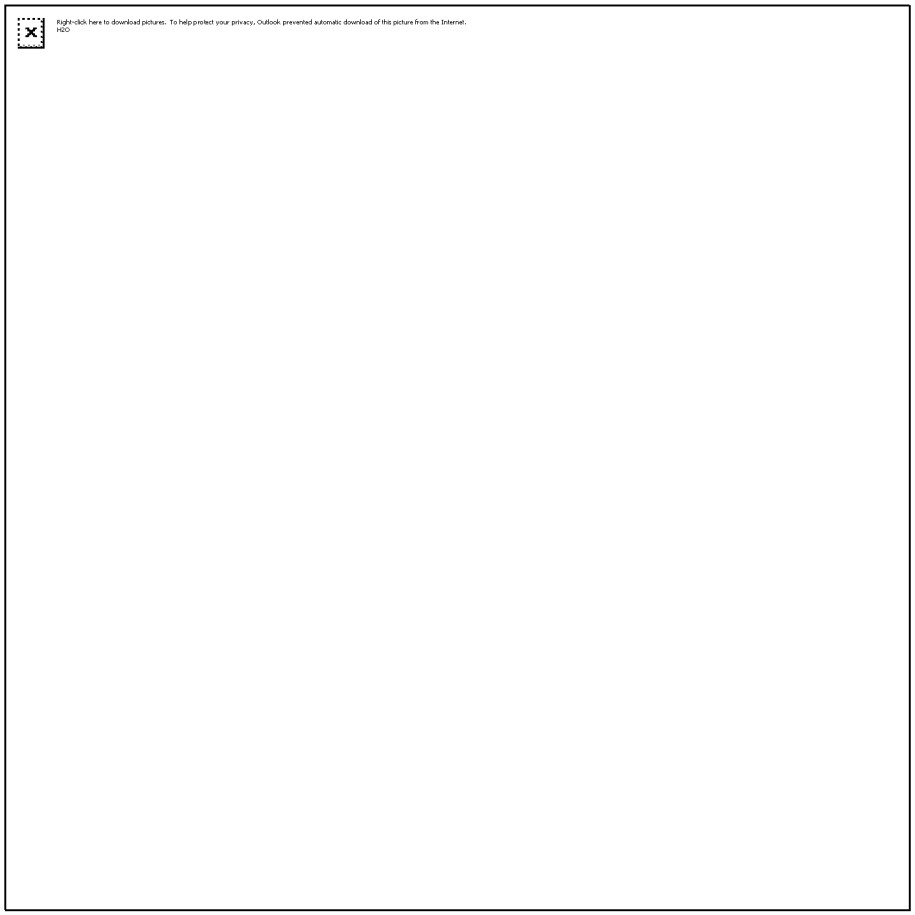
Subject: Contributing time, muscle and money



During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.



Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

-----Original Appointment-----
From: Longanbach, Janelle (DTMB) **On Behalf Of** DTMB-Directors-Office
Sent: Wednesday, February 17, 2016 1:21 PM
Subject: Mandatory Meeting - DTMB Custodians of Correspondence Related to Flint
When: Thursday, February 18, 2016 2:00 PM-3:00 PM (UTC-05:00) Eastern Time (US & Canada).
Where: Ottawa Builidng - Upper Level – Conference Room 4 OR Call-in: 866-390-1828 access code: 1842654

Please note this meeting can be attended in person or via conference call-in. Location and Dial in information are provided below.

<< File: All DTMB Custodians of Correspondence Related to Flint.pdf >>
***This attachment was updated 2/18/16**

*See agenda below

Requested By:
DTMB Executive Staff

Location:
Ottawa Building
Upper Level – Conference Room 4
611 W. Ottawa Street
Lansing, MI 48933

Call-in: 866-390-1828
Access code: 1842654

Security:
Please have your State Employee ID showing at all times.

Parking:
Metered parking is available along Ottawa and Pine street.

Briefing:
In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Agenda
1) Kickoff – Brom Stibitz, Chief Deputy Director
2) Why you are here – Jean Ingersoll, Interim Chief of Staff
3) What you need to do (February 22, 2016 deadline) – Jean
4) What will be done for you – Jean
5) What's next – Jean
6) Public Information Reminder – Caleb Buhs, Public Information Officer
7) Questions and Answers - Group

Subject: DHHS Flint State Office Bldg. 7th Floor Move - (151116-02)
Location: Con Call: 877-820-7831, Passcode: 730959

Start: Tue 3/1/2016 1:30 PM
End: Tue 3/1/2016 2:00 PM
Show Time As: Tentative

Recurrence: (none)

Meeting Status: Not yet responded

Organizer: Worden, Jesse (DTMB)
Required Attendees: Palmatier, Paula (DTMB); Pung, Dale (DTMB); Bannhard, Gary (DTMB); Cumings, Julie (DTMB); Curtis, Patty (DHHS); Yager, Caleb (DHHS); Fountain, Tracey (DHHS); Brewer, Marlene M. (DHHS); Postma, Marjorie (DHHS); Donelson, Patricia (DHHS); Flader, Jean (DHHS); Phillippo, Jamie (DTMB); Tagg, Wayne (DTMB); Jordan, Gerald (DTMB); Meister, Dennis (DTMB); Beeler, Judi (DTMB)

DHHS Flint State Office Bldg 7th Floor Move - (151116-02)

Update from Jamie Phillippo (1/25):

I talked to Patty Curtis and confirmed that the new target date for the move will be March 18th and 19th. DHHS will be paying for field services on the weekend, that will not come out of the project budget. DHHS would like all staff to be up and running on Monday morning. Disconnects can start on Friday, March 18th at 1 pm. Marlene Brewer will follow up with the order of disconnects.

The question of card readers was raised. Patty understands what the staff onsite want and she discussed this with Jan Miller and the Architect at one of the last construction meetings to make sure everyone was on the same page. A question was also asked about the status of the intercom PO. It is in process but due to the water crisis and rush POs that need to happen, DHHS financial services is a bit backed up. Patty was going to check on it last Friday and I have cc'd her on this email so she can provide an update if she has one.

1/21/16 Meeting Notes:

Western Telecom to be data drop install 2/1
Move date may change to the March 19th weekend due to Solar panel drilling.
Client wants disconnects/reconnects completed during the weekend.

12/16/15 Meeting Notes:

Anticipated move date is now March 4th
Discuss door access card readers at next meeting.

12/1/15 Meeting Notes:

Currently planning to move on Feb 13th (pending construction schedule).
Wayne Tagg has been managing Telecom side of this project. Data drops, Wireless, UTNET (Kiosks), fax lines, Cisco phones have been planned for.
EBT Card Reader to be moved by staff.
Kiosks stored offsite will be brought in by staff.
Field Services to disconnect/reconnect ~35-40 workstations

Device spreadsheet and floor plan attached.

Please delegate/forward as necessary.

Thank you,

Jesse Worden

Attorney General (AG) *Scott Flagg*

Project Status:

- **Migrate AG Transportation Division (61018-02)** –Attorney General has staff located within MDOT using MDOT processes. Attorney General would like to pursue moving this division to the managed desktop. The AG/MDOT staff is utilizing an MDOT image on their desktops. Testing is underway on an AG Imaged desktop to test all application functionality at the AG Transportation division.
    - **Constraints**: Finding information about the MDOT PC's has been a time consuming process. Several Personnel who set-up the custom applications for AG/MDOT staff have retired or moved to other areas within the State.
    - **Re-image Non-Converted Divisions (41015-01)** relates to this project as well.

- **Server Redesign & Rollout (40106-01) –** The Attorney General Labor division, having just been migrated to the managed desktop is being inserted back into the group drive and user drive migration schedules. DIT submitted another migration schedule for the PowerVaults and remaining miscellaneous data files on the old server hardware for AG review/approval.
    - **Constraints:** Data can only be migrated after working hours (5:00PM). The Attorney Generals Office has large amounts of data that need to be migrated at an estimated 2hrs per 1 gig of data. Several of the migrations last all weekend. There is currently one staff person from Technical Services performing this function, which has reduced the support level during working hours.

- **AG LegalFiles Infrastructure (50818-02)** – Mitch Montgomery is the new Project Manager for this project. Application training is in progress and will continue through July 2007. The production migrations have begun and will continue for each agency division through July 2007.
    - **Constraints**: Time and resources are major constraints on this project. There are discussions on the support of Citrix for this project.

- **Williams Building Server Relocation (70105-03) -** Relocation of the servers currently housed on the 3rd Floor of the Williams Building into the Hosting Centers. This project will be a part of a larger Enterprise Data Center Migration Project. The agency has requested the move be rescheduled for after the Legal Files Project is complete. The IO Lawrence Baisch has agreed to push out the move.
    - **Constraints:** Timelines and resources are conflicting with the AG Legal Files project. Prior to the move there is one scan server, 18 printers and scanners that need a new IP address before the servers and subnet can be moved to the hosting centers.

Monthly Accomplishments:

- Participated in the Equipment Deployment Conference call.
- Participated in the CSD meeting for AG and DOC.
- Participated in the EST meeting.

Department of Information Technology (DIT) *Mike Ashton*

Equipment Deployment Status:

- As of 2/27/07 DIT is in Green Status. Currently, there are 67 systems pending installation. 21 systems are pending delivery from Dell.
    - 12 systems are 46 days old for the Lake Ontario hosting Center - on hold due to construction.
    - 11 systems are 46 days old for the Lake Superior hosting Center.
    - 5 systems are 15 days old for DCO Overhead (Westshire).
    - 1 system is 12 days old for DIT DCO (Grand Tower).

- 15 systems are 5 days old for DIT Telecom.

- **Deployments over 30 days**
  - 12 systems are 46 days old for the Lake Ontario hosting Center on hold due to construction.
  - 11 systems are 46 days old for the Lake Superior hosting Center.

Project Status
(Only projects that the Infrastructure Specialist is involved in or have known issues will be reported in the Status Report.)

- **DIT MPSCS XP Migration (50613-01) -** The goal of the project is to migrate the Michigan Public Safety Communication System (MPSCS) staff to a managed Windows XP environment. MPSCS staff has begun experiencing difficulties after MSP migrated to a managed XP environment. MPSCS migration has been completed. Currently the project team is working on resolving outstanding issues for MPSCS. Weekly meetings continue.

Agriculture (MDA) *Jon Rogozinski*

Project Status:

- **MDA-Server Replacement Project (60630-02)** – The project charter has been completed, presented and reviewed at the Infrastructure Services Resource Planning meeting held July 10, 2006. Project resources have been identified. The initial project workgroup meeting was held July 27. Follow-up project workgroup meetings were held on August 10 and August 22. Project solution with associated costs has been identified and provided. The project is currently in progress with DIT-Technical Services Team 10 serving as project lead.

- **MDA-Lab Lynx Servers Project (60628-01)** – The project charter has been completed, presented and reviewed at the Infrastructure Services Resource Planning meeting held July 10, 2006. Project resources have been identified. The initial project workgroup meeting was held July 27. Project solution with associated costs has been identified and provided. The project is currently in progress and expected to be successfully completed by May 2007.

- **MDA Atlanta Regional Office Server Support Transition Project (60223-03)** – The project charter has been completed, presented and reviewed at the Infrastructure Services Resource Planning meeting held February 27 2006. Project resources have been identified. The initial project workgroup meeting was held March 15. A follow-up workgroup meeting was held March 30. Project will address both short and long-term solutions and consist of two-phases. Phase one consists of current server back-up and creation of Q/A server for testing purposes. Phase two will require replacement server solution with associated M/1 hosting costs. Phase one of project currently in progress with Agency Services serving as the lead for application discovery and testing.

- **MDA Windows-XP MWMS Migration Project (40826-01)** – The project charter has been completed, presented and reviewed at the Infrastructure Services Resource Planning meeting held May 23, 2005. Attended Model Office XP presentation held on May 25, 2005. The project is currently in progress with approximately 80% of the agency successfully migrated; Animal Industry (AID), E.C Heffron Metrology Lab (Williamston), Fairs and Racing (FER), Human Resources (HR), Agriculture Development (AGD), Finance (FASD), Executive (EXE) and Pesticide and Plant Management (PPPM). Office of Racing Commission (ORC) is currently in progress, Food and Dairy Division (FDD) is currently in the planning/testing phase. Geagley Lab (East Lansing) and Environmental Stewardship (ESD) have been identified as the final divisions to be migrated.

Monthly Accomplishments:

- Continued success in addressing and resolving agency issues/concerns thus avoiding need for escalation.
- Continued success with MDA equipment deployments, all new equipment orders notified through the Procurement process are set-up and scheduled for deployment.

Child Support Enforcement System (CSES) *Gailene Briggs*

Project Status:

- **MiCSES DocGen Phase III** – The release of 4.4 is planned for the weekend of April 13th.
- **MiCSES XP Migration** – Migrating the counties is still being worked on. Twenty-two sites have been completed and 10 more sites are in the testing and implementing stage. 1385 PC's have already been migrated. The total FOC and PA offices are 22 counties each (not including any office migrated because of the virus outbreaks.) The Counties "In-Progress" to be migrated includes; Lapeer 21 PC's, Sanilac 11 PC's, Shiawassee 17 PC's, Eaton 20 PC's. The number of PC's to be migrated for the above In progress counties is 69 PC's.
- **Release 4.4** – The Release 4.4 will go live the weekend of 4/13. Planning for 4.7, 4.8, and 5.0 is in progress. MI New Hires (PSI as the new vendor) go live 4/16.
- **Business Objects** - Business Objects implemented wave 0 and wave 1. The project is in red because the project will not be able to migrate any more users until new server is in production (DITCHG000009322.)

Weekly Accomplishments:

- Attending CSES meetings for the XP Migration and the LGNet project
- Meetings on taking DM9040 users over to M1 environment
- Kick off meetings held and more counties being placed in the testing phase of the project.
- Arranging new equipment to the virus infected sites and getting them to XP.

Civil Service (CS) *Regina Hall*

Project Status:

- **Infrastructure Upgrades (50128-02) -** A proposal is requested which includes costs to either replace and/or switch to NAS of the aging Civil Service servers. The proposal should include the feasibility of server consolidation (including NAS), costs, timelines to consolidate or convert to proposed environment, and on-going maintenance, refresh and support of the servers and storage. DIT Agency Services have been loading applications. Firewall issues have been a problem but they have been resolved to all party's favor. They are working on 3 SQL servers which are the Dev, UAT and Prod environment. Currently they have 11 of 39 databases moved to the new servers.
- **Access Applications Testing on WinXP/MDCS Layer (50822-02) -** Testing MDCS Access applications on the MDCS image that will eventually be applied to the Windows XP operating system. Testing of 38 of 102 applications has been completed.
- **Automation of CS-129 Position Action Request (APAR) (51212-01) –** This project it to create a web application that will allow State of Michigan agencies to submit the Civil Service CS-129 form via the web with defaulting of identified HRMN information, populating the TrackHRS database and notifying Civil Service HRS staff of the submission. HRS staff testing continues. Input table from being updated every two weeks by MIDB data to daily using HRMN data is changing. Client pilot testing is in the process of being scheduled.
- **Infrastructure Upgrades (60523-01) -** This project is to replace and decommission existing Civil Service servers from their current locations. Physical location changes would include decommissioning and installing new CS01 server at Lake Superior Hosting Center, decommissioning and installing new CS02 server to the Treasury Hosting Center and purchasing a new non-existing CS development and test web server to be installed in at the Lake Ontario Hosting Center. Servers have been received by Configuration Management on 1/25/07. They are in the process of readiness for DIT Agency Services staff.

Community Health (DCH) *Delaine Wright*

Project Status:

- **DCH – BOL StarLims/MyLims Faxing (60824-01)** - Configuration management is being worked with to order and install T1 connection to this server.
- **DCH CHAMPS– Test (60824-03)**– This is installed and the vendor is loading the application.
- **DCH CHAMPS – Staging (60824-04) -** Tech Services is setting up the equipment.
- **DCH CHAMPS – Production (60824-02) -** The equipment has not yet arrived.
- **DCH – Kalamazoo Infrastructure Updates (60724-01)** – At the most recent EST meeting the exception form was presented; we will be completing this on behalf of DCH.
- **DCH** – **Capitol Commons move to Managed LAN (60206-01)** – The migration to Managed LAN was completed on 2/19/07.
- **DCH** – **RSS Network set up –**The client is nearly ready to move forward on this, they have had several setbacks.
- **DCH Server Consolidations** – The project to migrate MSA Server folks will be completed the weekend of 3/2.
- **DCH – WIC migration from 56K data circuits** - This project is in progress. Two sites have been migrated successfully.
- **Managed LAN building Billings –** This is a continuing issue that DIT Accounting is being worked with to resolve.
- **DCH – Additional Server consolidation (60405-01 and 60405-02)** –The project is on hold to determine who is purchasing the servers, either OA or the client.
- **DCH – Lead Safe Housing Registry (60803-04)** – (**9/7/06)** – The Work Group meeting was held, and participants have been assigned tasks and project is moving along.
- **DCH – Electronic Death Registry System (60803-05)** – (**9/7/06)** – The equipment for this system will not be purchased until FY 07. The initial Work Group meeting was cancelled and will be rescheduled later in September.
- **DCH – CareWare** – **(11/03/05)** – This is still on hold per a client email.
- **DCH – MAPS (Michigan Automated Prescription System) (60713-03)** – Agency Services is loading and testing the application.
- **DCH - Cancer Registry (60713-01)** - **(8/10/06)** – The first Work Group meeting was held on 8/2, and it appears only tasks are for Agency services to work with OES.
- **DCH - Electronic Birth Certificate (60713-02)** - **(8/10/06)** – The first workgroup meeting was held on 8/2. This project is in testing phase.

- **DCH – Mental Health Provider Lookup (60717-01) - (9/7/06)** – Ken Seyka indicated that Agency Services is working on this project.

- **DCH – MDSS Updates (60803-03)** – **(9/21/06)** – At the Service Delivery meeting it was announced the hardware for this has arrived and will be set up by configuration management. Jason Todd will provide the Change Request numbers to Delaine.

- **DCH** – **PHINMS Server** – **(9/21/06)** – Agency Services indicates that they are currently testing.

- **DCH – OPHP move to Managed LAN (60309-03) –** The client is currently determining if they have funding to move forward with this project.

- **DCH – Bureau of Laboratories StarLims project (51110-04)** – Technical Services is in the process of setting up and configuring the clustering of these servers.

- **DCH – Bureau of Laboratories Newborn Screening Server Upgrades (60126-02)** – This has been combined with Star Lims (see above.)

Monthly Accomplishments:

- Migration from and disconnection of DCH Shiva Device
- MSA fully managed environment
- Hawthorn Center – Fully managed environment
- Physical Move of more than 600 DCH clients last year
- Migration of two large server rooms (Chandler and NMLK) to Lake Superior and Lake Ontario
- Consolidation and standardization of DCH's Public Health Clients to standard server configuration and tree
- Partnered with Telecom to migrate Building 44 to Managed redundant LAN
- Successfully migrated 80 DCH clients from Exchange to GroupWise
- Assisted client with successful implementation of BioWatch Application
- Saved DCH nearly $1000 per month by working with various parties to troubleshoot gateway-to-gateway VPN connection.
- Committed to and actively working with DCH Clients and DIT to migrate all DCH workstations to managed images
- Active participant in DCH's Emergency Operations Center (CHECC)
- Developed process/procedure for DCH deployments where software needs are provided in timely fashion

Department of Labor and Economic Growth (DLEG) *Howard Vanderstow*

New Projects:

- **MSHDA Citrix and OS Upgrade (70116-02) -** The purpose of this project is to upgrade the current MSHDA Elite Citrix environment currently utilizing Metaframe XP running on Windows 2000 Service Pack 4 to the most recent software release of Citrix Presentation Server 4.0 and Microsoft Windows 2003 Service Pack 1. The Citrix farm will also be split between the Lake Superior and Traverse Bay hosting centers in order to provide disaster recovery capabilities through fault tolerance. This project is 10% complete.

- **MSHDA MITAS Re-Bid (70116-03) -** MSHDA currently has a shrink wrap/propietary application called MITAS. The current contract is soon to expire, however, there are 2 one year optional extensions on the contract. So MSHDA is developing an ITB to go out to bid. This ITB will include optional hosting.
    - **Constraints:** SME advice has not been forthcoming, regarding wording and content of infrastructure related contract requirements, resulting in extensive research by Agency Services staff. This project is 5% complete.

Project Status:

- **Tax Tribunal, Judges' E-Bench (51129-01) –** The DLEG/Tax Tribunal is establishing a hosting environment for a web portal based decision support and executive management system. This project is 25% complete, pending acquisition of appropriate licenses.

- **MSHDA Lender On Line (51209-03) -** DLEG/MSHDA is migrating their VAX based application to Windows to run their business critical application, named Lender Online. This project is 65% complete, awaiting application load.

- **Domain Controller Repurpose (61206-01) -** DLEG has requested a repurpose of HCO084DAP1PW001 as an Active Directory Domain Controller for CIS. This project is 50% complete with equipment having been received, awaiting installation.

- **Workstation Development Environment (61212-01) -** The purpose of this project is to provide a reliable, configurable, scalable and flexible development workstation and training room environment. This project is 25% complete.

- **OFIS Appeon Hosting (60224-01) -** The purpose of this project is to prepare and host appropriate test, development and production server environments for the Appeon for PowerBuilder (Appeon) application extension. Status of this project is undetermined.

- **Michigan-1 Migrations -** To date, the following DLEG bureaus and divisions have been successfully migrated to the Michigan-1 environment: Core SOAHR, Appellate Commission, Human Resources, MIOSHA Lab, Media, OFIS Bank and Trust, Tax Tribunal, Wage & Hour Division, Workers' Compensation Administration, WCA Funds, Liquor Control Commission, MES-Board of Review, Bureau of Construction Codes, Information Officer, and the incoming DLEG Director. Subsequent migrations of the remaining 17 divisions are progressing in accordance with the MI/1 migration plan.

Monthly Accomplishments:

- Attended Client Service Delivery team meetings.
- Participated in the Equipment Deployment Conference calls.
- Continued deployment efforts for new systems received.

Department of Corrections (DOC) *Scott Flagg*

New Projects:

- **DOC FOA Region II Office Closure –** DOC is closing the FOA Region II office located at 225 E. Fifth Street, Flint 40502 with staff going to 3 different DOC FOA offices.

Projects:

- **Server Merges (50415-01, 50713-01)** – There several large facilities that have requested server merges. These merges are a result of organizational shifts within DOC and cost saving measures. The direction of these consolidations are under review for whether or not new server hardware should be purchased and housed within the DIT Hosting Centers in Lansing. This follows the consolidation plans of DIT to bring in the out state servers to Lansing Hosting Centers. New servers are being installed following the IMAC process.
    - **Constraints**: DOC had previously had a decentralized network administration model prior to DIT and as such, unique server set-ups exist within these locations. Technical Services has one person allocated to DOC to work projects and perform the daily functions of server administration within DOC. Model Office also has only one person designated to work projects and daily functions related to DOC.

- **Windows XP Migration (40422-01)** – Jeanne Irwin the CSD for Corrections is currently in the process of working with DIT Management, EDS and Dell to explore leasing opportunities for DOC to take advantage of.

Older desktops are slowly being replaced with newer models from Depot that will support Windows XP. Corrections currently have approximately 46.73% of the desktops running XP.

- **Constraints:** DOC does not currently have the funding to replace out dated equipment incapable of running Windows XP.

- **GuardWare on the Web (41029-01) –** Dept. of Corrections, Electronic Monitoring Center (EMC) would like to make their GuardWare application available to users both inside and outside of the State network, such as juvenile courts, sheriff's offices, and tribal councils. DIT has provided a 'DMZ Web Server' solution and associated hardware quotes to EMC and Corrections has provided billing information. OES has approved the solution and Data Center Services received the server on July 5th. The server is awaiting the installation of the application by the vendor that supports GuardWare.

- **GVP SmartData Conversion (60118-01)** - Dept. of Corrections wishes to convert GVP (Grand View Plaza, 206 E. Michigan Ave., Lansing, MI) to SmartData managed service and upgrade the building telecom infrastructure. Planning and information is being gathered to continue on moving to the new VLANs. The 2nd floor is complete.
  - **Constraints:** Information needs to be gathered, manually. Information such as port numbers in offices, conference rooms and attached to printers. This has become time consuming to collect the data and prep the site for converting to the new VLANs.

- **Corrections - Video Conferencing /Bandwidth Study (60119-02)** - Dept. of Corrections is expanding their video conferencing to Corrections Facilities across the state. The plan is that every facility will have video conferencing by the end of 06. A gateway/bridge has been purchased for GVP (Grand View Plaza, 206 E. Michigan Ave., Lansing, MI) to help transfer the video traffic from ISDN to IP traffic. DOC also has plans to install approximately16 IP Video Conferencing rooms in GVP in the near future. Dept. of Corrections is requesting a bandwidth study of all the facilities. Telecom has provided the bandwidth study for each facility. Video Conferencing installations continue. Upgrade to the network has occurred in necessary locations. The gateway/bridge is running production at GVP. Corrections continues to install Video Conferencing across the state.

- **Video Conferencing at Cotton/Parnall Facilities (60119-03) -** Dept. of Corrections is required by law to provide interpreters for deaf/hard of hearing prisoners. A vendor, CAC (Communication Access Center for the Deaf and Hard of Hearing), can provide this over video conferencing. The work group meeting was held on 2/15. OES has provided their requirements and Telecom is working on the network solution based on the requirements of OES. Telecom and OES has provided a solution. The solution was presented to Corrections in a meeting July 25th. Corrections staff have yet to get back with DIT on this request.

- **DOC Server Consolidation (60201-01)** - Dept. of Corrections currently has approximately 180 servers in various field offices around the state to provide File/Print and GroupWise Post Office service to these locations. The majority of these servers are aging and reaching end-of-life. A migration plan and schedule is underway for the data migration to the new servers.

- **DOC GroupWise Consolidation** – Dept. of Corrections and DIT are working through a schedule of Correctional facilities and Parole/Probation offices. In December 2006 all the purchased servers were filled up. Three more servers were recently installed. The Messaging Team will be working on the remaining sites to be migrated.

- **KCF & HTF SmartData Conversion (60321-01) -** Dept. of Corrections wishes to convert Kinross Correctional Facility – KCF (16770 S. Watertower Drive, Kincheloe, MI 49788) and Hiawatha Correctional Facility – HTF (4533 W. Industrial Park Drive, Kincheloe, MI 49786-0001) to SmartData managed service and upgrade to 100MB. Telecom is finishing up the configurations at the site.
  - **Constraints:** The same Telecom staff working on the Corrections GVP Smart Building project is doing the planning for this request.

- **COMPAS MPRI Project (60330-04)** – The application is scheduled to be migrated from the vendor to the servers in the hosting center on Friday March 30, 2007.

  - **Constraints:** The vendor doesn't have their SecurID/VPN access yet.

- **Closing of Camp Brighton (60804-02) -** Camp Brighton, located at 7200 Chambers Road in Pinckney Michigan will be closed. ALL IT infrastructure should be dismantled and removed from the facility. Staff will be relocating to other Correctional Facilities in March 2007.
  - **Constraints:** Corrections have laid out some aggressive timelines for the completion of the project.

- **Opening of Camp White Lake (70126-01) -** DOC is opening a new women's camp facility called, Camp White Lake (CWL). It is to be located at the old "Camp Gilman" facility. Staff moved in Sunday March 25.
  - **Constraints:** DOC has provided a short time frame and not all the information for the new site have not been identified.
- **Opening of Camp Valley –** DOC is opening a new camp facility called Camp Valley (CVH) at the Huron Valley Complex. It is located in the old TRV location at Huron Valley. Staff moved in Sunday March 25.

- **Former Corrections Parole Office (PDO) Re-location** – DOC is moving the staff from PDO to 5300 Lawton Place. Desktops were shipped to the site. The lease has been signed and Telecom has the cases for the network setup.

- **DOC HVAC WHV Facility Project (61011-01) –** DOC is installing a new HVAC control system at the Huron Valley Woman's Facility. The system is monitored by the application running on a new server that will be set up at the facility. There was a work group meeting on 3-27-07 and the vendor is to provide some server spec information.

Monthly Accomplishments:

- Participated in the Equipment Deployment Conference call.
- Routed Remedy Cases to the appropriate groups.
- Participated in the CSD meeting for AG and DOC.
- Participated in the EST meeting.

Department of Education (DOE) *Howard Vanderstow*

New Projects:

- **Normes (70103-02) -** The Dept. of Education (MDE) Office of Educational Assessment and Accountability (OEAA) wishes to use the software systems created by the University of Arkansas, National Office for Research, Measurement and Evaluation Systems (NORMES). The project team is currently working with the vendor to finalize a working proposal to present to MDE. This project is 10% complete.

- **EEM-SDS Systems (70123-02) -** To meet federal data collection and reporting requirements including those of the No Child Left Behind (NCLB) Act of 2001, and those identified in the Cherry Commission Report, the State of Michigan has contracted the services of Compuware Corporation for the purpose of gathering detailed requirements for, and the development of, two new state-of-the art systems to replace the current Single Record Student Database (SRSD)/Unique Identification Code (UIC) system and the School Code Master (SCM) system. For purposes of definition and clarity, the new systems will be referred to as the Student Data System (SDS) and the Educational Entity Master (EEM). The SDS is the replacement for the SRSD and the EEM is the replacement for the SCM. This project is 10% complete.

Project Status:

- **File and Print Server Hosting (40418-02) -** The agency wishes to provide server stability for file and print hosting at the Michigan School for the Deaf and Blind in order to maximize communication options to staff and students, thus improving the safety of the environment. Status of this project is undetermined at this time.

- **Visual Public Announcement System (60412-01) -** MDE is attempting to improve the safety of the environment by providing the capabilities of an audio based public address system in a visual format to meet the needs of the Deaf, Hard of Hearing, and Hearing communities at the Michigan School for the Deaf and Blind. This project is approximately 30% complete and has been placed on hold by the school administration pending re-evaluation.

Monthly Accomplishments:

- Participated in the Equipment Deployment Conference calls
- Participated in Service Delivery meetings
- Continuing deployment of new equipment received

Environmental Quality (DEQ) *Jon Rogozinski*

Project Status:

- **DEQ-Kentwood to Grand Rapids State Office Building Move Project (60822-04)** – The project charter has been completed presented and reviewed at the Infrastructure Services Resource Planning meeting held August 28, 2006. Workgroup meetings have been held on September 11, 2006, October 2, 2006, November 9, 2006, January 16, 2007, and March 16, 2007. A follow-up workgroup meeting is scheduled for April 9, 2007. The move is scheduled to occur the weekend of April 13-April 15, 2007.

- **DEQ-DPM Testing Project (60518-03)** – The project charter has been completed, presented and reviewed at the Infrastructure Services Resource Planning meeting held May 22, 2006. Project resources have been identified. The initial workgroup meeting was held on June 8, 2006. Workgroup meetings have been held on June 28, August 7, September 11, October 2, 2006, November 16, January 11, 2007, and February 2, 2007. The project is currently in the final testing stage and expected to begin production in select locations by May 2007.

- **DEQ-XML Gateway Project (51207-01)** – The project charter has been completed and was presented and reviewed at the DIT-Infrastructure Services Resource Planning meeting held December 12, 2005. Project resources have been identified. The initial workgroup meeting was held on January 4, 2006. Follow-up workgroup meetings were held January 13 and February 14. Mark Breithart (DIT-Agency Services) has been identified as the project manager. The project is currently in progress seeking a DIT-Enterprise-Wide solution.

- **DEQ-Michigan Water Quality Information System Project (50810-01) –** The project charter has been completed and was presented and reviewed at the DIT-Infrastructure Services Resource Planning meeting held August 15, 2005. Scott Reynolds (DIT-CGI) has been identified as the project manager, therefore project will require little to no involvement from Jon Rogozinski (Infrastructure Specialist). The project is currently in progress.

- **DEQ-Bay City Office Move Project (50805-02) –** The project charter has been completed, presented and reviewed at the Infrastructure Services Resource Planning meeting held August 8, 2005. Project resources have been identified. Workgroup meetings were held on August 31 and September 19, 2005. Follow-up workgroup meeting scheduled for November 30 was cancelled due to lack of building site progress and will be rescheduled once more information is available. Due to lack of site progress, the original proposed move-in date for October 2006 will be delayed until late 2007. Project on-hold, pending Agency direction.

- **DEQ-M/1 ADOPT Migration Project (40825-01) –** The Project charter has been completed. Attended DIT-Delivery Services XP presentation held on May 25, 2005. The agency-wide M/1 ADOPT migration goal has a begin date of late-2007.

Monthly Accomplishments:

- Continued success in addressing and resolving agency issues/concerns thus avoiding need for escalation.

- Continued success with DEQ equipment deployments, all new equipment orders notified through the Procurement process are set-up and scheduled for deployment.

Histories, Arts, & Libraries (HAL) *Jon Rogozinski*

Project Status:

- **HAL IRMA-Decentralized Capture Project (70118-02)** – The project charter has been completed, presented and reviewed at the Infrastructure Services Resource Planning meeting held January 22, 2007. Project resources have been identified. The initial project workgroup meeting was held February 7, 2007. A Follow-up project workgroup meeting is scheduled for April 6, 2007.

- **HAL Server Room Migration Project (60622-03)** – The project charter has been completed, presented and reviewed at the Infrastructure Services Resource Planning meeting held June 26, 2006. Project resources have been identified. Weekly project workgroup meeting are scheduled. The project is in progress and expected to be successfully completed by mid-summer 2007.

Monthly Accomplishments:

- HAL MelCat DCB2 Expansion Project **(61215-01)** was successfully completed.
- Continued success in addressing and resolving agency issues/concerns thus avoiding need for escalation.
- Continued success with HAL equipment deployments, all new equipment orders notified through the Procurement process are created and scheduled for deployment.

Department of Management and Budget (DMB) *Regina Hall*

Project Status:

- **MSXML Rollout (50201-01) -** In order to move to the Lawson portal, each user's desktop (Enterprise wide) must have MSXML 4.0 SP2 installed to ensure connectivity to the portal. Implementation of the Lawson portal will decommission the use of L1. The project has been placed on hold by DIT Agency Services, dependent on Lawson 9.0 upgrade.

- **New Warehouse Management System (50420-03) -** This project is to implement a new warehouse management system. Testing is currently being performed on new system.

- **Energy Management Systems and Utility Monitoring Systems (60224-03) -** Research and establish an IT communication loop within the DIT network infrastructure (i.e. Intranet/Ethernet) for the purpose of Dedicated Digital Control of heating, ventilating and air conditioning control systems and eventually, fire protection/suppression, lighting, elevators and security systems. Move away from proprietary software into a methodology that allows communication or interoperability between different manufactured systems. The system must be accessible 24/7 from within the SOM intranet. The Office of Enterprise Security is recommending the systems be reviewed for consideration of "critical functions" for Zone 3 security placement. Servers are in the process of being hardening.

- **WDRA (New name for ORS) Server Replacement (60309-02)** – This project is to replace aging hardware to ensure stability and support of the Retirement Payroll systems. The current 42 servers are at the Lake Superior and Traverse Bay Hosting Centers. Each hosting center has 21 servers. This will include new server layout that consists of 21 servers at the Lake Superior Hosting Center. These servers are the production environment. The Traverse Bay Hosting Center will eventually house 46 servers. These servers will become the ORS Technical Mirror/DR environment, and also the user acceptance testing (UAT) environment. Will rededicate a select few servers to comprise a Sandbox environment for development and tool testing needs. This configuration will allow the ORS Vision application to grow and allow ORS to bring in-house some of the functionality that currently is being done by the application vendor. This project will be deployed in 3 phases. Phase 1 – Technical Mirror and UAT, Phase II –

Production, Phase III – Sandbox development, and decommission of servers. Loading Websphere, Siebel and Clarety applications has been completed. Loading FileNet and SQL on the production stack continues. Work with DCO to complete change to servers continues.

- **Server Replacement – Lawson 9.0 Business Intelligence Suite (60322-01)** - This project is to purchase and setup development and production servers to host the Lawson Business Intelligence Suite. This suite will require at least one new server, and if approved, an equivalent production server. The servers are to reside in the Lake Superior Hosting Center in the MAIN domain. The project will eventually comprise of decommissioning three servers and repurposing one other. Proxy server configuration issues with Lawson and IBM have been addressed. Consultants are performing the upgrade. Testing is in the process of being scheduled.

- **DMB - CPC Server Refresh (60420-01) –** The project is to replace and decommission 3 older Dell Servers (GSB071PCTRPA006, 007, & 008) that are the primary interface to the DCO mainframes located at the Consolidated Print Center (CPC). The servers are at end of life. Exception request to host at the CPC will be submitted. Servers have arrived and been installed.

- **Joint Operations Center (JOC) (60504-01)** – The purpose of the JOC project is to consolidate several operations into one area at the old "Chiller" building on the corner of Allegan and Pine streets (downtown Lansing). The building is currently being remodeled for this project. Some of the functions/operations are the Emergency Coordination Center located in the basement of the Mason Building, Customer Service Center and Central Control located on the first floor of the Mason Building. State Police Post 16 located in the basement of the Mason Building, Security Services and Access Control Services located on the first floor of the Hannah Building. Target occupancy date is aggressively set for September, 2006. Security hardening and user testing is complete. Final data import is complete; cut over to new servers has been scheduled.

- **FleetFocus (M4) Hardware (60512-01)** – FleetFocus (M4) is a vendor-supplied Fleet Management package used by the State of Michigan to manage its vehicle fleet. This application runs on two MS Windows 2000 application servers (MIPCVTS1 and MIPCVTS2) at the Lake Superior Hosting Center. The database server (MIPCVTS3) is an AIX server at the same location. The databases for this application are Oracle version 8i. All three servers are at the end of their useful life. Oracle 8i and the AIX operating system version have been de-supported. Servers are having recurring problems with lack of memory and disk space. The lack of disk space precludes upgrading the database and operating systems. The purpose of this project is to re-install the FleetFocus system with new servers, an upgraded version of Oracle, and a SAN connection. This is in accordance with the recommendation received from DIT Technical Services in June, 2005. Server hardening and user testing is under way. The cutover to new servers has been scheduled.

- **Maximo Customization, Report Generation and Inventory Module Implementation (60605-02) -** The Maximo application had several custom changes made one year ago. Now additional changes are being requested which will enable user friendliness and incorporate new features. No new hardware will be required for these changes. It is possible that this will be an image change for the DMB Office of Facilities build. Websphere upgrade on DEV/Test: Actuate report issue resolved on TEST server. Requested planners to test the reports. Server team 5 is working with vendor on DEV server issues. Syclo Fix and enhancement: path of the changes implemented.

- **Sales Logix Server Refresh (60609-03) -** The Sales Logix server needs to be refreshed. The hardware is being purchased now followed by any necessary software. The Sales Logix application currently resides on the MAINHelp Server located in the Lake Superior Hosting Center. The vendor is set to install the application on 2/16/07.

- **Archibus 14.3.R03.88 and Web Central 14 Upgrade (60627-01) -** The purpose of this project is to complete the tasks required to upgrade Archibus (DMB's client server Facilities/Lease Management System) to version 14.3.R03.88 and Web Central (DMB's Archibus web application) to version 14. This is a software upgrade on existing servers. The upgrade has been tested and now coordination will be needed to implement into production. All testing has been completed by client. An MSI package for the production upgrade will need to be created by Delivery Services just as was done for the test environment. Waiting for completion date from Delivery Services for this task so that the go-live date can be worked out with Server 5, Database Services and the DMB client.

- **TeamMate Software Project (60721-01) -** The purpose of this project is to acquire TeamMate software licenses and install the software on DMB ASB's client workstations and support servers. Client configuration and customer testing are currently taking place.

- **Server Replacement – Domino/Project Office (60727-01) -** Lotus Domino is several versions behind and is housed on an end-of-life server. Upgrade to the current version and identify a server to house the application. Servers were received on 1/26/07, and are waiting for installation. Configuration Management reviewed and assigned to manager.

- **Upgrade Business Objects on DCDS server to XI-R2 (60803-01) -** Upgrade Business Objects application software to the latest version, which will allow MIDB support and the clients to take advantage of the features and technology, plus allow technical support to be provided by both Business Objects and Business Objects Forum. The user base is in need of the enhancements in order to move forward. This will be done on the DCDS server, where the migration to the 4-processor server has been tested to ensure minimal impact to the DCDS system. Administration class held 2/1 through 2/5, UNIX application installation completed. Designer class held 2/15 and 2/16; other agencies attended classes and defraying costs and reimbursing DMB. A small amount of data has been brought over and testing is being done by staff.

- **MainServ Server Replacement (60807-02) -** This project will purchase and setup a production server to host the Web and application server. The server is 6 ½ years old and no longer under maintenance. The website MainWeb.state.mi.us currently resides on the server MainServ located in the Lake Superior Hosting Center. This website is also referred to as the Executive Information System (EIS). There are also three applications housed on this server. This project will eventually cause the decommissioning of one server (MainServW). The new server is to reside in the Lake Superior Hosting Center. It is anticipated that the applications on two other servers can be moved to this server reducing overall server count by two. The operating system has been installed on the server.

- **Continuity of Government (COG) (61018-01) -** The purpose of the COG project is to move the Michigan Continuity of Government Planning website from the Intranet site to a new Internet site. The client feels it is essential that this site be internet-based. It must be readily available from any alternate location. Secure access will be via the user id and password. Moving servers to the appropriate zone as recommended by OES.

- **Perseus Tool Upgrade** (**61102-01) -** The purpose of this project is to secure and test the next release of software for the Enterprise Feedback Management software (Perseus Tool). This next version of software is version 2.1. The produce needs to be installed and tested against the requirements that were part of the original survey tool work effort. Completed load testing and encountered significant load problems at 100 users. Working with the vendor on determining what problems are with the load. Also, reviewing other tools that are already at the State to see if another tool already secured.

- **MI360 Reconfiguration Project (61102-02) -** The purpose of this project is to upgrade the IBM HTTP software to version 2.047 from its current version of 1.3.28.1. In addition to this, research and review the technical recommendations surrounding the current configuration of the application. Advise on an appropriate architecture that will support statewide needs. Load testing that identified significant load issues with the application has been completed. The team to bring on the Vantage tool to identify all the problems that application is encountering is being worked with.

- **Sales Logix Refresh (60901-01)** – The purpose of this project is to purchase and setup production Sales Logix application. The Sales Logix application currently resides on the MAINHelp Server located in the Lake Superior Hosting Center. The software upgrade is to be loaded on a new server in the Lake Ontario Hosting Center. This project will eventually decommission the MAINHelp server in the Lake Superior Hosting Center. The application software is to be installed with assistance from Sales Logix and DIT-Technical Services.

- **AutoCAD 2006 Installation (60915-01) -** The purpose of this project is to complete the tasks required to install AutoCAD 2006 (DMB's graphics drawing application) to the test and production environments, including user's workstations (maximum 30 users).

- **New Purchasing ITB Transfer System (60915-02)** – The purpose of this project is to rewrite the system that Purchasing Operations uses to download documents from MAIN to be viewed in PDF format. The current system is out of date, lacks needed features, and has an inadequate database. Portions of the data have become corrupted and are not recoverable. The program will be rewritten internally to current standards with .NET technology.

- **DMB/OSE/EHM Workers' Compensation and Long Term Disability Web Software Application (60921-01)** - The purpose of this project is to assist The Office of the State Employer-Employee Health Management (EHM) to implement a statewide web-based disability claims and accident reporting software application. This system is not replacing any current system. The system will require 9 to 5 support and will be hosted on a server at the Lake Ontario Hosting Center. The decision as to which server(s) the application and data will reside will be made after the vendor has been chosen. It is not known if a client will need to be installed on PCs yet.

- **DMB RCO Transition Research (60926-01)** – The purpose of this project is to research the feasibility of transitioning support of DMB's Rapid Copy Ordering (RCO) system from DIT's E-Michigan Enterprise Application group to DIT's Agency Services, Applications Support group for DMB. The outcome of the project is a recommendation for the most appropriate approach to the transition.

- **MI/1 ADOPT Migration Project**
  - The following offices have been successfully migrated to the MI/1 ADOPT environment:
    - Office of the State Employer
    - Office of the Children Ombudsman
    - Purchasing Operations
    - Director's Office
  - The following offices are in various stages to be migrated:
    - Vehicle and Travel Services – Office Migration on Monday, March 5th
    - Human Resources – Office Migration on Monday, March 12th
    - Mailing Services – Office Migration on Wednesday, March 28th
    - Printing Services and Consolidated Print – Office Migration on Wednesday, April 4th
  - A Kickoff Meeting was held Monday, 2-26th, for the Real Estate Division.
  - The remaining offices are tentatively scheduled to be completed by the end of the fiscal year:
    - Office of Facilities
    - Office of Financial Management
    - State Budget Office
    - WDRA (formerly known as Office of Retirement Services)
    - State Fair Office in Detroit

Monthly Accomplishments:

- **DMB-Cass Bldg 2nd Floor Data Center Move (60519-07)** – Relocation of the servers currently housed in the DMB 2nd floor data center located in the Cass Building into the Hosting Centers. A target date of the end of August has been set. In addition to DMB servers there are DIT servers involved. There is a coordination going on with Michigan/1 ADOPT which may reduce the number of servers to be converted. Servers have been moved and the room has been cleared of other hardware. The project is closed.

Military and Veteran Affairs (MVA) *Mike Ashton*

Equipment Deployment Status:

- Currently MVA is Yellow Status As of 2/27/07. MVA has 1 system that is 35 days old pending deployment by Field Services. There was an issue identified February 26th with a KVM switch that is being resolved. 13 additional systems are on order for the Marquette Veterans Home.

- **Deployments over 30 days -** 1 system for Homeland Security Mike McDaniel

Project Status:

- **Managed Image Implementation (60404-02) -** To develop and implement local base images on all PC/Desktops and successfully transition to a managed environment at each DMVA location. Each local base image will be derived from the standard State base image (with Windows XP and configured for the State of Michigan environment with appropriate security settings). DMVA will not be moving to M1 until FY08 per OA. OA has agreed to make an un-managed Windows XP image for DMVA which will have their standard applications installed on it. Mike Ashton will be working with Agency Services on this initiative.

- **Infrastructure Assessment and Planning (50318-02) -** To perform a detailed assessment of the current state supported servers and communications lines utilized by the Department of Military and Veterans Affairs and develop a comprehensive plan for future improvement and utilization. After several meetings with OA staff DMVA will be migrated to the Consolidated GroupWise begin April 6th, 2007. Agency Services is working on a plan to migrate DMVA application systems over to the hosting center. A plan for the current Windows File and Print environment needs to be developed as the DMVA systems continue to have issues and hardware needs to be replaced. DMVA would like to move into the M1 environment as soon as possible. DMVA was provided pricing for moving to the managed LAN environment, pending DMVA approval and budget issues to be resolved.

Remedy Status:

As of 2/27/07 there were 9 open DMVA cases. The Average days for DMVA cases were at 19 days old. Below is the break down by the remedy groups

- **DIT Depot Maint and Logistics** – 1 Open case average days old (126) Oldest case 126 days
  - **Cases over 30 Days**
    - 1317359 – 126 days - Miscellaneous Parts for Grand Rapids Home for Veterans for Server Upgrade – Status Pending

- **DIT IS FS Lansing B**– 1 Open case average days old (11) Oldest case 11 days
  - **Cases over 30 Days**
    - None

- **DIT IS FS North**– 1 Open case average days old (1) Oldest case 1 days
  - **Cases over 30 Days**
    - None

- **DIT IS FS Southwest**– 4 Open cases average days old (5) Oldest case 17 days
  - **Cases over 30 Days**
    - None

- **DIT IS OA Messaging**– 1 Open case average days old (2) Oldest case 2 days
  - **Cases over 30 Days**
    - None

- **DIT IS TS Server Team 7**– 1 Open case average days old (11) Oldest case 11 days
  - **Cases over 30 Days**
    - None

Weekly Accomplishments:

- **DJHV Desktop Support Transition (60404-01) -** To transition responsibility for desktop support at the Dominic J. Jacobetti Home for Veterans (DJHV) to DIT Field Services. Desktop support is currently provided by DIT Agency Services staff stationed at DJHV. This project will be closely coordinated with the DMVA Managed

Image Implementation project, which will provide an approved local base image for use at DJHV. Initiative was completed on 10/09/06. The project is closed

Department of Natural Resources (DNR) *Jon Rogozinski*

Project Status:

- **DNR-ParkCars 3.23 Application Upgrade Project (70221-02) –** The project charter has been completed, presented and reviewed at the Infrastructure Services Resource Planning meeting held February 26, 2007. Project resources have been identified. The initial workgroup meeting is scheduled for March 2, 2007. The project is currently in the planning stage.

- **DNR-Forage Fish Dynamics Data Storage Project (61218-01) –** The project charter has been completed, presented and reviewed at the Infrastructure Services Resource Planning meeting held December 18, 2006. Project solution with associated costs has been identified and provided. The project is currently in the planning phase.

- **DNR-Retail Sales System Infrastructure Hosting Phase I Project (60630-01) –** The project charter has been completed, presented and reviewed at the Infrastructure Services Resource Planning meeting held July 10, 2006. Project resources have been identified. The initial workgroup was held July 26, 2006. Chris Larson (DIT-Agency Services) has been identified as the project manager, therefore the project will require little to no involvement from Jon Rogozinski (Infrastructure Specialist). The project is currently in progress.

- **DNR-Michigan Water Quality Information System Project (50810-01) –** The project charter has been completed, presented and reviewed at the Infrastructure Services Resource Planning meeting held August 15, 2005. Scott Reynolds (DIT-CGI) has been identified as the project manager, therefore the project will require little to no involvement from Jon Rogozinski (Infrastructure Specialist). The project is currently in progress.

- **DNR-Wildlife Fire Response and Planning Project (50803-01)** – The project charter has been completed, presented and reviewed at the DIT-Infrastructure Services Resource Planning meeting held August 8, 2005. Project resources have been identified. Workgroup meetings were held on September 12, October 4, October 19, and November 7. Scott Reynolds (DIT-CGI) has been identified as the project manager, therefore the project will require little to no involvement from Jon Rogozinski (Infrastructure Specialist). The project is currently in progress.

- **DNR-Bay City Office Move Project (50805-02) –** The project charter has been completed, presented and reviewed at the DIT-Infrastructure Services Resource Planning meeting held August 8, 2005. Project resources have been identified. Workgroup meetings were held on August 31 and November 19. A follow-up workgroup meeting scheduled for November 30 was cancelled due to lack of building site progress and will be rescheduled once more information is available. Original proposed move-in date for October 2006 will be delayed until fall-2007. The project is currently on hold, pending Agency direction.

- **DNR-M/1 ADOPT Migration Project (50215-01)** – The project charter has been completed, presented and reviewed at the DIT-Infrastructure Services Resource Planning meeting held February 28, 2005. Attended DIT-Delivery Services XP presentation held on May 25. Weekly workgroup meetings have been ongoing since the project inception. Human Resources (HR), Agency Services (AS), Internal Audit (IA), and Budget and Support Systems (BSS) have been successfully migrated to M/1 ADOPT. Communications and Grants Management (CGM), Financial Services (FSD), Executive (Exec), and Office of Land and Facilities (OLAF) have been identified as next divisions to migrate.

Monthly Accomplishments:

- Continued success in addressing and resolving agency issues/concerns thus avoiding need for escalation.

- Continued success with DNR equipment deployments, all new equipment orders notified through the Procurement process are set-up and scheduled for deployment.

Department of State (DOS) *Vince Foess*

Project Status:

- **Business Application Modernization (BAM) Phase II (40915-04) -** During March, the BAM team has focused energies in analyzing and designing the system. Design and construction phase started the first week in April. Using the "iterative" approach to software development means there will be several passes through the construction phase to ensure the system meets user requirements.

- **MDOS Branch Office Internet (41004-02) –** A Work Group Meeting is scheduled for 4/3 to discuss and implement a deployment schedule of the workstations to the Branch Offices.

- **Digitized Signatures in the Qualified Voter File Database (50531-01) –** The revised solution from a meeting held on 10/2 is moving forward. Patching and upgrade to MichCom2 was completed 10/5. HBA cards will be installed on MichCom1 and MichCom2. Once connectivity is complete building of the process between QVF and Digimarc will begin.

- **MDOS Consolidated Contact Center (50603-01) -** The Contact Center Project Team successfully installed Milestone 1 functionality to the Field Support Unit (FSU) within DSIC on March 16. FSU is a Tier 3 team that answers calls from branch offices only. Milestone 1 includes an IVR that uses voice recognition to identify the caller and populate the Customer Service Rep's (CSR) screen, plus advanced call management features in the new Siebel product. This new functionality was rolled out to the remaining staff in DSIC (Tiers 1 and 2) on Thursday March 30th. Support, maintenance responsibilities and procedures have been developed and finalized. Bearing Point is primarily responsible for support and maintenance for the duration of their contract (September, 2006), in close coordination with MDIT for Infrastructure, Telecomm and Network Support. The last two remaining regional call centers, Flint and Grand Rapids, were closed on March 24. As of March 27, calls that were being handled by those call centers have been re-routed to the Cadillac Place call center in Detroit. (Cadillac Place still uses regular telephone sets to handle calls, without Siebel or IVR technology. The new system will be rolled out to Cadillac Place as part of Milestone 2 in Mid-July).

- **Permanent Fleet Registration Program (50707-01) -** Project is on hold since late May, per MDOS's request.

- **Voter Registration Signature Transfer (60303-01) -** Rollout of equipment is complete, end of Master to Master Replication has occurred. Final removal of data and processes from the old Prod8 server near completion, after which the machine will be repurposed for Oracle inventory. Patches to the OS and the DB are pending for the new QVF production server and its associated hardware (development, and connection managers).

- **Broadband Expansion (60315-01) –** A decision is pending regarding if MDOS will continue expanding the pilot.

- **Organ Donor Phase 2 (60403-03) -** Phase 2 activities are in progress. BOS coding and Unit testing are complete. Web development nearly complete. System testing is scheduled to start on October 16th.

- **Kiosk/SST Phase 3 (60417-01) -** All Equipment has been received. The first site is scheduled for the 3rd week of October. The remaining 4 site have not been determined.

- **MDOS BAM User Acceptance Testing Environment (60501-01) –** A Work Group meeting is scheduled for 5/30.

- **VRST: QVF-Lite (60619-01) -** Fifteen pilot sites are operational as of 10/3/06. Data for first pilot recommendation/review is being collected by Agency Services. Review of first pilot is planned for beginning of December. Second pilot of 15 sites will begin after review and any remediation or corrective action is implemented.

- **MI Voter Information Center (60803-02) -** The initial server intended to handle the MVIC transition was repurposed for Statewide Lookup in late July. Another server has been identified and will be stood up for the transition to move forward. A plan has been put in place to load SWL and MVIC on each machine with load balancing between the two. Under the plan SWL users would link directly to one of the servers, and the connection manager would be configured to direct traffic away from the SWL server should the load become excessive. A set of specific performance metrics needs to be identified for this dynamic balancing.

- **FTP/Rational (60927-01) -** Existing FTP servers are at end of life cycle. Replacement server will be needed to consolidate the sites and support the Rationale application. A Work Group meeting is scheduled on 10/12.

- **Faxcom Server Upgrade (61002-01) –** The Project Charter was submitted for review to upgrade the Faxcom 4000 server used by the Michigan Department of State.

- **Re-Purpose QVF to INV (61031-01) -** The old QVFPROD and QVFDEV Compaq UNIX servers are no longer needed for the QVF project as a result from a new purchase. These two (2) servers are to be used to house the current Inventory application which has been having space and performance issues for at least the last two (2) years. Work Group currently addressing the project.

- **Inventory Dev Refresh (61208-02)** - The current Inventory development system is on a single server and it does not mimic the new production environment. The production environment has separate application and database servers. The current development environment consists of one server (INVDEV) connected to a Compaq SAN. As this environment is refreshed we would like to connect to the enterprise SAN. Setting development up to match the production environment will allow for more accurate testing of patches, migrations, transaction timings, application changes, etc.

- **Citrix and OS Upgrade (61221-01)** - The purpose of this project is to upgrade the current MDOS BOS Citrix environment currently utilizing Metaframe XP running on Windows 2000 Service Pack 4 to the most recent software release of Citrix Presentation Server 4.0 and Microsoft Windows 2003 Service Pack 1. The Citrix farm will also be split between the Lake Superior and Traverse Bay hosting centers in order to provide disaster recovery capabilities through fault tolerance. Work Group Kick-Off meeting schedued for 1/16/2007.

- **RLU Implementation to SQL Server 2005 and CEPAS (70126-02) -** Install SQL Server 2005 on Server HCO231SQLDPD001, migrate RPS_ADMIN from SOSSQL02 to HCO231SQLDPD001. Redirect current file transfers to the new IP address to complete the Konz Leigh (K & L) RPS/ARS-RLU application re-write to Visual Basic. Move STAR front end from SOSAPPS/STAR (204.23.227.33) to HCO231SQLDPD001. Implement CEPAS, the State standard for authorization of electronic payments for vehicle records. K & L will develop a web site as a third party. When a credit card authorization is needed for payment of fees, CEPAS will be used.

- **Load Balance Web Servers (70221-01) –** The project will create a high availability/redundant web environment for MDOS's web applications.

Monthly Accomplishments:

- **Branch Office Counter PC Refresh (60302-02) –** The project is completed.
- **XP Upgrade Project (60822-01) –** The project is completed.

Department of Transportation (MDOT) *Regina Hall*

Project Status:

- **Citrix Server for TMS (50504-01)** - The purpose is to provide an alternative distribution mechanism for MDOT's Transportation Management System, and other closely related client-server applications. Many of the TMS's clients are at remote locations, and are not state of Michigan users, yet they need to access the TMS application. Distributing the application via CD is awkward and error prone. In addition it requires the installation of Oracle drivers on users machines which in itself is error prone due to the number of user operating systems

- **EDMS Web (Project Collaboration) (41217-01)** - The purpose of this project is to provide MDOT staff with a tool to facilitate project team collaboration with both internal and external team partners. The software selected during the alternatives analysis is SiteScape. This software meets the requirements identified during requirements gathering, which include team workspaces, threaded discussion, chat, instant messaging, software integration (e.g. GroupWise), automated activity notification, electronic meetings, filtered discussion forums, calendaring, document and issue searching, document sharing and versioning multiple document viewing, electronic approval, web forms, tasks assignment, action items, issue tracking, team site administration and role-based security.

- **International Bridge Administration (IBA) Security and Traffic Management System Video Web Access (51216-02)** - There is a need to enable three bridge security stakeholders (Sault Ste. Marie, Michigan City Police, Michigan State Police and the Chippewa County Office of Emergency Services to access bridge security camera images and to enable public viewing of three designated non-secure traffic monitoring cameras that display bridge traffic backup conditions to all bridge users to make informed decisions regarding bridge usage. The International Bridge has their own authority. They would like to try to connect their stand alone security to the State's LAN for direct video feeds. MPSP may have an interest in this project. The project is on hold.

- **MIPARS QA Server (60418-01)** – The purpose of this project is to purchase a Windows based server to establish a permanent testing environment for the Michigan Permits System for MDOT's Real Estate Division. MIPARS is an application that supports trucking permits. They are getting releases from the vendor quite frequently. The application does not have a testing environment. Testing can not be done without taking down the system. A server is needed for a testing environment. This has been identified as a critical application. The production environment is currently on two servers. The test server will be located at one of the hosting centers. The project is on hold.

- **Van Wagoner Server Move Planning (60622-02)** – Planning for relocation of the servers currently housed in the Van Wagoner Server Room into the Hosting Centers. This effort is an FY06 planning effort with implementation in FY07. The planning effort may conclude with the purchase of refresh servers to facilitate the physical move of remaining servers. This project will be a part of a larger Enterprise Data Center Migration project. When the actual move occurs a new charter will be presented. Meetings are currently being conducted.

- **Michigan Intelligent Transportation System Traffic Information Internet Site (60504-03)** - There are six main objectives to this project. Make available MITS documentation such as as-built plans, typical details, special provisions, speed data, incident data, sign data and traffic volume to users outside of MDOT. Make available various MITS white papers and reports as they are developed. Provide incident management information within security parameters. Create an MDOT-hosted web site that will allow for greater flexibility in content management, layout and security. Develop a system that provides the flexibility to respond to new technologies in the Intelligent Traffic System area as they are developed and deployed. Provide streaming video capabilities to select public agencies using existing camera technologies. The project is on hold.

Treasury *Vince Foess*

New Projects:

- **Tax Compliance Bureau Reorg (70322-02)** Treasury's Tax Compliance Bureau Division is reorganizing the placement of various audit groups to provide for increased efficiency in terms of communication and cross sharing of information between the groups. The Project Charter was presented on 3/26/07, the Work Group Kick-Off Meeting will be scheduled as soon as possible.

Project Status:

- **Field Switch Replacement (40729-02) -** Due to the age of the switches, updates are no longer supported. Server Team4 does not have equipment available to upgrade the sites. A Remedy Case is being created and assigned to Telecom requesting they take over management of these sites.

- **Merit Office 2000 Shared Drive (40816-01) –** The project is pending completion of Treasury's Server Refresh Project (51103-01).

- **MGCB Detroit Casino T1 Project (50901-01) -** The T1 install dates are as follows; MGM is scheduled for May 1st, Motor city is scheduled for August 1st, and Greek town will be scheduled when the VPN for Motor City has been completed.

- **Treasury Server Refresh (51103-01) –** The project was approved by Treasury's Steering Committee on 2/22/07. All App Managers are performing research to improve upon the project plan. Project Kick Off meeting scheduled for 3/12/2007. BPM is currently being researched and analyzed to determine what/when applications and data will be moved. Tranter server migration has been completed. Server Team is waiting for approvals for new servers so they can be moved into the production environment.

- **MGCB Gaming Lab Submission WebApp (60602-03) -** M-1 Exception Request has been approved, procurement of new server/hardware and hosting process is moving forward.

- **Transfer AG Software/Data (60711-02) -** Due to personnel availability issues this transition will need to be completed within the next 2 to 4 weeks. Please take the steps necessary to expedite this request. An update is pending.

- **MGCB - PC's for Scanning and MGM Recruitment Center (61128-01) -** MGCB is waiting for a setup date for IT from the users.

- **ACL Software Upgrade (61207-01) -** Treasury is testing a patch to the vendor application because a bug was found. The client is determining a go live date, based on testing results.

- **Install CodeSite error trapping software (70104-01) –**This project will install the CodeSite Dispatcher on the workstations in unclaimed property in order to track some persistent issues of ACS Wager unclaimed property COTS package freezing up during business hours. This dispatcher will enable a log file of messages from the Wagers applications (current method etc., workstation, application) to be kept. The file then can be sent to ACS Wagers by an Unclaimed Property staff member for analysis. The file never contains any personal information. CodeSite is a product of Raize Software and is widely used by ACS Wagers for software debugging. Only the client utilities will be installed which Wagers has the right to distribute. The installation program will be placed on the Michigan page of the Wagers website, downloaded at Treasury, and then installed at each of 24 desktops. Work Group Kick-Off Meeting scheduled for 1/16/07. Project is in initiation/planning steps with vendor. Schedule is not determined as of 1/10/07.

- **Treasury XP Rollout (70103-01) –** The Work Group has successfully completed the upgrade for Tranter Building, OMT, Tax and Economic Taxes, MHESLA and Budget and Accounting. Bond Finance is in progress and on schedule. The next phase includes deployment of TED appliances and MET XP rollout. Execution of phase two is scheduled to begin in May.

- **Treasury MIP Server (70103-04) -** Treasury Office of Fiscal Affairs is currently using a GX150 located in the business office to house their accounting system. The GX150 experienced a hard drive failure. The data had not been properly backed up since July 2005 and data recovery efforts are underway with a 3rd party vendor (Remedy Case #1331776). The purpose of this charter is to move the accounting system to a hosting center and onto a server-class box. The accounting system is a business day-only operation so it will not need 24x7 support.

There are three users who will need remote console or terminal server access for managing accounts. Additionally, the MIP software needs to be upgraded from 5.0 to 8.1.

- **BOI Firewall Replacement (70201-01) -** Replace the hardware and software that is currently used as the Bureau of Investments Firewall. The current hardware is out of warranty and the software is no longer supported by the vendor.

- **BOI Server Replacement (70201-03) -** Replace the hardware and software that is currently used in the Bureau of Investments for Storage and Applications. The current hardware is out of warranty and the software is no longer supported by the vendor.

- **Tax Compliance Bureau Laptop Rollout (70125-02) -** This project will facilitate the replacement of unreliable, out-of-warranty equipment. The Bureau's Audit Division is requesting the purchase and deployment of 29 Dell Business Class Latitude D620 laptops and perpherial equipment for their Audit Staff. Equipment will be deployed and tracked under Treasury's XP Rollout Project (70103-01).

- **IRS Data Exchange (70123-01) -** This Charter is to request a study be performed to determine the amount of technical work required for Michigan to participate in the Internal Revenue Service Electronic Data Exchange project. The IRS is improving the medium used for exchange of confidential tax information. Participation is being offered to all states that exchange data extracts using magnetic cartridges with the IRS. This would reduce the time it takes to process a request for federal data from 1-2 weeks to a number days.

Weekly Accomplishments:

- **MIITAS (60731-01) -** Project Cancelled per Treasury.
- **Network Card Upgrade for FarStar4 Server (70202-01) -** The project is completed.
- **Discovery Division Reorg (70201-01) -** The project is completed.
- **Treasury MHESLA New PCs (70126-03) -** The project is completed.

Department of Human Services (DHS) *Gailene Briggs*

Projects Status:

- **Bridges Project Implementation of Vendor Desktops –** There are continued efforts to deploy and make accounts for Bridges users. An updated build for the architect is in the process. The addition and subtraction of users continues as needed for the project.

- **DHS Novell Server Removal -** This will be a part of the M1 Project.

- **XP Migration -** The tower is nearly finished, have under a dozen users that need to be converted over to XP. Still have a few NT test machines to support the field with the FRC sites.

- **Outstations to VPN -** Out of the 20 sites that need to migrate over to DSL or an internet access within the building for these users that are presently using mini servers, there are only 3 left to finish and then one will not be able to due to no DSL provider in the area.

- **Bureau of Family Services (OCAL) -** Due to M1 this project on hold till we know the desktop.

- **IVR Expansion for Adoption Subsidy –** A new server has arrived and replaced the old one and now redoing the older server to use as a back up for the application.

- **Citrix Solution for Outside Access to SWSS -** Citrix being a new environment for this agency, they need some expertise in this area to help figure out exactly what is needed to set the environment up to supply the citrix solution

for access to SWSS for around 500 non state employees. Waiting for CITRIX licenses and work with OES on security issues.

- **DHS Telephone Replacement -** 80 DHS offices have IP Telephony. Sites with this have ports all set to 100/full. Additional offices will be scheduled later.

- **Security Release Upgrade for Families First -** All sites have been rebuilt and new printers have been installed where needed.

- **JET Pilot -** A locked down build has been created and changes to the application to make it user friendly to be placed in the lobby in locked down compartments. Will be doing a presentation on this in the next week to management and it should be ready to implement in the field.

- **Registrar (LMS) Upgrade to version 6.5 or above –** This project is in progress.

- **Window Server Replacement Upgrade (60807-01) -** This has been replaced with the purchase of the M1 servers which have all been delivered but one site which is being checked on. Installation of the servers and the battery packs will be starting on April 2.

- **DHS Transfer of Michigan Community Service Commission (60728-04) -** Governor Granholm has transferred the Michigan Community Service Commission from DLEG to DHS effective 10/1/06. The commission consists of 16 staff and is located at 1048 Pierpont, Lansing MI. Another meeting needs to be set up on this since the decision of M1 has been made for DHS.

- **Arbor Heights BJJ site Closure -** Users are moved, telecom and server hardware to be picked up next week to complete the project.

- **DHS Mobile Training -** Working with the trainers on creating a mobile training unit. Will be testing it with the complete set up at Ingham this week.

- **M1Project -** On the first phase of installing new servers and doing a software discovery for the users. Working with field services on the schedule for installation, instructions, and two pilots to assist in training staff for the installs. The tasks and directions for the installs are being set up.

Weekly Accomplishments

- **Network Access at BJJ Residential –** The project is completed; users have a build which includes software packages and get virus updates direct from Microsoft.
- **Weatherization Fugitsu Tablets -** The project is completed.
- **DHS Otsego Co emergency relocation (60728-03) -** The project is completed.
- **Business Objects/Crystal Reports (60905-01)** - The project is completed.
- **Crystal Reports Production Environment (60912-01)** - The project is completed**.**
- **Disposal of 4 Business Objects Servers (60912-02) -** The project is completed.
- Attended Infrastructure Services Resource Planning, Service Delivery mtg. DHS XP Migration, and IMAC meetings to work with various areas of Infrastructure to communicate between our groups.
- Participated in the Equipment Deployment Conference call.
- Working on deployment of DIT workstations in the grand tower with a float down of computers to rest of staff along with the DHS XP deployment.
- Working on another order of new computers to replace users in OCS and throughout the state.
- Assisting DDS in returning their old hardware to stock for their new pc deployment statewide.
- Still working on the rollout of XP in the grand tower, almost complete.
- M1/ADOPT meetings for DHS with infrastructure and meeting with the agency on the plan.

- Still working on getting all the printer information updated for the tower to move them to the windows environment, other projects have been taking presedence. Technical services is working on the printer server on the window servers for the grand tower.
- Remedy cases and tasks
- Working with users and field services on the virus issues, been on the calls.

State Police (MSP) *Mike Ashton*

Equipment Deployment Status:

- Currently MSP is red Status. As of 2/27/07 MSP has 37 systems pending installation at 69 days old for the MSP MIOC INTEL Unit. 1 system is pending Field Services installation at 4 days for the Computer Crimes Unit. This is a MAC system that will not be hooked up to the state network. There is one order for 8 dell laptops pending delivery from Dell. These systems will only need to be delivered by Depot as they will be used as forensic systems not connected to the state network.

- **Deployments over 30 days old:**
  - 37 systems for INTEL

New Projects:

- **IDM 3 Upgrade (61122-02) -** MSP's current DirXML environment is quite old and is in need of an upgrade. Additionally, the Lab Case Management System being implemented for MSP will require directory synchronization between MSP's current Novell directories and LCMS's Active Directory. This purpose of this project is to upgrade MSP's current DirXML to IDM 3, and implement Universal Password in the Novell environment to allow for directory synchronization from eDirectory to Active Directory. Workstation upgrades of the Novel Client for the IDM upgrade will be completed by March 1st as requested. The server upgrades are scheduled to be completed by March 10th. Requested date was March 1st. Server upgrades appear to be on-schedule to be completed by March 1st. The LCMS application will need IDM 3 implemented to allow for user ID synchronization. Currently Agency Services / Tech Services have to synchronize the LCMS/AD accounts to the Novel password to allow the application to work. Once the Client upgrades and server upgrades are completed the work can begin on the MICJIN Portal to implement IDM 3. Testing of the MICJIN Portal is currently being done.

Project Status:

- **MSP- Fusion Center (60006-02) –** Establishment of Michigan fusion center will build a statewide capability to share information and intelligence among federal, state, local, and tribal homeland security partners; turning information and intelligence into actionable knowledge. Operations moved into the MIOC on Jan 12th. All work for this project has been completed except for the deployment of the new INTEL PC's. This was expected to be completed by Feb 28th, but currently only 9 of 46 systems have been installed. Issue was escalated to Field Services management and a commitment of completion by March 7th was given. The IS will be monitoring the progress.

- **MSP- Harrison Road Server Move Planning (60622-04) –** Planning for relocation of the servers currently housed in the Harrison Road Server Room into the Hosting Centers. This effort is an FY06 planning effort with implementation in FY07. The planning effort may conclude with the purchase of refresh servers to facilitate the physical move of remaining servers. This project will be a part of a larger Enterprise Data Center Migration Project. A clarification was given in the January meeting that AFIS will not be moved this FY. There is a MOU being drafted by the IO and Tech Services on leaving the AFIS system at Harrison road. All other servers are to be moved out of Harrison road by September 07. Current target dates to are to have the servers moved out by August 2007. This GroupWise and File and Print servers will be handled with the GroupWise and Novell File and Print consolidation projects. GroupWise consolidation for MSP is scheduled to start in April. File and Print Consolidation is also expected to start by April as well. A meeting is scheduled for Feb 28th to review the Harrison Road server room closure as well as other Lansing area MSP sites.

- **Codespear rollout for ETeam (60421-03) –** Install a new client program on approximately 136 State owned workstations. These users are State Agency Emergency Management Coordinators. They will use this application to send out alert notifications messages through Michigan State Police ETeam system during an emergency. The client program is called SmartMSG from a company called Codespear. Work continues on this project. The project is pending a response from MSP to the Office of Enterprise Security (OES). OES has some security concerns focused around attachments and server security settings. OES is also waiting for User Codes and Passwords to allow access to the CodeSpear box to verify security settings and complete security scans.

- **MSP Database Server build (60324-01) –** Build out the server currently called HCS551LEIN1 as an Oracle 9i database server. The intent is to migrate databases from the MSPORA1 server and the MSPINTLIBPD1 server. This will hopefully allow the retirement of MSPORA1 and/or MSPINTLIBPD1. This is an on-going project. The Oracle 91 box has been built. The Agency Services for MSP DB unit is working on consolidating other Oracle DB's to the new box. There are no known issues on this project.

- **MSP File and Print Consolidation Refresh project (60209-02) –** Most of the MSP servers beyond their life cycle and out-of-warranty. This project will determine the best solution to achieve two objectives. Refresh the current infrastructure and consolidate the file and print to a standard centralized environment. The object of the project is to determine the best solution and present the proposal to MSP Executives for approval and implementation of a consolidation network environment. Servers for the File and Print Consolidation have been identified. A meeting is scheduled for Wednesday February 28th, 2007 with DCO to talk about hosting and configuration of these servers. The Lansing Area Consolidation is expected to begin in Late April.

- **Wireless access for the Michigan State Police Forensic Science Division (60106-01) –** MSP would like to use wireless data communications at their labs to use their tablet PC's in the lab areas over the SOM network. The project is on hold.

- **Terminal Services Server (51101-02) -** To implement a Terminal Services License Server for use on MSP servers. Currently only two licenses are available on each server which hinders support when the issue crosses into multiple groups. Providing a Tereminal Services Server would allow for mulitple groups to access servers when required. Tech Services has requested Agency Services to identify a test box. A test box was identified but has now gone to production. A new test box needs to be identified.

- **Monitoring Tools (51101-01) –** Provide Agency Services Personnel the ability to access system performance monitoring tools to check status of servers housed at DCO for : Memory Utilization, Processor Utilization and Hard Drive Utilization. This data is required to enable MSP to determine budget requirements for current and upcoming projects. Work with the DCO Monitoring team, Agency Services, and the CSC has continued. Firewall rules have been requested and opened to allow the monitoring from MSP HQ where the Agency Services and the 24/7 CJDC help desk sit. The project is now pending testing.

- **LCMS (50616-02)** – MSP-FSD (Forensic Science Division) has been given approval to move forward with the purchase of a new LCMS (Laboratory Case Management System). This system will be deployed to all seven (7) Forensic Science Labs around the state and the Division HQ's. The system is made up of 11 Servers; 1 Centralize Server, 1 Warm Backup Server, 8 Local Servers and 1 IIS Server. This system will be supported by a third party vendor and DIT. The Michigan1 Exemption for servers at the local site was approved my Pat Hale the week of 8/5. There have been several issues with this application testing and rollout. All outstanding Infrastructure issues have been resolved. The remaining issues are with the application and firewall rules that need to be implemented for this project. Weekly meetings are being held on this project. The LCMS application is expected to be completed by May 1st, 2007. The only known issues for DIT on this project will be with firewall rules which require OES and MSP approval. These requests have been submitted and are pending currently.
  - **Constraint:** The labs need to on the LCMS program by April 2006 for accreditations. Server ordering will need to be done ASAP to ensure adequate time is available to set the system and start piloting with the Grand Rapids labs by November 2005.

- **Constraint:** IDM 3 needs to be implemented to allow for user code and password synchronization to occur. Without IDM3 the user codes and passwords will need to be manually sync by the LCMS Administrator.

- **Next Generation LEIN (40624-03) -** In order to meet Federal security requirements for encryption and authentication, a Web based front-end has been added to the old system. While this did bring LEIN into compliance with the requirements, it did not alleviate any of the problems listed above. To resolve these problems, the mainframe portion of the system will be rewritten; moving LEIN off the mainframe and to a modern, "open" architecture. The same web front-end being used to access the legacy LEIN system, will be used to access the new LEIN system. This project is likely complete, DIT Field Services visited all MSP sites statewide and configured existing desktop PCs to replace the legacy LEIN system. This project has been pushed back for implementation to September 9th, 2007. There are no-know issues at this time. The project is currently in testing phase and remediation phase of OES security concerns.

- **XP Migration Rollout (40510-01) -** A formalized approach is currently being discussed with Mike Binkley, discussions with the client will begin again on Thursday, April 1, 2004. Phase one of the projects is nearly complete, very few systems remain to be converted and will be once application issues have been resolved. Phase two is under way with minimal problems as staff in Lansing and the field is now quite familiar with the processes involved in migrating a worksite. Pam Rasher of Service Delivery is managing this project, Planning and Coordination had considerable involvement during phase one but has only minimally participation once the highly complex and/or problematic worksites had been addressed.
  - **Phase II (EMD / HAZMAT) -** This area is still on hold. Meetings with Agency Services and MSP EMD have taken places. EMD is looking into the possibility of going into a managed environment but wants to maintain some control and the ability for the EMD support staff to have Administrative rights to the systems. This does not appear to be an issues but a Memo of Understanding will need to be drafted before moving them into the managed environment.
  - **Intelligence (IRS) -** All Applications that could be managed have been built and tested. Deployment of the managed PC's has begun and currently 9 of 46 systems are installed. The systems were requested to be installed by 2/28/07. I have requested a completion date of this project and am being told they will be completed by 3/7/07.

- **MSP Server Consolidation (40419-01) -** Server Consolidation has been identified by MSP as a cost savings initiative. MSP wishes to consolidate servers both at DCO and throughout the department to maximum use of each server while cutting costs at a time when resources are at a premium. With the advances in server consolidation technology options are available reduce current costs as well as future costs. The DIT Planning and Coordination team has not been requested to participate in this project. Checking on Project status. Work continues on this project with Agency Services. Due to other projects in the Agency Services queue this project has a low priority. Servers are consolidated when possible. Project is expected to be on-going over the next FY.

- **SEOC Backup Facility (40714-02) -** MSP Emergency Management Division (EMD) is creating a backup server facility at 732 Canal Rd and requires a LAN Drop and CISCO to support this initiative. Project needs to be completed by 30 September 2004 or sooner. POC for MSP EMD is Tom Newell at 517-333-5026 or newellt@michigan.gov. This Charter is associated with Helpdesk Case DITHPD000590991 which is currently assigned to the Client Specialist Dave Roach and is in a Pending 3rd Party Input state. Verifying Project is completed. Project is not completed. This project is on Hold per MSP as they work on identifying a backup site outside of the Lansing area.

- **CVISN (40624-06) -** Existing project similar to that of LEAMS. Planned to be operational in October 2004. Will require DCO staff to coordinate efforts with Agency Services for server setup, configuration and support. The DIT Planning and Coordination team has not been requested to participate in this project. Per MSP and Agency Services this project has been canceled.

Remedy Status:

As of 2/27/07 there were 239 open MSP cases. The Average days for MSP cases is currently at 55 days old. Below is the break down by the remedy groups

- **DIT Depot Maint and Logistics** – 9 Open cases average days old (92) Oldest case 138 days
  - **Cases over 30 Days**
    - 1308315 – 138 days - HP Printer - copies coming out dark with ink spots – Status Pending
    - 1312501 – 133 days - Monitor needs replacement - Status Pending

- **DIT Enterprise Security –** 12 Open cases average days old (86) oldest case 252 days
  - **Cases over 30 Days**
    - 1206453 – 252 days - FW rules for MSP Behavioral Science - Status Pending
    - 1226382 – 229 days - Request access be allowed from Zone 3 to Zone 2 for MPSCS M1 ADOPT Migration - Status Pending
    - 1295218 – 151 days - MSP: Server is Scheduled to Close Need Firewall Rules Reviewed - Status Pending
    - 1307604 – 138 days - Add port to existing VPN Pasquale Cappellettie, DIT/Agency Services/MSP & DMVA - Status Pending
    - 1356251 – 81 days - FW rule for MSP Mainframe time sync – Status Assigned
    - 1377091 – 48 days - Circuit and firewall rule modifications needed for vendor accessed PC for LCMS development – Status Assigned
    - 1378800 – 46 days - FW rule change for OMNI test system to NGL - Status Pending
    - 1379527 – 46 days - Test/Temporary FW rule to debug NGL to MIPCDEVL connection - Status Pending

- **DIT HD Client Service Center –** 28 Open cases average days old (8) oldest case 20 days
  - **Cases over 30 Days**
    - None

- **DIT IS DCS Enterprise Metrics–** 1 Open case average days old (377) oldest case 377 days
  - **Cases over 30 Days**
    - 1097307 – 377 days - sompmon02 & sompmon01 need access to MSP SBC routers – Status Pending

- **DIT IS DCS Process Development–** 1 Open case average days old (45) oldest case 45 days
  - **Cases over 30 Days**
    - 1380368 – 45 days - Request FW Rule to allow for Monitoring of Mainframe.– Status Pending

- **DIT IS FS Central–** 5 Open case average days old (35) oldest case 112 days
  - **Cases over 30 Days**
    - 1331102 – 112 days - MSP: For Midland Requesting laptop have SecurID VPN antivirus/firewall/GroupWise software installed. – Status Pending
    - 1375936 – 49 days - would like to have computer setup – Status Assigned

- **DIT IS FS Detroit A–** 14 Open case average days old (18) oldest case 167 days
  - **Cases over 30 Days**
    - 1278700 – 167 days - needs replacement computer installed at the Eire Scales I-75 North Bound– Status Work in Progress

- **DIT IS FS Lansing B–** 29 Open case average days old (29) oldest case 94 days
  - **Cases over 30 Days**
    - 1344497 – 94 days - MSP: REOPENED - please install AutoCad and Project Spex – Status Work in Progress
    - 1355161 – 82 days – Map Network Drive – Status – Work in Progress
    - 1363416 – 70 days - User states the printer is not printing at all. – Work in Progress
    - 1386136 – 35 days – Install Printer – Status Pending

  - 1389792 – 32 days - Request for Assistance for OHSP Annual Summitt – Status Pending

- **DIT IS FS North–** 4 Open case average days old (20) oldest case 61 days
  - **Cases over 30 Days**
    - 1369319 – 61 days - MSP: Software Request: - Status Pending

- **DIT IS FS Southeast–** 4 Open case average days old (28) oldest case 70 days
  - **Cases over 30 Days**
    - 1364026 – 70 days - CD Drive not working: - Status Pending

- **DIT IS FS Southwest–** 8 Open case average days old (20) oldest case 83 days
  - **Cases over 30 Days**
    - 1353894 – 83 days - MSP: Please push "Dictaphone Freedom System" to my NAL applications window. - Status Work in Progress

- **DIT IS FS UP Western– 4** Open case average days old (21) oldest case 26 days
  - **Cases over 30 Days**
    - None

- **DIT IS FS West–** 1 Open case average days old (4) oldest case 4 days
  - **Cases over 30 Days**
    - None

- **DIT IS MIPRINT–** 1 Open case average days old (35) oldest case 35 days
  - **Cases over 30 Days**
    - 1386134 – 35 days - Ikon problem (Call Nonda Beebe to check on this) – Status Assigned

- **DIT IS OA Delivery Svcs Team 1–** 3 Open case average days old (19) oldest case 33 days
  - **Cases over 30 Days**
    - 1388282 – 33 days - MPSCS: We need to have the scanner function set up on our machines in here. – Status Work in Progress

- **DIT IS OA Delivery Svcs Team 2–** 27 Open case average days old (83) oldest case 201 days
  - **Cases over 30 Days**
    - 1250017 – 201 days - MSP: Login Issues - related to client upgrade – Status Work in Progress
    - 1261842 – 188 days - MSP: REOPENED: Subject: Administrative Rights to Computer – Status Assigned
    - 1266223 – 182 days - MSP: GASP failed APC – Status Assigned
    - 1298158 – 147 days - MSP: HARDWARE SASP broadcast message that UPS battery needs replacing, please investigate on 30-SASP-FS1. - Status Pending
    - 1300343 – 145 days - MSP: HARDWARE MET getting broadcast message saying UPS battery needs replacing. – Status Pending
    - 1300483 – 145 days - MSP: HARDWARE COSP the UPS Battery Is Dead. – Status Pending
    - 1308481 – 138 days - MSP: HARDWARE PESP-Battery Power- Novell Message Pop Up – Status Pending
    - 1322184 – 123 days - MSP: HARDWARE ADSP failed UPS battery followed by USP battery needs replacing. – Status Pending
    - 1328355 – 116 days - MSP: HARDWARE UPS MUSP Battery possibly needing replacement – Status Pending
    - 1329581 - 115 days - MSP: HARDWARE LNBR UPS is not working - Status Pending
    - 1331422 – 112 days - MSP: HARDWARE GASP failed APC – Status Pending
    - 1344170 – 96 days - MSP: HARDWARE NGSP NegauneeHQ failed APC – Status Pending
    - 1347536 – 89 days – MSP: HARDWARE COSP Failed APC server down ups shutting down – Status Assigned

  - 1350326 – 87 days - MSP: HARDWARE TCMS APC has failed is the error message they are receiving – Status Pending
  - 1351210 – 84 days - MSP: HARDWARE IRS UPS Battery Needs Replacing – Status Assigned
  - 1368747 – 61 days - MSP: CRSP User needs new server tapes. They are down to their last one. – Status Pending
  - 1375134 – 49 days - MSP: WMET failed APC – Status Assigned
  - 1375305 – 49 days – MSP: HARDWARE UPS GLSP Battery possibly needing replacement – Status Assigned
  - 1378042 – 47 days – MSP: OMNI UPS Batteries need replacing, batteries do not need replacing – Status Pending
  - 1389133 – 33 days - MSP: JASP failed APC UPS is very hot, the battery light is red and it smells like sulfer – Status Pending

- **DIT IS OA Messaging –** 19 Open case average days old (85) oldest case 341 days
  - **Cases over 30 Days**
    - 113071 – 341 days - setting up groups in GroupWise, the system keeps deleting some of the names. – Status Work in Progress
    - 1282563 – 164 days – Unable to log in to his MSP e-mail account from this location. – Status Assigned
    - 1305687 – 140 days – Group Wise is not letting him work as needed - Status Assigned
    - 1320964 – 124 days – GW issues w/hard returns and printouts don't include header text - Status Assigned
    - 1323255 – 122 days – GroupWise Address book - duplicate records - Status Assigned
    - 1328819 – 116 days – MSP: 5 E-mail accounts to be restored - Status Assigned
    - 1335863 – 104 days – Unable to open/view GroupWise calendar proxy access with Lawrence Cook in Paw Paw. - Status Assigned
    - 1352997 – 83 days – MSP:Calendar problem with GroupWise - Status Assigned
    - 1354798 – 82 days – Archive set up error: "need to convert older version to database to G.W. 6. - Status Assigned
    - 1365818 – 68 days – User is not receiving email from both within and outside state system - Status Assigned
    - 1366590 – 67 days – GW Archive Issue MSP-SEOC PO - Status Assigned
    - 1368310 – 64 days – GW Archive Issue MSP-SEOC PO - Diane Laban - Status Assigned
    - 13680111 – 45 days – My GroupWise flashes periodically, and e-mails seem to disappear at random. - Status Assigned
    - 1387106 – 34 days – I think I'm having a problem with my GroupWise. - Status Assigned

- **DIT IS TS Server Team 11 –** 2 Open cases average days old (30) oldest case 33 days
  - **Cases over 30 Days**
    - 1389004 – 33 days –MSP Firewall Changes– Status Assigned

- **DIT IS TS Server Team 6 –** 3 Open cases average days old (70) oldest case 193 days
  - **Cases over 30 Days**
    - 1257832 – 193 days – ST611: MSP Firewall Access – Status Pending

- **DIT IS TS Server Team 8 –** 1 Open case average days old (40) oldest case 40 days
  - **Cases over 30 Days**
    - 1383077 – 40 days – unable to use PenLink (wire tap) app since move to new location– Status Pending

- **DIT IS Telecom Call Center –** 1 Open case average days old (49) oldest case 49 days
  - **Cases over 30 Days**
    - 1375998 – 49 days – Client is requesting two Data Drops for Voice and Data , new employees for installation of new cubicles.– Status Assigned

- **DIT IS Telecom Network Install –** 4 Open cases average days old (24) oldest case 39 days
  - **Cases over 30 Days**
    - 1383865 – 39 days – MSP P2P DS3 question.– Status Assigned

- **DIT IS Telecom Svc Delivery –** 19 Open cases average days old (75) oldest case 328 days
  - **Cases over 30 Days**
    - 1141184 – 328 days – VPN for Casey Wyzlic, Token 21471578, DIT/DPO/Sever Team 9 - Status Assigned
    - 1192880 – 268 days – MSP Access to PA servers - Status Pending
    - 1305310 – 140 days – Lenawee Co Clerk - MiCJIN – CCW - Status Work in Progress
    - 1306967 – 139 days – F/W rule add - Kent County Prosecutor Office - MiCJIN – LCMS - Status Assigned
    - 1319325 – 125 days – Kent County Circuit Ct - MiCJIN - LCMS, SOR - Status Pending
    - 1325916 – 118 days – Burton Police Dept - MiCJIN - SOR, MICR, MiDIRS, APRS. SNAP - Status Work in Progress
    - 1365352 – 69 days – GW to GW VPN Patrick Gagne, Contractor- Roscommon County Sheriff - Status Pending
    - 1367341 – 67 days – REOPENED - Firewall is blocking site https://198.148.130.144:63043/miebtmanage/load.htm - Status Assigned
    - 1384970 – 38 days – Wyoming Police Dept - MiCJIN - SOR, LCMS, MiDIRS, SNAP - Status Pending

- **DIT Procurement –** 45 Open cases average days old (83) oldest case 157 days
  - **Cases over 30 Days**
    - 1289845 – 157 days - 551-6-277 - 1 ea. Ricoh Pro G3 Camera w/Li-Ion Battery & Charger, etc. + S&H - Status Pending

- 1382441 – 40 days – 551-7-080 - 1 ea. GX620 MT w/17" Monitor & 3.5" Floppy Drive - Status Assigned
- 1382450 – 40 days – 551-7-055 - Sxr07-208 - 1 ea. Aberdeen Stirling X632 Server; 1 - Dell PowerEdge 1800 Server; 2 - 1.0 TB Strg Devices - Status Assigned
- 1382456 – 40 days – 551-7-05 - Sxr07-081 - 1 ea. Computer Forensic Case Archive Storage Server -- 20TB Xeon Storage Server - Status Assigned

Monthly Accomplishments:

- **Secure Tunnel Server Re-task (60509-01) –** Re-task the MSP servers: MSPSTPA1 and MSPSTPA2 as MQ servers for the Next Generation LEIN project. This Project is now completed.
- **Public Sex Offender Servers (60315-02)** – New legislation was recently passed that forces MSP to add email capability to the Public Sex Offender Registry (PSOR). The current server running the PSOR application will not be

able to handle this added work. MSP is requesting a quote for two servers to run the PSOR application in a load balanced fashion. This Project is now completed.

- **MSP-FSD STS – (51110-02)** – Michigan State Police Forensic Science Division is procuring a Sample Tracking System (STS) to provide better management workflow of data within their CODIS Units. This System will track DNA Samples and export them to the CODIS System which is controlled by the Federal Bureau of Investigation (FBI). The purchase includes two (2) Servers to act as a primary and backup within the FSD Lansing Lab. This Project is now completed.
- **MSP ICHAT – (50929-02) –** MSP has a web-based application called ICHAT, INTERNET CRIMINAL HISTORY ACCESS TOOL that allows users to perform criminal background checks, e-Michigan & IBM originally developed this application. Currently this site is maintained by e-Michigan however the application is hosted with IBM under the Michigan.gov Portal in Boulder Colorado. ICHAT is a Java/Unix application hosted on 2, Sun Servers, the purpose of this project is two fold; (1 re-write the application in .Net/Microsoft and host the application @ DCO, this will provide the SOM with cost savings by having the application hosted in state and .Net technology will allow e-Michigan to better manage and enhance the site, (2 The current design does not allow for an easy migration to CEPAS and does not conform to Credit Card Processing rules, subsequently the Department of Treasury has asked MSP to re-write the application. ICHAT was moved over to the new system on Friday February 26th. There are no know issues at this time and Agency Services has agreed to close the project as completed.
- **PPO (50609-01) –** Project to move the Personal Protection Orders (PPO) s off the MIPC-MSP mainframe into an Oracle database. The new PPO systems were implemented on February 7th 2007. This project is completed.

UIA *Sam Meheidli*

Equipment Deployment Status:

- **Remedy Case # 135872, CR # 10711** - 41 GX620s for SOAHR.
- **Remedy Case # 1329624, CR # 9183** - 30 GX620s and 10 D610s laptops for DLEG- Bureau of Labor Market Information & Strategic Initiatives.
- **Remedy Case # 1393211, CR# 12277** - 5 GX745s for GR/Detroit.

Project Status:

- **Moving staff to UIA–Madison Heights Branch Office to work on the System Integration Project (System Rewrite) 60306-02 -** Only the 2 printers were setup. The PCs are stored. This project is on hold.
- **DLEG- UIA "RICC II enhances the UIA RICC (Remote Initial Claims Center)" (50831-01) –** Users are using the Nice applications at the RIC Centers, and no problems were reported.
- **XP Managed Rollout (50524-01) -** All deployed new PCs have the XP state base image, and any new order automatically will have the XP state base image. There are UIA staff that are still using win2k. During the last Agency Service Delivery meeting on Thursday 3/22/07 it was requested that those users be upgraded to XP.
- **DLEG_UIA Installation of a software called Auto Coder Version 4 (60801-01) –** This project is for 3 Servers (2 for productions /1 for Dev. /Test) with OS is Linux. The DIT-15 was submitted and approved by the Agency. This is pending shipment of servers from Dell.

Monthly Accomplishments:

- Assisting Agencies and DIT- Field Service on creating/resolving remedy cases.
- Participated in the Infrastructure Services Resource Planning Meeting.
- Participated in the Equipment Deployment teleconference meeting.
- Attended E25K status meeting.

- Attended UIA-Agency Service Delivery meeting.

UIA fills Four Managerial Posts

by Norm Ivoska, Communications Specialist, DLEG

The agency has filled four mid-level manager positions within the past two weeks. Three of the jobs are within Benefit Services, and the fourth is in the Office of Management Services.

In Benefits Services, **Sue Easton** is the new manager of Federal Programs and Procedures; Yukima Everett is the manager of Quality Assurance and Debbie Lychack is the UIA Project Manager. Jeff Murff was named manager of Special Contracts. All four appointments became effective on Monday, October 6. Prior to her new appointment, Sue Easton had been manager of Benefit Systems Control in the UI Tech & Data Control unit. She originally started with the agency in 1992 as a claims examiner at the Michigan Employment Security Commission (MESC) office in Flint. From there, she moved to the Lapeer office as a claims examiner, and later conducted adjudication hearings at the Center for Learning & Development. In 2002, Easton joined the Employer Filed Claims (EFC) program as an analyst and made presentations to employers and union representatives about the newly created EFC unit. She became a manager at the Detroit RICC in 2003, and later that year began managing Benefit Systems Control. The Federal Programs & Procedures area includes the Procedures, Combined Wage Claim and Trade Readjustment Allowances programs.

Sue Easton now manages UIA's Federal Programs & Procedures area.

Sue holds an associate's degree in industrial chemistry from Ferris State University.

She succeeds Margaret Westerman who retired in 2007.

Yukima Everett began her career in state government in the early 1980s when she joined the MESC as a fraud investigator, following a two-year stint as a patrol officer with the Detroit Police Department. Later, she became a regulation agent, and then a senior regulation agent.

Yukima Everett oversees UIA programs that ensure quality control over ben efit payments.

She has handled internal investigations, and also worked on a special project that allowed fraud investigators in the field auditors to work from their homes, instead of from an office.

Yukima was a team manager at the Detroit RICC, as well as manager of the Benefit Accuracy Measurement Unit (BAM). Most recently she was the acting manager of Federal Programs & Procedures.

As manager of Quality Assurance, Yukima will oversee the BAM, Benefit Overpayments Control and Benefit Overpayment Collection programs.

She takes over from Connie Luckett, who retired earlier this year.

A graduate of the University of Detroit Mercy, Yukima has a bachelor's degree in criminal justice. She also has a master's degree in counseling from Ashland Theological Seminary, and is a licensed counselor, working with couples. In addition, she is a minister at the Ec'Esia Christian Ministries.

A career civil servant, **Debbie Lychack** worked for the Connecticut Department of Labor before joining Michigan's Department of Career Development 10 years ago. While in Connecticut, she worked as a UI claims examiner and as a bench office supervisor. She then began working on the America's Talent Bank project for which Michigan had the funding. Once the project ended, Lychack was transferred with the other State of Michigan to work on the state's Talent Bank project. At Career Development, she was initially a departmental analyst. She then became a business analyst with the technology group, and also served as a liaison with Michigan Works! Agencies. Prior to accepting her new post, Debbie was a project manager with the Department of Information Technology.

At the UIA, Debbie will serve as the project manager for employer website portal project that won state and national honors.

As UIA project manager, Debbie will provide management oversight for various UIA projects, including the agency's Employer Rewrite Project. She follows former project manager Clay Tiernay, who recently became director of Management Services.

Debbie Lychack is the new UIA project manager. She reports to Shaun Thomas, Director of Benefit Services.

Debbie holds a bachelor's degree in public administration from Central Connecticut State University and has a certificate in project management from the Project Management Institute.

A State of Michigan employee for the past 22 years, **Sheila Murff** started her career as a secretary with the Michigan Council for the Arts. She later moved to the Commission on Arts in Public Places as an office manager. In 1989, she joined MESC's Data Processing area to help resolve software and hardware acquisition issues.

She later became chief of procurement, before relocating to Benefit Services, where she dealt with purchasing, budgeting and special projects. Her job was then moved to Central Support within the Office of Management Services, and she handled purchasing, inventory telecommunications, copiers and computers for the agency.

UIA's Central Support provides budgeting, purchasing, telecommunications and special project support to agency operations and new initiatives. Anita Friday formerly held the post until recently being named director of External Benefit Services.

A native of Hawaii, Sheila attended the University of Hawaii and earned a bachelor's degree from William Tyndale College in Farmington Hills. She holds an associate's degree in computer and data processing from Wayne County Community College.

Welcome Back to UIA!

The Unemployment Insurance Agency welcomes the return of Debra Hill to UIA. Effective October 6, 2008, Debra began working in the Central Support unit at UIA's Management Services. Debra will continue to be responsible for designing UIA forms and ensuring that the forms meet the agency's business needs. By working in UIA's Central Support unit, Debra will work more directly with the analysts and supervisors in the benefit and tax areas of UIA, while becoming more acquainted with the UI program. The benefit and tax areas in UIA will benefit by having this critical function located in the agency. Overall, the department will realize efficiencies by maximizing our resources to better serve our internal and external customers. Debra worked for UIA prior to moving to DLEG's Office of Media Technology.

It's "Hammer Time" for Two at the Lansing PRO

by Norm Ivoska, Communications Specialist, DLEG

Cindy Curtis and Melinda McCullough answered the call for help when ABC-TV's popular show, "Extreme Makeover Home Edition" sought volunteers for a home makeover project in the Lansing-area town of Holt.

The television show, with its cast of designers, local contractors and volunteers, broadcasts home makeovers that are completed within a week for deserving families from across the country that require a helping hand.

In this case, the ABC show chose a Holt family because the father, who was a nurse at a local hospital, contracted Hepatitis C seven years ago and died from the disease in January 2008, a month after his wife was laid off from her job. With no husband and father, no job, a house that had fallen into disrepair, and three young sons, the family needed help.

Cindy and Melinda, along with 2,000 other individuals from the area, volunteered to work on the project. The two Lansing PRO staffers said they saw a story in the newspaper about the project, and responded to an e-mail address for those who wanted to lend a hand.

The week-long project began on Sunday, September 28, with the demolition of the existing home and the pouring of cement for the foundation of the new home. On Monday the 29th, the walls went up, trusses were set, and work continued until Friday, October 3, when the family received the keys to their brand new 3,300 square foot, four-bedroom home.

Cindy worked on the project from 5:00 a.m. to noon on Monday, September 29. She checked in volunteers, contractors, vendors and media representatives.

"I got to make runs to the actual location and, in the seven hours I spent volunteering, built it from the basement foundation to setting the rafters," Cindy said. "It was amazing!"

Melinda worked the Monday afternoon shift from noon to 6:00 p.m., and ready to start the construction crew with coffee and cold liquids. She also helped with the clean-up, and watched the VIP tent to ensure that spectators didn't wander in.

Both women were glad to be part of the project.

Melinda McCullough (left) and Cindy Curtis, LIAs at the Lansing PRO, didn't swing a hammer when they volunteered for the "Extreme Makeover Home Edition" project in Holt, but they did get really cool T-shirts.

"What moved me to become part of the project was the opportunity to help a family that was right here in the community," Melinda said. "It's an awesome feeling knowing that I am giving back to a great project."

Cindy said, "The whole experience was very rewarding, and I felt honored to be part of it. Everyone was there to help that family. The volunteers, contractors and everyone involved were very friendly and excited to be a part of it."

Cindy also had a chance to watch some of the show being filmed and reported that she saw hosts and designers Ty Pennington and Ed Sanders are as cute in person as they are on TV. The "Extreme Makeover: Home Edition" show about the Holt project is expected to air in November.

ATTENTION UIA EMPLOYEES!!

This is just a reminder that you are invited to submit your personal stories to the UIA Buzzzz. These stories should highlight the educational accomplishments, volunteer activity, community involvement and other noteworthy events of UIA employees, as well as those of their immediate family members which would include spouses, children and grandchildren. We look forward to helping you acknowledge and celebrate the special events in your life.

The other biweekly issue of the Buzzzz will feature agency-related activities and information, such as new work processes, special projects, announcements or accomplishments, as well as employee retirements. You are encouraged to submit articles for both editions. You may forward your stories and suggestions to me at McCollaPamela@michigan.gov.

Please accept this invitation to make a personal contribution toward the Buzzzz, as we work toward maintaining it as your biweekly source for agency **and employee** news and events.

Share the Gift of Giving

by Dorothy Holmes, Departmental Analyst, Central Support

Michigan Harvest Gathering - "Give Your Old Books A New Home"

Michigan Harvest Gathering is an annual event during which food and funds are raised to support the state's nine regional food banks. The regional food banks serve pantries such as food pantries, soup kitchens and shelters in all 83 Michigan counties. Food and funds collected during the campaign are used to keep the food banks' shelves stocked and to assist in the high transportation costs incurred in moving food around the state.

Each year, one in ten people in Michigan rely on the food bank network for emergency food assistance. 38% are children and 14% are senior citizens, both of which are the most vulnerable groups in our state. For every dollar you give, $14 worth of food can be purchased by our regional food banks.

All Unemployment Insurance Agency employees are invited and encouraged to participate in the Michigan Harvest Gathering for 2008. This year, UIA employees are determined to raise record-level contributions. To help with this effort, the Office of Central Support will be sponsoring a special event – a book exchange, entitled "Give Your Old Books A New Home," on Thursday, October 30. You can play an important part in increasing this year's contributions to the food drive by donating new and/or gently used books for all ages. The books collected will be given away to employees who donate non-perishable canned and boxed food items.

The 2008 Harvest Gathering runs from October 13 until the 24th. If you are unable to participate in the book exchange, please consider increasing your pledge from last year if you are not currently participating in the campaign; please consider a pledge of as little as $1 or $2 a week. Every dollar makes a difference, and using payroll deduction as your payment method makes it easy.

All donations for books and non-perishable canned and boxed food items can be dropped off in the Office of Central Support, Cadillac Place, Suite 12-300. Please check all expiration dates on the packages before making your food donations. Envelopes for mailing monetary donations will be provided to all agency employees. Also, monetary donations can be made online by visiting the Michigan Food Bank website at http://www.feedmichigan.org/site/PageServer?pagename=homepage

If you have questions, please contact Dorothy Holmes, UIA Coordinator for the 2008 Michigan Harvest campaign, at 313-456-2526.

A Word on the Professional Development Fund (PDF)

Did you know that educational assistance is available for managerial, supervisory, confidential and Non-Exclusively Represented Employees (NERs)?

The Professional Development Fund (PDF) was established to provide an opportunity for employees to obtain partial reimbursement for educational courses that is not available through state-offered training or department funding sources. It is funded in accordance with the coordinated compensation plan approved by the Civil Service Commission.

Main points of the program are:

* Both college course credits and non-degree programs, such as professional seminars, conferences and continuing education credits are eligible.
* The PDF will reimburse 50 % of eligible expenses. Application for reimbursement must be made within 35 work ing days after you complete the course, and before the close of the fiscal year in which the course ended.
* The reimbursement per fiscal year is $1,200. The PDF will reimburse for items such as tuition, books and laboratory fees.
* The minimum eligible expenses will be $50, resulting in a minimum reimbursement of $25 (50% of eligible expenses).
* Reimbursement will be made for only one degree at a level. If you have been reimbursed for classes towards one degree, you will not be eligible for a second degree at that level.
* Reimbursement will only be made for courses which result in a grade of C (2.0) or higher at the undergraduate level, and B (3.0) or higher at the graduate level.
* To qualify for PDF reimbursement, you must first comply with our department/agency's policy on tuition reimbursement. Because the department does not provide tuition reimbursement, a denial letter will be issued, upon request, from the Center for Learning and Development, after you submit a copy of your class registration, tuition costs and grades.

For additional information on the Professional Development Fund, go to the website www.michigan.gov/cld. You can also contact the Center for Learning and Development at (313) 456-2473 or 2475.

October 2008 – UIA CHARITY of the Month

ORPHAN FOUNDATION of AMERICA
Helping parenteless teens since 1981

Founded in 1981, the Orphan Foundation of America (OFA) serves thousands of foster teens across the United States. Whether providing them with college scholarships, connecting them with mentors and internships, sending them care packages, or testifying before Congress, OFA is a passionate champion of foster youth.

Each year 25,000 young people "age out" of the foster care system. OFA is committed with their partners and sponsors to help foster teens become tomorrow's productive good citizens. They are working to maximize support for their post-secondary education goals and mobilize the community to assist in this effort.

OFA is a special place in the hearts of many. Their scholars, alumni, donors, volunteers and youth care workers recognize the uniqueness of its work and think of it as a place where they belong.

OFA Programs support services in these areas:

* Administering scholarships for college and post-secondary education.
* Overseeing Education and Training Vouchers (ETV) funds in nine states across the U.S.
* Providing a Virtual Mentoring program, linking students with experienced adults through a state-of the art internet system to help them succeed.

*Connecting students with internships to give them valuable workplace experience in business, government, and various agency settings.

* Sending out care packages, three times a year, to boost student morale and give them a sense of family-like support.
* The Red Scarf Fund for Foster Youth supports their general programs and provides for the emergency needs of their students, such as housing, medical bills, transportation, etc.

.....from the UIA Mail Bag

This message was sent to Brenda Rose, a department technician in the Wage Record Unit of External Benefit Services, from an employer who contacted her for the Extreme Makeover Home Edition" project in Holt, but they did get really cool T-shirts.

Your help today is greatly appreciated. It was a pleasure dealing with you, and you quickly got my fears to rest. You have excellent customer service skills, and I hope that you are recognized for this.

Tammy Sphonkoski, a UI Lie in the Saginaw RICC, shared this positive feedback:

I had a claimant on the phone who was so grateful for me taking the time to help him understand how unemployment works. He commended me for being so caring, and he wanted me to transfer the call to my manager so he could make sure that he knew how appreciated he was for the time and help that I gave him.

If you, or one of your co-workers, received a phone call, email message or letter of praise for your exceptional efforts as an individual or work unit, or positive feedback about the agency, please forward it to the Buzzzz editor, Pamela McColla at McCollaPamelaC@michigan.gov. Let's spread the word about the great work that

Tel: 323-278-1900
Fax: 323-278-1268

SECTION 2: HAZARDOUS COMPONENTS

COMPONENTS	%WEIGHT	TLV	LD50 ORAL	LC50 INHALATION	LC50 CONTACT
Lead (Pb, PbO2, $PbSO_4$)	About 70%	N/A	(500) mg/Kg	N/A	N/A
Sulfuric Acid	About 20%	1 mg/m3	(2.140) mg/Kg	N/A	N/A
Fiberglass Separator	About 5%	N/A	N/A	N/A	N/A
ABS or PP	About 5%	N/A	N/A	N/A	N/A

SECTION 3: PHYSICAL DATA

COMPONENTS	DENSITY	MELTING POINT	SOLLUBILITY (H_2O)	ODOR	APPEARANCE
Lead	11.34	327.4°C (Boiling)	None	None	Sliver-Gray Metal
Lead Sulfate	6.2	1070°C (Boiling)	40 mg/l (15°C)	None	White Powder
Lead Dioxide	9.4	290°C (Boiling)	None	None	Brown Powder
Sulfuric Acid	About 1.3	About 114°C (Boiling)	100%	Acidic	Clear Colorless Liquid
Fiberglass Sep.	N/A	N/A	SLIGHT	TOXIC	WHITE FIBROUS GLASS
ABS or PP	N/A	N/A	NONE	NO ODOR	SOLID

SECTION 4: PROTECTION

EXPOSURE	PROTECTION	COMMENTS
SKIN	Rubber gloves, Apron, Safety shoes	Protective equipment must be worn if battery is cracked or otherwise damaged.
RESPIRATORY	Respirator (for lead)	A respirator should be worn during reclaim operations if the TLV exceeded.
EYES	Safety goggles, Face Shield	

SECTION 5: FLAMMABILITY DATA

COMPONENTS	FLASHPOINT	EXPLOSIVE LIMITS	COMMENTS
Lead	None	None	
Sulfuric Acid	None	None	
Hydrogen	259℃	4% - 74.2%	Batteries can emit hydrogen only if over charged (float voltage> 2.4 VPC). The gas enters the air through the vent caps. To avoid the chance of a fire or explosion, keep sparks and other sources of ignition away from the battery. Extinguishing Media: Dry chemical, foam, CO_2
Fiberglass Sep.	N/A	N/A	Toxic vapors may be released. In case of fire: wear self-contained breathing apparatus.
478 Polystyrene	None	N/A	Temperatures over 300 °C (572°F) may release combustible gases. In case of fire: wear positive pressure self-contained breathing apparatus.

SECTION 6: REACTIVITY DATA

COMPONENT	Lead/lead compounds
STABILITY	Stable
INCOMPATIBILITY	Potassium, carbides, sulfides, peroxides, phosphorus, sulfurs.
DECOMPOSITION PRODUCTS	Oxides of lead and sulfur.
CONDITIONS TO AVOID	High temperature, Sparks and other sources of ignition.
COMPONENT	Sulfuric Acid
STABILITY	Stable at all temperatures
POLYMERIZATION	Will not polymerize
INCOMPATIBILITY	Reactive metals, strong bases, most organic compounds
DECOMPOSITION PRODUCTS	Sulfuric dioxide, trioxide, hydrogen sulfide, hydrogen
CONDITIONS TO AVOID	Prohibit smoking, sparks, etc. from battery charging area. Avoid mixing acid with other chemicals.

SECTION 7: CONTROL MEASURES

1. Store lead/acid batteries with adequate ventilation. Room ventilation is required for batteries utilized for standby power generation. Never recharge batteries in an unventilated, enclosed space.
2. Do not remove vent caps. Follow shipping and handling instructions that are applicable to the battery type. To avoid damage to terminals and seals, do not double-stack industrial batteries.

STEPS TO TAKE IN CASE OF LEAKS OR SPILLS

If sulfuric acid is spilled from a battery, neutralize the acid with sodium bicarbonate (baking soda), sodium carbon (soda ash), or calcium oxide (lime).

Flush the area with water discard to the sewage systems. Do not allow unneutralized acid into the sewage system.

WASTE DISPOSAL METHOD:

Neutralized acid may be flushed down the sewer. Spent batteries must be treated as hazardous waste and disposed of according to local state, and federal regulations. A copy of this material safety data must be supplied to any scrap dealer or secondary smelter with battery.

ELECTRICAL SAFETY

Due to the battery's low internal resistance and high power density. High levels of short circuit can be developed across the battery terminals. Do not rest tools or cables on the battery. Use insulated tools only.

Follow all installation instruction and diagrams when installing or maintaining battery systems.

SECTION 8: HEALTH HAZARD DATA

LEAD: The toxic effects of lead are accumulative and slow to appear. It affects the kidneys, reproductive, and central nervous system.

The symptoms of lead overexposure are anemia, vomiting, headache, stomach pain (lead colic), dizziness, loss of appetite, and muscle and joint pain. Exposure to lead from a battery most often occurs during lead reclaim operations through the breathing or ingestion of lead dusts and fumes.

THIS DATA MUST BE PASSED TO ANY SCRAP OR SMELTER WHEN A BATTERY IS RESOLD.

SULFURIC ACID: Sulfuric acid is a strong corrosive. Contact with acid can cause severe burns on the skin and in the eyes. Ingestion of sulfuric acid will cause GI tract burns. Acid can be release if the battery case is damaged or if the vents are tampered with.

FIBERGLASS SEPARATOR: Fibrous glass is an irritant of the upper respiratory tract, skin and eyes. For exposure up to 10F/CC use MSA Comfort with type H filter. Above 10F/CC up to 50F/CC use Ultra-Twin with type H filter.

NTP or OSHA does not consider this product carcinogenic.

SECTION 9: SULFURIC ACID PRECAUTIONS

INHALATION: Acid mist form formation process may cause respiratory irritation, remove from exposure and apply oxygen if breathing is difficult.

SKIN CONTACT: Acid may cause irritation, burns or ulceration. Flush with plenty of soap and water, remove contaminated clothing, and see physician if contact area is large or if blisters form.

EYE CONTACT: Acid may cause severe irritation, burns, cornea damage and blindness. Call physician immediately and flush with water until physician arrives.

INGESTION: Acid may cause irritation of mouth, throat, esophagus and stomach. Call physician. If patient is conscious, flush mouth with water, have the patient drink milk or sodium bicarbonate solution.

DO NOT GIVE ANYTHING TO AN UNCONSCIOUS PERSON.

SECTION 10: TRANSPORTATION REGULATIONS

We hereby certify that all B.B. Valve Regulated Lead-acid Rechargeable batteries conform to the UN2800 classification as " Batteries, wet, Non-Spillable, and electric storage" as a result of passing the Vibration and Pressure Differential Test described in D.O.T., 49 CFR 173.159(d), and IMO/IMDG, and ICAO/IATA packing instruction 806 and note A67.

B.B. Batteries having met the related conditions are EXEMPT from hazardous goods regulations for the purpose of transportation by DOT, and IATA/ICAO, and therefore are unrestricted for transportation by any means. For all modes of transportation, each battery outer package is labeled "NON-SPILLABLE". All our Batteries are marked non-spillable.

Section 313 (40 CFR 372) Listed Toxic Chemicals are Preceded by an*

SECTION 3: HAZARDOUS IDENTIFICATION

Appearance and Odor : Acid is a clear to cloudy liquid. Lead is metallic gray in color. Formed lead dioxide is a dark brown in color with a slight acidic odor. Routes of entry: Sulfuric Acid: Inhalation, skin, ingestion. Lead: Inhalation and Ingestion. Ingestion of lead occurs by hand to mouth contamination. After handling lead or its compounds, hands must be	Health Hazards (Acute & Chronic) Acute : Sulfuric acid exposure may cause irritation of the skin, corneal damage of the eyes, irritation of the mucous membranes and upper respiratory system, including the lungs. Acute lead exposure may cause GI upset, of appetite, diarrhea, constipation, fatigue, joint pain, and difficulty sleeping. Chronic : Exposure to lead may cause anemia, kidney damage and damage to the central nervous and reproductive systems.

washed prior to eating or drinking. Metallic lead cannot be absorbed through the skin.	Lead exposure may also affect developing fetuses in pregnant women. Chronic exposure to sulfuric acid may cause scarring of skin and mucous membranes, bronchitis, contact dermatitis, and erosion of tooth enamel. Rating Codes: 0= Insignificant, 1= Slight, 2= Moderate, 3= High, 4= Extreme
HMIS label rating for sulfuric acid: 3 0 2 X X = acid Hazardous Material Information System NFPA label rating for sulfuric acid: 2 0 1 X X = acid National Fire Protection Agency	
HMIS and NFPA Hazard labels are used to identify the battery(s) dilute 1.300sg sulfuric acid. The first number represents the Health hazard, second number represents Fire hazard, and the third number represents the Reactivity hazard. The fourth space identifies the hazardous material, which is acid and/or typical recommended personal protective equipment, i.e., safety glasses, rubber or neoprene gloves etc.	
California Proposition 65 Warning – Battery posts, lead and lead compounds, chemicals known to the reproductive harm. Batteries also contain other chemicals cause cancer. Wash hands after handling.	

SECTION 4 : FIRST AID PROCEDURES – Sulfuric Acid

Skin/Eyes	Ingestion/Inhalation
- Flush the affected area with water for 15 minutes - Remove contaminated clothing - If irritation continues, seek medical attention	- Do not induce vomiting - Drink 8 oz. of water or milk - If difficulty in breathing occurs, remove to fresh air, give CPR if necessary - Seek medical attention immediately

SECTION 5 : FIREFIGHTING MEASURES

FIRE AND EXPLOSIVE PROPERTIES:
Hydrogen Flash point: -259°C Hydrogen Autoignition point: 580°C
Hydrogen Flammable Limits in Air (% by Volume): LEL: 4.1 UEL: 74.2
Lower Explosion Limit (LEL), Upper Explosion Limit (UEL)
Unusual Fire and Explosion Hazards: Hydrogen and Oxygen gases are produced in

cells during normal battery operation. Ventilate Area.
Extinguishing Media: Dry Chemical, Foam or CO2
Special Firefighter Procedures: Use Positive Pressure, self-contained breathing apparatus.

SECTION 6 : ACCIDENTAL RELEASE MEASURES

STEPS TO BE TAKEN IF BATTERY IS BROKEN:
Neutralize exposed battery parts with soda ash or sodium bicarbonate until fizzing stops, pH should be at neutral 6-8. Provide adequate ventilation. Heat, carbon dioxide and hydrogen gas may be given off during neutralization. Collect residue in a suitable container. Place the broken battery in a heavy-duty plastic bag or other non-metallic container. Properly recycle all battery residue and parts.

SECTION 7 : HANDLING AND STORAGE

Store in a cool; dry area away from combustibles. Do not store in sealed, unventilated areas. Avoid overheating and overcharging. Do not use organic solvents or other than manufactures recommended cleaners on the batteries.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering Controls: General room ventilation is sufficient during normal use and handling. Do not install these batteries in a sealed, unventilated area.
PERSONAL PROTECTIVE EQUIPMENT (DURING INSTALLATION OR IN THE EVENT OF BATTERY BREAKAGE)
Eye Protection = Chemical goggles, safety glasses with sideshields and or a full-face shield.
Protective gloves = Rubber or neoprene
Respiratory Protection = NIOSH approved acid mist/organic vapor respirator, if OSHA PEL is exceeded.
Other Protective Equipment = Acid resistant apron or clothes.
WORK PRACTICES: Use standard lead-acid battery practices. Do not wear metallic jewelry when working with batteries. Use non-conductive tools only. Discharge static electricity prior to working on a battery. Maintain eyewash, fire extinguisher and emergency communication device in the work area.

SECTION 9 : PHYSICAL AND CHEMICAL PROPERTIES

ACID : Boiling Point: 110°C to 112°C Vapor Vapor Density: (Air=1) 3.4 Melting point: N/A
Pressure: 13.8 mm Hg @ 25°C Solubility in water: N/A
Specific Gravity 1.300 +/- 0.030
Appearance/Odor: clear to cloudy with slightly acidic odor

SECTION 10 : STABILITY AND REACTIVITY

STABILITY: This battery and contents are stable.
Conditions to avoid: Overheating, overcharging which results in acid mist/Hydrogen generation.
Incompatibility (materials to avoid): Strong alkaline materials, conductive metals, organic solvents, sparks or open flame.
Hazardous Byproducts: Hydrogen gas may be generated in an overcharged condition, in fire or at very high temperatures. In fire, may emit CO, CO2 and Sulfur Oxides.
Hazardous polymerization will not occur

SECTION 11 : TOXICOLOGICAL INFORMATION – SULFURIC ACID

The CSB VRLA batteries are a sealed, recombinant design that require no water replacement throughout their service life, thus no contact is made with the battery's internal components or chemical hazards. Under normal use and handling, these batteries do not emit regulated or hazardous substances.

	Administration Route	Dose	Test Animal
LD 50	Oral	2140 mg/kg	Rat
LDLo	Unreported	135 mg/kg	Man
LC50	Inhalation	510 mg/m3	Rat

Carcinogenicity : The International Agency on Cancer (IARCC) has classified "strong inorganic acid mists containing sulfuric acid" as a category 1 carcinogen (inhalation), a substance that is carcinogenic to humans. This classification does not apply to the liquid forms of sulfuric acid contained within the battery. Misuse of the product, such as overcharging, may result in the generation of sulfuric acid mist at high levels.

SECTION 12: DISPOSAL CONSIDERATIONS

Waste Disposal Method : Send to lead smelter for reclamation following applicable Federal, State and Local regulations. Product can be recycled along with automotive (SLI) lead-acid batteries.

SECTION 13: TRANSPORTATION AND INTERNATIONAL REGULATIONS

All CSB batteries, when transported by air, surface or by vessel are identified as "Battery, Electric Storage, Wet, Nonspillable, Not Regulated".
The battery(s) must be identified as above on the Bill of Lading and properly packaged with their terminals protected from short circuit. NA or UN numbers do not apply.
CSB battery(s) warning label identifies each battery as NONSPILLABLE.
CSB battery(s) preprinted cartons identifies each battery as NONSPILLABLE.

CSB battery(s) shipped without CSB cartons (bulk packed) need to be
Identified as NONSPILLABLE or NONSPILLABLE BATTERY on the outer packaging.
Air: CSB batteries meet the conditions in IATA/ICAO Special Provision A67.
Surface: CSB batteries meet the conditions for DOT Haz Mat Regulations
CFR-Tittle 49 parts 171-189.
Vessel: CSB Batteries meet the conditions of IMDG exception 238.

SECTION 14: REGULATORY INFORMATION

See 29 CFR 1910.268(b)(2)

SECTION 15: OTHER INFORMATION

The information herein is given is good faith, but no warranty, expressed or implied, is made.

MATERIAL SAFETY DATA SHEET

LC SEALED LEAD ACID BATTERY SERIES

Section I: Chemical Product and Company Identification

Product Identity: Sealed Lead Acid Battery

Trade Name: Panasonic LC Valve Regulated Lead Acid Battery Series

Distributor:
Panasonic Industrial Company - Battery Sales Group
Two Panasonic Way/7A-1, Secaucus, New Jersey 07094

Manufacturer:
Matsushita Battery Industrial
Osaka, 570, Japan

For Chemical Emergency
Spill, Leak, Fire, Exposure or Accident
Call CHEMTREC – Day or Night - 24 hours
1-800-424-9300
Outside the USA: 1-703-527-3887 (collect)

Telephone Number for General Information
Toll Free 1-800-793-3772
Internet: www.panasonic.com/batteries

Section II: Hazardous Ingredients / Identity Information

Component	Common Name	Chemical Name	Approximate % by wt. or vol.	OSHA PEL	ACGIH TLV	CAS#
Lead	(Negative Electrode and Grid)	Pb	48~53 wt%	0.05 mg/m^3	0.15 mg/m^3	7439-92-1
Lead Oxide	(Positive Electrode)	PbO_2	23~26%	0.05 mg/m^3	0.15 mg/m^3	1309-60-0
Lead Sulfate	(Positive and Negative Electrode)	$PbSO_4$	< 1. wt%	0.05 mg/m^3	0.15 mg/m^3	7446-14-2
Sulfuric Acid	(Electrolyte)	H_2SO_4	7~10 wt%	1.0 mg/m^3	1.0 mg/m^3	7664-93-9

Percentages of components are dependant both on the model of the battery and state of charge/discharge of the battery. Sulfuric Acid is reportable under Sections 302, 311, 312 and 313 of the Emergency Planning and Community Right-to-Know Act of 1986 (EPCRA). Reportable Quantity: 500 lbs for sulfuric acid and 10,000 lbs for lead. See Section XII, Page 3 for more information.

Overall Chemical Reaction: $PbO2 + Pb + 2H_2SO_4 \rightleftharpoons 2PbSO_4 + 2H_2O$

Note: Panasonic Sealed Lead Acid batteries are a sealed, non-spillable design. Under normal use and handling the customer has no contact with the internal components of the battery or the chemical hazards. Under normal use and handling these batteries do not emit regulated or hazardous substances. Warning: Battery terminals/posts and related accessories contain lead and lead compounds, chemicals known to the State of California to cause cancer and reproductive harm. Wash hands thoroughly after working with batteries and before eating, drinking or smoking.

Section III: Physical / Chemical Characteristics

Boiling Point:	Electrolyte 110°C - 112°C
Vapor Pressure:	Electrolyte 11.7 mm Hg. at 20°C
Vapor Density (AIR = 1):	Electrolyte 3.4
Solubility in Water:	Lead, Lead Oxide and Lead Sulfate are insoluble in water. Sulfuric Acid is 100% soluble in water.
Appearance and Odor:	The entire battery is a solid article consisting of an opaque plastic case with two protruding lead terminals. The battery is odorless. Sulfuric Acid is a liquid.
Specific Gravity (H2O = 1)	Electrolyte 1.300

Health Hazard Information (Acute and Chronic) - Sulfuric Acid only.

The International Agency for Research on Cancer (IARC) has classified "strong inorganic acid mist containing sulfuric acid" as a Category I carcinogen, a substance that is carcinogenic to humans. This classification does not apply to liquid forms of sulfuric acid or sulfuric acid solutions contained within the battery. Inorganic acid mist (sulfuric acid mist) is not generated under normal use of this product. Misuse of the product, such as overcharging, may however result in the generation of sulfuric acid mist.

Routes of Entry:	By inhalation (mist), skin and eyes, ingestion.
Acute:	Tissue destruction on contact. May cause 2nd and 3rd degree burns or blindness. Ingestion will cause corrosive burns on contact. May be fatal if swallowed.
Chronic:	Inhalation of mists may cause upper respiratory irritation.
Signs and Symptoms:	Irritation and burning of exposed tissues.
Medical Conditions:	Respiratory disorders may be aggravated by prolonged inhalation of mists.

Section IV: Emergency and First Aid Procedures

Battery Electrolyte

Inhalation: Remove to fresh air. Give oxygen or artificial respiration if needed. **Get immediate medical attention.**

Eye Contact: Flush with plenty of water for at least 15 minutes. **Get immediate medical attention.**

Skin Contact: Remove contaminated clothing and flush affected areas with plenty of water for at least 15 minutes.

Ingestion: Do not induce vomiting. Dilute by giving large quantities of water. If available give several glasses of milk. Do not give anything by mouth to an unconscious person. **Give CPR if breathing has stopped. Get immediate medical attention.**

Section V: Fire and Explosion Hazard Data

Flash Point: Not Applicable

Flammable Limits: Lower 4.10% (Hydrogen gas) Upper 74.20%

Extinguishing Media: Dry chemical, foam, halon or CO_2.

Special Fire Fighting Procedures:
If batteries are on charge, turn off power. Use positive pressure, self-contained breathing apparatus in fighting fire. Water applied to electrolyte generates heat and causes it to splatter. Wear acid resistant clothing. Ventilate area well.

Unusual Fire and Explosion Hazards:
Hydrogen and oxygen gases are generated in cells during normal battery operation or when on charge. (Hydrogen is flammable and oxygen supports combustion). These gases enter the air through the vent caps during battery overcharging. To avoid risk of fire or explosion, keep sparks and other sources of ignition away from the battery. Do not allow metal objects to simultaneously contact both positive and negative terminal of batteries. Ventilate area well.

Section VI: Reactivity Data

Stability: Stable under normal conditions.

Conditions to Avoid: Sparks and other sources of ignition. Prolonged overcharge. Fire or explosion hazard due to possible hydrogen gas generation.

Incompatibility:
Combination of sulfuric acid with combustibles and organic materials may cause fire and explosion. Avoid strong reducing agents, most metals, carbides, chlorates, nitrates, picrate.

Hazardous Decomposition Products: Hydrogen gas may be generated in an overcharged condition, in fire or at very high temperatures. CO, CO_2 and sulfur oxides may emit in fire.
Hazardous polymerization will not occur.

Section VII: Precautions for Safe Handling and Use

Steps to be Taken in Case of Broken Battery Case or Electrolyte Leakage:
Neutralize any electrolyte or exposed internal battery parts with soda ash (sodium bicarbonate) until fizzing stops. Keep untrained personnel away from electrolyte and broken battery. Place broken battery and clean-up materials in a plastic bag or non-metallic container. Dispose of clean-up materials as a hazardous waste. Ventilate area as hydrogen gas may be given off during neutralization.

Waste Disposal Method:
Federal and State laws prohibit the improper disposal of all lead acid batteries. The battery end users (owners) are responsible for their batteries from the date of purchase through their ultimate disposal. The only legally acceptable method of disposal of lead acid batteries is to recycle them at a Resource Conservation and Recovery Act (RCRA) approved secondary lead smelter. The Panasonic SAV-LEAD Recycling Program allows for the recycling of lead-acid batteries in an environmentally sound manner. For more information on the SAV-LEAD Recycling Program call toll-free, 1-800-SAV-LEAD (1800-728-5323). These batteries are chemically identical to common automotive starter batteries and can be recycled with automotive lead-acid batteries.
HAZARDOUS WASTE CODES: D002, D008.

Precautions to be Taken in Handling, Storing and Transportation:
Store in cool, dry area away from combustible materials. Do not store in sealed, unventilated areas. Avoid overheating and overcharging.

Other Precautions:
Do not charge in unventilated areas. Do not use organic solvents or other than recommended chemical cleaners on battery.

Section VIII: Control Measures / Personal Protection

General:
Normal room ventilation is sufficient during normal use and handling. Recommend 2 to 3 room air changes per hour to prevent buildup of hydrogen gas.
Personal Protective Equipment (In the Event of Battery Case Breakage):
Always wear safety glasses with side shields or full face shield.
Use rubber or neoprene gloves.
Wear acid resistant boots, apron or clothing.
Work/Hygienic Practices:
Remove jewelry, rings, watches and any other metallic objects while working on batteries. All tools should be adequately insulated to avoid the possibility of shorting connections. DO NOT lay tools on top of battery. Be sure to discharge static electricity from tools and individual person by touching a grounded surface in the vicinity of the batteries, but away from cells. Batteries are heavy. Serious injury can result from improper lifting or installation. DO NOT lift, carry, install or remove cells by lifting or pulling the terminal posts for safety reasons and because terminal posts and post seals may be damaged. DO NOT wear nylon clothes or overalls as they can create static electricity. DO KEEP a fire extinguisher and emergency communications device in the work area.
IMPORTANT:
Wash hands thoroughly after working with batteries and before eating, drinking or smoking.

Section IX: Regulatory Information

NFPA Hazard Rating for Sulfuric Acid:
Flammability (Red) = 0 Health (Blue) = 3 Reactivity (Yellow) = 2

Section X: Transportation Information

Identification and Proper Shipping Name:
Batteries – Wet, Non-Spillable, Electric Storage, UN 2800.
DOT - Unregulated, meets the requirements of 49 CFR 173, 159 (d).
IATA/ICAO - Unregulated, meets the requirements of Special Provision A67.
IMO - Unregulated.
***For all modes of transportation, each battery and outer package must be labeled: "Non-Spillable" or "Non-Spillable Battery." This label must be visible during transportation. * Batteries must be securely packed to prevent short-circuiting.**

Section XI: California Proposition 65 Information

The State of California has determined that certain battery terminals contain lead and lead compounds, *and handling this product may also expose you to sulfuric acid mist*, chemicals known to the State of California to cause cancer and reproductive harm. IMPORTANT: WASH HANDS THOROUGHLY AFTER WORKING WITH BATTERIES AND BEFORE EATING, DRINKING OR SMOKING.

Section XII: Other Information - Notice to Readers

General Product Description – LC VRLA Batteries
Panasonic LC Batteries are **sealed** (valve regulated) non-spillable lead-acid batteries with pasted lead-calcium plates. The electrolyte is held captive in an Absorbed Glass Mat (AGM) separator between plates that immobilize the electrolyte in the cell. AGM separator material is a highly porous, absorbent micro fiberglass mat mixed with polymer fibers. There is no "free" electrolyte to leak out if the cell is tipped over (cell case and cover are sealed together) or if the cell is punctured. The AGM separator material immobilizes the electrolyte and creates a situation where the spill of electrolyte is highly unlikely. Typical accidents where a battery case is punctured results in a slight drip or a slow ooze of material out of the cell that cannot be characterized as a spill.

Panasonic LC VRLA batteries are also different from conventional **unsealed** (wet/flooded) cells because they contain only a minimum amount of electrolyte. VRLA battery electrolyte is a dilute mixture of sulfuric acid in water, which typically has a specific gravity between 1.270 and 1.3. Specific Gravity is a measure of the density of a liquid as compared to that of water, which has a specific gravity of 1.000. Pure sulfuric acid has a specific gravity of 1.835.

NOTE: Panasonic LC batteries do not contain a gel electrolyte.

General Product Description - LC VRLA Batteries (continued)

During normal battery installation, operation and maintenance, the user has NO contact with the internal components of the battery or its internal hazardous chemicals.

Panasonic LC batteries are UL recognized under the file number: Matsushita Electric Industrial Co. Ltd., Matsushita Electric Corp. of America, File #MH13723, 1 Panasonic Way, Secaucus, NJ 07094.

Supplemental Information on Panasonic Valve-Regulated Lead Acid Batteries

Transportation

All Panasonic valve-regulated lead acid batteries are considered "non-spillable" for purposes of transportation by the U.S. Department of Transportation (DOT), International Civil Aviation Administration (ICAO), the International Air Transport Association (IATA) and the International Maritime Dangerous Goods regulations (IMDG). They are considered "non-spillable" by DOT by passing the Vibration Test and Pressure Differential Test as required in 49 CFR 173.159(d). They are also considered to be "non-spillable" by both ICAO and IATA by exceeding the requirements of Special Provisions "A67" as defined in their 1998 Handbooks.

Our batteries are authorized for transportation on deck or under deck storage on either a passenger or cargo vessel by passing the Vibration and Pressure Differential Tests as described in the International Maritime Dangerous Goods Regulations (IMDG).

To transport these batteries as "non-spillable" they must be shipped in a condition that would protect them from short-circuits and be securely packaged so as to withstand conditions normal to transportation. For transportation by a consumer, in or out of a device, they are unregulated thus requiring no additional special handling or packaging.

All of our lead acid batteries and their outside packaging, manufactured after September 30, 1995 are labeled "NON-SPILLABLE" per 49 CFR 173.159(d). If you repackage our batteries either as batteries or as a component of another product you must label the outer package "NON-SPILLABLE" per 49 CFR 173.159(d).

Assure Proper Recycling!

Valve-Regulated Lead Acid batteries destined for recycling can be managed under the federal *Universal Waste Rule* codified at 40 CFR Part 273.

In the event of disposal, dispose only in accordance with federal, state and local regulation. Batteries generated as a waste are subject to the Resource Conservation and Recovery Act (RCRA) as a D008 (lead) hazardous waste.

Panasonic VRLA Recycling Program

The Panasonic 1-800-SAV-LEAD Recycling Program for the collection and recycling of valve-regulated lead acid batteries (VRLA) covers all Panasonic Valve-Regulated Lead Acid Batteries. The proper disposal of spent VRLA batteries is becoming more of a critical issue, both from the viewpoint of environmental stewardship and from compliance with federal and state environmental regulations. Panasonic recognizes the burdens and responsibilities that have been placed on our customers to properly dispose of spent VRLA batteries and is proud to offer this voluntary nationwide battery recycling program.

Federal and State Requirements for Proper Disposal

Federal and State laws prohibit the improper disposal of all lead acid batteries. The battery end users (owners) are responsible for their batteries from the date of purchase through their ultimate disposal. The only legally acceptable method of disposal of lead acid batteries is to recycle them at Resource Conservation and Recovery Act (RCRA) approved secondary lead smelter. This Panasonic 1-800-SAV-LEAD Recycling Program will allow for you to arrange for the recycling of your VRLA batteries from anywhere in the United States. The Program will accept Panasonic and other VRLA batteries regardless of manufacturer. Panasonic will handle all VRLA batteries returned in an environmentally sound manner designed to comply with all applicable Federal and State laws and regulations. Panasonic will send batteries only to fully-permitted secondary lead smelters that we believe meet the highest environmental standards. Once the VRLA batteries are received by Panasonic, the cost to transport the batteries to the secondary lead smelter and the actual recycling costs will be borne by Panasonic.

See the next page for How the 1-800-SAV-LEAD Recycling Program Works

Supplemental Information on Panasonic Valve-Regulated Lead Acid Batteries (Cont.)

How the 1-800-SAV-LEAD Recycling Program Works

1) We encourage all of our customers to serve as VRLA collection centers for your customers, thereby establishing a reverse distribution network between the end user and the secondary lead recycling facility.
2) All shipments to our national consolidation facility must be prepaid. No freight collect shipments will be accepted. All freight collect and non-VRLA batteries will be returned to the shipper.
3) Panasonic will maintain on file all necessary documentation for EPA reference. A copy will be provided upon request.
4) All batteries must be shipped, prepaid to Ebco Battery Company that serves as our national consolidation facility. (See *exception* below).

SHIPPING ADDRESS:
Ebco Battery Company
4017 Warm Springs Road
Columbus, Georgia 31909

5) Only VRLA batteries that meet the U.S. Department of Transportation (DOT) "NON-SPILLABLE" (49 CFR 173.159d) requirements will be accepted by this program.
6) Panasonic reserves the right to alter or discontinue this program at any time.

Packaging Requirements

1) All VRLA batteries must be fully discharged and packaged in a manner as to insure safe handling and conform to all applicable DOT regulations. (49 CFR 173.159d). A dab of silicon caulking or non-conductive tape on each terminal will ensure that no direct shorts occur during shipment.
2) VRLA battery shipments should be made in pallet quantities whenever possible.
3) Palletized shipments should be secured with metal bands or poly-wrapped with stack height limited to four (4) feet.
4) VRLA batteries shipped on pallets should be of uniform size or be stacked with the larger batteries on the bottom.
5) VRLA batteries should be stacked upright in a head-to-base arrangement. Each layer should be separated by cardboard to prevent accidental shorting.
6) Smaller quantities of VRLA batteries may be shipped via standard UPS. Be sure that each box does not exceed the UPS weight limit of 70 lbs. A dab of silicon caulking or non-conductive tape on each terminal will ensure that no shorts occur during shipment.
7) The outside of every pallet and individual box must be labeled "NON-SPILLABLE" as required by DOT regulations. This label must be visible during transportation.

Exception:

Full-Truck-Loads – All full-truck-load shipments of VRLA batteries must be scheduled 48 hours in advance. To schedule shipments to our consolidation site, please be sure to fax a scheduling request (including contact name and phone number) to Ebco Battery Company at fax: (706) 569-6774.

Consumer Users of Panasonic VRLA Batteries

All Panasonic VRLA batteries are chemically identical to common automotive starter batteries and can be returned to any site that accepts automotive lead acid batteries for recycling. Examples include retailers of automotive batteries, automotive service centers, scrap metal dealers, etc...

For additional information on this program or information on how to recycle other Panasonic batteries please call your local Panasonic Battery Sales Group sales office.

SECTION 2--- HAZARDOUS COMPONENTS

Components	%Wt.	TLV	LD50 Oral	LC50 Inhalation	LC50 Contact
Lead (Pb, PbO_2, $PbSO_4$)	About 70%	0.050mg/m^3	Š,(500) mg/Kg	N/A	N/A
Sulfuric Acid	About 20%	1 mg/m^3	(2.14) mg/Kg	N/A	N/A
Fiberglass Separator	About 5%	N/A	N/A	N/A	N/A
Container (ABS or PP)	About 5%	N/A	N/A	N/A	N/A

SECTION 3--- PHYSICAL DATA

Components	Density	Melting Point	Solubility (in H_2O)	Odor	Appearance
Lead	11.34	327.4°C	None	None	Silver-Gray Metal
Lead Sulfate	6.2	1170°C	40 mg/l (15°C)	None	White Powder
Lead Dioxide	9.4	290°C	None	None	Brown Powder
Sulfuric Acid	About 1.3(25˚C)	About 114°C (Boiling)	100%	Acidic	Clear Colorless Liquid
Fiberglass Separator	N/A	N/A	Slight	Toxic	White Fibrous Glass Membrane
Container (ABS or PP)	N/A	N/A	NONE	No Odor	Solid Plastics

SECTION 4---PROTECTION

Exposure	Protection	Comments
Skin	Rubber gloves, Apron, Safety shoes	Protective equipment must be worn if battery is cracked or otherwise damaged.
Respiratory	Respirator (for lead)	A respirator should be worn during reclaim operations if the TLV exceeded.
Eyes	Safety goggles, Face Shield	In the UK use of this material must be assessed under the COSHH regulations.

SECTION 5--- FIRST AID MEASURES

Emergency and First Aid Procedures	Contact with internal components if battery is opened/broken.
1. Inhalation	Remove to fresh air and provide medical oxygen/CPR if needed. Obtain medical attention.
2. Eyes	Immediately flush with water for at least 15 minutes, hold eyelids open. Obtain medical attention.
3. Skin	Flush contacted area with large amounts of water for at least 15 minutes. Remove contaminated clothing and obtain medical attention if necessary.
4. Ingestion	Do not induce vomiting. If conscious drink large amounts of water/milk. Obtain medical attention. Never give anything by mouth to an unconscious person.

SECTION6--- FLAMMABILITY DATA

Components	Flash Point	Explosive Limits	Comments
Lead	None	None	
Sulfuric Acid	None	None	
Hydrogen	259˚C	4%-74.2%	Emit hydrogen only if over charged (Voltage>2.4 VPC). To avoid the chance of a fire or explosion, keep sparks and other sources of ignition away from the battery. Extinguishing Media: Dry chemical, Foam, CO2
Fiberglass Separator	N/A	N/A	Toxic vapors may be released. In case of fire: wear self-contained breathing apparatus.
ABS	None	N/A	Danger: Vapors may cause Flash Fire. Harmful or Fatal if Swallowed. Vapor Harmful.
PP	None	N/A	Temperatures over 300 °C (572°F) may release combustible gases. In case of fire: wear positive pressure self-contained breathing apparatus.

SECTION 7--- REACTIVITY DATA

Components	Lead/lead compounds
Stability	Stable
Incompatibility	Potassium, carbides, sulfides, peroxides, phosphorus, sulfurs.
Decomposition Products	Oxides of lead and sulfur.
Condition To Avoid	High temperature, Sparks and other sources of ignition.

Components	Sulfuric Acid
Stability	Stable at all temperatures
Polymerization	Will not polymerize
Incompatibility	Reactive metals, strong bases, most organic compounds
Decomposition Products	Sulfuric dioxide, trioxide, hydrogen sulfide, hydrogen
CONDITIONS TO AVOID	Prohibit smoking, sparks, etc. from battery charging area. Avoid mixing acid with other chemicals.

SECTION 8---CONTROL MEASURES

1. Store lead/acid batteries with adequate ventilation. Room ventilation is required for batteries utilized for standby power generation. Never recharge batteries in an unventilated, enclosed space.

2. Do not remove vent caps. Follow shipping and handling instructions that are applicable to the battery type. To avoid damage to terminals and seals, do not double-stack industrial batteries.

STEPS TO TAKE IN CASE OF LEAKS OR SPILLS

If sulfuric acid is spilled from a battery, neutralize the acid with sodium bicarbonate (baking soda), sodium carbon (soda ash), or calcium oxide (lime).

Flush the area with water and discard to the sewage systems. Do not allow unneutralized acid into the sewage system.

WASTE DISPOSAL METHOD:

Neutralized acid may be flushed down the sewer. Spent batteries must be treated as hazardous waste and disposed of according to local state, and federal regulations. A copy of this material safety data must be supplied to any scrap dealer or secondary smelter with battery.

ELECTRICAL SAFETY

Due to the battery's low internal resistance and high power density. High levels of short circuit can be developed across the battery terminals. Do not rest tools or cables on the battery. Use insulated tools only.

Follow all installation instruction and diagrams when installing or maintaining battery systems.

SECTION9---HEALTH HAZARD DATA

LEAD: The toxic effects of lead are accumulative and slow to appear. It affects the kidneys, reproductive, and central nervous system.

The symptoms of lead overexposure are anemia, vomiting, headache, stomach pain (lead colic), dizziness, loss of appetite, and muscle and joint pain. Exposure to lead from a battery most often occurs during lead reclaim operations through the breathing or ingestion of lead dusts and fumes.

THIS DATA MUST BE PASSED TO ANY SCRAP OR SMELTER WHEN A BATTERY IS RESOLD.

SULFURIC ACID: Sulfuric acid is a strong corrosive. Contact with acid can cause severe burns on the skin and in the eyes. Ingestion of sulfuric acid will cause GI tract burns. Acid can be release if the battery case is damaged or if the vents are tampered with.

FIBERGLASS SEPARATOR: Fibrous glass is an irritant of the upper respiratory tract, skin and eyes. For exposure up to 10F/CC use MSA Comfort with type H filter. Above 10F/CC up to 50F/CC use Ultra-Twin with type H filter. NTP or OSHA does not consider this product carcinogenic.

SECTION10--- SULFURIC ACID PRECAUTIONS

Stability: Stable Substances to be avoided include water, most common metals, organic materials, strong reducing agents, combustible materials, and bases, oxidizing agents. Reacts violently with water - when diluting concentrated acid, carefully and slowly add acid to water, not the reverse. Reaction with many metals is rapid or violent, and generates hydrogen (flammable, explosion hazard).

INHALATION: Acid mist form formation process may cause respiratory irritation, remove from exposure and apply oxygen if breathing is difficult.

SKIN CONTACT: Acid may cause irritation, burns or ulceration. Flush with plenty of soap and water, remove contaminated clothing, and see physician if contact area is large or if blisters form.

EYE CONTACT: Acid may cause severe irritation, burns, cornea damage and blindness. Call physician immediately and flush with water until physician arrives.

INGESTION: Acid may cause irritation of mouth, throat, esophagus and stomach. Call physician. If patient is conscious, flush mouth with water, have the patient drink milk or sodium bicarbonate solution.

DO NOT GIVE ANYTHING TO AN UNCONSCIOUS PERSON.

SECTION11---TRANSPORTATION REGULATIONS

We hereby certify that all VISION Rechargeable Sealed Lead Acid batteries conform to the UN2800 classification as "Batteries, wet, Non- Spillable, and electric storage" as a result of passing the Vibration and Pressure Differential Test described in DOT [49 CFR 173.159(d) and IATA/ICAO [Special Provision A48 and A67].

VISION Batteries having met the related conditions are EXEMPT from hazardous goods regulations for the purpose of transportation by DOT, and IATA/ICAO, and therefore are unrestricted for transportation by any means. For all modes of transportation, each battery outer package is labeled "NON-SPILLABLE".

U.S.DOT PROPER SHIPPING NAME: Batteries, wet, non-spillable
U.S.DOT HAZARD CLASS:8
U.S.DOT ID NUMBER:UN2800
U.S.DOT PACKING GROUP: III
U.S.DOT LABEL:CORROSIVE
OR Excepted from the requirements because batteries have passed the Vibration and Pressure Differential performance tests, and ruptured case test for Nonspillable designation

IMO PROPER SHIPPING NAME: Batteries, wet, non-spillable
IMO HAZARD CLASS:8
IMO ID NUMBER:UN2800
IMO LABEL:CORROSIVE
IMO VESSEL STOWAGE: A

IATA PROPER SHIPPING NAME: Batteries, wet, non-spillable
IATA HAZARD CLASS:8
when
IATA ID NUMBER:UN2800
U.S.DOT LABEL:CORROSIVE
ERG Code-8L
OR
Excepted from the requirements because batteries have passed the Vibration and Pressure Differential performance tests, and ruptured case test for Nonspillable designation. And
Packaged for transport, the terminals are protected from short circuit.

PROPER SHIPPING NAME	Batteries, wet, non-spillable, Electric Storage
U.S.DOT(U.S. Department of Transportation	Unregulated, meets the requirement of 49 CFR 173.159(d)
IATA(International Air Transportation	Unregulated, meets the requirements of
Association)/ ICAO(International Civil Aviation Administration)	Special Provisions A67
IMO(International Maritime Dangerous Goods)	Unregulated

SECTION12---TOXICOLOGICAL INFORMATION

GENERAL: The primary routes of exposure to lead are ingestion of dust and fumes

ACUTE:

INHALATION/INGESTION: Exposure to lead and its compounds may cause headache, nausea, vomiting, abdominal spasms, fatigue, sleep disturbances, weight loss, anemia, and pain in the legs, arms and joints. Kidney damage, as well as anemia, can occur from acute exposure.

CHRONIC

INHALATION/INGESTION: Prolonged exposure to lead and its compounds may produce many of the symptoms of short-term exposure and may also cause central nervous hallucination, convulsions and delirium. Kidney dysfunction and possible injury has also been associated with chronic lead poisoning. Chronic over-exposure to lead has been implicated as a causative agent for the impairment of male and female reproductive capacity, but there is at present, no substantiation of the implication. Pregnant women should be protected from excessive exposure. Lead can cross the placental barrier and unborn children may suffer neurological damage or developmental problems due to excessive lead exposure in pregnant women.

SECTION13---ECOLOGICAL INFORMATION

In most surface water and groundwater, lead forms compounds with anions such as hydroxides, carbonates, sulfates, and phosphates, and precipitates out of the water column. Lead may occur as sorbed ions or surface coating on sediment mineral particles or may be carried in colloidal particles in surface water. Most lead is strongly retained in soil, resulting in little mobility. Lead may be immobilized by ion exchange with hydrous oxides with hydrous oxides or clays or by chelation with humic or fulvic acid in the soil. Lead (dissolved phase) is bioaccumulated by plants and animals, both aquatic and terrestrial.

SECTION14---DISPOSAL INFORMATION

Lead-acid batteries are completely recyclable.Return whole scrap batteries to distributor, manufacturer or lead smelter for recycling. For neutralized spills, place residue in acid-resistant containers with sorbent material, sand or earth and dispose of in accordance with local, state and federal regulations for acid and lead compounds. Contact local and/or state environmental officials regarding disposal information.

Open Issues from 1/13/2009

AWS CLOSED

- 14 MANAGERS – Review pros and cons noting what we can do better on AWS. Send comments to JIM by 5:00 p.m., January 28, 2009.

2/17 – Only one response from managers. AWS will continue as is, next review April, 2009 at 6 months.

Performance Reviews CLOSED

- DAN, CYNDIE, JIM and VICKI will check on how performance reviews are affected when there is a change in manager and what can and cannot be viewed, accessed.

2/17 Jo Ann has processed all requests to have staff moved under the appropriate manager in HRMN and DCDS. However, the managers that are currently in the "acting" positions will not see the appropriate staff in HRMN until the position is filled permanently

ITAM MEETINGS CLOSED

- Dan reviewing mandatory meetings to determine eliminating if possible.
- JIM and VICKI will let 14s know today if they need to attend tomorrow's mandatory meeting from 1-4.

2/17 All ITAM meetings are mandatory via conference call/webinar or on site in Detroit/Lansing and Flint Meetings still scheduled are Lansing and Flint.

Minutes Accepted

- JACK to follow up with Jason regarding procedure of all of FS and environments, how to install scanning capabilities on the IKON devices.
- Mike – Equipment deployment process update has been redrafted, after Mike and Vicki review, final version will get sent out.
- JIM – follow up with Deb Stanaway regarding Great Workplace to find out what people are working on and request they communicate with managers. We can then get it out on FS Communications.

FS Navigator

- Vicki and Joli to get manager spreadsheet out this week.

2/17 – Staff and managers contact sheets have been updated and are posted as well as can be found on the share drive/common/Contacts.

- DAN, CYNDIE AND VICKI are still working on it including the determination of what types of things are defined as "significant".

Central Resourcing

- Cathy, Dean and Joni need to get together to learn central resourcing process.

FS/CSC Services

- 14s - Deadline by 16th for managers to provide information, locations for the March, June, September, December meetings to Theasess.

2/17 – March- Detroit; June-Frankenmuth; September - and December -

FSCT CLOSED

- TONY – cover as FSCT item. Final OT policy needs to be out there, in employee responsibilities.

2/17 fs Communications has sent out communication regarding overtime for M1 and deployments. Communication has also been given to Sherri Booker regarding this item.

FSCT Deployments

- Vicki and Mike need to go over with what is happening as result of steering committee.

Central Resourcing

- FS Communications can put something out there about overtime, hours worked, if you are not approved for overtime you should not put it in the resource report.
- VICKI - FS Communication re Resource Report needs to get to Sherri Booker.
- DAN, VICKI, JIM –Will meet and review how to handle the upcoming workload increase, make change to prepare staff for upcoming work load.
- 14s get input on how to handle upcoming workload increase in to 15 by next Wednesday, 1/21/09.
- 15s need to get scheduling information to staff by Friday, 1/23/09.

M/1 Project

- VICKI will send out a DIT FS Communication update re DHS image.

M/1 Workstation Deployment

- SHARITA to follow up with Judy Odette next month if we don't hear anything.

FSCT

- TONY to reissue email with start date of 1/26/2009, two week completion deadline and policies to be done for that two weeks.

Section Manager / CRM Assignments **CLOSED**

- CYNDIE - CRM and meeting schedule will be posted next week on Navigator. 2/17 completed

FS Inventory **CLOSED**

- 14s to do inventory of items – deadline January 31, 2008.
  2/17 Update: Joli will be checking to make sure she has received the inventory spreadsheet from all managers. If not, she will be contacting the individual manager.

Round the room

- GERALD – forward DOC/printer information to Vicki, she will take to DOC meeting.
- JIM – Determine if ITIAs had team lead training or not. **COMPLETED**
- JIM –Will let Dan know DDS has both Federal and State equipment. **COMPLETED**
- VICKI will determine and get back to Sharita.
- GERALD to send email with staff names to Cathy for migration scheduling.
- VICKI– MDOC prisons are on list to discuss with Sherri Booker. **Completed: Sherri has reported back to Field Service managers that all staff can and will be expected to enter and support the MDOC Prisons.**
- DAN – Need to talk about moves tasks with Teresa Spaulding.
- JIM – Will determine from Kay Baker meal allowances and policies, items included, not included and distribute.
- 14s – At least two volunteers report to JIM by end of week to work on ITIA positions, or can be appointed.
- SHARITA – Create policy to reimage machines for M/1 in between users.

General notice

Minutes

Agenda Item	
Welcome	Reminder to turn off cell phones.
Announcements ♦ Heather Taylor-Livas *Dan* ♦ FS Priorities *Dan*	Welcome and introduction to Heather Taylor-Livas. Congratulations to her work with the virus, 1300 machines were located in Heather's team area. Prioritization is crucial for the next year. Some prior challenges, priorities may fall off to concentrate on those that stay. 15s chose projects to work on: - Jim leading ITIA classification. - Cyndie is on front end, Client Services. - Vicki will lead SLAs. SLAs have been signed by every agency. Dan recently received the SLAs and reviewed with Vicki. Client service is key, include how we process, close, return client to service. PC to tech ratio taken in to consideration. We are judged by the SLAs. **- Vicki will get SLA copies out to all managers.** - M/1 remains.
Training, visitors & speakers	None.
Old business	
♦ **Minutes accepted** *Cyndie*	January 13, 2009 minutes accepted.
♦ **Open Issues** *Cyndie* Minutes Accepted	IKON DEVICES Jack to follow up with Jason regarding procedure of all of FS and environments, how to install scanning capabilities on the IKON devices. **JACK – To be completed by 2/27/09.** EQUIPMENT DEPLOYMENT PROCESS UPDATE MIKE – **Completed** GREAT WORKPLACE Follow up with Deb Stanaway regarding Great Workplace to find out what people are working on and request they communicate with managers. We can then get it out on FS Communications. **JIM – To be completed by 3/1/09.**

Agenda Item	
◆ **Open Issues** *Continued* *Cyndie*	
FS Navigator	FS Navigator review including the determination of what types of things are defined as "significant". **Dan Cyndie Vicki still working on it. To be completed by 2/27.**
Central Resourcing	Conference call including Cathy, Dean and Joni need to get together to learn central resourcing process **by 2/27/2009**.
FS/CSC Services	14s - Deadline by 16th for managers to provide information, locations for the March, June, September, December meetings to Theasess. **March - Detroit; June – Frankenmuth; October – Marquette; December - Jackson.**
FSCT Deployments	Vicki and Mike need to go over with what is happening as result of steering committee. **To be completed by 2/27/09.**
Central Resourcing	FS communications sent out communication. **Complete.**
Resource Report	· Vicki sent information to Sherri Booker, how we are doing M/1, corrections. · Received confirmation corrections prisons are no different from any other work site. · Do not want to force people to go in. · They have to go in unless they have a good reason i.e., doctor's excuse. · If they say they get sick, they need something from the doctor to be fair across the board on it. · Everyone will get scheduled to support prisons. · Brian Jennings has advised most of the M/1 work will be on weekends. · If they want the OT they will be scheduled to work in the prisons. · Through week, if in their region they will be on the schedule for it, if uncomfortable they can work it out with their manager and reschedule. · If there are people we can identify ahead of time we can work around prior to scheduling. **Dan and 15s need to sit down and work something up regarding M/1 corrections work schedule, caregivers, working within region, not outside of region to be consistent, more concrete.**
FSCT	· Information sent out by Tony prior to vacation. · Initial goal was to send to FSCT to review. · Dave sent information regarding process, received suggested comments of general administrative changes. **Dave will send out 2/18/09 for group review and get back with FSCT with any changes. If FSCT doesn't hear anything move ahead with it by 2/23/09.**

Agenda Item	
◆ **Open Issues** *Continued* *Cyndie* Round the Room	· GERALD – forward DOC/printer information to Vicki, she will take to DOC meeting. **Completed.** · VICKI determined ITIA Jim Pruess is in OA, does FS work on machines supported by Sharita. He doe not work for Sharita and is not included in her team's ITIA percentage. **Completed.** · GERALD to send email with staff names to Cathy for migration scheduling. **Completed.** · DAN – Need to talk about moves tasks with Teresa Spaulding. **Completed.** **· JIM – Will determine from Kay Baker meal allowances and policies, items included, not included and distribute.** **· JIM – Policy needs to be developed by FS to image M/1 machines between users.**
◆ **FSCT Report Out** *Tony* Training & Training Workgroup Selections *Mike*	Training Team · Has received names of volunteers. · Does not know if ITT, ITIA makes a difference on the training team. Out of volunteers, vast majority is ITTs. · Plan at this point needs to see where staff is located. Several volunteers from Detroit, some Lansing. QVF File Training · QVF file training ready to go (have some political issues). · Documentation is also in password protected area, out staff does not have rights to documentation. · Access issues need to be resolved prior to training. Should be able to put on DIT STAR for our use. **· Jim, Mike and Toby will take off line and get access going for QVF training.** Safeboot · Completion of the first round of Safeboot training, admin part did not go as well as expected. · Judy Potter meeting with Tim Yorty to work with second training and target team leads to work with staff, Webinars will be set up by next week. · Only team leads will have access information. · Only M/1 would have permission to active directory.
Deployments *Mike*	Nothing.
FS Nav *Vicki*	Nothing.
New Technology *Toby*	Nothing.

Agenda Item	
◆ **FSCT Report Out** ***Continued*** *Tony*	
Central Resourcing *Cathy*	Nothing.
M/1 Support Services *Sharita*	Nothing.
FS Hotline *Joni*	Nothing.
FS CSC Services *Dave, Vicki*	Nothing, they have disassembled. CSC SLA · One new SLA relates to CSC, they need to do their job from the beginning. · Teresa Spaulding key in that process. · SLAs make make a change on some of the updates, Remedy case handling procedures.
DIT-FS Mailbox *Cathy*	· Mailbox has to be monitored every day. · Occasionally receive emails which should be for DIT service. · Vicki will be back up mailbox monitor in Cathy's absence.
M/1 Project *Theasess*	· Cathy doing Sfeboot through Central Resources. · If something on schedule changes, Jim Shacklemeier would send something to Cathy and Jack for staff involved. · For Safeboot or NGL (they are considered M/1 project, but not a migration), Jim should contact Jack and Cathy, Jack and Cathy call off with staff. · Jim Shacklemeier sends emails to team leads after the Friday conference call to set up a meeting to discuss with staff. · **JIM, VICKI, CYNDIE to address Jim Shacklemeier canceling the scheduling of conference calls with team leads in PM meeting. Completed.**
Best Practices II *Dave*	FS Navigator Manager Tab · Manager tab on FS navigator should include access to accident reporting, forms, processes needed when staff calls reporting accident, military leave, donating leave hours, etc. · **Dave will be sending email to FS Navigator to get access to accident reporting, forms, processes needed for staff issues, military leave, donating leave hours, etc. entered in.** FS Manager Contact List · FS managers phone list, ER contact info list for common drive would be helpful together with procedure procedure to call work cells first, then home.

Agenda Item	
◆ **FSCT Report Out** ***Continued*** *Tony*	
M/1 WorkStation Database *Jack*	· M/1, lot of upcoming weekends/OT. · **Jack – to forward spreadsheet of projected schedule for next 90 days to all managers, Vicki to put on FS communications.** · Can discontinue using Google calendar and use the Outlook calendar. · Master schedule now being used. · Project managers are relying on the spreadsheet master schedule. · Managers have access to Outlook team calendar.
◆ **ITIA** *Jim*	<u>ITIA Process Status</u> · Sub group has met once on ITIA. Meeting will be scheduled by early next week. · Jim and Dan meeting with HR tomorrow on where we are going, what we can do. <u>ITIA Screening</u> · HR looks at it as we have 59 ITIAs, maybe have 25 actually do job. · Either they do the job, get trained or demote. · Have developed a score card to outline tasks and duties, using a factor of 50% doing these duties to establish an ITIA. · ITIA duties outside of break/fix. · Initial look at effort is not good. ½ of staff has not done what needs to be done to qualify as ITIA. · ITTs should not be doing work, ITIAs should be doing the work. i.e., two ITIAs were chosen as team leads in Lansing on virus. · Dean, Joni, Dave, took resource report, filled out score card (first full pay period), only 50% of ITIAs are doing actual ITIA work (out of 59 ITIAs). · When we come out with definitive screening criteria, staff will have to rank qualifying them for ITIA. · Need to build data and look further to see where it goes. **14s need to rank staff numerically beginning with one as the staff you would like to move first form ITT to ITIA based on how they fit criteria, skill sets, what they can do for ITIAs and ITTs. Due Friday 2/20/09.**
◆ **ICC Hotline** *Cyndie*	· Dan has meeting scheduled with Teresa Spaulding and Jonay. · Statistics showed 70% ICC work was doing could have been resolved by CSC. · Working with CSC to get those back on their plate then frees up our staff.
◆ **Resource Reporting** *Cyndie*	· In process for two months. · Reporting needs to be monitored, including how they are filled out, comments, to establish consistency regarding ITIAs. <u>Ranking ITTs and ITIAs</u> · Ranking is done in the various categories such as project lead/organizer, other half are the technical go to staff. · PD acknowledges the team lead experience as a strong point. · When it comes to ITIA job it comes down to the interview, not what they would do or how they do it. · Professional classification and non-professional classification differences is the loophole.

Agenda Item	
New Business	
◆ **Laptop Accessories** *Sharita*	Printer and laptop accessories · Sharita distributed information for printers and laptop accessories including pricing. · Teams need to submit counts as to how many of each staff requests including what is really needed versus what they want. · **14s to send in list of what team needs for 15s to review by Friday, 2/27/09 for more expensive items.** · Managers can use P cards for the monthly $50 purchases for small purchases. · Supply requests from 14s – send email to Joli every Wednesday, up to 1-3 days shipping time if item in stock.
◆ **Schedule and Event Tasks** *Mike*	*Handout* - Deployment and Redeployment Task Handling Procedure. · Webinar will walk through schedule task, the procedure was written in a process format. You schedule before you deploy. · Webinar will follow procedure, procedure will follow methodology. *Handout* - Attachment Task Handling Procedure. · If there is feedback after Webinar, the Attachment Task Handling Procedure will change. · Scheduled event tasks that come in, if past 48 hour business days, it should be an exception because of client - let change supervisor know and we put it in pending for the client. · Leaving Google calendar reference as it is then over time may change to team calendar. · Monitor scheduled events are done within 48 hours. · 14s – it is your responsibility to make sure teams are getting those closed within 48 hours. · 45 days is for purchased new equipment. · Redeployments fall to the bottom of the list.
◆ **Virus Outbreak** *Dan*	· FS needed the problem to be defined before action. · We had spread sheets with IP addresses, locations. ITM sent lists of IP addresses, there were only 10 that the DHCP table said were different. · FS reputation is well received. · Acknowledgement of kudos received from different clients for their work and time on the virus including Civil Rights and DCH.

Agenda Item	
◆ **Open Remedy Work** *Vicki*	· Open Remedy work reports pulled Nicole updates spread sheet. · Reports reviewed before pulling staff to work i.e., virus. · If we had a virus today would direct not to pull from Central D – they have a lot of computers to install plus they have a lot of tickets at this time. · Tickets are how many help desk cases tickets, how many break/fix – not total amount in box which include new tasks and schedule tasks. · Tasks are what you currently have scheduled at this time, not new tasks – what you have to work on at this time. · Pull from teams with low numbers in both. · Look to see which team has had the most work per tech over the last time frame - Sept through Dec done. · For closed remedy work use units completed. · Unit completed and RTS to be added on spreadsheet.
◆ **Service Level Agreements** *Vicki*	<u>SLA</u> · SLA presented to CBS IAO CRM groups. · ESB core meeting in December. CSDs were worried because of the numbers they needed to present the bill to their clients in February. · 95% cases need to be resolved less than 3 days. · SLA Effective date 1/1/2009 <u>45 days - ITRAC</u> · 45 days is whole processing including agency approval which can be 30 days in some cases. · We get notification when depot receives it. · We will still do schedule tasks. · We have 48 hours/2 days for scheduled event. · Agency Services has to give us 10 days at end for actual install, 12 days total. · Large shipments are an exception – i.e. 100 computers – we don't have to conform to SLA. · Client has to give us info up front. i.e., who is getting machines, what is on them, etc. so we can start prepping up at that point. · If we don't have this information up front then the SLA is negated. · 45 day is in the change request, have not had a chance to work out some new front end work coming to FS. · 1st day email to FS i.e., 20 PCs installed 10 PCs to Central A, deadline 45 days from today. · If anything that stops installation, everyone will be notified that we cannot install because of i.e., no drops. · ISPMO group will be in charge of correcting what is holding up installation i.e. site readiness. · **Vicki to determine if 45 days is calendar days or business days.**

Agenda Item	
◆ **Service Level Agreements** ***Continues*** *Vicki*	SLA CSC · We have to have 75% of our problems have to have return to service "RTS" less than 1 day. · 90% of tickets that come in to FS are problems. · First work on what is an actually problem and we classify it correctly. · MDIT has to have 75% of problems return to service in one day. · When FS gets it, half the time it is ½ day old. · CSC has to resolve this in first time resolution. · Cyndie has to work with CSC in resolving as many problems as they can. · CSC notes can indicate if problem listed that user cannot do something that they could previously do. · Should re evaluate the survey question. If came in as a problem and not a problem, change it. · There are other areas that assign or create tickets that we need to correct. · If we get a ticket that was bounced around to different areas before we got it on i.e., day two, we need to try and resolve it before day 3 and find out why the other areas could not resolve it. · Do RTS first, then do the resolution to close the ticket. · Will require us monitoring to ensure staff is putting information in the work log. · CSC (Cyndie) they put email in and make no phone call. · ICC group found that 60% were resolved before ICC called them. · Cyndie will work with CSC to have them make phone calls before they send an email. · Average resolution time was 8 days, FS was 16 days. · Because CSC does the quick ones and FS gets them after they have been to other areas and FS is the last one to touch them. · Depot is the same as FS. Example · If CSC can get them printing to another printer then they are RTS. · We still need to fix issue of printing to the original printer, but they are actually RTS. · FS is going to have to use RTS and something in the work log why they are returned to service.
Round the room Heather Taylor-Livas	SLA · Can SLA reports be broken down to individual? · Per Vicki - Will show how long open, when opened, certain CTIs.

Agenda Item	
Round the room ***Continued***	
Theasess Keys	QVS QVS training ready to go. Per Mike - will be Webinar. Detroit phone problems Phone lines for Gerald and Theasess are busy due to UIA resulting in calls dropping in to voice mail. New Hire Gerald Ball began working this week from Theasess' team. ITT 7,8,9 positions posted.
Rick Potter	Will be retiring. Next Friday will be last day.
Toby Pittman	Nothing.
Tony Webster	Nothing.
Jack Beeler	Nothing.
Gerald Jordan	Nothing.
Dean Turriff	Safeboot Has received comments from staff trying to get information regarding Safeboot, they were to contact Tim Yorty, when they do he yells at them. Per Sharita – There is a work group meeting tomorrow to come up with answers for staff re Safeboot, NGL, etc. Recommend to staff to get a hold of Toby Pitman rather than Tim Yorty. Todd Stevens is another resource.
Jim Matson	Nothing.
Cathy Agar	Nothing.
Cyndie Sazehn	Nothing.
Mike Harbin	Virus communication · As we went in to Friday going in to the virus weekend, he received communications from at least three different people as to where to report, who was reporting, what was needed. · Couple of staff were available to work and were never contacted, he finally told them to just go and then contact when they arrived in Lansing. Vicki – will come up with a better communication plan. UPS · One a staff was changing a battery, we requested depot replace the battery and depot shipped it. A leaky battery was delivered. Battery leaked on to employee's skin. · The other situation is there is a replacement UPS for the DCH sites, new plugs are straight with a flag versus the old style.

Agenda Item	
Round the room ***Continued***	
Mike Harbin *continued*	Shipped but not scanned · Shipped but not scanned issue has resurfaced. · A total of 800 machines they have a list of shipped but not scanned. Out of 800 they cross referenced, pulled out 150 they thought should be easy finds. Have an IP, tag number, location, site contact name, tickler information for each machine, groups of i.e. 20 machines indicated being located at Grand Tower lock up B – do not know if they are actually there, need to verify. · Need to prove that FS did not install them without PDI scans. · Or did they PDI scan and the program is so bad they don't know they were PDI scanned. · Vicki, Mike working to track down these machines with Linda English. · Eva from north west UP team will be working on this project. · Mike spoke with Linda English and she agreed locating these machines will be harder than anticipated.
Sharita Hurst	UPS If Telecom UPS it goes back to them replaced for free. Staff phones Request for staff phones to be on i.e., during virus. While working on virus she text messaged staff, some staff said they did not know how to read the text messages. Some did not have phones on. Purchases for FS · P card purchases cannot be made at Walmart, Meijer, grocery stores. · We have a DIT card now to buy something in an emergency situation. VPNs Are we getting any new requests for VPNs for new team leads. As long as team lead they can get a VPN. If they are asking get them a VPN. Team Lead Training Per Mike there was training done. If we find out ITIAs have to be team leads then all the ITIAs need to attend the team lead training, it will be scheduled at that time. Mileages logs Have to be in to admin before the 1st.
Dave Hengesbach	Lien Clearances Per Vicki - some came back with DWIs. 20 staff still need to be cleared. List of 10 that need to be fixed. There is no one so far that can not go in to a correctional facility. · **VICKI will follow up with lien clearances – 10 need to be fixed, 20 still need to be completed.**

Agenda Item	
Round the room ***Continued*** Joni Kosloski	<u>M1 Meetings</u> M/1 meetings are continuing, until they get details on how they are disbanding. <u>Cell phone texting</u> Some teams have texting in the plan. Check with Jo to see if its available on plan to use. <u>Mandatory meetings</u> Mandatory ITAM meetings on Mondays, can we do mandatory meetings on other days. Dan was working with Linda English on them. Staff can swap their AWS day for mandatory meetings.
Adjournment

Energy clips submitted by MECA

Consumers Spokesman Jeff HOLYFIELD told the *Bay City Times* that the company would be "exploring its options." The company had hoped to put its 830-megawatts plant near Bay City on line by 2017, which it said would create 1,800 jobs during its five years of construction.
http://www.mirsnews.com/capsule.php

A Consumers Energy spokesman says his company is "evaluating our options" for a new coal-fired power plant near Bay City after a ruling today by the Michigan Public Service Commission.
http://www.mlive.com/news/bay-city/index.ssf/2009/09/update_consumers_energy_says_i.html

While not quite a fatal blow, a new state regulatory report could be a major roadblock to Consumers Energy's plan to construct a $2 billion coal-fired plant near Bay City.
http://www.mlive.com/news/jackson/index.ssf/2009/09/report_could_delay_jacksonbase.html

Environmental groups were the first to announce a "death blow" for the Bay County coal plant
http://www.mlive.com/mudpuppy/index.ssf/2009/09/environmental_groups_were_the.html

The PSC staff also issued a report to the DEQ on a coal-fired plant proposed by Wolverine Power Cooperative near Rogers City. Staff found that Wolverine "failed to demonstrate the need" for the proposed plant as a sole source to meet its projected capacity needs.
http://www.crainsdetroit.com/article/20090908/FREE/909089964

The findings are a major setback for Consumers Energy and Wolverine Power Cooperative, which are seeking approval from state regulators to build new coal-fired plants. Consumers Energy wants to construct a 930-megawatt "clean" coal-fired plant in Bay County; Wolverine Power hopes to build a 600-megawatt coal plant in Rogers City near Lake Huron.
http://www.detroitnews.com/article/20090909/BIZ/909090334/1001/New-coal-fired-power-plants-not-needed--report-says

Michigan regulators dealt a setback Tuesday to proposals for new coal-fired power plants near Rogers City and Bay City, questioning the need for both projects at a time of growing emphasis on cleaner fuels.

A 'Nuclear Renaissance' Stumbles Forward
http://greeninc.blogs.nytimes.com/2009/09/09/a-nuclear-renaissance-stumbles-forward/?hp

Oil Prices Rise on Dollar Weakness
http://online.wsj.com/article/SB125250257903295559.html

World-class assets in sectors of strategic importance for the French state don't often come on the market. So the sale of the transmission-and-distribution unit of indebted, state-owned nuclear-energy group Areva is generating plenty of foreign interest.
http://online.wsj.com/article/SB125248533550895011.html

A dozen companies, about half of them Japanese, are chasing the potentially huge market for lithium-ion batteries, used in hybrid and electric vehicles. When a similar scenario unfolded for flat-panel displays and semiconductors, the technology turned into a commoditized drain on profits.
http://online.wsj.com/article/SB125248650938995053.html

The Chicago Climate Exchange has hired its first Washington, D.C., lobbyists in an apparent effort to influence climate legislation.
http://eenews.net/climatewire/2009/09/09/1/

Plans are brewing to promote a network of offshore wind farms all along the East Coast connected by a transmission "spine" and shared shipping ports where local turbines will embark for deepwater power fields over the horizon.
A unique collaborative will emerge this fall that aims to temper the fierce competition among seaside states racing to build the first -- or second and third -- offshore project into a national effort to construct a whole fleet of them. Officials in coastal states and industry leaders are organizing the group, which aims to provide an influential voice for the nation's infant offshore effort.
The group will focus on cooperation. Shared facilities like manufacturing "headquarters" and maintenance stations could surface to give the offshore industry -- not single farms -- a foothold in North America. Ships and standards are needed. So are new transmission lines and federal cash for the development of cheaper and better turbines.
http://eenews.net/climatewire/2009/09/09/2/

Energy-intensive businesses will push to raise the number of free emissions permits they get under a federal cap-and-trade system, representatives from two of the industries said.
The climate bill passed by the House in June, put forward by Reps. Henry Waxman (D-Calif.) and Edward Markey (D-Mass.), gives 15 percent of all permits, for free, to energy-intensive industries that are especially vulnerable to international trade. The share would decrease by about 2 percent each year, starting in 2014, before being phased out in 2025.
As legislation moves through the Senate, industry representatives say they want to convince Congress to provide more free permits. Not only will they need assistance to pay for carbon, they will argue, but they also need a buffer in case the cap-and-trade bill makes energy prices go haywire.
http://eenews.net/climatewire/2009/09/09/3/

Environmental and climate activists want the Energy Department to bring them into the long-range planning for an expanded Eastern transmission grid that can accommodate a major increase in renewable power and energy conservation strategies.
The American Wind Energy Association hosted a meeting and telephone conference yesterday about future transmission planning in the Eastern interconnection network that can be funded by part of an $80 million allocation in the 2009 stimulus bill. Monday is the deadline for applications for the DOE transmission planning grants.
http://eenews.net/climatewire/2009/09/09/4/

National security experts are angling to be clutch players in this fall's campaign to pass climate legislation in the Senate.
By emphasizing the security threats posed by risks like rising sea levels and the nation's dependence on foreign oil, the bill's supporters hope to increase their chances of convincing still-undecided lawmakers to support global warming legislation.
http://eenews.net/climatewire/2009/09/09/6/

Environmentalists and others supporting climate-change legislation are outspending the measure's opponents in the television advertising skirmish underway in advance of Senate action this month, new data show.
http://www.usatoday.com/news/washington/2009-09-02-climateads_N.htm

Key Senate Democrats insisted that they are making incremental progress on a comprehensive global warming bill as they returned to Capitol Hill yesterday following a monthlong break where health care reform surged to the top of Congress' legislative agenda.
Environment and Public Works Chairwoman Barbara Boxer (D-Calif.) told reporters she has made "many decisions" on the climate legislation in recent weeks but declined to elaborate on specifics ahead of a bill introduction later this month with Foreign Relations Chairman John Kerry (D-Mass.).
http://eenews.net/EEDaily/2009/09/09/1/

State Provides Pills for Those Near Nuclear Plants
The Department of Community Health (DCH) announced today that potassium iodide pills, known as KI, will be made available to people living or working within 10 miles of a nuclear power plant.

Starting on Oct. 1, a one-day supply of these pills will be offered for free at select pharmacies in South Haven, Monroe, Woodhaven, Benton Harbor, and Michigan City, Ind.

According to the DCH, radioactive iodine can be released in a nuclear plant accident, and is a main cause of thyroid cancer. KI is considered a way to reduce the chances of developing thyroid cancer in the event of a nuclear accident. Despite this, KI is only useful for preventing thyroid cancer, and will not protect against other side effects in a nuclear accident.

This program was undertaken in cooperation with the Nuclear Regulatory Commission (NRC). Twenty-two states besides Michigan have also become part of this program with the NRC to provide these pills.

Nonprofit rural utilities say proposals to tighten derivative market rules could raise the costs of hedging against natural gas price volatility, even as climate change legislation will lead to increased use of the fuel.

Glenn English, who heads a group of the nonprofit utilities, told the House Agriculture Committee he fears the potential combined effects of a financial market overhaul and climate change legislation.
If plans to expand Commodity Futures Trading Commission regulation of over-the-counter trades create new margin and collateral costs, consumers will feel the pinch, warned English, CEO of the National Rural Electric Cooperative Association and a former Democratic congressman from Oklahoma. "The cost will be reflected as far as electric bills," he said.

Enter Gigawatts: Solar Power Comes of Age
http://blogs.wsj.com/environmentalcapital/2009/09/17/enter-gigawatts-solar-power-comes-of-age/

Two federal reports released yesterday examined the economic costs of climate legislation. One concluded that the price tag would be modest; the other argued that all prior investigations of the subject should be viewed with skepticism.
The Congressional Budget Office reported that a mandatory cap on greenhouse gas emissions passed by the House in June would slice gross domestic product by roughly one-fourth of a percent to three-fourths of a percent by 2020.
By 2050, the numbers would be in the 1 to 3 percent range. Inflation will rise more in that time frame, so the blow to the economy would be mild, according to CBO, an agency providing economic data to Congress. The agency noted it did not consider the benefits of averting climate change.
Meanwhile, a separate federal report states that all cost estimates of climate legislation should be "viewed with attentive skepticism."

The Congressional Research Service, an arm of the Library of Congress, concluded that projecting the price tag of Waxman-Markey is problematic because of uncertainty about things such as the success of future carbon-friendly technology.
Furthermore, it noted that economic researchers from different federal agencies and groups have reached different conclusions about the bill because they examined different time frames or investigated only one segment of its legislative text.
http://eenews.net/climatewire/2009/09/18/2/

When politicians and diplomats discuss climate policy, they have to juggle concerns about voters, interest groups, the media and old-fashioned political face-saving.
When economists discuss climate policy, the goal is actually pretty simple: Seek the biggest bang for the buck.
Hoping to inform global climate talks in Copenhagen later this year, economists at the Organisation for Economic Co-operation and Development (OECD)will release a report today outlining how to achieve maximum cuts in emissions of heat-trapping gases at the lowest cost to the economy.
http://eenews.net/climatewire/2009/09/18/5/

Fossil fuels have benefited from nearly $72 billion in U.S. government subsidies since 2002, dwarfing the $29 billion that has gone to renewable fuels, according to an Environmental Law Institute report today.
According to the research, about $17 billion of the subsidies counted for renewable energy were for corn-based ethanol, "the climate effects of which are hotly disputed."
http://eenews.net/climatewire/2009/09/18/8/

European leader blasts Senate for slow-walking global warming bill
http://eenews.net/EEDaily/2009/09/18/2/

Five key Senate Democrats have asked for White House help as they try to write a piece of the global warming bill that keeps energy-intensive domestic industries from moving to developing countries that do not have their own strict environmental laws.
Sens. Evan Bayh of Indiana, Arlen Specter of Pennsylvania, Debbie Stabenow of Michigan, Claire McCaskill of Missouri and Sherrod Brown of Ohio sent a letter last Friday to President Obama's top climate adviser requesting more information on a key section of the House-passed climate bill that deals with the most trade-sensitive industries.
http://eenews.net/EEDaily/2009/09/18/3/

U.S. EPA is poised to establish a national registry for heat-trapping emissions after the White House yesterday completed its review of the agency's final greenhouse gas reporting rule.
The rule, which would set up an economywide program to monitor greenhouse gas emissions, is widely viewed as a major step toward informing future policy decisions on carbon dioxide regulations.
The White House Office of Management and Budget finalized its review of the final rule yesterday, according to the office's Web site.
EPA's draft proposal released in March would cover about 13,000 facilities from all sectors of the economy that account for 85 to 90 percent of U.S. emissions. The proposal would require reporting from facilities with direct emissions equivalent to 25,000 metric tons of carbon dioxide equivalent emissions per year or more -- a level EPA said would spare the "vast majority" of small businesses.

NO WORKER LEFT BEHIND

No Worker Left Behind News

October 1, 2009

Greetings!

On Tuesday, September 29, 2009, U.S. Secretary of Labor Hilda Solis called Governor Granholm to share some great news.

She was casting a vote of confidence in No Worker Left Behind and our goal of training many more Michiganders for new careers.

She was sending us badly needed funds, as the Michigan Works! Agencies have been flooded with more residents hoping to train for new, in-demand jobs than they have funds for.

She was giving Michigan the largest discretionary grant ever awarded by a Secretary of Labor – outside of a natural disaster.

She was answering our request for three Regional Economic Impact National Emergency Grants to provide retraining and career services to people in 27 counties across the Lower Peninsula.

And her answer was a resounding YES!

Specifically, she awarded Michigan up to $38,033,600, which will allow us to serve 8,644 more Michiganders slammed by the worst economic contraction since the Great Depression.

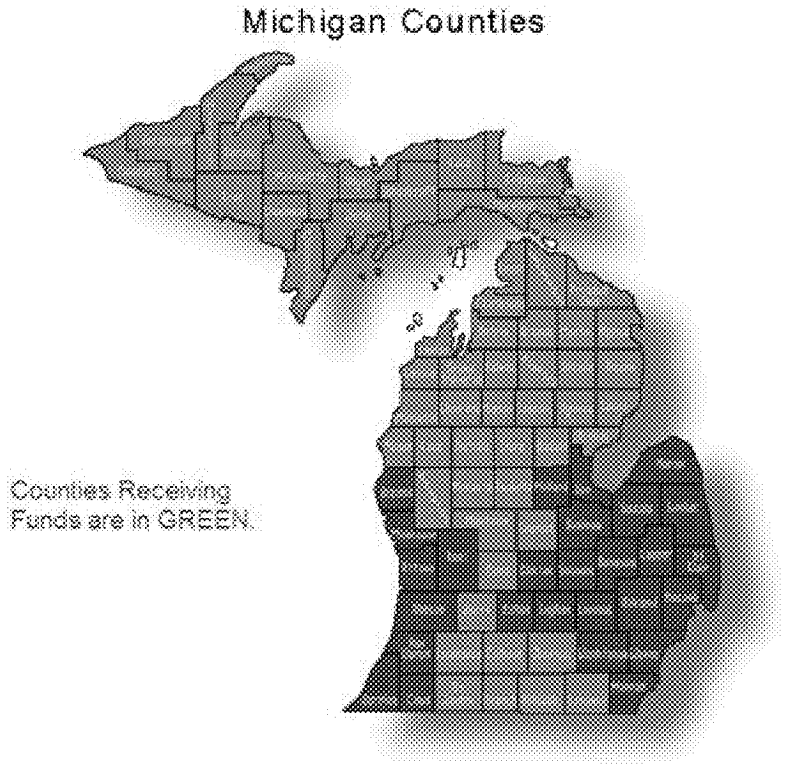
All three grants will be administered by the Michigan Department of Energy, Labor & Economic Growth through No Worker Left Behind.

These Regional Economic Impact grants are part of President Obama's American Recovery and Reinvestment Act. The Recovery Act includes $200M for national emergencies. In this one announcement, the Secretary awarded Michigan 19 percent of this national pot.

Of the $38,033,600 announced, $19,016,800 will be released initially. We can access the remainder when we have demonstrated that we have spent the first half and need more.

Breakdown of Regional Economic Impact (REI) Grants			
Grant	$ Amount Awarded	Counties Covered	People Served
Southeast	Awarded up to	Livingston, Macomb,	4,236 (2,118

Michigan REI grant	$18,638,400 ($9,319,200 initially)	Monroe, Oakland, St. Clair, Washtenaw and Wayne (including the city of Detroit) counties	initially)
Flint / Mid-Michigan REI grant	Awarded up to $8,993,600 ($4,496,800 initially)	Bay, Clinton, Eaton, Genesee (including the city of Flint), Huron, Ingham, Lapeer, Midland, Saginaw, Sanilac, Shiawassee and Tuscola counties	2,044 (1,022 initially)
West Michigan REI grant	Awarded up to $10,401,600 ($5,200,800 initially)	Allegan, Berrien, Cass, Kent (including the city of Grand Rapids), Muskegon, Oceana, Ottawa and Van Buren counties	2,364 (1,182 initially)



What does this news mean for folks who live in counties not covered by these regional grants?

These Regional Economic Impact grants are ***great news for all Michiganders, regardless of where we live.*** This added money for our three most heavily populated regions will allow us to use other federal funds to train workers who live elsewhere. The result will be ***more people trained from Copper Harbor to Coldwater.***

What is more, we continue to seek and compete aggressively for additional state, federal and philanthropic funds to help meet the demand for job training and help thousands more Michiganders create a prosperous future for their families.

Ph: 517 335-1319
Email:
nwlb@michigan.gov

There is no silver bullet to turn Michigan around, but a few things are absolute requirements for a bright economic future. One of them is meeting the demand of our workers to get new skills and degrees, so our already extraordinary workforce is among the best trained and educated in the nation.

Best Regards,

Andy Levin, Deputy Director
Michigan Department of Energy, Labor & Economic Growth

Flint Water Advisory

Date/Time:

Effective Wednesday, January 7, 2015

Details:

The City of Flint recently sent out the attached notice regarding violations to the drinking water standards. While the City of Flint states that corrective actions are not necessary, DTMB is in the process of providing a water cooler on each occupied floor, positioned near the water fountain, so you can choose which water to drink. The coolers will arrive today and will be provided as long as the public water does not meet treatment requirements.

	Since we spend about 40 hours a week at our workplaces, isn't the office the best place to try out some new energy-saving tricks? The Energy Information Administration estimates that if commercial and industrial buildings improved their energy efficiency by 10 percent, our economy could see yearly savings of nearly $20 billion.

Flint Alternate Water Resource

Date/Time:

Monday, October 5, 2015 at 6:00 a.m. until further notice

Details:

Beginning Monday, October 5, 2015, water coolers will be available in common areas on floors 1-6 of the Flint State Office Building. Although the drinking water has been tested and falls within all DEQ and EPA regulation standards, alternate water sources will be offered to accommodate all tenants due to recent concerns regarding the water supply. Water testing will continue and the alternate water source will be available until all quality concerns are addressed.

Thank you for you cooperation.

Flint Water Quality

Details:

DTMB commissioned testing of the water in the Flint State Office Building and the results show our water poses no health threats. Although the water is safe to drink, we will continue to provide water coolers in common areas on floors 1-6 of the Flint State Office Building until we are connected to the Detroit water system.

If you have any questions, please contact the Flint Building Trades Supervisor, Brian Walts, at WaltsB@michigan.gov or 810-760-2044.

Contact:

DTMB Customer Service Center, DTMB-Customerservice@michigan.gov or 517-373-6227

	According to the Clean Air Council, the average American throws away enough paper each year to build a 12-foot wall from Los Angeles to New York City. Consider going paperless by saving documents and manuals on a common server instead of handing them out in hard-copy form. If you must print a multi-page document, be sure to use the double-sided printing feature.

Subject: Mail flow issues from O365 to on prem

We are currently experiencing problems sending mail from Office 365 / Exchange online mailboxes to on prem mailboxes (such as GOV and MSP). We are opening a case with Microsoft to help work the situation. This is particular concern due to the activation of the SEOC, which is responding to the Flint State of Emergency.

We have no further details at this time.

Subject: Printer Update

It is 5th floor Flint State Office building. Liz is on site. They are currently meeting so she can't get access right now. We do know they have the printer connected to a switch they brought with them. Once the meeting breaks Liz will investigate and we can then determine how to proceed.

Being MSP we may be talking other than SOM. We'll know more as soon as Liz is able to check it out.

We have a male HDMI cable that needs to get to the Flint Water Emergency Center. Do you have anyone in Lansing that could pick it up from me and deliver/set it up for the user? I'll create an incident if you do. Otherwise, there is someone that could deliver it tomorrow. They have not asked for anyone to install.

I would like us to set up some type of regular check in with the site to make sure that they have everything they need. I'm thinking that if someone is in the building that they could stop by and just make sure that all is well at the site. Think about it and call me on your thoughts. Vicki

To: Jordan, Gerald (DTMB)
Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

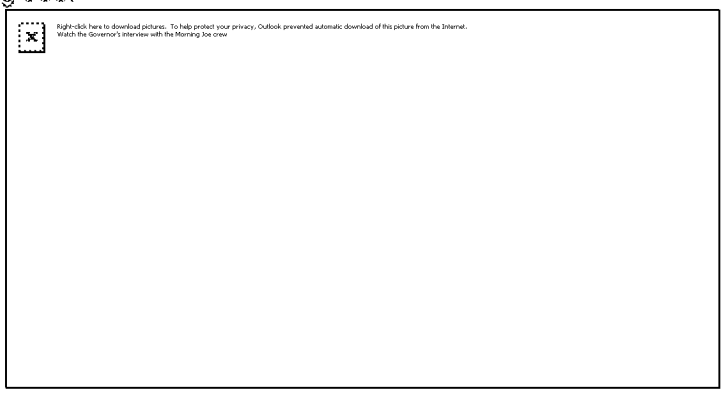
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

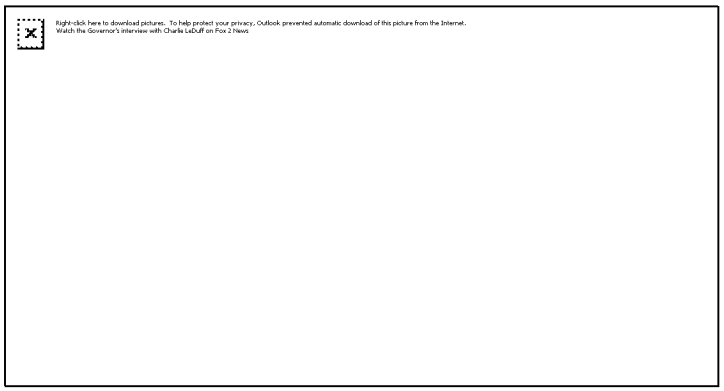
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

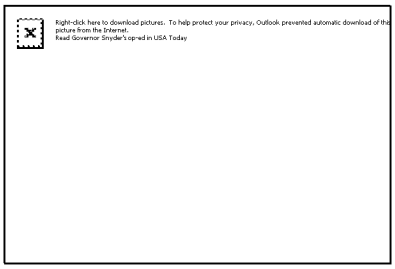
came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.

Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

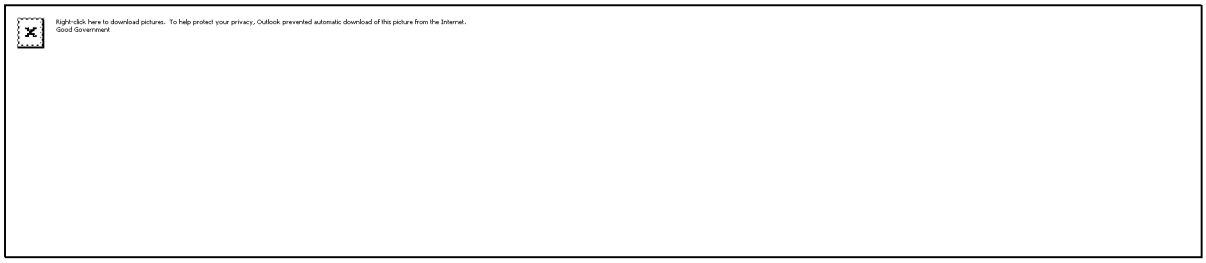
Subject: Flint Volunteer Efforts



Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director

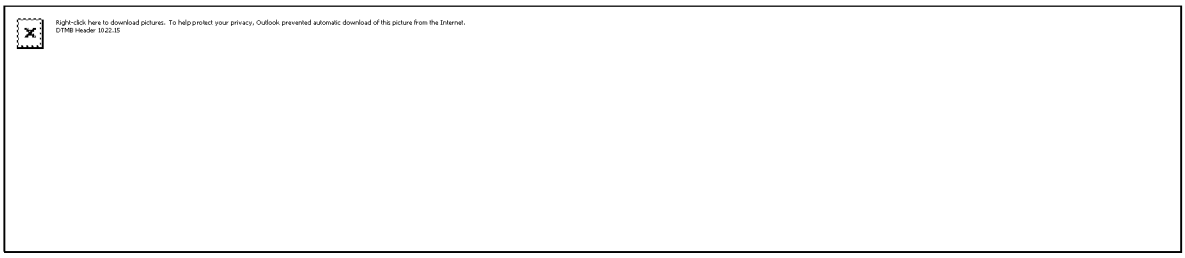
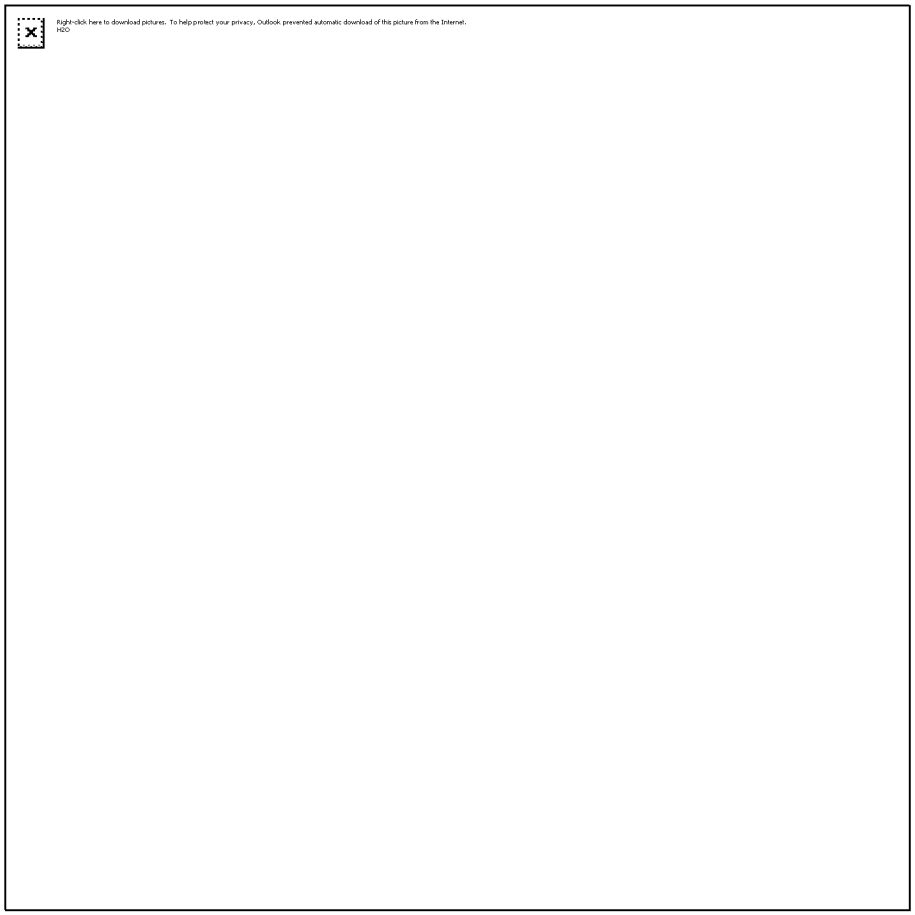
Subject: Contributing time, muscle and money



During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.



Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

Subject: DHHS Flint State Office Bldg. 7th Floor Move - (151116-02)
Location: Con Call: 877-820-7831, Passcode: 730959

Start: Wed 3/2/2016 1:00 PM
End: Wed 3/2/2016 1:45 PM
Show Time As: Tentative

Recurrence: (none)

Meeting Status: Not yet responded

Organizer: Worden, Jesse (DTMB)
Required Attendees: Palmatier, Paula (DTMB); Pung, Dale (DTMB); Bannhard, Gary (DTMB); Cumings, Julie (DTMB); Curtis, Patty (DHHS); Yager, Caleb (DHHS); Fountain, Tracey (DHHS); Brewer, Marlene M. (DHHS); Postma, Marjorie (DHHS); Donelson, Patricia (DHHS); Flader, Jean (DHHS); Phillippo, Jamie (DTMB); Tagg, Wayne (DTMB); Jordan, Gerald (DTMB); Meister, Dennis (DTMB); Beeler, Judi (DTMB)

DHHS Flint State Office Bldg 7th Floor Move - (151116-02)

DHHS Flint State Office buildl...

13208-7 Data Drop Green Update...

7thFloor 10-28-15.xlsx

Rescheduled from 3/1 to 3/2

Update from Jamie Phillippo (1/25):

I talked to Patty Curtis and confirmed that the new target date for the move will be March 18th and 19th. DHHS will be paying for field services on the weekend, that will not come out of the project budget. DHHS would like all staff to be up and running on Monday morning. Disconnects can start on Friday, March 18th at 1 pm. Marlene Brewer will follow up with the order of disconnects.

The question of card readers was raised. Patty understands what the staff onsite want and she discussed this with Jan Miller and the Architect at one of the last construction meetings to make sure everyone was on the same page. A question was also asked about the status of the intercom PO. It is in process but due to the water crisis and rush POs that need to happen, DHHS financial services is a bit backed up. Patty was going to check on it last Friday and I have cc'd her on this email so she can provide an update if she has one.

1/21/16 Meeting Notes:

Western Telecom to be data drop install 2/1
Move date may change to the March 19th weekend due to Solar panel drilling.
Client wants disconnects/reconnects completed during the weekend.

12/16/15 Meeting Notes:

Anticipated move date is now March 4th
Discuss door access card readers at next meeting.

12/1/15 Meeting Notes:

Currently planning to move on Feb 13th (pending construction schedule).
Wayne Tagg has been managing Telecom side of this project. Data drops, Wireless, UTNET (Kiosks), fax lines, Cisco phones have been planned for.
EBT Card Reader to be moved by staff.
Kiosks stored offsite will be brought in by staff.
Field Services to disconnect/reconnect ~35-40 workstations
Device spreadsheet and floor plan attached.

Please delegate/forward as necessary.

Thank you,

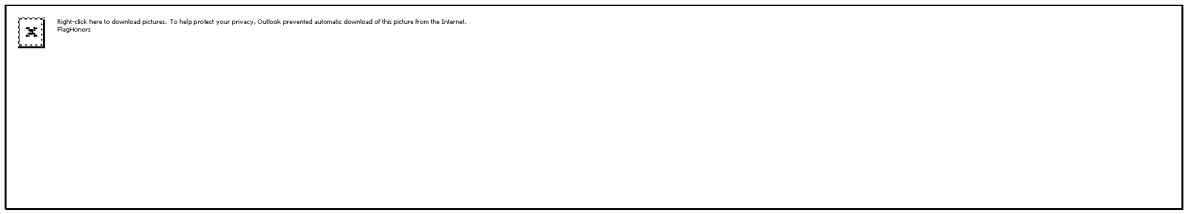
Subject: Thank you for your service



THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

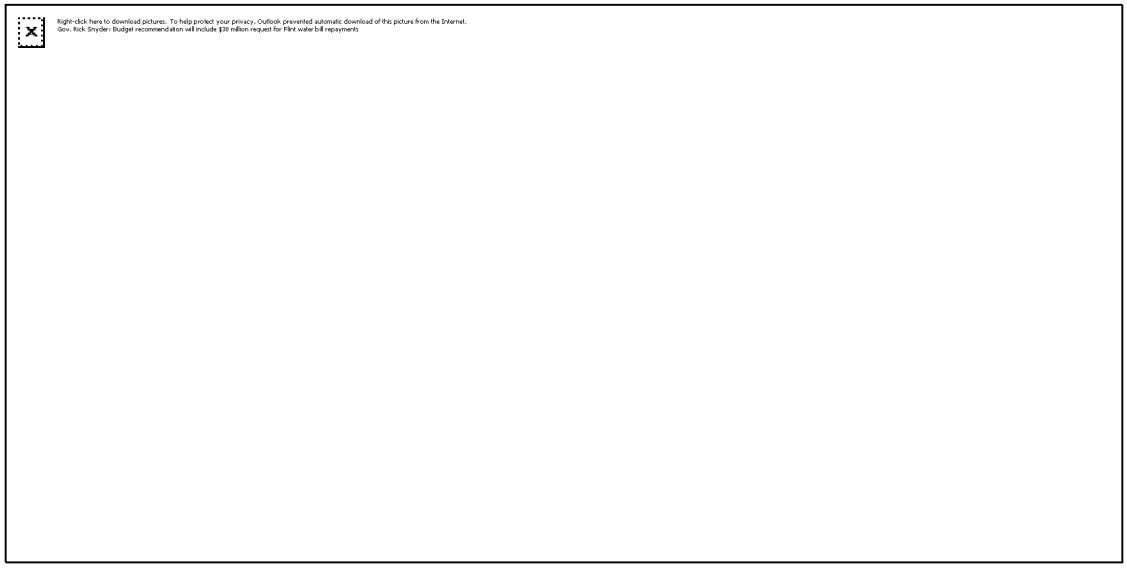
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments



When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

Flint Drinking Water

Details:

An advisory has been issued by the City of Flint asking water customers within a defined area (see attached notice and map) to boil water before using it. However, the Flint State Office Building does not fall within the identified area. DTMB continues to offer tap and bottled water in public areas on each floor as options in the Flint State Office Building.

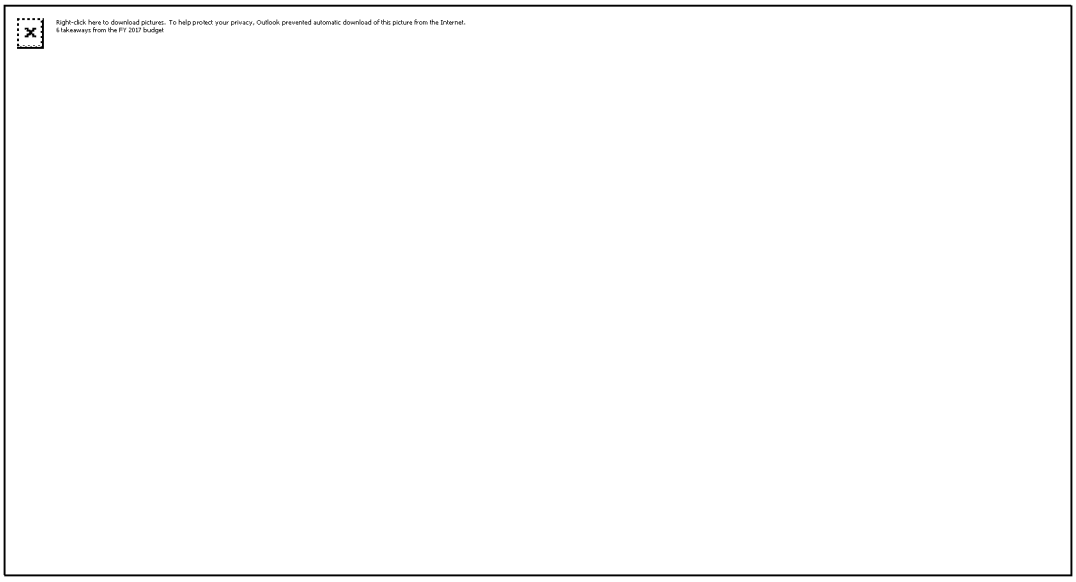
Subject: What this year's budget means for Michigan...

VIDEO: What Governor Snyder's FY17 budget means for Michigan



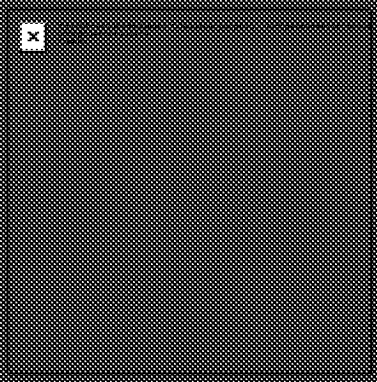
Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

Click a tweet to tweet it out:



The #MIBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> www.mi.gov/MIBudget

--> @OneToughNerd's #MIBudget includes $72 million a year for Detroit Public Schools. It is time to act now -- > www.mi.gov/MIBudget

Hello Staff,

If you are providing support for the Flint water response efforts, in DCDS for future coding there is an activity code called Flint Drinking Water Program (FDWP) or if you were at SEOC use code 8594.

The time spent on this effort is reported out and they can gather the information from DCDS if the correct codes are used.

Hello staff and Managers!
We are being asked how much time was spent on the Flint Water response efforts for pay periods ending 1/6, 1/30, and the current pay.

We know that Liz, Hector, Don, Judy and Stephen worked during the pay period ending 1/30, but I don't have the hours spent

Has any other work been done before that or since then?

How many hours did each person spend on this effort? Please let me know and I can keep track.

If you work on this effort again, make sure you code it in your DCDS activity, under FDWP or 8594 if you are at SEOC.

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

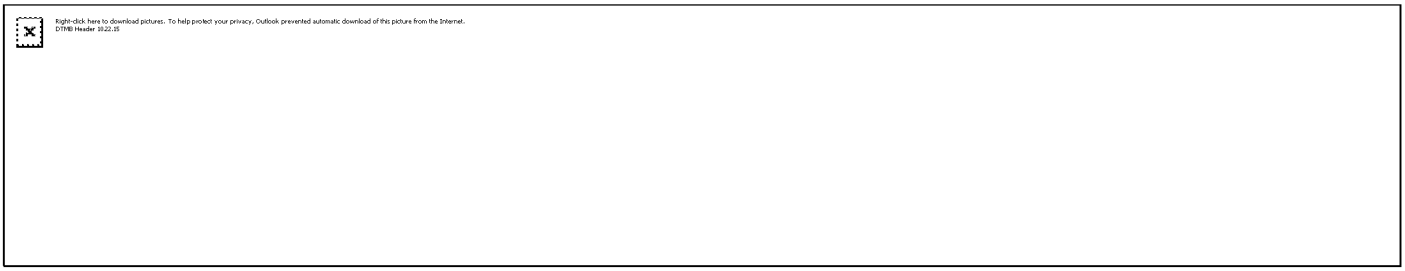
Subject: The Gov. Snyder's Budget Proposal



Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Flint Water Advisory

Date/Time:

Effective Wednesday, January 7, 2015

Details:

The City of Flint recently sent out the attached notice regarding violations to the drinking water standards. While the City of Flint states that corrective actions are not necessary, DTMB is in the process of providing a water cooler on each occupied floor, positioned near the water fountain, so you can choose which water to drink. The coolers will arrive today and will be provided as long as the public water does not meet treatment requirements.

Flint Alternate Water Resource

Date/Time:

Monday, October 5, 2015 at 6:00 a.m. until further notice

Details:

Beginning Monday, October 5, 2015, water coolers will be available in common areas on floors 1-6 of the Flint State Office Building. Although the drinking water has been tested and falls within all DEQ and EPA regulation standards, alternate water sources will be offered to accommodate all tenants due to recent concerns regarding the water supply. Water testing will continue and the alternate water source will be available until all quality concerns are addressed.

Thank you for you cooperation.

Flint West Stairwell Closure

Date/Time:

Monday, November 9, 2015 5:00 p.m. –

Friday, November 13, 2015 6:00 a.m.

Details:

The west stairwell of the Flint State Office Building will be closed starting at 5:00 p.m. on Monday, November 9, 2015 and continue through the rest of the week, so contractors can start prepping the work area, and begin painting the stairwell. Contractors will move from level to level until they are complete. During this time, please use the east stairwell to travel between floors. In the event of an emergency, the west stairwell will be open and the contractors will ensure a safe passage on all stairs.

We apologize for any inconvenience.

This is a courtesy copy of an email bulletin sent by Elizabeth Keilen.

This bulletin was sent to the following groups of people:

Subscribers of Austin Building, Cadillac Place, Cass Building, Constitution Hall, Construction & Technology Building, Energy Center, Escanaba State Office Building, Flint State Office Building, General Office Building, General Services Building, Grand Rapids State Office Building, Grand Tower, Hall of Justice, Hannah Building, Jackson State Office Building, Joint Lab, Joint Operations Center, Lottery Building, MDOT Warehouse, MSP Annex, MSP Forensic Lab, MSP Headquarters, MSP Post, MSP Training Academy, Mason Building, Michigan Library & Historical Center, Operations Center, Ottawa Building, Records Center, Romney Building, SOM Warehouse Complex, Saginaw State Office Building, Secretary of State Building, Traverse City State Office Building, Van Wagoner Building, Vehicle & Travel Services Building, or Williams Building, (22139 recipients)

Emergency Notification System Test

When emergencies interrupt business, communicating accurate and timely information is a priority for the Department of Technology, Management and Budget. Building closure information for multiple areas will be posted on the Michigan.gov website to ensure employees and media outlets are receiving the same information. Employees in DTMB-managed state-owned facilities will also receive building closure notifications via telephone, text or emails.

To assist us in this endeavor, DTMB added a communication software called NotiFind to our emergency notification system. NotiFind uses mobile telephones, text messaging, land lines and E-mail to inform participants of the emergency situation.

The software works with HRMN and imports employee name, work-site location, email address, and work and home telephone numbers bi-weekly into a confidential data base. The information is then disseminated into DTMB-managed state-owned building specific emergency plans.

We are asking for your assistance with this project. Please review your HRMN contact information and make changes as necessary to ensure DTMB has your most up-to-date contact information in the event of an emergency.

To review and update your information:

1. Go to michigan.gov/selfserv
2. Log into your self-service account
3. Choose "Employment" link, then choose "Work Phone & Email" (Update if necessary)
4. Choose "Personal Information" link (Update if necessary)
    - Choose Home Address link, choose "Change my Home Address" to update Home & Supplemental phone
    - Choose "Emergency" link, Click "Add" to update your emergency contacts
    - Choose "Additional Contacts" to add mobile and other contact numbers
5. At each step be sure to click the "Update" button and read response to ensure your new information was updated.

**Please submit all information by the end of the workday, on Friday, December 18, 2015.

The NotiFind system is tested annually and participants will receive a message stating "this is a test of the NotiFind system." If you receive notification for a building you no longer work in, please contact your Human Resources office to have the information corrected.

DTMB will begin testing the email notification system Wednesday, January 13, 2016 with tenants receiving a notification by their designated worksite building.

Thank you for your cooperation and patience as we continue to seek ways in which to improve service to our customers.

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

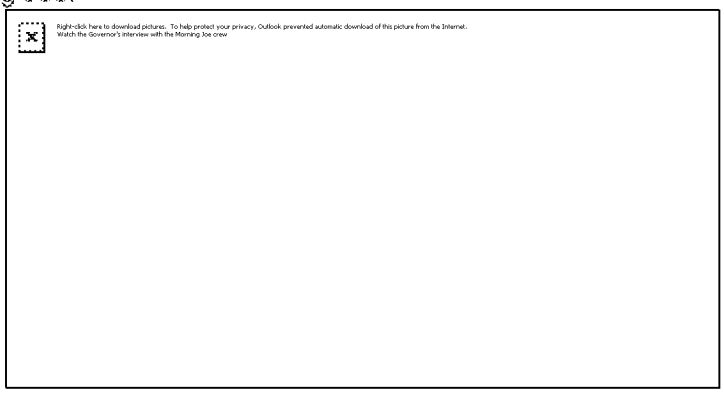
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

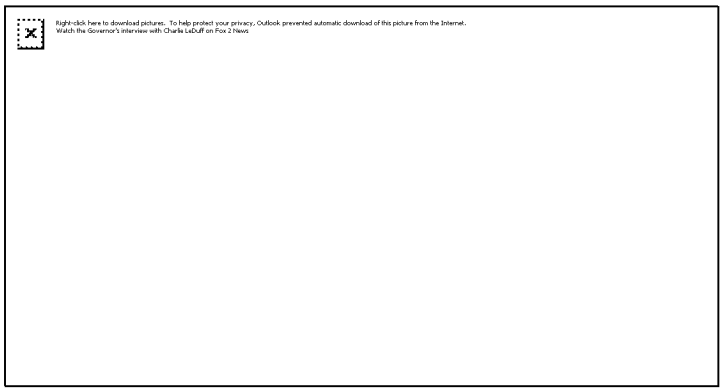
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

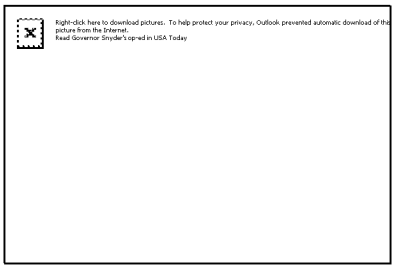
came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.

Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

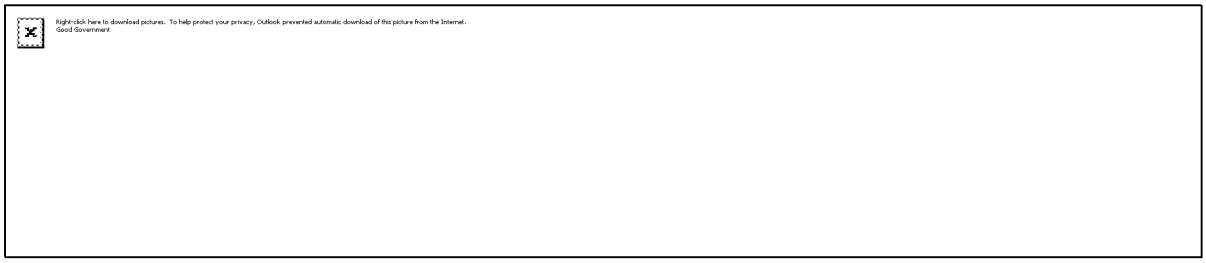
Subject: Flint Volunteer Efforts



Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

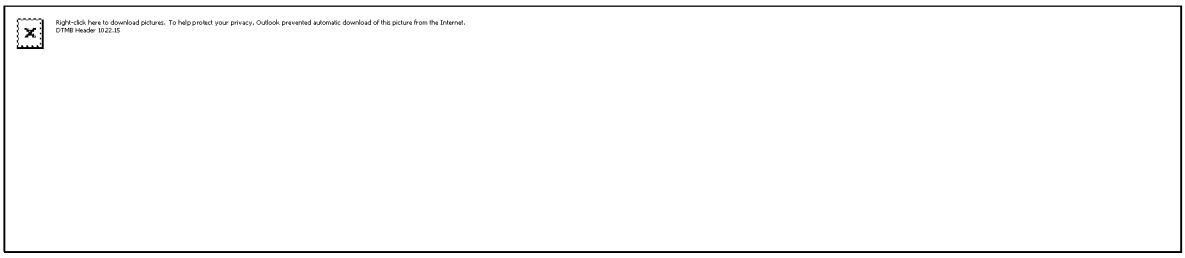
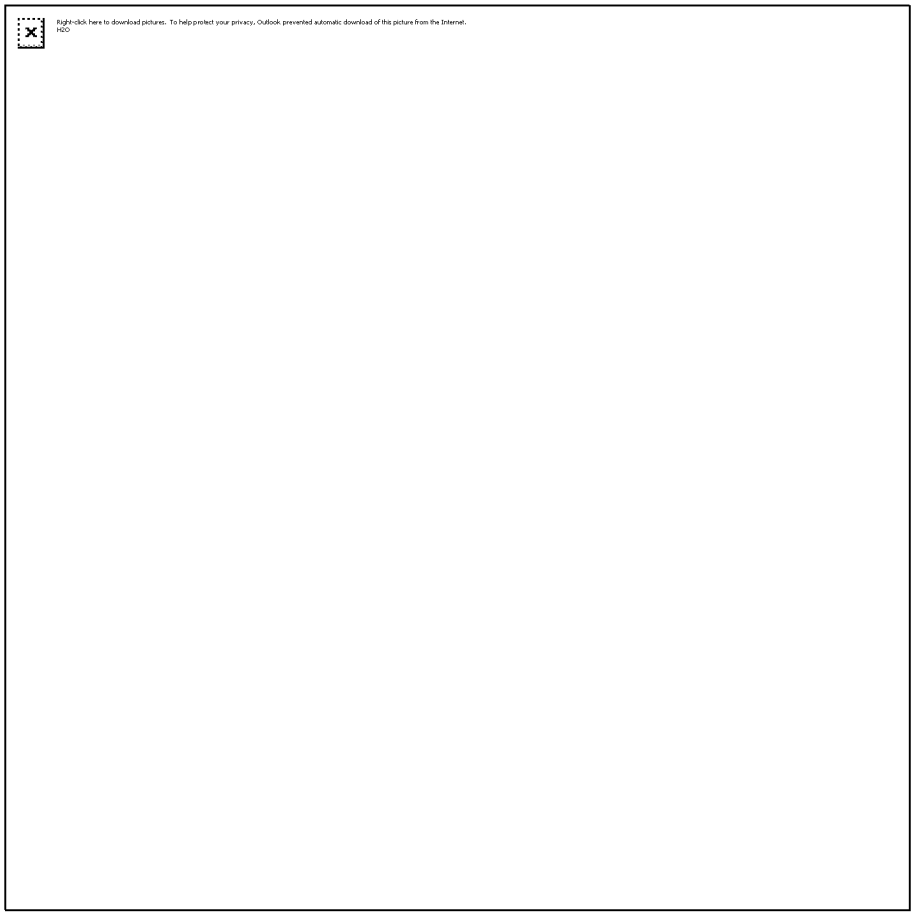
Sent: Tuesday, January 26, 2016 8:39 AM
To: Keilen, Elizabeth (DTMB)
Subject: Contributing time, muscle and money



During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.



Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

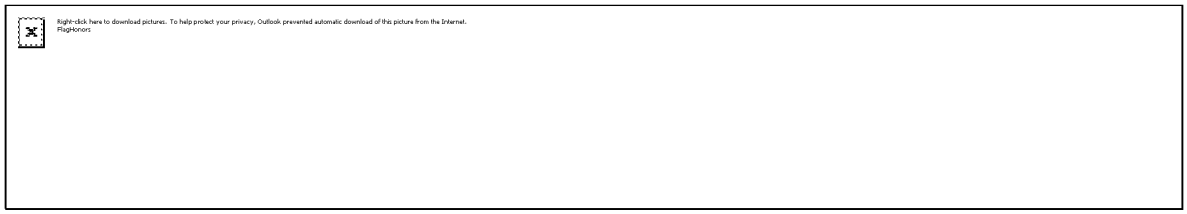
Subject: Thank you for your service



THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

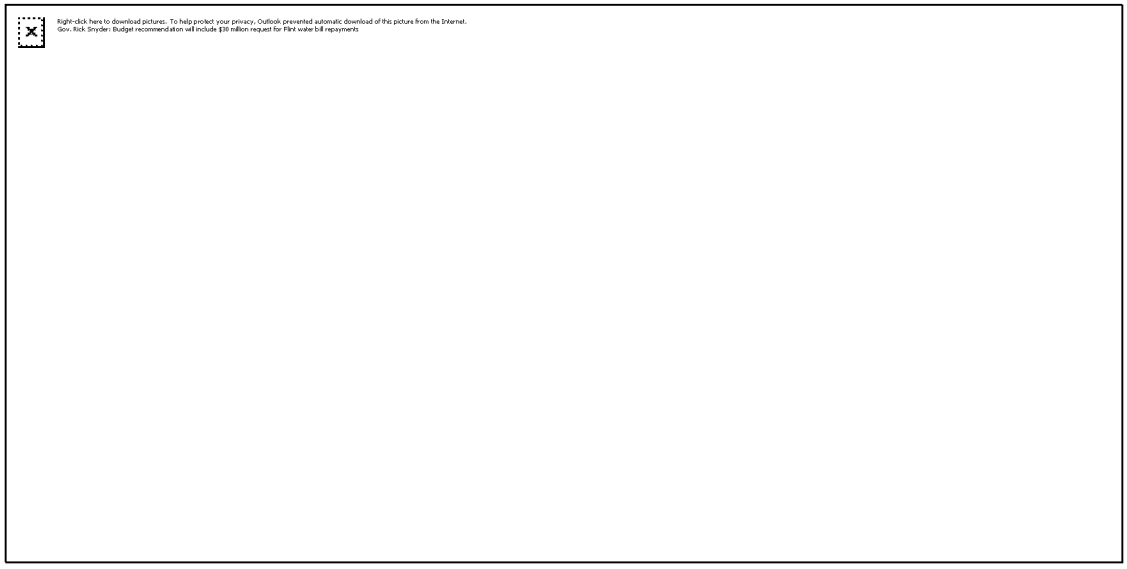
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments



When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

Team –

Will you please begin tracking SEOC assistance requests in a spreadsheet format by the date it was processed and include associated costs? If you need help setting up formulas, please ask Rick. Here are the costs per unit that I've been using:

Labor
CSC OT: $56.27/HR
CSC REG: $0 (not being reimbursed)

Materials
1 Access Card: $6.60
1 ID Card: $0.10
1 Lanyard: $0.44
1 Case: $0.40
1 Clip: $0.23
1 Security Holograms: $0.08
1 Color printer ribbon: $338 (one per 500 prints)
1 Printer retransfer film: $72 (one per 500 prints)

Updated spreadsheets should be sent to MSP-EOC-MDTMB@michigan.gov every Friday afternoon. Please use a calendar reminder to alert you.

Thank you!

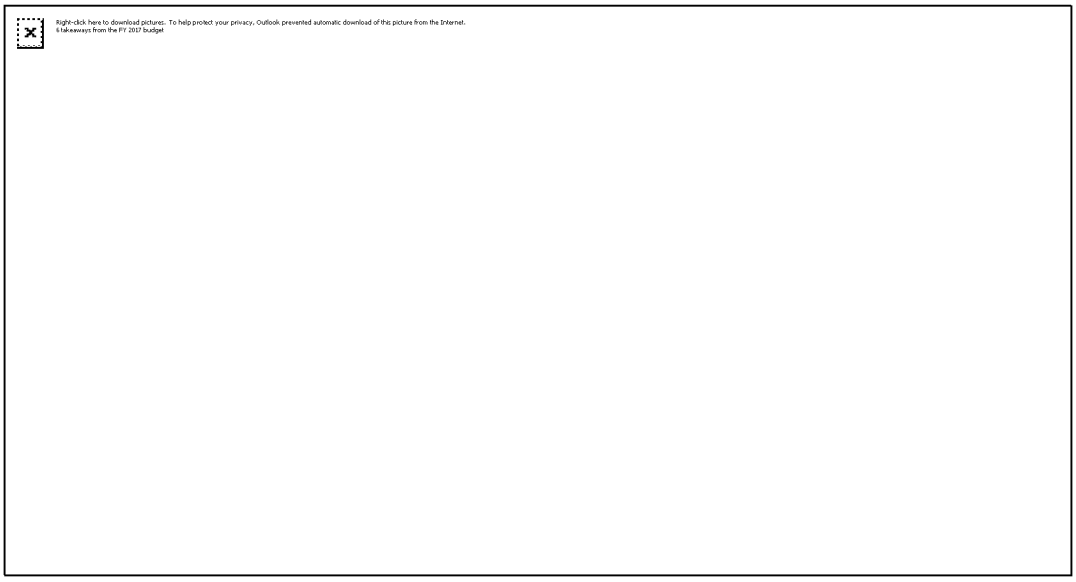
VIDEO: What Governor Snyder's FY17 budget means for Michigan



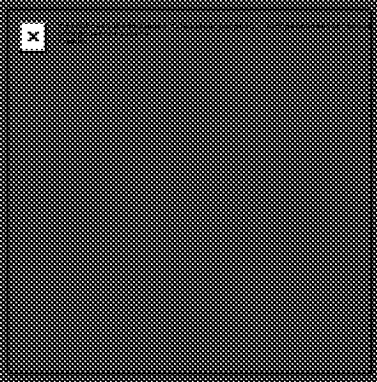
Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

Click a tweet to tweet it out:



The #MIBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> www.mi.gov/MIBudget

--> @OneToughNerd's #MIBudget includes $72 million a year for Detroit Public Schools. It is time to act now -- > www.mi.gov/MIBudget

--> @onetoughnerd's significant investment in #Flint families is the right thing to do. #FlintFWD #MIBudget www.mi.gov/MIBudget

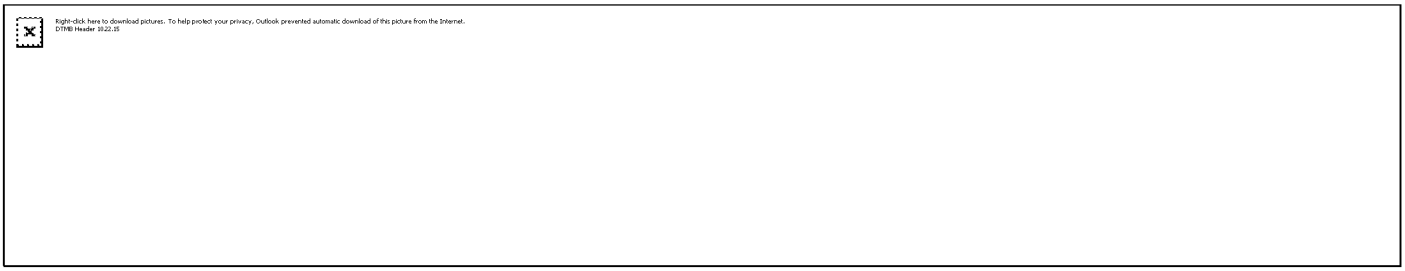
Sent: Wednesday, February 17, 2016 10:10 AM
To: Keilen, Elizabeth (DTMB)
Subject: The Gov. Snyder's Budget Proposal



Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Subject: Meeting Attendance Clearance

I had change the meeting room for this training due to someone needing the room for a meeting regarding the City of Flint.

The revised meeting attendance clearance form is attached for **February 2nd**. Training for February 3rd will be in the same room as previously scheduled.

Thanks!

Susan Bishop, Senior Administrative Specialist

Subject: Security FMN

Brandon,

I tried to call to explain this, this is just my suggestion as a reader. I changed the time section in details to match what it is in Date/Time section. I also thought the word "situation" was used to explain two different things, so I searched a synonym for the word to help the flow. Just suggestions, they do not have to be used. Let me know!

Wednesday, October 28, 2015 from 12:00pm to 4:00pm

Please be aware that there is a protest event planned for today, October 28, outside of the Constitution Hall from 12:00pm. to 4:00pm. The event is being held in response to the water condition in Flint. Please plan your daily activities with this in mind as a large turnout for this event is anticipated. DTMB and MSP will be working together to monitor the situation.

Thank you,

Elizabeth Keilen

1	
2	**Reason**
3	Overtime needed to process checks to meet federal mandate
4	Computer operations require staffing on a 24 hour basis
5	Supports critical FIA applications,maintenance performed during off hours on nights and weekends
6	Change room to switch control rather than computer control
7	Area is staffed 24hrs/day, 6 days per week
8	Area is staffed 24hrs/day, 6 days per week
9	Client Service Center staff must be on-site every Saturday to provide technical support for the Dept. of State
10	Deputy Director Musette A. Michael regularly works beyond 8p during the week and is regularly in the office on weekends
11	Kristen McDonald-Stone frequently works irregular hours
12	Lights needed for individuals working 2nd shift
13	Lights needed for individuals working Saturdays for WIC onlines
14	Preparation of state budget requires work on weekends and after hours
15	Year-end closing and state of MI conprehensive annual financial report
16	Lynda Rossi is in the office working each weekend and needs lighting to accomplish her work
17	Permanent exemption to provide appropriate lighting for staff who work after hours due to late-hour sessions of the Legislature
18	To provide appropriate lighting for staff who work after hours due to late-hour sessions of the Legislature
19	CSA has evening staff as well as Saturday staff
20	Executive personnel often work late hours compiling info for Governor's Office and legislators
21	Federally Funded Overtime for the Social Security Administration
22	Additional hours required to effectively manage the assets of the Operations area of MDOT and to comply with the Executive Directives and ARRA funding.
23	Irregular and unscheduled work hours are often required
24	Deputy Director Barrie occasionally arrives at work as early as 4a and stays as late as 10p
25	Occasionally working early and late
26	Periodically the work area requires lighting beyond the normal hours due to the I ndividual's travel schedule, workload and job assignments.
27	Deputy Director Patrick Barrie sometimes comes to work on irregular hours
28	Operates Bridges Help desk on Saturday
29	Office opens at 6:00am daily
30	**Staff Overtime**
31	These are the hours of critical operation, deadlines will not permit work hours to be shifted in the morning - the period btwn 5a and 8a is intense
32	2nd shift Info. Tech. on duty year round to provide support for Treasury data entry systems
33	The systems and their efficient operation are critical to the state's computing infrastructure requirements, employee work and safety
34	Data Center Operations Production site staffed 24/7, 365 days/yr -- Treasury computer rm is Disaster Recovery & Development facility, staffed 7a-6p Mon-Fri
35	Provide in-house assistance to SOS branch offices open on Saturday mornings
36	2nd shift + overtime is necessary on 90% of Saturdays
37	Completion of the year end closing/audit of MHESLA and various bonding transactions for MHESLA

643	ORS is implementing legislation that requires 300,000 public school employees to make a selection on retirement benefits. The window for making the selection is open and ORS has regularly been having customers in the building beyond 5:00 p.m. It was determined today, 10/23/12, that to meet customer needs, for the next 3 days ORS would extend walk-in office hours until 7:00 p.m. each day.					
644	Extra working hours are required to complete federal reports. DHS will be cut off from receiving federal revenue if reports are not complete by the 10/30/12 due date.

	J
982	carpet cleaning
983	carpet cleaning
984	Scrub restrooms on all floors
985	Mandatory Overtime for Customer Service for tw Saturdays
986	We have 2nd & 3rd shift employees who leave via the elevators. The motion detectors do not turn on the lights until you make it around the corner & into the hallway. Unless someone has just entered the building from that direction, that leaves staff fumbling in the dark & walking into things. We need at least minimal lighting in the elevator lobby. (The lights on the display case would suffice.)
987	Working on ERP projet and other OFM staff are here until 6pm
988	Material testing must be performed at specific times and dates to be in compliance with specifications. Failure to meet these strict time requirements may result in loss of Federal funding for construction projects.
989	Restroom Scrubbing
990	Lighting required for archives of Michigan after-hours event
991	SACWIS OT
992	Training
993	Vacuum all conference room furniture
994	Annual MAIN Disaster Recovery Test.
995	*Staff are working Tuesday, August 5, 2014 to conduct the August 5th primary election (8/5/2014). Election Staff will be working (24 hours) early and thru the next day to assist clerks with election problems and assist them with opening and closing the polls and reporting election results.*
996	After hours and exterior lighting for an after-hours event at the Museum which benefits the Michigan History Foundation.
997	SACWIS OT
998	A major MiCSES release will be happening over this weekend.
999	Staff is attending on-line university classes in our office. Class runs until after 9:00pm. Currenly this class is running on Monday night. This would be the only night we would need after hours lighting.
1000	We will be facilitating a foster parent training on the above dates.
1001	Staff are working Tuesday, Febuary 24th, 2014 to conduct the February 25th election (2/25/2014). Election staff will be working early and late tha that day to assit clerks with election problems and assit them with opening and closing the polls and reporting election results.
1002	Scrub restrooms
1003	Chair cleaning
1004	Lobby/Restroom scrub
1005	Material Testing must be performed at specific times and dates to be in compliance with specifications. Failure to meet these strict requirements may result in loss of federal funding for construction projects.
1006	Top strip and finish all floors
1007	carpet cleaning
1008	Scrub all restrooms and high traffic areas
1009	We have been given overtime on these days for cash assistance staff work.

	J
1054	Working on the CAFR and some staff are on AWS where they are here past six.
1055	Supreme court term starts next week. The justices and staff work on weekends during the team
1056	SOS hosting inaugural event
1057	Event for DNR
1058	These administrative law judges find it necessary to work past 5:00 pm on week days, work weekends as well holidays based on the cases they have and the extra work required. The dates and times are unpredictable. (See attached letter from Peter Plummer)
1059	Work overflow
1060	Extract carpet in elevators
1061	Staff Overtime
1062	Special Project
1063	Staff working until 7:30 p.m.
1064	Scrub all restrooms
1065	We have executive level staff in this area of the 4th floor who often return to work at or after 5pm from being in the field.
1066	Due to often overtime requests.
1067	Due to numerous, unscheduled, last minute deadlines from the State Budget Office, Governor's office, House of Fiscal Agency, and Senate Fiscal Agency, staff are required to work extra hours in order to meet required deadlines.
1068	Staff overtime
1069	The DNR has many employees with alternate work schedules and many managers who work on a regular basis past 6:00p.m. Leaving the lights on will create a safe environment for those employees working later hours.
1070	We Work 24/7/365 and lighting is crucial to our operations
1071	CPC and PGS night shifts
1072	The nature of our work often requires someone to be here after normal business hours and on weekends/holidays
1073	Treasury University classes
1074	The State Lab is a 247 day 365 days a year operation
1075	Chief Deputy and governmental need lights to be on
1076	Overtime
1077	AG in-charge is required to work nights and weekends as needed.
1078	Staff in need of lights
1079	High Traffic
1080	State Budget Office staff will be working all weekend getting ready for the budget presentation on February 11. It would be nice if all normal ventilation be left on as well. :-)
1081	carpet cleaning & conference room 122
1082	Hard floors, Kitchen

1119	MDARD is hosting a meeting from 7:00 a.m. to 5:00 p.m. the meeting is Wild-Forged Mushroom Training and Certification. They have submitted an event application and will pay for necessary staffing.
1120	Training
1121	Clean all Blinds
1122	We need lights on for Satyrday due to overtime
1123	Foster Care Training every Tuesday evening from 5-9pm beginning 3/3/15-4/28/15 no training on March 31st due to spring break
1124	First Aid/CPR training for our foster parents
1125	Mandatory Overtime for Foster Care staff
1126	Lights are needed to be left on until 11:00pm on April 29. 2015. This will allow for Peckham cleaning crew to clean the conference room and DTMB to move tables, and chairs to the third floor rotunda
1127	Overtime
1128	Staff will be working Tuesday, May 6, 2014 to conduct the May 5h election)5/5/15. Election Staff will be working early and late that day to assist clerks with election problems problems and assist them with opening and closing the polls and reported election results
1129	
1130	Removing old carpet and installing new carpet
1131	Top Strip & Refinish
1132	Need lights to be on in order to work and function after hours preparing for our upcoming auction
1133	MDE project needing overtime
1134	Bridges scanning and indexing over time
1135	Scrub Bathrooms
1136	High Traffic
1137	Set up for Speaking Session June 1
1138	Clean air bars
1139	
1140	We are hoping to be authorized to work Saturdays at the operations center in Dimondale until we are finished with the project (starting this Saturday 5/16/15). Please see the attached request form.
1141	2nd and 3rd shift employees who leave via the elevators. The motion detectors on the 1st floor do not turn on the lights until you make it around the corner and into the hallway. Unless someone has just entered the building from that direction, that leaves staff fumbling in the dark & walking into things. We need at least minimal lighting in the elevator lobby. (The lights on the display case would suffice.)
1142	Overtime
1143	High Traffic
1144	Scrub all restrooms
1145	Merging of divisions
1146	Supreme court justices and staff work on weekends during the term
1147	Staff are working Saturday, August 1, 2015 and Sunday, August 2, 2015 in preparation for the August 4th primary election. Election Staff will be working both days from 9 AM – 4 PM to assist clerks with election problems and assist them with getting ready for the election.
1148	Finishing term reports

4	Material testing must be performed as specfic times and dates to be in compliance with specfications. Failure to meet these strict time requirements may result in loss of federal funding for construction.	Kendra Barak
5	This is a carryover from AY15 that will expire Dec. 31, 2016, no changes needed. Executive Office staff work after hours and on weekends. The Exec office staff, often without notice, may have the need to do work in their office. Issues relating to the budget, revenues and tax policy may need to be addressed at any given day and/or time.	Ann Luepnitz
6	This is a carryover from AY15 that will expire on Dec. 31, 2016. Treasury staff may need to work after normal business hours and on weekends. Therefore, Treasury staff needs to have the ability to call central control to have the lights turned on.	Ann Luepnitz
7	This request is a carryover from AY15 that will expire on Dec. 31, 2016. there is no change to the existing lighting needed. Impentations of the new SAP tax system. Need lights and air 7 days a week from 6am-11:59 p.m., including weekends and holidays	Ann Luepnitz
8	20 staff working after hours	Chris Hudson
9	Staff will be working Tuesday, March 8, 2016 to conduct the March 8th Presidential Primary Election (3/8/16). Election staff will be working early and late that day to assist them with opening and closing the polls and reporting election results. Time requested is from 6am-11pm on March 8th only for both lighting and HVAC.	Lucinda Sheltrown
